The board, for many years, has certified the preliminary levy using the term “maximum” because the final levy certification can be lower than the preliminary certification but cannot be higher. Certifying at the “maximum” allows for flexibility should the calculation be higher than what is printed at the time of this board action. The preliminary property tax levy for 2027 is required to be certified to the district's home county auditor no later than September 30, 2026.

Superintendent's Recommendation: Motion to certify to County Auditors the 2026 Payable 2027 Preliminary Levy Limitation and Certification at the maximum authority.

Adult actions: implement CharacterStrong K-5; connect monthly themes to STAR Words; use the SEL Team, SST/MTSS, staff meetings, and support plans to align proactive and responsive practices; communicate monthly themes to families; monitor Satchel Pulse, recognition patterns, and support-plan follow-through.
Goal No. 2	80/90/100 Framework Alignment	Action Steps
Goal 2: Curriculum Implementation from Adoption to Impact By spring 2027, aReading will move from 78% to 80%+ and aMath from 84% to 85%+ at/above the 30th national percentile. One identified student group will target a +5 percentage-point increase from fall baseline.	80% Academic Proficiency This goal aligns to the 80% academic target by focusing on purposeful implementation of HMH Into Reading, Bridges Mathematics Year 3, and PLC cycles that turn data into instructional action. Goal 3: Make Belonging Visible By spring 2027, family positive-contact survey results will increase by 5 points from the confirmed Spring Creek baseline. Employee work balance will move from 63.04% to 70%, and open communication from 67.39% to 72%.	100% Growth, Safety & Belonging This goal aligns to the 100% target by making belonging observable through family communication, staff voice, student recognition, caring adult connections, and support-plan follow-through. Summary

Spring Creek's 2026-27 plan builds from documented 2025-26 strengths: academic work around Tier 1 instruction, STAR Celebrations as a shared SEL language, and family engagement through celebrations and partnerships. The 2026-27 goals identify measurable adult actions, baselines or baseline windows, spring 2027 targets, and evidence the school will monitor to determine whether adult practice is changing the student and family experience.

Purpose

The purpose of the school improvement plan is to share success stories, identify focus areas for the upcoming school year, align efforts, and inspire action toward achieving our strategic plan and vision to prepare **every** student for lifelong success!

School Improvement Plan Highlights and Goals

Highlights		
Highlight No. 1	80/90/100 Framework Alignment	Narrative
Reading and math approach 80% proficiency at Bridgewater.	This highlight aligns with our school's goal of achieving 80% academic proficiency in math and reading. Staff continue to strengthen delivery of Tier 1 instruction and coordinate Tier 2 and Tier 3 instruction to most effectively support learners.	• The 2025-26 data indicates 79% of students are at or above benchmark per the aReading test in Fastbridge and 77% of students are at or above benchmark on the aMath test in Fastbridge. • Although we were slightly short of the 80% proficiency goal, the academic success is attributed to the strong Tier I foundation that exists at Bridgewater. This is credit to the fidelity of implementation of our curriculums, PLC work, and student engagement. • Year two of Bridges Math implementation has resulted in positive growth for students as measured by Fastbridge and unit assessments. • The Bridge2Read foundational skills literacy program is implemented daily for grades K-3. • ADSIS (Alternate Delivery of Specialized Instructional Services) supports small group instruction and progress monitoring in reading. • Reading Corps Tutors serve students in grades K-3.
Highlight No. 2	80/90/100 Framework Alignment	Narrative

Bridgewater increased participation in the employee experience survey from a baseline of 33 staff members (~47% of staff) in the 2024-2025 school year to 56 (75%) staff members with a goal of 53. There was an increase in the response score for the statement, “I have the opportunity to provide input on decisions that affect my job,” from 3.49 to 3.79 with a goal of 3.66.	The daily desired experience from staff plays a role in the 80/90/100 framework. Students’ connection, sense of belonging, and feeling of safety is enhanced by the adults in their lives. The Bridgewater way is to be safe, be respectful, be responsible, and do our best. Adults model this desired behavior and collaboratively align their work to ensure students meet their full potential. This sets the working conditions for the 80/90/100 framework to be achieved. Adult SEL contributes to 90% of constituents’ social/emotional outcomes. 56 staff members contributed to the survey, meeting the goal of 53. An adult sense of belonging and growth contributes to the 100% feeling safe and growing.	There was an increase of 20 staff members who took the employee experience survey from 2024-25 to 2025-26. Furthermore, there was a specific goal to have an increase in staff efficacy and input. Intentional structures, communication, and opportunities were formulated to gather input on decisions that impacted the jobs of staff members. There was an outcome of 3.79 that clearly indicates the structures put into place last year made a positive difference.
Highlight No. 3	80/90/100 Framework Alignment	Narrative
Bridgewater increased the parent/caregiver survey response count from a baseline of 51 in the 2024-2025 school year to 85 responses in 2025-2026 with a goal of 70. The response score for the statement, “I receive positive phone calls, emails, or notes about my child from the school” from 3.65 to 3.85 with a goal of 3.83.	The daily desired experience from families enhances the 80/90/100 framework through the strong partnerships that exist between school and home. Communication between the two allows for academic, social, and emotional successes to be celebrated and barriers to be eliminated. Reinforcing the positive things happening at Bridgewater creates a culture conducive to learning, growing, and thriving each day.	Similarly to the employee experience survey, there was an increase in participation in the family experience survey by over 30 participants. Bridgewater increased our family satisfaction participation rate from 51 participants to 85. Bridgewater also increased the response score for the statement, “I receive positive phone calls, emails, or notes about my child from the school,” from 3.65 to 3.85. There was an intentional focus on providing positive communication to families, which resulted in the desired increase of 0.2. These methods will continue to be sustained as we build capacity in learning about the daily desired experience of students, families, and staff.

Summary

Bridgewater Elementary ended the 2025-26 school year with increased alignment and momentum to the 80/90/100 framework. Academic achievement data in both reading and math climbed to nearly 80% with focus on Tier I instruction, PLCs, data days, and collaborative opportunities amongst staff. Although results were just short of our goals, a culture of continuous improvement and work will take place in the 2026-27 school year through focus on literacy and SELBH curricular implementation, and utilizing meeting structures to support professional learning and collaboration. The desired daily experience for both staff and families was a main focal point for Bridgewater through efforts to

increase participation. The initiatives to increase opportunities to provide input on their jobs were successful as the goal was attained and surpassed. Family input also indicated an increase in positive feedback from staff to families regarding their children's performance at school. To build on momentum, Bridgewater continues to align the building work to the 80/90/100 framework through intentional focus on student outcomes with implementing both IntoReading and Character Strong curriculums while utilizing structures such as PLCs, data days, committee meetings, and staff meetings to analyze data, promote consistency, and make adjustments. Educlimber will also be a key tool in communicating, monitoring, and measuring progress of student outcomes and adult impact. The new TDE process will allow for clarity to be established on adult impact within their settings and next steps towards continuous improvement.

“We prepare **every** student for lifelong success by developing critical thinkers who are curious and ready to engage in our society.”

What is the levy? What does it do for our District?

We are asking for preliminary certification of the Pay 2027 property tax levy tonight. The levy is the local portion of taxes that are authorized, by voters or the state. Our local levy provides approximately 26% of our general fund budget. Our budget supports the resources needed – human and capital – to provide quality educational programming for every student in our schools.

Truth in Taxation Timeline

After we certify this proposed levy, the district will send the information to the county auditor's office by September 30. At that point, the county begins preparing tax statements that are mailed to taxpayers in November. We will then hold our Truth in Taxation (TNT) hearing during the regular School Board meeting on December 8 and ask the board to finalize certification of the Pay 2027 levy.

Tax Levy and Budgeting Timing

The state's tax year and our budget year don't match up. The Pay 2027 levy will be collected from January 2027 through December 2027. Property taxes are paid in May and October each year. The district's fiscal year runs from July 2027 - June 2028. These levy dollars will eventually provide a portion of our funding for that budget year.

Each levy can also include budget adjustments from previous levy years – both positive and negative. These adjustments can be made for a period of up to three years.

Preliminary Pay 2027 Property Tax Levy

The pie graph on slide six of the slide deck demonstrates the categories that comprise our total preliminary levy. The general fund is 65% of the total levy, community education is 2%, and debt service is 33%. The general fund includes several formulas, but most notably the voter-approved operating referendum (32% of total levy), the voter-approved capital projects levy (8% of total levy), and the other general fund levies (25% of total levy).

The Pay 27 Levy Analysis table (slide seven) illustrates the subtotals of the levy by fund, by taxation category, and by tax base. Overall, the levy is proposed to increase \$2,374,802.10 or 8.65%.

The preliminary general fund levy increase is \$1,437,737.61 or 8.04%. The community education levy increase is \$67,150.32 or 10.24%. The debt service levy increase is \$869,914.17 or 9.73%.

74.0% of our total levy is generated from voter-approved formulas. The Northfield community has been steadfast in their commitment to education.

