Policy 207 PUBLIC HEARINGS

I. PURPOSE

The Northfield School District Board of Education is committed to people, communications, and partnerships, and recognizes the importance of obtaining public input on matters properly before the board during a public hearing. The purpose of this policy is to establish procedures to efficiently receive public input.

II. GENERAL STATEMENT OF POLICY

To effectively gather public feedback on relevant issues, the board has established the following policy.

III. PROCEDURES

A. *Public Hearings*

Public hearings are required by law concerning certain issues, including but not limited to, school closings, education district establishment, and agreements for secondary education. Additionally, other public hearings may be held by the board on district matters at the board's discretion.

B. *Notice of Public Hearings*

Public notice for a public hearing, as mandated by law, must be given as outlined in the enabling legislation. For other hearings held in conjunction with a regular meeting, the notice should follow the requirements for a regular meeting. Similarly, for hearings held with a special meeting, the notice should adhere to the requirements for a special meeting, or as otherwise decided by the board.

C. *Public Participation*

The board maintains the right to require that those in attendance at a public hearing indicate their desire to address the board and complete and file with the clerk of the board an appropriate request prior to the commencement of the hearing if the board uses this procedure. Those who wish to address the board must be: residents of the district, owners of businesses or property physically located in the district, parents/guardians, students, or an employee of the district. Any request to address the board after the commencement of the hearing will be granted only at the board's discretion.

1. ***Format of Request.*** The board chair will outline the procedure and process for addressing the board at the beginning of the public hearing. Each speaker will be required to share their first and last name, validate that they are a district stakeholder as outlined in Section IIIC, and, when applicable, the group they represent. The board may require a brief statement of the subject to be covered or the issue to be addressed prior to allowing the speaker to address the board.

2. ***Time Limitation.*** The board retains the discretion to limit the time for each presentation.
3. ***Groups.*** The board retains the discretion to require that any group of persons who desire to address the school board designate one representative or spokesperson. If the board requires designation of a representative or spokesperson, no other person in the group will be recognized to address the board, except as the board otherwise determines.
4. ***Privilege to Speak.*** A board member should direct remarks or questions through the chair. Only those speakers recognized by the chair will be allowed to speak. Comments by others are out of order. Individuals who interfere with or interrupt speakers, the board, or the proceedings may be directed to leave.
5. ***Personal Attacks.*** Personal attacks by anyone addressing the board are unacceptable. Persistence in such remarks by an individual shall terminate that person's privilege to address the board.
6. ***Limitations on Participation.*** Depending upon the number of persons in attendance seeking to be heard, the board reserves the right to establish other limitations and restrictions as necessary to provide an orderly, efficient, and fair opportunity to be heard.

Policy 208 DEVELOPMENT, ADOPTION AND IMPLEMENTATION OF POLICIES

I. PURPOSE

The purpose of this policy is to emphasize the importance of the policy-making role of the Northfield School District Board of Education and provide the means for it to be an ongoing effort.

II. GENERAL STATEMENT OF POLICY

Formal guidelines are necessary to ensure the school community that the school system responds to its mission and operates in an effective, efficient, and consistent manner. A set of written policies shall be maintained and modified as needed. Policies should define the desire and intent of the school board and should be in a form that is sufficiently explicit to guide administrative action.

III. DEVELOPMENT OF POLICY

- A. The board has jurisdiction to legislate policy with the force and effect of law for the school district. District policy provides the board's general direction for the district while delegating implementation to the administration.
- B. The district's policies provide guidelines and goals to the school community. The policies are the basis for guidelines and directives created by the administration. The board shall determine the effectiveness of the policies by evaluating periodic reports from the administration.
- C. Policies may be proposed by a board member, employee, student, or resident of the district. Proposed policies or ideas shall be submitted to the superintendent for consideration.

IV. ADOPTION AND REVIEW OF POLICY

- A. The board shall give notice of proposed policy changes or the adoption of new policies by placing the item on the agenda of two school board meetings.
- B. The final action taken to adopt the proposed policy shall be approved by a simple majority vote of the board. The policy will be effective on the latter of the date of passage or the date stated in the motion.
- C. In an emergency, a new or modified policy may be adopted by a majority vote of a quorum of the board in a single meeting. A statement regarding the emergency and the need for immediate adoption of the policy shall be included in the minutes. The policy adopted in an emergency shall expire within one year following the emergency action unless the policy adoption procedure stated above is followed and the policy is reaffirmed. The board shall have discretion to determine what constitutes an emergency situation.
- D. If a policy is modified because of a legal change over which the board has no control, the modified policy may be approved at one meeting at the discretion of the board in the consent agenda.

- E. If the policy is modified with a minor change that does not affect the substance of the policy, the board's policy committee can make these changes without approval of the board. The policy will include notation as "reviewed" and include the date.
- F. The district retains policies in accordance with the School District General Records Retention Schedule.

V. IMPLEMENTATION AND ACCESS TO POLICY

- A. The superintendent shall be responsible for implementing board policies, other than the policies that cover how the board will operate. The superintendent shall develop administrative guidelines and directives to provide greater specificity and consistency in the process of implementation.
- B. Each board member shall have online access to district policies. Policies are available online and printed copies are available by request from the superintendent's office for reference purposes to other interested persons.
- C. The superintendent, employees designated by the superintendent, and individual school board members shall be responsible for keeping policies current.
- D. The board shall review policies at least once every five years. The superintendent shall be responsible for developing a system of periodic review. In addition, the board shall review the following policies annually: 506 Student Discipline, 722 Public Data Requests, and 806 Crisis Management Policy.
- E. When no board policy exists to provide guidance on a matter, the superintendent is authorized to act appropriately under the circumstances keeping in mind the mission, educational philosophy, and financial condition of the district. Under such circumstances, the superintendent shall advise the board of the need for a policy and present a recommended policy to the policy committee for consideration. Upon approval by the policy committee the recommended policy will go to the board for approval.

3. Consider myself a trustee of public education and do my best to protect, conserve, and advance its progress.
4. Recognize that my responsibility, exercised through the actions of the board as a whole, is to see that the schools are properly managed, not to manage them myself.

6. Delegate the implementation of board decisions to the superintendent.

C. TO MAINTAIN RELATIONS WITH OTHER MEMBERS OF THE SCHOOL BOARD I WILL:

1. Respect the rights of others to have and express opinions.

4. Keep an open mind about how I will vote on any proposition until the board has met and fully discussed the issue.
5. Make decisions by voting in board meetings after all sides of debatable questions have been presented.
6. Recognize that committees are appointed to serve only in an advisory capacity to the board.

D. IN MEETING MY RESPONSIBILITIES TO MY COMMUNITY I WILL:

1. Appraise and plan for both the present and future educational needs of the district and community.
2. Advocate to obtain adequate financial support for the district's programs.

2. Give the superintendent authority commensurate with their responsibility.
3. Expect the superintendent to keep the board adequately informed.
4. Assure that the district will be administered by the best professional personnel available.

