

Dear Licensed Medical Provider,

In recent years, we have seen increasing emphasis on the importance of ensuring that children with disabilities have the same opportunities as other children to receive an education and education-related benefits, such as school meals. Subsequently, Congress has passed several comprehensive Acts or laws, which broaden and extend civil rights protections for Americans with disabilities. One result of these laws is an increase in the number of children with disabilities who are being educated in regular school programs. In some cases, the disability may prevent the child from eating meals prepared for the general school population.

USDA regulations (7 CFR 15b) require substitutions or modifications in school meals for children whose disabilities restrict their diets. A child with a disability that restricts his or her diet must receive food substitutions when a statement signed by a licensed medical physician, physician assistant, or advanced practice registered nurse (e.g. certified nurse practitioner) supports that need (USDA 7 CFR 210.10). The medical provider's statement must identify:

- ✓ The allergen(s) or food(s) to be avoided
- ✓ Explanation of how exposure to the allergen(s)/food(s) affects the child
- ✓ The food(s) to be omitted from the child's diet and the food or choice of foods that must be substituted

Enclosed is a blank special diet statement for you to complete for a student currently enrolled in one of our schools. The form must be completed in its entirety and signed by you. Please contact me at 507-645-3432 if you have any questions.

Respectfully,

Stephany Stromme, RDLD
Director of Child Nutrition
Northfield Public Schools

Special Diet Statement

Institutions or organizations who sponsor and operate a federally funded Child Nutrition Program must make reasonable substitutions to meals and/or snacks on a case-by-case basis for participants who are considered to have a disability that restricts their diet: School Nutrition Program – 7 CFR 210.10(m), Child and Adult Care Food Program – 7 CFR 226.20 (g), Summer Food Service Program – 7 CFR 225.16(f)(4). According to the ADA Amendments Act, most physical and mental impairments that substantially limit or affect one or more major life activities or bodily functions will constitute a disability.

Sponsors are not required to accommodate special dietary requests that do not constitute a disability, including requests related to religious or moral convictions or personal preference. If these requests are accommodated, sponsors must ensure that all USDA meal pattern and nutrient requirements are met.

This form must be completed by a licensed physician, physician assistant, or an advanced practice registered nurse, such as a certified nurse practitioner. Updates to this form are required only when a participant's needs change.

Note to Districts/Schools: Parents/Guardians may provide a written request for lactose-reduced milk without a physician's signature.