We will be certifying at the max, as we have done for several years. This allows the most flexibility between the preliminary levy and the final certification.

Notable Changes

Slide eight shows a detailed breakdown of the general fund and how it differs from the Pay 26 levy. The most notable changes are:

Referendum – This is a voter-approved levy, and the amount is based on our estimated student enrollment. For the Pay 27 levy, we estimated enrollment for the 2027–28 school year using historical trends. Our enrollment is still declining, but at a

slower pace than before. Because of that, our new estimate for 2027–28 is actually higher than what we had projected last year for 2026–27. That higher enrollment estimate, combined with an inflation adjustment built into the formula, adds about \$540,369 in additional revenue to the general fund.

We also found that our Pay 26 enrollment estimate had been too low. The levy process includes a routine step where prior estimates are checked against actual numbers and corrected. That's why you'll see our adjustments line is higher than last year: about \$570,000 of it comes from correcting the Pay 26 estimates. These are one-time corrections that ensure the district receives all the funding it's entitled to.

Lease Levy – Pay 27 includes the district's first installment of our agreed support for the new Hasse Ryt-Way Arena. The contract includes \$200,000 per year for 20 years. The grand opening last week was very exciting, and I know our teams are excited to practice in this new community asset!

Community Education Levy - includes a state authorized levy to support student-specific needs in the school-age care setting. We have seen an increase in individual support services needed and this increase will support that.

Debt Service Levy - This increase reflects the anticipated addition of our next Reimagine NHS bond, which we expect to issue this spring. While the report shows a 9.73% increase in this levy, that does not mean individual property taxes will go up by 9.73%. Our financial advisor, Ehlers, was able to use the growth in our community's property values since 2024 to slightly speed up our original repayment schedule. This reduces the total interest we'll pay over the life of the bond, while still keeping us under the tax rate we originally told taxpayers to expect.

Levy Trends

When we look at the levy over time, the district has been very consistent year over year. The district is intentional in this effort to ensure consistency for taxpayers. The average increase over the past five years is 8.65%. The primary driver of this percentage is the voter-approved Reimagine Northfield High School debt. We are grateful for the community's generosity and the wonderful opportunities this provides for our students.

Policy 509 ENROLLMENT OF NONRESIDENT STUDENTS

I. PURPOSE

In alignment with the Northfield School District's strategic commitments to equity and stewardship, the district chooses to participate in the Enrollment Options Program (Open Enrollment) established by [Minnesota Statutes, section 124D.03](#). This policy sets forth the application and exclusion procedures used by the school district in making said determination.

- A. Open Enrollment applications will be approved provided that acceptance of the application will not exceed the capacity of a program, excluding special education services; class; ~~grade level~~; or school building as established by school board resolution and provided that:
 - 1. Space is available for the applicant under enrollment cap standards established by school board policy or other directives.
 - 2. In considering the capacity of a grade level, the school district may ~~only~~ limit the enrollment of nonresident students in its schools or programs to a number not less than the lesser of: (a) one ~~(1)~~ percent of the total enrollment at each grade level in the school district; or (b) the number of school district resident students at that grade level enrolled in a nonresident school district according to in accordance with [Minnesota Statutes, section 124D.03](#).

- B. If the district limits enrollment of nonresident students pursuant to paragraph A ~~this section~~, the district shall report to the Commissioner of the Minnesota Department of Education (MDE) by July 15 on the number of nonresident pupils denied admission due to the limitations on the enrollment of nonresident pupils.
- C. The parent of a nonresident student with a disability not yet enrolled in kindergarten and not open enrolled in a nonresident district may elect, in the same manner as the parent of a resident student with a disability, a school in the nonresident district where the child is enrolled in a Head Start program or a licensed child care setting in the

nonresident district, provided the child can be served in the same setting as other children in the nonresident district with the same level of disability.

Under this paragraph, parents must demonstrate enrollment in a community preschool or childcare setting in a nonresident district.

- D. A nonresident preschool aged child with a disability open enrolled in the district may be required to open enroll for kindergarten.

IV. BASIS FOR DECISIONS

A. Standards that may be used for rejection of application

1. Possessing a dangerous weapon, including a weapon, device, instruments, material, or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious bodily injury, except that such term does not include a pocket knife with a blade less than two and one-half inches in length, at school or a school function.

C. Application

The ~~student and~~ parent/guardian/caregiver must complete and submit the “General Statewide Enrollment Options Application for K-12 and Early Childhood Special Education” (or the Statewide Enrollment Options Application for State-funded Voluntary Prekindergarten (VPK)) developed by MDE and available on its website. The signed application must be submitted by January 15 for initial enrollment beginning the following school year.

The district may require a nonresident student enrolled in a program under [Minnesota Statutes, section 125A.13](#), or in a preschool program, except for a program under [Minnesota Statutes, section 142D.08](#) ~~124D.151~~ to follow the application procedures under [Minnesota Statutes, section 124D.03](#), subdivision 3 ~~this subdivision~~ to enroll in kindergarten. A district must allow a nonresident student enrolled in a program under [Minnesota Statutes, section 142D.08](#) ~~124D.151~~ to remain enrolled in the district when the student enters kindergarten without submitting annual or periodic applications, unless the district terminates the student's enrollment under [Minnesota Statutes, section 124D.03](#), subdivision 12.

2. The process for the district lottery must be established by school board policy and posted on the district's website.

E. Exclusion

1. **Administrator's initial determination.** If a school district administrator knows or has reason to believe that an applicant has engaged in conduct that has subjected or could subject the applicant to expulsion or exclusion under law or school district policy, the administrator will transmit the application to the superintendent with a recommendation of whether exclusion proceedings should be initiated.
2. **Superintendent's review.** The superintendent may make further inquiries. If the superintendent determines that the applicant should be admitted, he or she will notify the applicant and the school board chair. If the superintendent determines that the applicant should be excluded, the superintendent will notify the applicant and determine whether the applicant wishes to continue the application process. Although an application may not be rejected based on previous disciplinary proceedings, the school district reserves the right to initiate exclusion procedures pursuant to the [Minnesota Pupil Fair Dismissal Act](#) as warranted on a case-by-case basis.

The decision is to be based upon information available at the time the threat occurs that indicates that there is an articulable and significant threat to the health or safety of a student or other individuals. In making a determination whether to disclose information under this section, the school district may take into account the totality of the circumstances pertaining to a threat and may disclose information from education records to any person whose knowledge of the information is necessary to protect the health or safety of the student or other students. A record of this disclosure must be maintained pursuant to Section XIII.E. of this policy. In addition, an educational agency or institution may include in the education records of a student appropriate information concerning disciplinary action taken against the student for conduct that posed a significant risk to the safety or well-being of that student, other students, or other members of the school community. This information may be disclosed to teachers and school officials within the school district and/or teachers and school officials in other schools who have legitimate educational interests in the behavior of the student.

17. To volunteers who are determined to have a legitimate educational interest in the data and who are conducting activities and events sponsored by or endorsed by the educational agency or institution for students or former students.
18. To the juvenile justice system, on written request that certifies that the information will not be disclosed to any other person except as authorized by law without the written consent of the parent of the student:
 - a. The following information about a student must be disclosed:
 - i. A student’s full name, home address, telephone number, date of birth, a student’s school schedule, daily attendance record, and photographs, if any, and any parents’ names, home addresses, and telephone numbers.
 - b. The existence of the following information about a student, not the actual data or other information contained in the student’s education record, may be disclosed provided that a request for access must be submitted on the statutory form and it must contain an explanation of why access to the information is necessary to serve the student:

To the principal where the student attends and to any counselor directly supervising or reporting on the behavior or progress of the student if it is information from a disposition order received by a superintendent under Minnesota Statutes Section 260B.171, subdivision 3. The principal must notify the counselor immediately and must place the disposition order in the student's permanent education record. The principal also must notify immediately any teacher or administrator who directly supervises or reports on the behavior or progress of the student whom the principal believes needs the information to work with the student in an appropriate manner, to avoid being needlessly vulnerable, or to protect other persons from needless vulnerability. The principal may also notify other school district employees, substitutes, and volunteers who are in direct contact with the student if the principal determines that these individuals need the information to work with the student in an appropriate manner, to avoid being needlessly vulnerable, or to protect other persons from needless vulnerability. Such notices from the principal must identify the student, outline the offense, and describe any conditions of probation about which the school must provide information if this information is provided in the disposition order. Disposition order information received is private educational data received for the limited purpose of serving the educational needs of the student and protecting students and staff. The information may not be further disseminated by the counselor, teacher, administrator, staff member, substitute, or volunteer except as necessary to serve the student, to protect students and staff, or as otherwise required by

law, and only to the student or the student's parent or guardian.