9. Recognize the status of the superintendent as the chief executive officer and a non-voting, ex officio member of the board.
10. Respond to complaints by using the chain of responsibility as outlined in [Policy 103](#).
11. Present personal criticisms of employees to the superintendent.
12. Provide support for the superintendent and the district so they may perform their proper functions on a professional level.

F. IN FULFILLING MY LEGAL OBLIGATIONS AS A SCHOOL BOARD MEMBER I WILL:

1. Comply with all federal, state, and local laws relating to my work as a board member.
2. Comply with all district policies as adopted by the board.
3. Abide by all rules and regulations as promulgated by the Minnesota Department of Education and other federal and state agencies with jurisdiction over school districts.

Policy 210 CONFLICT OF INTEREST – SCHOOL BOARD MEMBERS

I. PURPOSE

The purpose of this policy is to observe state statutes regarding conflicts of interest and to engage in Northfield School District business activities in a fashion designed to avoid any conflict of interest or the appearance of impropriety.

II. GENERAL STATEMENT OF POLICY

It is the policy of the school board to contract for goods and services in conformance with statutory conflict of interest laws and in a manner that will avoid any conflict of interest or the appearance thereof. Accordingly, the board will contract under the statutory exception provisions only when it is clearly in the best interest of the school district because of limitations that may exist on goods or services otherwise available to the district.

III. GENERAL PROHIBITIONS AND RECOGNIZED STATUTORY EXCEPTIONS

- A. A school board member who is authorized to take part in any manner in making any sale, lease, or contract in his or her official capacity shall not voluntarily have a personal financial interest in that sale, lease, or contract or personally benefit financially therefrom.
- B. In the following circumstances, however, the board may as an exception, by unanimous vote, contract for goods or services with a board member of the district:
 - 1. In the designation of a bank or savings association, in which a board member is interested, as an authorized depository for district funds and as a source of borrowing, provided such deposited funds are protected in accordance with Minnesota Statutes chapter 118A. Any board member having said interest shall disclose that interest and the interest shall be entered upon the board minutes. Disclosure shall be made when such bank or savings association is first designated as a depository or source of borrowing, or when such board member is elected, whichever is later. Disclosure serves as notice of the interest and need only be made once.
 - 2. The designation of an official newspaper, or publication of official matters therein, in which the board member is interested when it is the only newspaper complying with statutory requirements relating to the designation or publication.
 - 3. A contract with a cooperative association of which the board member is a shareholder or stockholder but not an officer or manager.
 - 4. A contract for which competitive bids are not required by law. A contract

made under this exception will be void unless the following procedures are observed:

- a. The board shall authorize the contract in advance of its performance by adopting a resolution setting out the essential facts and determining that the contract price is as low as or lower than the price at which the goods or services could be obtained elsewhere.
 - b. In the case of an emergency when the contract cannot be authorized in advance, payment of the claims must be authorized by a like resolution wherein the facts of the emergency are also stated.
 - c. Before a claim is paid, the interested board member shall file with the clerk of the board an affidavit stating:
 - (1) The name of the board member and the office held.
 - (2) An itemization of the goods or services furnished.
 - (3) The contract price.
 - (4) The reasonable value.
 - (5) The interest of the board member in the contract.
 - (6) To the best of the board member's knowledge and belief, the contract price is as low as, or lower than, the price at which the goods or services could be obtained from other sources.
5. A school member may rent space in a public facility at a rate commensurate with that paid by other members of the public.
- C. In the following circumstances, the board may as an exception, by majority vote at a meeting at which all board members are present, contract for services with a board member of the district. A board member may be newly employed or may continue to be employed by the district as an employee only if there is a reasonable expectation on July 1, or at the time the contract is entered into or extended, that the amount to be earned by that board member under that contract or employment relationship, will not exceed \$20,000 in that fiscal year. If the board member does not receive majority approval to be initially employed or to continue in employment at a meeting at which all board members are present, that employment is immediately terminated and that board member has no further rights to employment while serving as a board member in the district.
- D. The board may contract with a class of district employees, such as teachers or custodians, when the spouse of a board member is a member of the class of employees contracting with the board and the employee spouse receives no special monetary or other benefit that is substantially different from the benefits that other members of the class receive under the employment contract. For the board to invoke this exception, it must have a majority of disinterested board members vote to approve the contract, direct the board member spouse to abstain from voting to approve the contract, and publicly set out the essential facts of the contract at the meeting in which the contract is approved.

IV. LIMITATIONS ON RELATED EMPLOYEES

- A. The board must hire or dismiss teachers only at duly called meetings. When a husband and wife, brother and sister, or two brothers or sisters, constitute a quorum, no contract employing a teacher may be made or authorized except upon the unanimous vote of the full board.
- B. The board may not employ any teacher related by blood or marriage to a board member, within the fourth degree as computed by the civil law, except by a unanimous vote of the full board.

V. CONFLICTS PRIOR TO TAKING OFFICE

A board member with a personal financial interest in a sale, lease, or contract with the district which was entered before the board member took office and presents an actual or potential conflict of interest, shall immediately notify the board of such interest. It shall thereafter be the responsibility of the board member to refrain from participating in any action relating to the sale, lease, or contract. At the time of renewal of any such sale, lease, or contract, the board may enter into or renew such sale, lease, or contract only if it falls within one of the enumerated exceptions for contracts relating to goods or services provided above and if the procedures provided in this policy are followed.

VI. DETERMINATION AS TO WHETHER A CONFLICT OF INTEREST EXISTS

The determination as to whether a conflict of interest exists is to be made by the board. Any board member who has an actual or potential conflict shall notify the board of such conflict immediately. The board member shall thereafter cooperate with the board as necessary for the board to make its determination.

Policy 210.1 CHARTER SCHOOL BOARD MEMBERS AND AUTHORIZER CONFLICT OF INTEREST

I. PURPOSE

The purpose of this policy is to observe state statutes regarding conflicts of interest for charter school board members, Northfield School District, and to engage in charter school business activities in a fashion designed to avoid any conflict of interest or the appearance of impropriety.

II. GENERAL STATEMENT OF POLICY

The policy of the charter school board is to conform with statutory conflict of interest laws and act in a manner that will avoid any conflict of interest or the appearance thereof. As an authorizer, Northfield Public Schools does not run charter schools. The district functions to carry out monitoring and oversight, to assure compliance with the law, and support the establishment and success of innovative and successful public charter schools. Therefore, Northfield Public Schools shall not enter into the following types of contracts with schools it authorizes: financial management, administration, accounting or auditing services, or lease of space.

