

Overview of Science Units & Major Resources: KINDERGARTEN

Unit 1: Earth and Space Science: Weather & Seasons

- Nature of Science and Engineering benchmarks are embedded into each unit.
- All resources for these units can be found in the kindergarten science crates at each building.

Unit 2: Physical Science: Five Senses & Matter

- Nature of Science and Engineering benchmarks are embedded into each unit.
- All resources for these units can be found in the kindergarten science crates at each building.

Unit 3: Life Science: Living & Nonliving

- Nature of Science and Engineering benchmarks are embedded into each unit.
- All resources for these units can be found in the kindergarten science crates at each building.

** See Science Curriculum Frameworks for more detailed information.*

** See grade level district shared folder for additional resources.*

KINDERGARTEN: SCIENCE CURRICULUM FRAMEWORKS

UNIT 1: EARTH AND SPACE SCIENCE: WEATHER & SEASONS (Introduced in fall, ongoing)				
Big Questions		Formative/Summative Assessments (To be determined by teachers/teams)		
1. What clothing would be appropriate for each of the 4 seasons (winter, spring, summer fall)? 2. What's the weather today? 3. How does weather/climate around the world affect the way people build houses? 4. Can you use the sun for energy? How? Nature of Science and Engineering Questions: 5. What tools does a scientist use? 6. How can you think like a scientist (observe, ask a question, form an idea, experiment)? 7. Can you identify if an object is man-made or found in nature?		Options include, but are not limited to: <ul style="list-style-type: none"> • Student will be able to tell what clothing would be appropriate for different seasons. • Student will be able to identify the day's weather by observation. • Student will be able to describe different types of housing around the world based on the climate. • Student will be able to list different ways we use sun for energy. Nature of Science and Engineering Assessments: <ul style="list-style-type: none"> • Student will be able to identify tools that a scientist might use. • Student will be able to think like a scientist (observe, ask a question, form an idea, experiment). • Student will be able to sort objects into groups that are man-made and found in nature. 		
Substrand/Standard	Curriculum Benchmark	Standards of Proficiency (To be determined by teachers/teams)	Resources*	Optional Ideas for Engineering Connections
<u>Substrand:</u> Interdependence Within the Earth System <u>Standard:</u> Understand that weather can be described in measurable quantities and changes from day to day and with the seasons.	Monitor daily and seasonal changes in weather and summarize the changes. For example: Recording cloudiness, rain, snow and temperature. <i>(Standard ESS: 0.3.2.2.1)</i>		Big Books: <ul style="list-style-type: none"> • <u>Our Sun, Our Weather</u> by Nancy White • <u>Think About the Weather</u> by Cynthia Rothman Other Materials: <ul style="list-style-type: none"> • Thermometers Student Books (6 copies each): <ul style="list-style-type: none"> • <u>A Sunny Day</u> by Robin Nelson • <u>A Cloudy Day</u> by Robin Nelson • <u>A Rainy Day</u> by Robin Nelson • <u>A Snowy Day</u> by Robin Nelson • <u>A Windy Day</u> by Robin Nelson Listening Center: <ul style="list-style-type: none"> • <u>Our Sun, Our Weather</u> by Nancy White Electronic Resources in District Grade Level Shared Folder: <ul style="list-style-type: none"> • Video: <i>A First Look at Weather</i> • Reproducible mini-book: "My Weather Book" • Reproducible: "My Book About Seasons" 	Weather is different in different parts of the world. With your students, explore how weather affects the things people create. How are houses different in hot places and in cold places? How are roofs different in snowy places? What could you use to build a house in a forest? In a desert? <i>(from "The Works"**)</i>

* All kindergarten resources are provided at each building.