20. To the principal where the student attends if it is information from a peace officer's record of children received by a superintendent under Minnesota Statutes Section 260B.171, subdivision 5. The principal must place the information in the student's education record. The principal also must notify immediately any teacher, counselor, or administrator directly supervising the student whom the principal believes needs the information to work with the student in an appropriate manner, to avoid being needlessly vulnerable, or to protect other persons from needless vulnerability. The principal may also notify other district employees, substitutes, and volunteers who are in direct contact with the student if the principal determines that these individuals need the information to work with the student in an appropriate manner, to avoid being needlessly vulnerable, or to protect other persons from needless vulnerability. Such notices from the principal must identify the student and describe the alleged offense if this information is provided in the peace officer's notice. Peace officer's record information received is private educational data received for the limited purpose of serving the educational needs of the student and protecting students and staff. The information must not be further disseminated by the counselor, teacher administrator, staff member, substitute, or volunteer except to communicate with the student or the student's parent or guardian as necessary to serve the student, to protect students and staff, or as otherwise required by law.

The principal must delete the peace officer's record from the student's education record, destroy the data, and make reasonable efforts to notify any teacher, counselor, staff member, administrator, substitute, or volunteer who received information from the peace officer's record if the county attorney determines not to proceed with a petition or directs the student into a diversion or mediation program or if a juvenile court makes a decision on a petition and the county attorney or juvenile court notifies the superintendent of such action;

21. To the Secretary of Agriculture, or authorized representative from the Food and Nutrition Service, for the purposes of conducting program monitoring, evaluations, and performance measurements of state and local educational and other agencies and institutions receiving funding or providing benefits of one or more programs authorized under the National School Lunch Act or the Child Nutrition Act of 1996 for which the results will be reported in an aggregate form that does not identify any individual, on the conditions that:

- a. Any data collected shall be protected in a manner that will not permit the personal identification of students and their parents by other than the authorized representatives of the Secretary, and
 - b. Any personally identifiable data shall be destroyed when the data are no longer needed for program monitoring, evaluations, and performance measurements. Or
22. To an agency caseworker or other representative of a State or local child welfare agency, or tribal organization (as defined in 25 United States Code section 5304), who has the right to access a student's case plan, as defined and determined by the State or tribal organization, when such agency or organization is legally responsible, in accordance with State or tribal law, for the care and protection of the student, provided that the education records, or the personally identifiable information contained in such records, of the student will not be disclosed by such agency or organization, except to an individual or entity engaged in addressing the student's education needs and authorized by such agency or organization to receive such disclosure and such disclosure is consistent with the State or tribal laws applicable to protecting the confidentiality of a student's education records.

C. Nonpublic School Students

The district may disclose personally identifiable information from the education records of a nonpublic school student, other than a student who receives shared time educational services, without the written consent of the parent of the student or the eligible student unless otherwise provided herein, if the disclosure is:

1. Pursuant to a valid court order.
2. Pursuant to a statute specifically authorizing access to the private data.
3. To appropriate health authorities to the extent necessary to administer immunization programs and for bona fide epidemiological investigations which the Commissioner of the Minnesota Department of Health ~~commissioner of health~~ determines are necessary to prevent disease or disability to individuals in the public educational agency or institution in which the investigation is being conducted.

1. Educational data designated as directory information is public data on individuals to the extent required under federal law. Directory information must be designated pursuant to the provisions of:

- a. Minnesota Statutes, section 13.32, subdivision 5.
 - b. United States Code, title 20, section 1232g, and Code of Federal Regulations, title 34, section 99.37, which were in effect on January 3, 2012.
2. The district may not designate a student's home address, telephone number, email address, or other personal contact information as directory information under this section.
3. When requested, the district must share personal contact information and directory information, whether public or private, with the Minnesota Department of Education, as required for federal reporting purposes.

B. Former Students

Unless a former student validly opted out of the release of directory information while the student was in attendance and has not rescinded the opt out request at any time, the district may disclose directory information from the education records generated by it regarding the former student without meeting the requirements of Paragraph C. of this section. In addition, under an explicit exclusion from the definition of an "education record," the school district may release records that only contain information about an individual obtained after he or she is no longer a student at the district and that are not directly related to the individual's attendance as a student (e.g., a student's activities as an alumnus of the district).

C. Present Students and Parents

The district may disclose directory information from the education records of a student and information regarding parents without prior written consent of the parent of the student or eligible student, except as provided herein.

1. When conducting the directory information designation and notice process required by federal law, the school district shall give parents and students notice of the right to refuse to let the district designate specified data about the student as directory information.
2. The district shall give annual notice by any means that are reasonably likely to inform the parents and eligible students of:
 - a. The types of personally identifiable information regarding students and/or parents that the school district has designated as directory information.
 - b. The parent's or eligible student's right to refuse to let the school district designate any or all of those types of information about the student and/or the parent as directory information, and
 - c. The period of time in which a parent or eligible student has to notify the school district in writing that he or she does not want any or all of those types of information about the student and/or the parent designated as directory information.

3. Allow a reasonable period of time after such notice has been given for a parent or eligible student to inform the school district in writing that any or all of the information so designated should not be disclosed without the parent's or eligible student's prior written consent, except as provided in this policy.
4. A parent or eligible student may not opt out of the directory information disclosures to:
 - a. Prevent the district from disclosing or requiring the student to disclose the student's name, ID, or school district email address in a class in which the student is enrolled.
 - b. Prevent the district from requiring a student to wear, to display publicly, or to disclose a student ID card or badge that exhibits information that may be designated as directory information and that has been properly designated by the district as directory information.
5. The district shall not disclose or confirm directory information without meeting the written consent requirements contained in this policy if a student's social security number or other non-directory information is used alone or in combination with other data elements to identify or help identify the student or the student's records.

D. Procedure for Obtaining Nondisclosure of Directory Information

The parent's or eligible student's written notice shall be directed to the responsible authority and shall include the following:

1. Name of the student and/or parent, as appropriate.
2. Home address.
3. School presently attended by student.
4. Parent's legal relationship to student, if applicable.
5. Specific categories of directory information to be made not public without the parent's or eligible student's prior written consent, which shall only be applicable for that school year.

E. Duration

The designation of any information as directory information about a student or parents will remain in effect for the remainder of the school year unless the parent or eligible student provides the written notifications provided herein.

VIII. DISCLOSURE OF PRIVATE RECORDS

A. Private Records

For the purposes herein, education records are records which are classified as private data on individuals by state law and which are accessible only to the student who is the subject of the data and the student's parent if the student is not an eligible student. The district may not disclose private records or their contents except as summary data, or except as provided in Section VI. of this policy, without the prior written consent of the parent or the eligible student. The district will use reasonable methods to identify and authenticate the identity of parents, students, school officials, and any other party to whom personally identifiable information from education records is disclosed.

B. Private Records Not Accessible to Parent

In certain cases state law intends, and clearly provides, that certain information contained in the education records of the district pertaining to a student be accessible to the student alone, and to the parent only under special circumstances, if at all.

1. The responsible authority may deny access to private data by a parent when a minor student who is the subject of that data requests that the responsible authority deny such access. The minor student's request must be submitted in writing setting forth the reasons for denying access to the parent and must be signed by the minor. Upon receipt of such request the responsible authority shall determine if honoring the request to deny the parent access would be in the best interest of the minor data subject. In making this determination the responsible authority shall consider the following factors, whether:
 - a. The minor is of sufficient age and maturity to be able to explain the reasons for and understand the consequences of the request to deny access.
 - b. The personal situation of the minor is such that denying parental access may protect the minor data subject from physical or emotional harm.
 - c. There are grounds for believing that the minor data subject's reasons for precluding parental access are reasonably accurate.
 - d. The data in question is of such a nature that disclosure of it to the parent may lead to physical or emotional harm to the minor data subject.
 - e. The data concerns medical, dental or other health services provided pursuant to Minnesota Statutes Sections 144.341 to 144.347, in which case the data may be released only if the failure to inform the parent would seriously jeopardize the health of the minor.

C. Private Records Not Accessible to Student

Students shall not be entitled to access to private data concerning financial records and statements of the student's parent or any information contained therein.

D. Military-Connected Youth Identifier

When a district updates its enrollment forms in the ordinary course of business, the school district must include a box on the enrollment form to allow students to self-identify as a military-connected youth. For purposes of this paragraph section, a "military-connected youth" means having an immediate family member, including a parent or sibling, who is currently in the armed forces either as a reservist or on active duty or has recently retired from the armed forces. Data collected under this provision is private data on individuals, but summary data may be published by the Department of Education.

IX. DISCLOSURE OF CONFIDENTIAL RECORDS

A. Confidential Records

Confidential records are those records and data contained therein which are made not public by state or federal law and which are inaccessible to the student and his or her parent or to an eligible student.

B. Reports Under the Maltreatment of Minors Reporting Act

Pursuant to Minnesota Statutes, chapter 260E, written copies of reports pertaining to a neglected and/or physically and/or sexually abused child shall be accessible only to the appropriate welfare and law enforcement agencies. In respect to other parties, such data shall be confidential and will not be made available to the parent or the subject individual by the school district. The subject individual, however, may obtain a copy of the report from either the local welfare agency, county sheriff or the local police department subject to the provisions of Minnesota Statutes, chapter 260E.