III. CONFLICTING BUSINESS RELATIONSHIPS

- A. An individual is prohibited from serving as a member of the board of directors of a charter school if the individual, an immediate family member, or the individual's partner is a full or part owner or principal with a for-profit or nonprofit entity or independent contractor with whom the charter school contracts, directly or indirectly, for professional services, goods, or facilities. An individual is prohibited from serving as a board member if an immediate family member is an employee of the school. A violation of this prohibition renders a contract voidable at the option of the Minnesota Commissioner of Education or the charter school board of directors. A member of a charter school board of directors who violates this prohibition is individually liable to the charter school for any damage caused by the violation. An individual may serve as a member of the board of directors if no conflict of interest under this paragraph exists.
- B. No member of the board of directors, employee, officer, or agent of a charter school shall participate in selecting, awarding, or administering a contract if a conflict of interest exists. A conflict exists when:
 - (1) The board member, employee, officer, or agent.
 - (2) The immediate family of the board member, employee, officer, or agent.
 - (3) The partner of the board member, employee, officer, or agent.
 - (4) An organization that employs, or is about to employ, any individual in clauses one to three, has a financial or other interest in the entity with which the charter school is contracting. A violation of this provision renders the contract void. Before the district would offer any other services to schools, such as training, the board will first obtain clarification to confirm that provision of such services is allowed to charter school authorizers.

- C. Any employee, agent, or board member of the authorizer of a charter school who participates in the initial review, approval, ongoing oversight, evaluation, or the charter renewal or nonrenewal process or decision is ineligible to serve on the board of directors of a school chartered by that authorizer.
- D. The charter school board member conflict of interest provisions do not apply to compensation paid to a teacher employed as a teacher by the charter school or a teacher who provides instructional services to the charter school through a cooperative formed under Minn. Stat. Ch. 308A when the teacher also serves on the charter school board of directors.
- E. A charter school board member, employee, or officer is a local official with regard to the receipt of gifts. A board member, employee, or officer must not receive compensation from a group health insurance provider.

IV. RESPONSIBILITIES

Northfield Public Schools' responsibilities as an authorizer require that it provide comprehensive oversight of its chartered schools. Northfield Public Schools is a legally authorized agency to help ensure public accountability for the schools that Northfield Public Schools authorizes. Northfield Public Schools will operate in a monitoring relationship providing feedback on compliance, sharing observations, asking questions, facilitating sharing of effective practices and evaluating school performance based on the Northfield Public Schools charter school contract and law to help ensure the success of the schools that Northfield Public Schools authorizes.

The sole purpose of Northfield Public Schools, as an authorizer, is to authorize public charter schools in accordance with all Minnesota Statutes that govern the duties and responsibilities of charter school authorizers. Contracts with authorized schools will provide that the schools have the full extent of autonomy allowed to Minnesota charter schools under the law, and that except as otherwise provided by the authorizer contract or applicable law, the authorizer has no authority, control, power, administrative or financial responsibility over the school.

I. PURPOSE

The purpose of this policy is to provide guidance about Northfield School District's position, rights, and responsibilities when a civil or criminal action is pending against the school district, or a school board member, school district employee or student.

II. GENERAL STATEMENT OF POLICY

- A. The district recognizes that, when civil or criminal action is pending against a board member, district employee, or student, the district may be requested or required to take action.
- B. In responding to such requests and/or requirements, the district will take such measures as are appropriate to its primary mission of providing for the education of students in an environment that is safe for staff and students and is conducive to learning.
- C. The district acknowledges its statutory obligations with respect to providing assistance to board members and teachers who are sued in connection with performance of district duties. Collective bargaining agreements and district policies may also apply.

III. CIVIL ACTIONS

- A. Pursuant to Minnesota Statutes Section 466.07, subd. 1, the district shall defend and indemnify any board member or district employee for damages in school-related litigation, including punitive damages, claimed or levied against the board member or employee, provided that the board member or employee was acting in the performance of the duties of the position and was not guilty of malfeasance, willful neglect of duty, or bad faith.
- B. Pursuant to Minnesota Statutes Section 123B.25(b), with respect to teachers employed by the district, upon written request of the teacher involved, the district must provide legal counsel for any teacher against whom a claim is made or action is brought for recovery of damages in any tort action involving physical injury to any person or property or for wrongful death arising out of or in connection with the employment of the teacher with the district. The district will choose legal counsel after consultation with the teacher.
- C. Data Practices
Educational data and personnel data maintained by the district may be sought as evidence in a civil proceeding. The district will release the data only pursuant to the Minnesota Government Data Practices Act, Minnesota Statutes Chapter 13 and to the Family Educational Rights and Privacy Act, 20 United States Code 1232g, and related regulations. When an employee is subpoenaed and is expected to testify regarding

educational data or personnel data, the employee will inform the building administrator or designated supervisor, who shall immediately inform the superintendent or designee. No board member or employee may release data without written authorization and consultation in advance from the district official who is designated as the responsible authority for the collection, use, and dissemination of data.

D. Service of Subpoenas

District officers and employees will normally not be involved in providing service of process for third parties in the school setting.

E. Leave to Testify

Leave for employees appearing in court, either when sued or under subpoena to testify, will be considered in accordance with district personnel policies and applicable collective bargaining agreements.

IV. **CRIMINAL CHARGES OR CONDUCT**

A. Employees

1. The district expects that its employees serve as positive role models for students. As role models for students, employees have a duty to conduct themselves in an exemplary manner.
2. If the district receives information relating to activities of a criminal nature by an employee, the district will investigate and take appropriate disciplinary action, which may include discharge, subject to district policies, statutes and provisions of applicable collective bargaining agreements.
3. Pursuant to Minnesota Statutes Section 123B.02, Subd. 20, if reimbursement for a criminal defense is requested by a district employee, the board may, after consulting with its legal counsel, reimburse the employee for any costs and reasonable attorney fees incurred by the employee to defend criminal charges brought against the employee arising out of the performance of duties for the district. The decision whether to reimburse shall be made at the board's discretion. A board member who is a witness or an alleged victim in the case may not vote on the reimbursement. If a quorum of the board is disqualified from voting on the reimbursement, the reimbursement must be approved by a judge of the district court.

B. Students

The district has an interest in maintaining a safe and healthful environment and in preventing disruption of the educational process. To promote that interest, the district will take appropriate action regarding students convicted of crimes that relate to the environment.

C. Criminal Investigations

1. The policy of the district is to cooperate with law enforcement officials. The district will make all efforts, however, to encourage law enforcement officials to question students and employees outside of school hours and off school premises unless extenuating circumstances exist, the matter being investigated is school-related, or as otherwise provided by law.
2. If questioning at school is unavoidable, law enforcement officers may interview students on campus about issues outside of the school's jurisdiction only when parents/guardians have granted permission. The interview will take place in a closed room away from the view of students and adults. An administrator may be in attendance except as otherwise required by law (Minnesota Statutes Section 260E.22), or as otherwise determined in consultation with the parent/guardian.

D. Data Practices

The district will release to juvenile justice and law enforcement authorities educational and personnel data only in accordance with Minnesota Statutes Chapter 13 (Minnesota Government Data Practices Act) and 20 United States Code Section 1232g (FERPA).

V. STATEMENTS WHEN LITIGATION IS PENDING

The district recognizes that when a civil or criminal action has commenced or is pending, parties to the lawsuit have particular duties in reference to persons involved or named in the lawsuit, as well as insurance carrier(s). Therefore, board members or district employees shall make or release statements in that situation only in consultation with legal counsel.

