Right to Know only:     Science Teachers  
                                   Art Teachers

Please do these required trainings on line as soon as possible during the August/September pre-school workshop days.

Instructions to access online training: Start on the District web page. Select Departments then Buildings & Grounds. At the bottom of that page, click on "Masterynet Online Training for District Employees"  
Use your first initial last name for the ID.

When you have completed the training you may print a copy of the completion certificate for your own records. I do not need a copy.

If you coach and take the training through Tom Graupman, please let me know so I can adjust my records appropriately.

Thank you for your prompt completion of this training.

Elizabeth Bade, Health Services Coordinator  
Jim Kulseth, Director of Buildings & Grounds