Regardless of whether a written report is made under Minnesota Statutes Chapter 260E, as soon as practicable after a school receives information regarding an incident that may constitute maltreatment of a child in a school facility, the school shall inform the parent, legal guardian or custodian of the child that an incident occurred that may constitute maltreatment of the child, when the incident occurred, and the nature of the conduct that may constitute maltreatment.

C. Investigative Data

Data collected by the district as part of an active investigation undertaken for the purpose of the commencement or defense of pending civil legal action, or which are retained in anticipation of a pending civil legal action are classified as protected nonpublic data in the case of data not on individuals, and confidential data in the case of data on individuals.

1. The district may make any data classified as protected non-public or confidential data pursuant to this subdivision accessible to any person, agency or the public if the school district determines that such access will aid the law enforcement process, promote public health or safety, or dispel

widespread rumor or unrest.

2. A complainant has access to a statement he or she provided to the district.
3. Parents or eligible students may have access to investigative data of which the student is the subject, but only to the extent the data is not inextricably intertwined with data about other school district students, school district employees, and/or attorney data as defined in [Minnesota Statutes, section 13.393](#).
4. Once a civil investigation becomes inactive, civil investigative data becomes public unless the release of the data would jeopardize another pending civil legal action, except for those portions of such data that are classified as not public data under state or federal law. Any civil investigative data presented as evidence in court or made part of a court record shall be public. For purposes of this provision, a civil investigation becomes inactive upon the occurrence of any of the following events
 - a. A decision by the district, or by the chief attorney for the district, not to pursue the civil legal action. However, such investigation may subsequently become active if the district or its attorney decides to renew the civil legal action.
 - b. The expiration of the time to file a complaint under the statute of limitations or agreement applicable to the civil legal action.
 - c. The exhaustion or expiration of rights of appeal by either party to the civil legal action.
5. A “pending civil legal action” for purposes of this subdivision is defined as including, but not limited to, judicial, administrative or arbitration proceedings.

D. Chemical Abuse Records

To the extent the district maintains records of the identity, diagnosis, prognosis, or treatment of any student which are maintained in connection with the performance of any drug abuse prevention function conducted, regulated, or directly or indirectly assisted by any department or agency of the United States, such records are classified as confidential and shall be disclosed only for the purposes and under the circumstances expressly authorized by law.

X. DISCLOSURE OF SCHOOL RECORDS PRIOR TO EXCLUSION OR EXPULSION HEARING

At a reasonable time prior to any exclusion or expulsion hearing, the student and the student’s parent or guardian or representative shall be given access to all school district

records pertaining to the student, including any tests or reports upon which the action proposed by the school district may be based, pursuant to the Minnesota Pupil Fair Dismissal Act, [Minnesota Statutes, section 121A.40](#), *et seq.*

XI. DISCLOSURE OF DATA TO MILITARY RECRUITMENT OFFICERS AND ~~POST-SECONDARY~~ POSTSECONDARY EDUCATIONAL INSTITUTIONS

- A. The district will release the names, addresses, electronic mail address (which shall be the electronic mail addresses provided by the school district, if available, that may be released to military recruiting officer only), and home telephone numbers of students in grades 11 and 12 to military recruiting officers and ~~post-secondary~~ postsecondary educational institutions within sixty (60) days after the date of the request unless a parent or eligible student has refused in writing to release this data pursuant to Paragraph C. below.
- B. Data released to military recruiting officers under this provision:
 - 1. May be used only for the purpose of providing information to students about military service, state and federal veterans' education benefits, other career and educational opportunities provided by the military.
 - 2. Cannot be further disseminated to any other person except personnel of the recruiting services of the armed forces.
 - 3. Copying fees shall not be imposed.
- C. A parent or eligible student has the right to refuse the release of the name, address, electronic mail addresses (which shall be the electronic mail addresses provided by the school, if available, that may be released to military recruiting officers only) or home telephone number to military recruiting officers and ~~post-secondary~~ postsecondary educational institutions. To refuse the release of the above information to military recruiting officers and ~~post-secondary~~ postsecondary educational institutions, a parent or eligible student must notify the responsible authority, building principal, in writing each year. The written request must include the following information:
 - 1. Name of student and parent, as appropriate.
 - 2. Home address.
 - 3. Student's grade level.
 - 4. School presently attended by student.
 - 5. Parent's legal relationship to student, if applicable.
 - 6. Specific category or categories of information which are not to be released to military recruiting officers and ~~post-secondary~~ postsecondary educational institutions.
 - 7. Specific category or categories of information which are not to be released to the public, including military recruiting officers and ~~post-secondary~~ postsecondary educational institutions.

- D. Annually, the district will provide public notice by any means that are reasonably likely to inform the parents and eligible students of their rights to refuse to release the names, addresses, and home phone numbers of students in grades 11 and 12 without prior consent.
- E. A parent or eligible student's refusal to release the above information to military recruiting officers and ~~post-secondary~~ postsecondary educational institutions does not affect the school district's release of directory information to the rest of the public, which includes military recruiting officers and ~~post-secondary~~ postsecondary educational institutions. In order to make any directory information about a student private, the procedures contained in this policy also must be followed. Accordingly, to the extent the district has designated the name, address, home phone number, and grade level of students as directory information, absent a request from a parent or eligible student not to release such data, this information will be public data and accessible to members of the public, including military recruiting officers and ~~post-secondary~~ postsecondary educational institutions.

XII. LIMITS ON REDISCLOSURE

A. Redisclosure

Consistent with the requirements herein, the district may only disclose personally identifiable information from the education records of a student on the condition that the party to whom the information is to be disclosed will not disclose the information to any other party without the prior written consent of the parent of the student or the eligible student, except that the officers, employees, and agents of any party receiving personally identifiable information under this section may use the information, but only for the purposes for which the disclosure was made.

B. Redisclosure Not Prohibited

1. Subdivision A. of this section does not prevent the district from disclosing personally identifiable information under Section Disclosure of Education Records of this policy with the understanding that the party receiving the information may make further disclosures of the information on behalf of the school district provided:

However, the district must provide the notification required in this policy if a redisclosure is made based upon a court order or lawfully issued subpoena.

C. Classification of Disclosed Data

In the event that the Family Policy Compliance Office determines that a state or local educational authority, a federal agency headed by an official listed in 34 United States Code section 99.31(a)(3), or an authorized representative of a state or local educational authority or a federal agency headed by an official listed in section 99.31(a)(3), or a third party outside of the district improperly rediscloses personally identifiable information from education records or fails to provide notification required under this section of this policy, the district may not allow that third party access to personally identifiable information from education records for at least five (5) years.

The district shall permit the parent/guardian of a student, an eligible student, or the parent of an eligible student who is also a dependent student who is or has been in attendance in the district to inspect and review all education records of the

student (except those records which are made confidential by state or federal law). A written request must be submitted in accordance with district procedure. All education records include education records kept by teachers, counselors and other school staff members, and education records kept in school offices and district-level records storage. The district shall comply with a request immediately, if possible, or within ten (10) working days of the date of that request, excluding Saturdays, Sundays and legal holidays.

B. Right to Inspect and Review

The right to inspect and review education records includes:

1. The right to a response from the district to reasonable requests for explanations and interpretations of the records.
2. If circumstances effectively prevent the parent or eligible student from exercising the right to inspect and review the education records, the school district shall provide the parent or eligible student with a copy of the records requested or make other arrangements for the parent or eligible student to inspect and review the requested records.
3. Nothing in this policy shall be construed as limiting the frequency of inspection of the education records of a student with a disability by the student's parent or guardian or by the student upon the student reaching the age of majority.

C. Form of Request

Parents or eligible students shall submit to the district a written request to inspect education records which identify as precisely as possible the record or records they wish to inspect.

D. Collection of Student Records

The parent or eligible student shall be notified of the time and place where the records may be inspected.

E. Records Containing Information on More Than One Student

G. Fees for Copies of Records

1. The district shall charge a reasonable fee for providing photocopies or printed copies of records unless printing a copy is the only method to provide for the inspection of data. In determining the amount of the reasonable fee, the district shall consider the following:

 - b. The cost of the labor required to prepare the copies.
 - c. Any schedule of standard copying charges established by the school district in its normal course of operations.

3. The cost of providing copies shall be borne by the parent or eligible student.
4. The responsible authority, however, may not impose a fee for a copy of an education record made for a parent or eligible student if doing so would effectively prevent or, in the case of a student with a disability, impair the parent or eligible student from exercising their right to inspect or review the student's education records.

XIV. REQUEST TO AMEND RECORDS; PROCEDURES TO CHALLENGE DATA

A. Request to Amend Education Records

The parent of a student or an eligible student who believes that information contained in the education records of the student is inaccurate, misleading, or violates the privacy of the student may request in writing that the district amend the records.