Policy 403 DISCIPLINE, SUSPENSION, AND DISMISSAL OF SCHOOL DISTRICT EMPLOYEES

I. PURPOSE

The professional performance of school district employees is essential for the district to achieve its vision, strategic commitments, and benchmarks. The purpose of this policy is to achieve effective operation of the Northfield School District's programs through the cooperation of all employees under a system of policies and rules applied fairly and uniformly.

II. GENERAL STATEMENT OF POLICY

The disciplinary process described herein is designed to utilize progressive steps, where appropriate, to produce positive corrective action. For those who belong to a union, representation will be offered. While the district intends that in most cases progressive discipline will be administered, the specific form of discipline chosen in a particular case and/or the decision to impose discipline in a manner otherwise, is solely within the discretion of the district.

III. DISCIPLINE

A. *Violation of School Laws and Rules*

The form of discipline imposed for violations of school laws and rules may vary from an oral reprimand to termination of employment or discharge depending upon factors such as the nature of the violation, whether the violation was intentional, knowing and/or willful and whether the employee has been the subject of prior disciplinary action of the same or a different nature. School laws and rules to which this provision applies include:

1. Policies of the school district.
2. Directives and/or job requirements imposed by administration and/or the employee's supervisor.
3. Federal, state and local laws, rules and regulations, including, but not limited to, the rules and regulations adopted by federal and state agencies.

B. *Substandard Performance*

An employee's substandard performance may result in the imposition of discipline ranging from an oral reprimand to termination of employment or discharge. In most instances, discipline imposed for the reason of substandard performance will follow a progressive format and will be accompanied by guidance, help and encouragement to improve from the employee's supervisor and reasonable time for correction of the employee's deficiency.

C. *Misconduct*

Misconduct of an employee will result in the imposition of discipline consistent with the seriousness of the misconduct. Conduct which falls into this category includes, but is not limited to:

1. Unprofessional conduct.
2. Failure to observe rules, regulations, policies and standards of the district and/or directives and orders of supervisors and any other act of an insubordinate nature.
3. Continuing neglect of duties in spite of oral warnings, written warnings and/or other forms of discipline.
4. Personal and/or immoral misconduct.
5. Use of illegal drugs, alcohol or any other chemical substance on the job or any use off the job which impacts on the employee's performance.
6. Deliberate and serious violation of the rights and freedoms of other employees, students, parents or other persons in the school community.
7. Activities of a criminal nature relating to the fitness or effectiveness of the employee to perform the duties of the position.
8. Failure to follow the canons of professional and personal ethics.
9. Falsification of credentials and experience.
10. Unauthorized destruction of district property.
11. Other good and sufficient grounds relating to any other act constituting inappropriate conduct.
12. Neglect of duty.
13. Violation of the rights of others as provided by federal and state laws related to human rights.

IV. FORMS OF DISCIPLINE

- A. The forms of discipline that may be imposed by the district include, but are not limited to:
 1. Oral warning.
 2. Written warning or reprimand.
 3. Probation.
 4. Disciplinary suspension, demotion or leave of absence with pay.
 5. Disciplinary suspension, demotion or leave of absence without pay.
 6. Dismissal/termination or discharge from employment.
- B. Other forms of discipline, including any combination of the forms described in Paragraph A., above, may be imposed if, in the judgment of the administration, another form of discipline will better accomplish the district's objective of stopping or correcting the offending conduct and improving the employee's performance.

V. PROCEDURES FOR ADMINISTERING POLICY

- A. When any form of discipline is imposed, the employee's supervisor will:
 1. Advise the employee of any inadequacy, deficiency or conduct which is the cause of the discipline, either orally or in writing. If given orally, the supervisor will document the fact that an oral

warning was given to the employee specifying the date, time and nature of the oral warning.

2. Provide directives to the employee to correct the conduct or performance.
3. Forward copies of all writings to the administrator in charge of personnel for filing in the employee's personnel file.
4. Allow a reasonable period of time, when appropriate, for the employee to correct or remediate the performance or conduct.
5. Specify the expected level of performance or modification of conduct to be required from the employee.

- B. The district retains the right to immediately discipline, terminate or discharge an employee as appropriate, subject to relevant governing law and collective bargaining agreements when applicable.

Policy 404 EMPLOYMENT BACKGROUND CHECKS

I. PURPOSE

The purpose of this policy is to maintain a safe and healthful environment in Northfield Public Schools in order to prepare every student for lifelong success and its commitments to people and equity. To that end, the school district will seek a criminal history background check for applicants who receive an offer of employment with the district or such other background checks as provided by this policy. The district may also elect to do background checks of volunteers, independent contractors and student employees in the district over the age of 18.

II. GENERAL STATEMENT OF POLICY

- A. The district shall require that applicants for district positions who receive an offer of employment and all individuals, except student workers/volunteers under the age of eighteen (18), who are offered the opportunity to provide athletic coaching services or other extracurricular academic coaching services to the district, regardless of whether any compensation is paid, submit to a criminal history background check. The offer of employment shall be conditioned upon a determination by the district that an applicant's criminal history does not preclude the applicant from employment with, or provision of services to, the district.
- B. The district specifically reserves any and all rights it may have to conduct background checks regarding current employees, or service providers without the consent of such individuals.
- C. Adherence to this policy by the district shall in no way limit the district's right to require additional information, or to use procedures currently in place or other procedures to gain additional background information concerning employees, applicants, volunteers, service providers, independent contractors and student employees.

III. PROCEDURES

- A. An individual will not commence employment or provide services until the district receives the results of the criminal history background check. Background checks will be performed by a district approved vendor and shall include data from the Minnesota Bureau of Criminal Apprehension ("BCA"). The BCA shall conduct the background check by retrieving criminal history data as defined in Minnesota Statutes section 13.87. The district reserves the right to also have criminal history background checks conducted by other organizations or agencies.
- B. In order for an individual to be eligible for employment or to provide athletic coaching services or other extracurricular academic coaching services to the district, except for a student worker/volunteer under the age of eighteen (18), the individual must complete the online application process. Completion of this process provides permission to conduct a criminal history background check. The cost of the criminal history background check is the responsibility of the individual, unless the district decides to pay the costs for a volunteer, an independent contractor, or a student employee. If the individual fails to complete

the process or pay the fee at the time the individual receives a job offer, or permission to provide services, the individual will be considered to have voluntarily withdrawn the application for employment or request to provide services.

