

2021-2022 SCHOOL YEAR DECLARATION  
PARENT DAILY HEALTH SCREENINGS AND REPORTING

Updated 08.09.2021

To limit the spread of COVID-19, families need to keep their children home when they are not feeling well. It is not feasible for the school to conduct a daily health screening on campus for every student. We must have a partnership between families and the District to limit community spread of the virus.

By signing this declaration, families confirm that they will check their student's health prior to leaving for school each day. Students should remain at home if they (or anyone else in the home) have **any** of the following "more common" symptoms:

- Fever 100.0° or higher (daily home temperature check required)
- New-onset and/or worsening cough
- Difficulty breathing
- New loss of taste or smell

Students should remain at home if they (or anyone else in the home) have **at least two** of the following "less common" symptoms:

- Sore throat
- Nausea
- Vomiting
- Diarrhea
- Chills
- Muscle pain
- Excessive fatigue
- New onset of severe headache
- New onset of nasal congestion or runny nose

This list can change based on directives from the Centers for Disease Control and/or the Minnesota Department of Health. The district will notify families of any changes during the 2021-2022 school year. By signing this declaration, you are agreeing to comply with the latest list of COVID-19 symptoms. If your child has a pre-existing condition that regularly manifests itself as one of the symptoms above, please provide a medical certification to your school nurse.

» **By sending your child to school, you are reporting that your child does not have any of the symptoms listed above.**