The request shall be in writing, shall identify the item the requestor believes to be inaccurate, misleading, or in violation of the privacy or other rights of the student, shall state the reason for this belief, and shall specify the correction the requestor wishes the district to make. The request shall be signed and dated by the requestor.

2. The district shall decide whether to amend the education records of the student in accordance with the request within thirty (30) days after receiving the request.

B. Right to a Hearing

If the district refuses to amend the education records of a student, the district shall, on request, provide an opportunity for a hearing in order to challenge the content of a student's education records to insure that information in the education records of the student is not inaccurate, misleading, incomplete or otherwise in violation of the privacy or other rights of students. The hearing shall be conducted in accordance with Section C below.

1. If, as a result of the hearing, the district decides that the information is inaccurate, misleading, or otherwise in violation of the privacy or other rights of students, it shall amend the education records of the student accordingly and so inform the parent of the student or the eligible student in writing.
2. If, as a result of the hearing, the district decides that the information is not inaccurate, misleading, or otherwise in violation of the privacy or other rights of students, it shall inform the parent or eligible student of the right to place a statement in the record commenting on the contested information in the record or stating why they disagree with the decision of the district, or both.
3. Any statement placed in the education records of the student based on the results of a hearing to amend that student's records shall:
 - a. Be maintained by the district as part of the education records of the student as long as the record or contested portion thereof is maintained by the district.
 - b. If the education records of the student or the contested portion thereof is disclosed by the district to any party, the statement shall also be disclosed to that party.

C. Conduct of Hearing

1. The hearing shall be held within a reasonable period of time after the district has received the request, and the parent of the student or the eligible student shall be given notice of the date, place and time reasonably

in advance of the hearing.

2. The hearing may be conducted by the superintendent or other designated representative of the school board who has no direct interest in the outcome of the hearing. The school board attorney shall be in attendance to present the district's position and to advise the superintendent or designated representative on legal and evidentiary matters.
3. The parent of the student or eligible student shall be afforded a full and fair opportunity at the hearing to present evidence relevant to the issues raised under sections A. and B. above and may be assisted by individuals of his or her choice at his or her own expense, including an attorney.
4. The decision shall be made in writing in a reasonable period of time after the conclusion of the hearing. The decision shall be based solely on evidence presented at the hearing and shall include a summary of evidence and reasons for the decision.

Policy 521 STUDENT DISABILITY NONDISCRIMINATION

I. PURPOSE

In alignment with statute, the district's strategic commitment to equity, and its vision to prepare every student for lifelong success, this policy protects students with disabilities from discrimination on the basis of disability and to identify and evaluate learners who, within the intent of Section 504 of the Rehabilitation Act of 1973 (Section 504), need services, accommodations, or programs in order that such learners may receive a free appropriate public education in Northfield Public Schools.

II. GENERAL STATEMENT OF POLICY

- A. Students with disabilities who meet the criteria of Paragraph C. below are protected from discrimination on the basis of a disability.
- B. The responsibility of the district is to identify and evaluate learners who, within the intent of Section 504, need services, accommodations, or programs in order that such learners may receive a free appropriate public education.
- C. For this policy, a learner who is protected under Section 504 is one who:
 - 1. Has a physical or mental impairment that substantially limits one or more major life activities, including learning, or;
 - 2. Has a record of such impairment, or;

- D. Learners may be protected from disability discrimination and be eligible for services, accommodations, or programs under the provisions of Section 504 even though they are not eligible for special education pursuant to the Individuals with Disabilities Education Act.
- E. Failure to engage in the process to determine if a reasonable accommodation exists that would allow people with disabilities as defined in [Minnesota Statutes, section 363A.03](#), subdivision 12, to participate fully in education may be an unfair discriminatory practice under the Minnesota Human Rights Act.

III. COORDINATOR

Persons who have questions, comments, or complaints should contact the Director of Special Services regarding grievances or hearing requests regarding disability issues. This person is the district's ADA/504 coordinator.

Policy 524.2 ACCEPTABLE USE AND SAFETY OF TECHNOLOGY AND TELECOMMUNICATION SYSTEMS BY STUDENTS

I. PURPOSE

To prepare every student for lifelong success, the Northfield School District provides technology and telecommunications resources for district students to equitably support and enhance student learning so they can become critical thinkers who are curious and ready to engage in our society. Access to and use of technology resources for students and employees is a fundamental part of education. This policy covers district student use of all technology and telecommunications resources in the district. The purpose of this policy is to govern and guide the appropriate use of these resources as we prepare every student to be academically and socially ready to choose their preferred pathway after high school graduation.

II. GENERAL STATEMENT OF POLICY

The district provides students with access to computers and peripherals, district networks, on campus and hotspot Internet access, software applications and other technology services in order to support and enhance student learning and to prepare them for work and life.

III. ACCEPTABLE/UNACCEPTABLE USES

A. Each student shall act responsibly when utilizing technology resources.

1. The use of the school district networks/computers/peripherals and internet/software applications and systems is a privilege that can be revoked at any time for abusive behavior. All activity and utilization of district technology resources must comply with Student Citizenship Handbook and school board policies.
2. While not an exhaustive list, students will not:
 - Use district technology resources to access, review, display, store, upload, download, distribute, post, receive, transmit, or print pornographic, obscene or sexually explicit materials or language, or other visual depictions that are harmful to minors.
 - Use district technology resources to access, display, store, upload, download, distribute or print materials that advocate violence, harassment or discrimination (hate literature) or are disruptive in any way.
 - Send abusive, intimidating, harassing, or unwanted material causing the work of others to be disrupted.
 - Use the district technology resources to vandalize, damage or disable the property of another person, will not make deliberate attempts to degrade, vandalize or disrupt equipment, software, or

system performance, will not violate the network's security in any way, and will not use the district network/Internet/email system in any way so as to disrupt the use of the system by other users.

- Use district technology resources to gain unauthorized access to resources, passwords, accounts, information or files without direct permission from the district.
- Use district technology resources to violate copyright laws, download or pirate software or plagiarize information, or engage in any illegal act or violate any local, state, or federal statute or law.
- Send or forward unnecessary or frivolous emails or messages in any quantity to other users of the district email system or other digital applications. Transmission of chain letters and pyramid schemes is strictly prohibited.
- Use district technology resources for commercial purposes, political lobbying or solicitation of any kind.
- Use non-district owned equipment or devices to access networks and file servers that require district-provided credentials.
- Use district technology resources to communicate under a false name or designation or a name or designation they are not authorized to use, including instances in conjunction with representing that they are somehow acting on behalf of or under the auspices of the district.
- Use the name "Northfield Public Schools" in any form or use any symbol or logo or graphic used by Northfield Schools without the district's prior consent.
- Utilize the district system to post personal information about a user or another individual on social networks, including, but not limited to, social networks such as Facebook, Twitter, Instagram, Snapchat, TikTok, Reddit, and similar websites or applications.
- Use district technology resources to access, download, or use a school district website, application, software, program, or other service to (1) nudyfy an image or video; or (2) nudyfy an image or video on behalf of a user. "Identifiable individual" means a person that is identifiable (1) from the image itself, by the person depicted in the image, or by another person; or (2) from personal information displayed in connection with the image. "Intimate part" has the meaning given in Minnesota Statutes, section 609.341, subdivision 5. "Nudyfy" or "nudyfied" means the process by which: (1) an image or video is altered or generated to depict an intimate part not depicted in an original unaltered image or video of an identifiable individual; and (2) the altered or generated image or video is so realistic that a reasonable person would believe that the intimate part belongs to the identifiable individual.

3. Students will use electronic information resources in compliance with all existing school board policies. Non-district owned equipment may access

district guest networks but must comply with district policy and procedures.

B. Each student shall respect private passwords, copyright and other intellectual property rights.

1. Copying of data, files or using passwords belonging to others will be considered a violation of district policies, a violation of law, and may constitute fraud, plagiarism or theft.
2. Software licensed by the district must only be used in accordance with applicable license specifications and agreements. Illegal copying and/or installing of software on district computers is strictly prohibited. Illegal copying and/or installing of district licensed software on personal devices is strictly prohibited.
3. Modifying or damaging information without authorization including but not limited to altering data, introducing viruses or damaging files or data is unethical and a violation of district policies.

C. Each student shall abide by security restrictions on all systems and information.

1. Distributing or making your password or another person's password or access code available to others or otherwise attempting to evade, disable or "crack" passwords, desktop security systems, or other security precautions, or assisting others in doing so threatens work, privacy and the integrity of district information, and is a serious violation of district policy.
2. Attempts to "bypass" virus protection software on workstations or servers are violations of district security procedures.
3. Software or applications are generally installed by District technology services staff. Software or applications may only be installed by students with specific permission from the district.

D. Each student shall recognize limitations to privacy and use of electronic communications. Employees, staff and students do not own district technology and telecommunications equipment or software. The district reserves the right to access user files at any time to protect the integrity of the systems and property of the district.