- C. The district may use the results of a criminal background check conducted at the request of another school hiring authority if:
 - 1. The results of the criminal background check are on file with the other school hiring authority or otherwise accessible.
 - 2. The other school hiring authority conducted a criminal background check within the previous 12 months and the standards of the other school hiring authority match those of the district.
 - 3. The individual executes a written consent form giving the district access to the results of the check.
 - 4. There is no reason to believe that the individual has committed an act subsequent to the check that would disqualify the individual for employment or provision of services.
- D. For all nonstate residents who are offered employment with or the opportunity to provide athletic coaching services or other extracurricular academic coaching service to the district, the district shall request a criminal history background check on such individuals from the superintendent of the BCA and from the government agency performing the same function in the resident state, or if no government entity performs the same function in the resident state, from the Federal Bureau of Investigation. The offer of employment or the opportunity to provide services shall be conditioned upon a determination by the district that an individual's criminal history does not preclude the individual from employment with, or provision of services to, the district. Such applicants must provide an executed criminal history consent form.
- E. When required, individuals must provide fingerprints to assist in a criminal history background check. If the fingerprints provided by the individual are unusable, the individual will be required to submit another set of prints.
- F. Copies of this policy shall be available in the district's employment office and will be distributed to applicants for employment and individuals who are offered the opportunity to provide athletic coaching services or other extracurricular academic coaching service upon request. The need to submit to a criminal history background check may be included with the basic criteria for employment or provision of services in the position posting and position advertisements.
- G. The individual will be informed of the results of the criminal background check(s) to the extent required by law.
- H. If the criminal history background check precludes employment with the district, the individual will be so advised.
- I. The district shall apply these procedures to volunteers, independent contractors or student employees.

- J. At the beginning of each school year or when a student enrolls, the district will notify parents and guardians about this policy and identify those positions subject to a background check and the extent of the district's discretion in requiring a background check. The district may include this notice in its student handbook, a school policy guide, or other similar communication. A form notice for this purpose is included with this policy.
- K. Volunteer background checks are conducted annually.

This policy aims to align with the district's strategic commitments to people. Northfield School District complies with the Minnesota Veterans Preference Act (VPA) which provides preference points for veterans applying for employment with political subdivisions, including school districts, as well as additional rights for veterans in the discharge process.

II. GENERAL STATEMENT OF POLICY

- A. The district's policy is to comply with the VPA regarding veteran's preference rights and the mandated preference points to veterans and spouses of deceased veterans or disabled veterans.
- B. The district's policy is also to comply with the VPA requirement that no covered veteran may be removed from public employment except for incompetency or misconduct shown after a hearing upon due notice, upon stated charges, and in writing. This paragraph does not apply to the position of teacher.
- C. Veteran preference points will be applied pursuant to applicable law as follows:

- E. When notifying applicants that they have been accepted into the selection process, the school district shall notify applicants that they may elect to use veteran's preference.
- F. The district's policy is to use a 100-point hiring system to enable allocation of veteran preference points. The school district may or may not use a 100-point

hiring system for filling teaching positions. If a 100-point hiring system is not used for filling a teaching position, preference points will not be added, but all veteran applicants who have proper licensure for the teaching position will be granted an interview for the position.

- G. If the district rejects a member of the finalist pool who has claimed veteran's preference, the school district shall notify the finalist in writing of the reasons for the rejection and file the notice with the district's personnel officer.

[Note: A school district may require a veteran to complete an initial hiring probationary period as defined in Minn. Stat. § 43A.16.]

- H. In accordance with the VPA, no honorably discharged veteran shall be removed from a position of employment except for incompetency, misconduct, or good faith abolishment of position.

1. Incompetency or misconduct must be shown after a hearing, upon due notice, upon stated charges, in writing.
2. A veteran must irrevocably elect to be governed either by the VPA or by arbitration provisions set forth in a collective bargaining agreement in the event of a discharge.

C. “Eligible employee” means an employee who has been employed by the district for a total of at least 12 months and who has been employed for at least 1,250 hours of service during the 12-month period immediately preceding the commencement of the leave. An employee returning from fulfilling his or her Uniformed Services Employment and Reemployment Rights Act (USERRA)-covered service obligation shall be credited with the hours of service that would have been performed but for the period of absence from work due to or

In determining whether the employee met the hours of service requirement, and to determine the hours that would have been worked during the period of absence from work due to or necessitated by USERRA-covered service, the employee's pre-service work schedule can generally be used for calculations. While the 12 months of employment need not be consecutive, employment periods prior to a break in service of seven years or more may not be counted unless the break is occasioned by the employee's fulfillment of his or her USERRA-covered service obligation or a written agreement, including a collective bargaining agreement, exists concerning the district's intention to rehire the employee after the break in service.

When no such designation is made and there are multiple family members with the same level of relationship to the covered servicemember, all such family members shall be considered the covered servicemember's next of kin, and the employee may take FMLA leave to provide care to the covered servicemember, either consecutively or simultaneously. When such designation has been made, the designated individual shall be deemed to be the covered servicemember's only next of kin.
- F. "Outpatient status" means, with respect to a covered servicemember who is a current member of the Armed Forces, the status of a member of the Armed Forces assigned to:
 - 1. A military medical treatment facility as an outpatient., or
 - 2. A unit established for the purpose of providing command and control of members of the Armed Forces receiving care as outpatients.

IV. LEAVE ENTITLEMENT

A. Twelve-week Leave under Federal Law

1. Eligible employees are entitled to a total of 12 work weeks of unpaid family or medical leave during the applicable 12-month period as defined below, plus any additional leave as required by law. Leave may be taken for one or more of the following reasons in accordance with applicable law:
 - a. Birth of the employee's child and to care for such child.
 - b. Placement of an adopted or foster child with the employee.
 - c. To care for the employee's spouse, son, daughter, or parent with a serious health condition.
 - d. The employee's serious health condition makes the employee unable to perform the functions of the employee's job.

- e. Any qualifying exigency arising from the employee's spouse, son, daughter, or parent being on covered active duty, or notified of an impending call or order to covered active duty in the Armed Forces.
- 2. For the purposes of this policy, "year" is defined as a rolling 12-month period measured backward from the date an employee's leave is to commence.
- 3. An employee's entitlement to FMLA leave for the birth, adoption, or foster care of a child expires at the end of the 12-month period beginning on the date of the birth or placement.
- 4. A "serious health condition" typically requires either inpatient care or continuing treatment by or under the supervision of a health care provider, as defined by applicable law. Family and medical leave generally is not intended to cover short-term conditions for which treatment and recovery are very brief.
- 5. A "serious injury or illness" in the case of a member of the Armed Forces, including a member of the National Guard or Reserves, means:
 - a. Injury or illness that was incurred by the member in the line of duty on active duty in the Armed Forces (or that existed before the beginning of the member's active duty and was aggravated by service in the line of duty on active duty in the Armed Forces) and that may render the member medically unfit to perform the duties of the member's office, grade, rank, or rating., and
 - b. In the case of a covered veteran who was a member of the Armed Forces, including a member of the National Guard or Reserves, at any time, during the period of five years preceding the date on which the veteran undergoes the medical treatment, recuperation, or therapy, means a qualifying injury or illness that was incurred by the member in the line of duty on active duty in the Armed Forces (or that existed before the beginning of the member's active duty and was aggravated by service in the line of duty in the Armed Forces) and that manifested itself before or after the member became a veteran, and is:
 - (i) A continuation of a serious injury or illness that was incurred or aggravated when the covered veteran was a member of the Armed Forces and rendered the servicemember unable to perform the duties of the servicemember's office, grade, rank, or rating; or
 - (ii) A physical or mental condition for which the covered veteran has received a U.S. Department of Veterans Affairs Service-Related Disability (VASRD) rating of 50 percent or greater and such VASRD rating is based, in whole or in part, on the condition precipitating the need for military