KINDERGARTEN: SCIENCE CURRICULUM FRAMEWORKS

UNIT 2: PHYSICAL SCIENCE: FIVE SENSES & MATTER (Winter)				
Big Question			Formative/Summative Assessments (To be determined by teachers/teams)	
1. What are the five senses and how do you use them? 2. What are other physical properties (electricity, magnets) and what can you do with them? Nature of Science and Engineering Questions: 3. What tools does a scientist use? 4. How can you think like a scientist (observe, ask a question, form an idea, experiment)? 5. Can you identify if an object is man-made or found in nature?			Options include, but are not limited to: <ul style="list-style-type: none"> • Student will be able to identify the five senses? Nature of Science and Engineering Assessments: <ul style="list-style-type: none"> • Student will be able to identify tools that a scientist might use. • Student will be able to think like a scientist (observe, ask a question, form an idea, experiment). • Student will be able to sort objects into groups that are man-made and found in nature. 	
Substrand/Standard	Curriculum Benchmark	Standards of Proficiency (To be determined by teachers/teams)	Resources*	Optional Ideas for Engineering Connections
<u>Substrand:</u> Matter <u>Standard:</u> Understand that objects can be described in terms of the materials they are made of and their physical properties.	Sort objects in terms of color, size, shape, and texture, and communicate reasoning for the sorting system. <i>(Standard PS: 0.2.1.1.1)</i>		Big Books: <ul style="list-style-type: none"> • <u>See, Hear, Touch, Taste, Smell</u> by Melvin Berger Video: <ul style="list-style-type: none"> • <i>Our Five Senses</i> Other Materials: <ul style="list-style-type: none"> • 5 Senses Game • Sound Cubes • Mystery Box & Objects • 8 Smelling Canisters with Picture Cards(home made) Listening Center: <ul style="list-style-type: none"> • Animals Soundtracks • Nursery Rhymes Soundtracks • Soundtracks <p>(continued on next page)</p>	Explore other physical properties, too: What kinds of things can you pick up with a magnet? What materials conduct electricity? Which things sink and which things float? <i>(from "The Works"**)</i>

KINDERGARTEN: SCIENCE CURRICULUM FRAMEWORKS

UNIT 3: LIFE SCIENCE: LIVING & NON-LIVING (Spring)				
Big Questions		Formative/Summative Assessments (To be determined by teachers/teams)		
<ol style="list-style-type: none"> 1. Can you name the parts of a plant (flower, stem, leaves, root)? 2. Using pictures, can you show me the life cycle of a pumpkin (seed, sprout, flower, baby green pumpkin, medium pumpkin, large orange pumpkin)? 3. Can you name basic body parts (heads, legs, eyes, and ears) on humans and animals? 4. What is the difference between a living thing and a non-living thing? 5. Can you describe the habitat of a frog? 6. Can you describe how an engineer might work with living and non-living things? <p>Nature of Science and Engineering Questions:</p> <ol style="list-style-type: none"> 7. What tools does a scientist use? 8. How can you think like a scientist (observe, ask a question, form an idea, experiment)? 9. Can you identify if an object is man-made or found in nature? 		<p>Options include, but are not limited to:</p> <ul style="list-style-type: none"> • Student will be able to name the parts of a plan (flower, stem, leaves, root). • Student will be able to show me the life cycle of a pumpkin (seed, sprout, flower, baby green pumpkin, medium pumpkin, large orange pumpkin)? • Student will be able to identify basic body parts (heads, legs, eyes, and ears). • Student will be able to identify whether something is living or non-living. • Student will be able to describe the habitat of a frog. • Student will be able to describe how an engineer works with living and non-living things. <p>Nature of Science and Engineering Assessments:</p> <ul style="list-style-type: none"> • Student will be able to identify tools that a scientist might use. • Student will be able to think like a scientist (observe, ask a question, form an idea, experiment). • Student will be able to sort objects into groups that are man-made and found in nature. 		
Substrand/Standard	Curriculum Benchmark	Standards of Proficiency (To be determined by teachers/teams)	Resources*	Optional Ideas for Engineering Connections
<p><u>Substrand</u>: Structure and Function in Living Systems</p> <p><u>Standard</u>: Understand that living things are diverse with many different observable characteristics.</p>	<p>Observe and compare plants and animals. (<i>Standard LS: 0.4.1.1.1</i>)</p>		<p>Big Book:</p> <ul style="list-style-type: none"> • <u>Growing Pumpkins</u> by Melvin Berger • <u>The Vegetable Garden</u> by Melvin Berger • <u>Life Cycle of a Bird</u> by Bobbie Kalman <p>Reproducible:</p> <ul style="list-style-type: none"> • <u>Pumpkin, Pumpkin</u> mini-book with picture cards <p>Field Trip:</p> <ul style="list-style-type: none"> • To Thorn Crest Farm in Dundas (usually in October) <p>Electronic Resources in District Grade Level Shared Folder:</p> <ul style="list-style-type: none"> • Video: <i>Tadpoles Grow Into Frogs</i> • SMART Board: The Tiny Seed Retelling