1. The district may examine or make copies of files that are suspected of misuse, or that have been corrupted or damaged. Files may be subject to search by law enforcement agencies if files contain information, which may be used as evidence in a court of law.
2. An individual investigation or search will be conducted if school authorities have a reasonable suspicion that the search will uncover a violation of law or district policy. The district will cooperate fully with local, state and federal authorities in any investigation concerning or

related to any illegal activities and activities not in compliance with district policies.

- E. Each student shall be aware that data and other materials in files maintained on district property or hosted solutions licensed by the district may be subject to review, disclosure or discovery under State and Federal legislation, including the Minnesota Government Data Practices Act.
 - 1. The district can and will monitor the online activities of all employees and students, and employ “filtering” protection measures during any use by employees and/or students. The “filtering” measures are intended to block Internet sites that contain violent, obscene, pornographic or sexually explicit materials. The district will comply with any and all state and federal requirements around Internet filtering for student use. The use of this software does not guarantee that students or staff will not be able to obtain objectionable or pornographic materials over the Internet, but the chances have been minimized.
 - 2. It is mandatory that staff closely monitor and supervise student use of the Internet and all other technology resources at school to ensure appropriate, educational use.
- F. The district has a special interest in regulating off-campus speech that materially disrupts classwork or involves substantial disorder or invasion of the rights of others. A student or employee engaging in the foregoing unacceptable uses of the internet when off district premises also may be in violation of this policy as well as other district policies. Examples of such violations may include, but are not limited to, serious or severe bullying or harassment targeting particular individuals, threats aimed at teachers or other students, failure to follow rules concerning lessons, the writing of papers, the use of computers, or participation in other online school activities, and breaches of school security devices. If the district receives a report of an unacceptable use originating from a non-school computer or resource, the district may investigate such reports to the best of its ability. Students or employees may be subject to disciplinary action for such conduct, including, but not limited to, suspension or cancellation of the use or access to the district computer system and the internet and discipline under other appropriate district policies, including suspension, expulsion, exclusion, or termination of employment.

IV. PARENTS’ RESPONSIBILITY; NOTIFICATION OF STUDENT INTERNET USE

Outside of school, parents are responsible for monitoring their student's use of the district system and of the Internet if the student is accessing the district system from home or a remote location.

Parents ~~may~~ have the right at any time to investigate or review the contents of their child's files and email files in accordance with the school district's Protection and Privacy of Pupil Records Policy. Parents have the right to request the termination of their child's individual account at any time.

V. NOTIFICATION REGARDING TECHNOLOGY PROVIDERS

- A. "Technology provider" means a person who:
 - 1. Contracts with the district, as part of a one-to-one program or otherwise, to provide a school-issued device for student use.
 - 2. Creates, receives, or maintains educational data pursuant or incidental to a contract with the district.
- B. "Parent" means a parent of a student and includes a natural parent, a guardian, or an individual acting as a parent in the absence of a parent or a guardian.
- C. Within 30 days of the start of each school year, the district must give parents and students direct and timely notice, by United States mail, e-mail, or other direct form of communication, of any curriculum, testing, or assessment technology provider contract affecting a student's educational data. The notice must:
 - 1. Identify each curriculum, testing, or assessment technology provider with access to educational data.
 - 2. Identify the educational data affected by the curriculum, testing, or assessment technology provider contract.
 - 3. Include information about the contract inspection and provide contact information for a school department to which a parent or student may direct questions or concerns regarding any program or activity that allows a curriculum, testing, or assessment technology provider to access a student's educational data.
- D. The district must provide parents and students an opportunity to inspect a complete copy of any contract with a technology provider.
- E. A contract between a technology provider and the district must include requirements to ensure appropriate security safeguards for educational data. The contract must require that:
 - 1. The technology provider's employees or contractors have access to educational data only if authorized.

2. The technology provider's employees or contractors may be authorized to access educational data only if access is necessary to fulfill the official duties of the employee or contractor.
- F. All educational data created, received, maintained, or disseminated by a technology provider pursuant or incidental to a contract with a public educational agency or institution are not the technology provider's property.

VI. SCHOOL-ISSUED DEVICES

- A. "School-issued device" means hardware or software that the school district, acting independently or with a technology provider, provides to an individual student for that student's dedicated personal use. A school-issued device includes a device issued through a one-to-one program.
- B. Except as provided in paragraph C, the district or a technology provider must not electronically access or monitor:
1. Any location-tracking feature of a school-issued device.
 2. Any audio or visual receiving, transmitting, or recording feature of a school-issued device., or
 3. Student interactions with a school-issued device, including but not limited to keystrokes and web-browsing activity.
- C. The school district or a technology provider may only engage in activities prohibited by paragraph B if:
1. The activity is limited to a noncommercial educational purpose for instruction, technical support, or exam-proctoring by district employees, student teachers, staff contracted by the district, a vendor, or the Minnesota Department of Education, and notice is provided in advance.
 2. The activity is permitted under a judicial warrant.
 3. The district is notified or becomes aware that the device is missing or stolen.
 4. The activity is necessary to respond to an imminent threat to life or safety and the access is limited to that purpose.
 5. The activity is necessary to comply with federal or state law, including but not limited to Minnesota Statutes section 121A.031., or

6. The activity is necessary to participate in federal or state funding programs, including but not limited to the E-Rate program.
- D. If the district or a technology provider interacts with a school-issued device as provided in paragraph C, clause 4, it must, within 72 hours of the access, notify the student to whom the school-issued device was issued or that student's parent and provide a written description of the interaction, including which features of the device were accessed and a description of the threat. This notice is not required at any time when the notice itself would pose an imminent threat to life or safety, but must instead be given within 72 hours after that imminent threat has ceased.

VII. LIMIT ON SCREEN TIME FOR CHILDREN IN PRESCHOOL AND KINDERGARTEN

A child in a publicly funded preschool or kindergarten program may not use an individual-use screen, such as a tablet, smartphone, or other digital media, without engagement from a teacher or other students. This section does not apply to a child for whom the school has an individualized family service plan, an individualized education program, or a 504 plan in effect.

VIII. CELL PHONE USE

The board directs the superintendent and district administration to establish rules and procedures regarding student possession and use of cell phones in schools. These rules and procedures should minimize the impact of cell phones on student behavior, mental health, and academic attainment. These rules and procedures may be designed for specific school buildings, grade levels, or similar criteria.

Policy 621 LITERACY AND THE READ ACT

I. PURPOSE

The district recognizes that literacy is foundational in preparing every student for lifelong success. The purpose of this policy is to establish a district-wide protocol and mindset that elevates the vital role reading plays in student achievement.

II. GENERAL STATEMENT OF POLICY

This policy aligns with Minnesota law established in the Read Act and on other topics related to reading for the Northfield School District.

III. DEFINITIONS

- A. "Evidence-based" means the instruction or item described is based on reliable, trustworthy, and valid evidence and has demonstrated a record of success in increasing students' reading competency in the areas of phonological and phonemic awareness, phonics, vocabulary development, reading fluency, and reading comprehension. Evidence-based literacy instruction is explicit, systematic, and includes phonological and phonemic awareness, phonics and decoding, spelling, fluency, vocabulary, oral language, and comprehension that can be differentiated to meet the needs of individual students. Evidence-based instruction does not include the three-cueing system, as defined in subdivision 16.
- B. "Fluency" means the ability of students to read text accurately, automatically, and with proper expression.
- C. "Foundational reading skills" includes phonological and phonemic awareness, phonics and decoding, and fluency. Foundational reading skills appropriate to each grade level must be mastered in kindergarten, grade 1, grade 2, and grade 3. Struggling readers in grades 4 and above who do not demonstrate mastery of grade-level foundational reading skills must continue to receive explicit, systematic instruction to reach mastery.
- D. "Literacy specialist" means a person licensed by the Professional Educator Licensing and Standards Board ~~as a teacher of reading, a special education teacher, or a kindergarten through grade 6 teacher~~, who has completed professional development approved by the Minnesota Department of Education (MDE) in structured literacy. ~~A literacy specialist employed by the department under [Minnesota Statutes, section 120B.123](#), subdivision 7, or by a district as a literacy lead, is not required to complete the approved training before August 30, 2025.~~
- E. "Literacy lead" means a literacy specialist with expertise in working with educators as adult learners. A district literacy lead must support the district's

implementation of the Read Act; provide support to school-based coaches; support the implementation of structured literacy, interventions, curriculum delivery, and teacher training; assist with the development of personal learning plans; and train paraprofessionals and other support staff to support classroom literacy instruction. A literacy lead may be employed by one (1) district, jointly by two (2) or more districts, or may provide services to districts through a partnership with the regional service cooperatives or another district.