- caregiver leave; or
 - (iii) A physical or mental condition that substantially impairs the covered veteran's ability to secure or follow a substantially gainful occupation by reason of a disability or disabilities related to military service, or would do so absent treatment; or
 - (iv) An injury, including a psychological injury, on the basis of which the covered veteran has been enrolled in the Department of Veterans Affairs Program of Comprehensive Assistance for Family Caregivers.
- 6. Eligible spouses employed by the district are limited to an aggregate of 12 weeks of leave during any 12-month period for the birth and care of a newborn child or adoption of a child, the placement of a child for foster care, or to care for a parent. This limitation for spouses employed by the district does not apply to leave taken: by one spouse to care for the other spouse who is seriously ill; to care for a child with a serious health condition; because of the employee's own serious health condition; or pursuant to Paragraph IV.A.1.e. above.
- 7. Depending on the type of leave, intermittent or reduced schedule leave may be granted at the discretion of the district or when medically necessary. However, part-time employees are only eligible for a pro-rata portion of leave to be used on an intermittent or reduced schedule basis, based on their average hours worked per week. Where an intermittent or reduced schedule leave is foreseeable based on planned medical treatment, the district may transfer the employee temporarily to an available alternative position for which the employee is qualified and which better accommodates recurring periods of leave than does the employee's regular position, and which has equivalent pay and benefits.
- 8. If an employee requests a leave for the serious health condition of the employee or the employee's spouse, child, or parent, the employee will be required to submit sufficient medical certification. In such a case, the employee must submit the medical certification within 15 days from the date of the request or as soon as practicable under the circumstances.
- 9. If the district has reason to doubt the validity of a health care provider's certification, it may require a second opinion at the district's expense. If the opinions of the first and second health care providers differ, the district may require certification from a third health care provider at the district's expense. An employee may also be required to present a certification from a health care provider indicating that the employee is able to return to work.
- 10. Requests for leave shall be made to the district. When leave relates to an employee's spouse, son, daughter, parent, or covered servicemember being

on covered active duty, or notified of an impending call or order to covered active duty pursuant to Paragraph IV.A.1.e. above, and such leave is foreseeable, the employee shall provide reasonable and practical notice to the district of the need for leave. For all other leaves, employees must give 30 days' written notice of a leave of absence where practicable. The failure to provide the required notice may result in a delay of the requested leave. Employees are expected to make a reasonable effort to schedule leaves resulting from planned medical treatment so as not to disrupt unduly the operations of the district, subject to and in coordination with the health care provider.

11. The district may require that a request for leave under Paragraph IV.A.1.e. above be supported by a copy of the covered military member's active duty orders or other documentation issued by the military indicating active duty or a call to active duty status and the dates of active duty service. In addition, the district may require the employee to provide sufficient certification supporting the qualifying exigency for which leave is requested.
12. During the period of a leave permitted under this policy, the district will provide health insurance under its group health plan under the same conditions coverage would have been provided had the employee not taken the leave. The employee will be responsible for payment of the employee contribution to continue group health insurance coverage during the leave. An employee's failure to make necessary and timely contributions may result in termination of coverage. An employee who does not return to work after the leave may be required, in some situations, to reimburse the district for the cost of the health plan premiums paid by it.
13. The district may request or require the employee to substitute accrued paid leave for any part of the 12-week period. Employees may be allowed to substitute paid leave for unpaid leave by meeting the requirements set out in the administrative directives and guidelines established for the implementation of this policy, if any. Employees eligible for leave must comply with the family and medical leave directives and guidelines prior to starting leave. The superintendent shall be responsible to develop directives and guidelines as necessary to implement this policy. Such directives and guidelines shall be submitted to the board for annual review.

The district shall comply with written notice requirements as set forth in federal regulations.

14. Employees returning from a leave permitted under this policy are eligible for reinstatement in the same or an equivalent position as provided by law. However, the employee has no greater right to reinstatement or to other benefits and conditions of employment than if the employee had been

continuously employed during the leave.

B. Twelve-week Leave under State Law

An employee who does not qualify for parenting leave under Paragraphs IV.A.1.a. or IV.A.1.b. above may qualify for a 12-week unpaid leave which is available to a biological or adoptive parent in conjunction with the birth or adoption of a child, or to a female employee for prenatal care or incapacity due to pregnancy, childbirth, or related health conditions. The length of the leave shall be determined by the employee but must not exceed 12 weeks unless agreed to by the district. This leave is separate and exclusive of the family and medical leave described in the preceding paragraphs but may be reduced by any period of paid parental, disability, personal, or medical, or sick leave, or accrued vacation provided by the district so that the total leave does not exceed 12 weeks, unless agreed to by the district, or leave taken for the same purpose under the FMLA. The leave taken under this section shall begin at a time requested by the employee. An employee who plans to take leave under this section must give the district reasonable notice of the date the leave shall commence and the estimated duration of the leave. For leave taken by a biological or adoptive parent in conjunction with the birth or adoption of a child, the leave must begin within 12 months of the birth or adoption; except that, in the case where the child must remain in the hospital longer than the mother, the leave must begin within 12 months after the child leaves the hospital.

C. Twenty-six-week Servicemember Family Military Leave

1. An eligible employee who is the spouse, son, daughter, parent, or next of kin of a covered servicemember shall be entitled to a total of 26 work weeks of leave during a 12-month period to care for the servicemember. The leave described in this paragraph shall be available only during a single 12-month period. For purposes of this leave, the need to care for a servicemember includes both physical and psychological care.
2. During a single 12-month period, an employee shall be entitled to a combined total of 26 work weeks of leave under Paragraphs IV.A. and IV.C. above.
3. The 12-month period referred to in this section begins on the first day the eligible employee takes leave to care for a covered servicemember and ends 12 months after that date.
4. Eligible spouses employed by the district are limited to an aggregate of 26 weeks of leave during any 12-month period if leave is taken for birth of the employee's child or to care for the child after birth; for placement of a child with the employee for adoption or foster care or to care for the child after placement; to care for the employee's parent with a serious health condition; or to care for a covered servicemember with a serious injury or illness.
5. The district may request or require the employee to substitute accrued paid leave for any part of the 26-week period. Employees may be allowed to

substitute paid leave for unpaid leave by meeting the requirements set out in the administrative directives and guidelines established for the implementation of this policy, if any. Employees eligible for leave must comply with the family and medical leave directives and guidelines prior to starting leave.

6. An employee will be required to submit sufficient medical certification issued by the health care provider of the covered servicemember and other information in support of requested leave and eligibility for such leave under this section within 15 days from the date of the request or as soon as practicable under the circumstances.
7. The provisions of Paragraphs IV.A.7., IV.A.10., IV.A.12., IV.A.13., and IV.A.14. above shall apply to leaves under this section.