- F. "Multi Tiered system of support" or "MTSS" means a systemic, continuous improvement framework for ensuring positive social, emotional, behavioral, developmental, and academic outcomes for every student. The MTSS framework provides access to layered tiers of culturally and linguistically responsive, evidence-based practices and relies on the understanding and belief that every student can learn and thrive. Through a MTSS at the core (Tier 1), supplemental (Tier 2), and intensive (Tier 3) levels, educators provide high quality, evidence-based instruction and intervention that is matched to a student's needs; progress is monitored to inform instruction and set goals and data is used for educational decision making.
- G. "Oral language," also called "expressive language" ~~or~~ and "receptive language," includes speaking and listening, and consists of five (5) components: phonology, morphology, syntax, semantics, and pragmatics. Oral language also includes sign language, in which speaking and listening skills are defined as expressive and receptive skills, and consists of phonology, including sign language phonological awareness, morphology, syntax, semantics, and pragmatics.
- H. "Parent" means a student's parent or legal guardian.
- I. "Phonemic awareness" means the ability to notice, think about, and manipulate individual sounds in spoken syllables and words.
- J. "Phonics instruction" means the explicit, systematic, and direct instruction of the relationships between letters and the sounds they represent and the application of this knowledge in reading and spelling.
- K. "Progress monitoring" means using data collected to inform whether interventions are working. Progress monitoring involves ongoing monitoring of progress that quantifies rates of improvement and informs instructional practice and the development of individualized programs using state-approved screening that is reliable and valid for the intended purpose.
- L. "Reading comprehension" means a function of word recognition skills and language comprehension skills. It is an active process that requires intentional thinking during which meaning is constructed through interactions between the text and reader. Comprehension skills are taught explicitly by demonstrating, explaining, modeling, and implementing specific cognitive strategies to help

beginning readers derive meaning through intentional, problem-solving thinking processes.

- M. "Structured literacy" means an approach to reading instruction in which teachers carefully structure important literacy skills, concepts, and the sequence of instruction to facilitate children's literacy learning and progress. Structured literacy is characterized by the provision of systematic, explicit, sequential, and diagnostic instruction in phonemic awareness, phonics, fluency, vocabulary and oral language development, and reading comprehension. This approach is consistent with the principles identified in the science of reading and is designed to ensure all students develop strong foundational literacy skills.
- N. "Three-cueing system," also known as "meaning structure visual (MSV)," means a method that teaches students to use meaning, structure and syntax, and visual cues when attempting to read an unknown word.
- O. "Vocabulary development" means the process of acquiring new words. A robust vocabulary improves all areas of communication, including listening, speaking, reading, and writing. Vocabulary growth is directly related to school achievement and is a strong predictor for reading success.

IV. READING SCREENER; PARENT NOTIFICATION AND INVOLVEMENT

- A. The district must administer an approved reading screener to students in kindergarten through grade 3 within the first six (6) weeks of the school year, by February 15 each year, and again within the last six (6) weeks of the school year. A district must provide vendor-approved screening accommodations to students with documented accommodation plans.

A district must administer an approved reading screener to students in grades 4 and above who are not reading at grade level at least once per year until the student reaches grade-level proficiency. The screener must be one of the screening tools approved by MDE.
- B. The district must identify any screener it uses in the district's annual literacy plan, and submit screening data to MDE with the annual literacy plan by June 15. The literacy plan description and requirements are described later in this policy.
- C. Schools, after administering each screener, must follow the language access plan under [Minnesota Statutes, section 123B.32](#) and give the parent of each student who is not reading at or above grade level information from the screener about:
 - 1. The student's reading proficiency as measured by a screener approved by MDE.

2. Reading-related services currently being provided to the student and the student's progress.
 3. Strategies for parents to use at home in helping their student succeed in becoming grade-level proficient in reading in English and in their native language.
- D. For students enrolled in dual language immersion programs, the school district must measure the student's reading proficiency in English or in the program's partner language, if available, according to Article V below. Following its language access plan under [Minnesota Statutes, section 123B.32](#), the school district must notify families with timely information about students' reading proficiency, including how the student's reading proficiency is assessed, any reading-related services or supports provided to the student and the student's progress, and strategies for families to use at home in helping students succeed in becoming grade-level proficient in reading in English or the partner language. The dual language immersion program may provide information about national research on reading proficiency for students in dual language immersion programs in the parent notification.
- E. The district may not use this section to deny a student's right to a special education evaluation.

V. IDENTIFICATION AND REPORT

- A. Students enrolled in kindergarten, grade 1, grade 2, and grade 3, including multilingual learners and students receiving special education services, and students enrolled in dual language immersion programs, must be universally screened for mastery of foundational reading skills, including phonemic awareness, phonics, decoding, fluency, oral language, and for characteristics of dyslexia as measured by a screening tool approved by MDE. The screening for characteristics of dyslexia may be integrated with universal screening for mastery of foundational skills and expressive or receptive language mastery. The screening tool used must be a valid and reliable universal screener that is highly correlated with foundational reading skills. ~~For students reading at grade level, beginning in the winter of grade 2, the oral reading fluency screener may be used to assess reading difficulties, including characteristics of dyslexia, without requiring a separate screening of each subcomponent of foundational reading skills.~~
- B. The district must submit data on student performance in kindergarten, grade 1, grade 2, and grade 3 on foundational reading skills, including phonemic awareness, phonics, decoding, fluency, and oral language to MDE in the annual local literacy plan submission due on June 15. The literacy plan description and requirements are described later in this policy.

- C. For students enrolled in dual language immersion programs:
1. if students are screened in the partner language, they must be screened at the same interval as the screenings in English under paragraph A above;
 2. if the program provides instruction in foundational reading skills in English, the students receiving that instruction must be screened in English;
 3. if the program provides instruction in foundational reading skills in the partner language, the students receiving that instruction must be screened in the partner language;
 4. if no screener is available in the partner language, the school district must identify how students' reading proficiency is assessed and how the school district determines and provides targeted reading instruction in the partner language and supports to students identified as needing additional support in developing mastery of foundational reading skills; and
 5. the partner language screening tool must be approved by the school district for kindergarten through grade 3 students.
- D. Students in grades 4 and above, including multilingual learners and students receiving special education services, who are not reading at grade level, must be screened for reading difficulties, including characteristics of dyslexia, using a screening tool approved by MDE and must continue to receive evidence-based instruction, interventions, and progress monitoring until the students achieve grade-level proficiency. A parent, in consultation with a teacher, may opt a student out of the literacy screener if the parent and teacher decide that continuing to screen would not be beneficial to the student. In such limited cases, the student must continue to receive progress monitoring and literacy interventions.
- E. Reading screeners in English, and in the predominant languages of school district students where practicable, must identify and evaluate students' areas of academic need related to literacy. The school district also must monitor the progress and provide reading instruction appropriate to the specific needs of multilingual learners. The school district must use an approved, developmentally appropriate, and culturally responsive screener and annually report summary screener results to the MDE Commissioner by June 15 in the form and manner determined by the Commissioner.
- F. An English language learner must be screened for characteristics of dyslexia according to the vendor's assessment guidelines.
- G. The district must include in its local literacy plan a summary of the district's efforts to screen, identify, and provide interventions to students who demonstrate

characteristics of dyslexia as measured by a screening tool approved by MDE. With respect to students screened or identified under [Minnesota Statutes, section 120B.12](#), subdivision 2, the report must include:

1. A summary of the school district's efforts to screen for characteristics of reading difficulties, including dyslexia.
2. The number of students universally screened for that reporting year.
3. The number of students demonstrating characteristics of dyslexia for that year.
4. An explanation of how students identified under this subdivision are provided with alternate instruction and interventions under [Minnesota Statutes, section 125A.56](#), subdivision 1.

VI. INTERVENTION

- A. For each student identified under the screening identification process, the district shall provide aligned and targeted reading intervention to accelerate student growth and reach the goal of reading at or above grade level by the end of the current grade and school year.
- B. The district must implement progress monitoring, as defined in [Minnesota Statutes, section 120B.119](#), for a student not reading at grade level.
- C. The district must use evidence-based curriculum and intervention materials at each grade level that are designed to ensure student mastery of phonemic awareness, phonics, vocabulary development, reading fluency, and reading comprehension. If the district purchases new literacy curriculum, or literacy intervention or supplementary materials, the curriculum or materials must be evidence-based as defined in [Minnesota Statutes, section 120B.119](#).

~~[NOTE: Starting in the 2026-2027 school year, a school district must use only evidence-based literacy interventions. The 2025 Minnesota legislature amended [Minnesota Statutes, section 120B.12](#), subdivision 3, to delay the 2025-26 requirement for one school year.]~~

- D. If a student does not read at or above grade level by the end of the ~~current~~ school year, the district must continue to provide aligned and targeted reading intervention as defined by the MTSS framework until the student reads at grade level. District intervention methods shall encourage family engagement and, where possible, collaboration with appropriate school and community programs that specialize in evidence-based instructional practices and measure mastery of foundational reading skills, including phonemic awareness, phonics, decoding,

fluency, and oral language.