V. SPECIAL RULES FOR INSTRUCTIONAL EMPLOYEES

- A. An instructional employee is one whose principal function is to teach and instruct students in a class, a small group, or an individual setting. This includes, but is not limited to, teachers, coaches, driver's education instructors, and special education assistants.
- B. Instructional employees who request foreseeable medically necessary intermittent or reduced work schedule leave greater than 20 percent of the work days in the leave period may be required to:
 1. Take leave for the entire period or periods of the planned medical treatment., or
 2. Move to an available alternative position for which the employee is qualified, and which provides equivalent pay and benefits, but not necessarily equivalent duties.
- C. Instructional employees who request continuous leave near the end of a semester may be required to extend the leave through the end of the semester. The number of weeks remaining before the end of a semester does not include scheduled school breaks, such as summer, winter, or spring break.
 1. If an instructional employee begins leave for any purpose more than five weeks before the end of a semester and it is likely the leave will last at least three weeks, the district may require that the leave be continued until the end of the semester.
 2. If the instructional employee begins leave for a purpose other than the employee's own serious health condition during the last five weeks of a semester, the district may require that the leave be continued until the end of the semester if the leave will last more than two weeks or if the employee's return from leave would occur during the last two weeks of the semester.
 3. If the instructional employee begins leave for a purpose other than the employee's own serious health condition during the last three weeks of the

semester and the leave will last more than five working days, the district may require the employee to continue taking leave until the end of the semester.

4. If the district requires an instructional employee to extend leave through the end of a semester as set forth in this paragraph, only the period of leave until the employee is ready and able to return to work shall be charged against the employee's FMLA leave entitlement. Any additional leave required by the district to the end of the school term is not counted as FMLA leave but as an unpaid or paid leave, to the extent the instructional employee has accrued paid leave available and the district shall maintain the employee's group health insurance and restore the employee to the same or equivalent job, including other benefits, at the conclusion of the leave.

VI. OTHER

- A. The provisions of this policy are intended to comply with applicable law, including the FMLA and applicable regulations. Any terms used from the FMLA will have the same meaning as defined by the FMLA and/or applicable regulations. To the extent that this policy is ambiguous or contradicts applicable law, the language of the applicable law will prevail.
- B. The requirements stated in the collective bargaining agreement between employees in a certified collective bargaining unit and the district regarding family and medical leaves (if any) shall be followed.

VII. DISSEMINATION OF POLICY

- A. A poster prepared by the U.S. Department of Labor summarizing the major provisions of the Family and Medical Leave Act and informing employees how to file a complaint shall be conspicuously posted in each district building in areas accessible to employees and applicants for employment.

**Policy 420 STUDENTS AND EMPLOYEES WITH SEXUALLY
TRANSMITTED INFECTIONS AND DISEASES AND CERTAIN
OTHER COMMUNICABLE DISEASES OR INFECTIOUS
DISEASES**

I. PURPOSE

Public concern that students and staff of Northfield Public Schools be able to attend the schools of the district without becoming infected with serious communicable or infectious diseases, including but not limited to, Human Immunodeficiency Virus (HIV), Acquired Immunodeficiency Syndrome (AIDS), Hepatitis B, and Tuberculosis, requires that the school board adopt measures effectively responding to health concerns while respecting the rights of all students, employees and contractors, including those who are so infected. The purpose of this policy is to adopt such measures.

II. GENERAL STATEMENT OF POLICY

A. Students

The policy of the school board is that students with communicable diseases not be excluded from attending school in their usual daily attendance setting so long as their health permits and their attendance does not create a significant risk of the transmission of illness to students or employees of the school district. A procedure for minimizing interruptions to learning resulting from communicable diseases will be established by the school district in its IEP and Section 504 team process, if applicable, and in consultation with community health and private health care providers. Procedures for the inclusion of students with communicable diseases will include any applicable educational team planning processes, including the review of the educational implications for the student and others with whom the student comes into contact.

B. Employees

The policy of the school board is that employees with communicable diseases not be excluded from attending to their customary employment so long as they are physically, mentally and emotionally able to safely perform tasks assigned to them and so long as their employment does not create a significant risk of the transmission of illness to students, employees, or others in the school district. If a reasonable accommodation will eliminate the significant risk of transmission, such accommodation will be undertaken unless it poses an undue hardship to the school district.

C. Circumstances and Conditions

1. Determinations of whether a contagious individual's school attendance or job performance creates a significant risk of the transmission of the illness to students or employees of the school district will be made by the Superintendent or designee on a case by case basis. Such decisions will be based upon the nature of the risk (how it is transmitted), the duration of the risk (how long the carrier is infectious), the severity of

the risk (what is the potential harm to third parties) and the probabilities the disease will be transmitted and will cause varying degrees of harm. When a student is disabled, such a determination will be made in consultation with the educational planning team.

2. The school board recognizes that some students and some employees, because of special circumstances and conditions, may pose greater risks for the transmission of infectious conditions than other persons infected with the same illness. Examples include students who display biting behavior, students or employees who are unable to control their bodily fluids, who have oozing skin lesions, or who have severe disorders which result in spontaneous external bleeding. These conditions need to be taken into account and considered in assessing the risk of transmission of the disease and the resulting effect upon the educational program of the student or employment of the employee by consulting with the Commissioner of Health, the physician of the student or employee, and the parent(s)/guardian(s) of the student.

D. Students with Special Circumstances and Conditions

Northfield Public Schools, along with the infected individual's physician, the infected individual or parent(s)/guardian(s), and others, if appropriate, will weigh risks and benefits to the student and to others, consider the least restrictive appropriate educational placement, and arrange for periodic reevaluation as deemed necessary by the state epidemiologist. The risks to the student shall be determined by the student's physician.

E. Extracurricular Student Participation

Student participation in nonacademic, extracurricular, and non-educational programs of the school district are subject to a requirement of equal access and comparable services.

F. Precautions

The school district will develop routine procedures for infection control at school and for educating employees about these procedures. The procedures shall be developed through cooperation with health professionals taking into consideration guidelines of the Minnesota Department of Education and the Minnesota Department of Health. These precautionary procedures shall be consistent with the school district's procedures regarding blood-borne pathogens developed pursuant to the school district's employee right to know policy.

G. Information Sharing

1. Employee and student health information shall be shared within the school district only with those whose jobs require such information and with those who have a legitimate educational interest (including health and safety) in such information and shall be shared only to the extent to accomplish legitimate educational goals and to comply with employees' right to know requirements.

2. Employee and student health data shall be shared outside the school district only in accordance with state and federal law and with the school district's policies on employee and student records and data.

H. Reporting

If a medical condition of student or staff threatens public health, it must be reported to the Minnesota Commissioner of Health.

I. Prevention

The school district shall, with the assistance of the Minnesota Commissioners of Health and Education, implement a program to prevent and reduce the risk of sexually transmitted diseases in accordance with Minnesota Statutes section 121A.23 that includes:

1. planning materials, guidelines, and other technically accurate and updated information;
2. a comprehensive, developmentally appropriate, technically accurate, and updated curriculum that includes helping students to abstain from sexual activity until marriage (it is vital to note that the District acknowledges and values a variety of healthy, committed relationships);
3. cooperation and coordination among school districts and Service Cooperatives;
4. a targeting of adolescents, especially those who may be at high risk of contracting sexually transmitted diseases and infections, for prevention efforts;
5. involvement of parents and other community members;
6. in-service training for district staff and school board members;
7. collaboration with state agencies and organizations having a sexually transmitted infection and disease prevention or sexually transmitted infection and disease risk reduction program;
8. collaboration with local community health services, agencies and organizations having a sexually transmitted infection and disease risk reduction program; and
9. participation by state and local student organizations.
10. The program must be consistent with the health and wellness curriculum.
11. The school district may accept funds for sexually transmitted infection and disease prevention programs developed and implemented under this section from public and private sources, including public health funds and foundations, department professional development funds, federal block grants, or other federal or state grants.