- E. ~~By the 2025-2026 school year,~~ Intervention programs must be taught by an intervention teacher or special education teacher who has successfully completed training in evidence-based reading instruction approved by MDE. Intervention may include but is not limited to requiring student attendance in summer school, intensified reading instruction that may require that the student be removed from the regular classroom for part of the school day, extended-day programs, or programs that strengthen students' cultural connections.
- F. The district must determine the format of the personal learning plan in collaboration with the student's educators and other appropriate professionals. The school must develop the learning plan in consultation with the student's parent or guardian. The personal learning plan must include targeted instruction that is evidence-based and ongoing progress monitoring, and address knowledge gaps and skill deficiencies through strategies such as specific exercises and practices during and outside of the regular school day, group interventions, periodic assessments or screeners, and reasonable timelines. The personal learning plan may include grade retention, if it is in the student's best interest; a student may not be retained solely due to delays in literacy or not demonstrating grade-level proficiency. A school must maintain and regularly update and modify the personal learning plan until the student reads at grade level. This paragraph does not apply to a student under an individualized education program.

VII. LOCAL LITERACY PLAN

- A. The district must adopt a local literacy plan to have every child reading at or above grade level every year beginning in kindergarten and to support multilingual learners and students receiving special education services in achieving their individualized reading goals. The district must update and submit the plan to the Commissioner by June 15 each year. The plan must be consistent with the Read Act, and include the following:
 - 1. A process to assess students' foundational reading skills, oral language, and level of reading proficiency and the screeners used, by school site and grade level, under [Minnesota Statutes, section 120B.123](#).
 - 2. A process to notify and involve parents/guardians.
 - 3. A description of how schools in the district will determine the targeted reading instruction that is evidence-based and includes an intervention strategy for a student and the process for intensifying or modifying the reading strategy in order to obtain measurable reading progress.
 - 4. Evidence-based intervention methods for students who are not reading at or above grade level and progress monitoring to provide information on

the effectiveness of the intervention.

5. Identification of staff development needs, including a plan to meet those needs.
6. The curricula used by school site and grade level and, if applicable, the district plan and timeline for adopting evidence-based curricula and materials starting in the 2025-2026 school year.
7. A statement of whether the district has adopted an MTSS framework.
8. Student data using the measures of foundational literacy skills and mastery identified by MDE for the following students:
 - a. In kindergarten through grade 3.
 - b. Who demonstrate characteristics of dyslexia.
 - c. Students in grades 4 to 12 who are identified as not reading at grade level.
9. The number of teachers and other staff that have completed training approved by the department.
10. The number of teachers and other staff proposed for training in structured literacy.
11. How the district used funding provided under the Read Act to implement the requirements of the Read Act.
12. Beginning as soon as practicable after the end of fiscal year 2026, how the district used literacy aid funding received under [Minnesota Statutes, section 124D.98](#).
13. ~~Beginning on December 31, 2025,~~ For a district with a dual language immersion program:
 - a. the program's partner language;
 - b. grade levels included in the program;
 - c. the language used to screen students' foundational reading skills;
 - d. the percentage of grade 3 students taking the Minnesota Comprehensive Assessments; and
 - e. the number of students in the program in grades 4 to 12 who are identified as not reading at grade level.

14. Beginning with the 2026-2027 school year, a description of how schools in the district will use the school library media center to complement students' foundational reading skills.
- B. Annually by June 15, the district must post its literacy plan on the district website and submit it to the Commissioner using the template developed by the Commissioner.
- C. The school district must use a streamlined template developed by the Commissioner for local literacy plans that meets the requirements of [Minnesota Statutes, section 120B.12](#), subdivision 4a, and requires all reading instruction and teacher training in reading instruction to be evidence-based.

VIII. STAFF TRAINING

- A. The district must provide training from a menu of approved evidence-based training programs to the following teachers and staff by July 1, 2026:
 1. Reading intervention teachers working with students in kindergarten through grade 12.
 2. All classroom teachers of students in kindergarten through grade 3 and children in prekindergarten programs.
 3. Kindergarten through grade 12 special education teachers responsible for foundational reading instruction.
 4. Curriculum directors.
 5. Instructional support staff, contractors, and volunteers who assist in providing reading interventions under the oversight and monitoring of a trained licensed teacher.
 6. Employees who select literacy instructional materials for a district.
 7. Teachers holding English as a second language teaching licenses.
- B. The district must provide training from a menu of approved evidence-based training programs to the following teachers by July 1, 2027:
 1. teachers who provide foundational reading instruction to students in grades 4 to 12;
 2. teachers who provide instruction to students in a state-approved alternative program; and

3. teachers who provide instruction to students in dual language immersion programs.

The Commissioner may grant a school district an extension to these deadlines.

- C. The district must employ or contract with a literacy lead, or be actively supporting a designated literacy specialist through the process of becoming a literacy lead. The board may satisfy the requirements of this subdivision by contracting with another school board or cooperative unit under [Minnesota Statutes, section 123A.24](#) for the services of a literacy lead. The district literacy lead must collaborate with school district administrators and staff to support the district's implementation of requirements under the Read Act.
- D. Training provided by the following may satisfy the professional development requirements under this Article:
 1. a certified trained facilitator; or
 2. a training program that MDE has determined meets the professional development requirements under the Read Act.
- E. Beginning July 1, 2027, an educator required to receive training under [Minnesota Statutes, section 120B.123](#), subdivision 5, paragraph (a), who is new to the state of Minnesota or is a newly licensed teacher who did not receive instruction in the teaching of foundational reading skills based on structured literacy, must complete one (1) of the approved required trainings. Training must be offered through the regional literacy network and facilitated by a local certified trained facilitator. MDE must review district literacy lead waiver requests and grant waivers to educators new to the state or educators who provide reading instruction exclusively using alternatives to sound-based approaches, and who have completed the professional development requirements consistent with this subdivision.
- F. For the 2024-2025, 2025-2026 and 2026-2027 school years only, the hours of instruction requirement under [Minnesota Statutes, section 120A.41](#) for students in elementary and secondary school, as defined in [Minnesota Statutes, section 120A.05](#), subdivisions 9 and 13, is reduced by 5-1/2 hours for a district that enters into an agreement with the exclusive representative of the teachers that requires teachers to receive at least 5-1/2 hours of approved evidence-based training required under this subdivision, on a day when other students in the district receive instruction.

The hours of instruction reduction for secondary school students is applicable only for the 2025-2026 and 2026-2027 school years.

- G. An educator who was first enrolled in an elementary, special education, or early childhood education Minnesota-approved teacher preparation program on or after June 1, 2026, does not need to receive additional training according to [Minnesota Statutes, section 120B.123](#), subdivision 5, paragraph (a).
- H. All professional development and digital curriculum resources must comply with the accessibility standards developed according to Minnesota Statutes, section 16E.03, subdivision 9. Help Minnesota Kids Rise

Minnesota Public Schools Messaging Initiative

Who We Are

Minnesota Kids Rise is a statewide initiative dedicated to strengthening trust and pride in Minnesota's public schools. We do this by sharing local proof, real stories, and clear statistics that show how kids and communities thrive.

From small towns to city neighborhoods, public schools are where opportunity begins and community takes root. Every day, teachers, coaches, counselors, and staff create environments where kids feel seen, supported, and challenged to grow.

We recognize both the meaningful progress happening in schools and the challenges districts are working to address. Minnesota Kids Rise provides balanced and trustworthy information that helps families and community members understand how public schools are serving students and strengthening communities.

With the state's leading educational experts, we bring together real stories, local context, and clear data so Minnesotans can evaluate quality with clarity and confidence.

What We're Doing

Public schools are complex and they don't always get attention for the positive things they do for our communities. We are building confidence in Minnesota's public schools by sharing:

- **Local proof of student success**
- **Real student, teacher, and community stories**
- **Clear, easy-to-understand data**
- **Context about what schools control and what the state funds**
- **Whole-child experiences that include academics, activities, belonging, and safety**
- **Relay real stories and stats about what is evolving and improving in Minnesota public schools**

This balanced model helps Minnesotans understand what is really going on in our public schools and strengthens pride in public schools across Minnesota.

Why It Matters

Families today face constant noise from shifting headlines, politicized messaging, and expanding school choices that can turn education into a full-time research project. At the same time, public schools remain one of Minnesota's greatest shared investments. Strong public schools:

- Support thriving kids
- Strengthen neighborhoods
- Build a future workforce
- Protect property values
- Keep communities connected

When trust erodes, confidence erodes. When confidence erodes, support follows. Minnesota Kids Rise exists to restore clarity, confidence, and community pride in a way that is grounded in facts and focused on kids.

Why You Matter

Whether you are a school board member, business leader, parent, educator, student or community advocate — your voice matters. This initiative only works when trusted community leaders help share calm, credible, locally grounded information. This is your opportunity to:

- Strengthen public confidence in your local schools
- Share concrete examples of what's working
- Help families feel informed and not overwhelmed
- Reinforce that kids thriving is our shared priority
- Share real stories of what is evolving in Minnesota Public Schools

When respected leaders speak with clarity and balance, communities listen.