J. Vaccination and Screening

The school district will develop procedures regarding the administration of Hepatitis B vaccinations and Tuberculosis screenings in keeping with current state and federal law. The procedures shall provide that the Hepatitis B vaccination series be offered to all who have occupational exposure at no cost to the employee.

Policy 421 GIFTS TO EMPLOYEES AND SCHOOL BOARD MEMBERS

I. PURPOSE

The purpose of this policy is to avoid the appearance of impropriety or the appearance of a conflict of interest with respect to gifts given to Northfield School District employees and school board members.

II. GENERAL STATEMENT OF POLICY

- A. The district recognizes that students, parents, and others may wish to show appreciation to school district employees. The policy of the district, however, is to discourage gift-giving to employees, and to encourage donors instead to write letters and notes of appreciation or to give small tokens of gratitude as memorabilia.
- B. A violation of this policy occurs when any employee solicits, accepts, or receives either by direct or indirect means, a gift from a student, parent, or other individual or organization of greater than nominal value.
- C. A violation of this policy occurs when any employee solicits, accepts, or receives a gift from a person or entity doing business with or seeking to do business with the school district. Employees may accept items of insignificant value of a promotional or public relations nature, with a resale value of \$5 or less. The superintendent has discretion to determine what value is “insignificant.”
- D. Teachers may accept from publishers free samples of textbooks and related teaching materials.
- E. This policy applies only to gifts given to employees where the donor’s relationship with the employee arises out of the employee’s employment with the district. It does not apply to gifts given to employees by personal friends, family members, other employees, or others unconnected to the employee’s employment with the school district.
- F. An elected or appointed member of a board, a school superintendent, a school principal, or a district school officer, including the school business official, may not accept a gift from an interested person.

III. DEFINITION

- A. “Gift” means money, real or personal property, a service, a loan, a forbearance or forgiveness of indebtedness, or a promise of future employment, that is given without something of equal or greater value being received in return.
- B. “Interested person” means a person or a representative of a person or association that has a direct financial interest in a decision that a board member, a superintendent, a school principal, or a district school officer is authorized to make.

- C. “Financial interest” means an ownership or control in an asset which has the potential to produce a monetary return.

IV. PROCEDURES

Any employee considering the acceptance of a gift shall confer with the administration for guidance related to the interpretation and application of this policy.

V. VIOLATIONS

Employees who violate the provisions of this policy may be subject to discipline, which may include reprimand, suspension, and/or termination or discharge.

Policy 424 LICENSE STATUS

I. PURPOSE

The purpose of this policy is to ensure that qualified teachers are employed by the Northfield School District and to fulfill its duty to ascertain the licensure status of its teachers. A school board that employs a teacher who does not hold a valid teaching license or permit places itself at risk for a reduction in state aid. This policy does not negate a teacher's duty and responsibility to maintain a current and valid teaching license.

II. GENERAL STATEMENT OF POLICY

- A. A qualified teacher is one holding a valid license to perform the particular service for which the teacher is employed by the school district.
- B. No person shall be considered a qualified teacher until the school district verifies, through the Minnesota education licensing system available on the Minnesota Professional Educator Licensing and Standards Board website, that the person is a qualified teacher consistent with state law.
- C. The district has a duty to ascertain the licensure status of its teachers and ensure that the district's teacher license files are up to date. The district shall establish a procedure for annually reviewing its teacher license files to verify that every teacher's license is current and appropriate to the particular service for which the teacher is employed by the district.
- D. The district must annually report to the Professional Educator Licensing and Standards Board.
 - 1. All new teacher hires and terminations, including layoffs, by race and ethnicity.
 - 2. The reasons for all teacher resignations and requested leaves of absence. The report must not include data that would personally identify individuals.

It is the responsibility of the employee to maintain valid licenses or other qualifications that are a requirement of the position during employment with the district. At the sole discretion of the district, failure to comply with this policy may be grounds for the employee's immediate discharge from employment or an unpaid leave.

Procedures for Policy 424: LICENSE STATUS

- A. The superintendent or the superintendent's designee shall establish a schedule for the annual review of teacher licenses.
- B. Where it is discovered that a teacher's license will expire within one year from the date of the annual review, the superintendent or the superintendent's designee will advise the teacher in writing of the approaching expiration and that the teacher must complete the renewal process and file the license with the superintendent prior to the expiration of the current license. However, failure to provide this notice does not relieve a teacher from his/her duty and responsibility of ensuring that his/her teaching license is valid, current and appropriate to his/her teaching assignment.
- C. If it is discovered that a teacher's license has expired, the superintendent or the superintendent's designee will immediately investigate the circumstances surrounding the lack of license and will take appropriate action. The teacher shall be advised that the teacher's failure to have the license reinstated will constitute gross insubordination, inefficiency and willful neglect of duty which are grounds for immediate discharge from employment.
- D. The duty and responsibility of maintaining a current and valid teaching license appropriate to the teaching assignment as required by this policy shall remain with the teacher, notwithstanding the superintendent's failure to discover a lapsed license or license that does not support the teaching assignment. A teacher's failure to comply with this policy may result in the teacher's unpaid leave or immediate discharge from employment.

Policy 426 EMPLOYEE ASSISTANCE PROGRAM

I. PURPOSE

The purpose of this policy is to recognize that a wide range of problems can have an effect on an employee's job performance. In most instances, the effect on job performance will be negligible so that no remedial action will be necessary. In other instances, normal supervisory assistance will serve as motivation to resolve the problem so that the employee's job performance will return to an acceptable level. In some cases, however, neither the efforts of the employee nor supervisor have the desired effect of resolving the employee's problems and unsatisfactory performance persists. In these cases, the school board believes it is in the interest of the employee, the employee's family and the district to provide an Employee Assistance Program (EAP).

II. GENERAL STATEMENT OF POLICY

- A. Employees are assured that if there is an indication that personal problems may be the cause of unsatisfactory job performance, the employee will receive an offer of assistance to help resolve such problems in an effective and confidential manner through participation in the EAP provided by the school district. Such problems may be physical or emotional illnesses. The cause may stem from alcoholism and/or chemical abuse, financial, marital, vocational, family, legal problems, or other concerns.
- B. Employees who have a problem they feel may be affecting work performance are encouraged to seek counseling and information on a voluntary basis by directly contacting the EAP provider.
- C. Employees may be referred to the EAP by their supervisors when job performance is unsatisfactory.
- D. In instances where it is necessary, sick leave may be granted for treatment or rehabilitation on the same basis as is granted for ordinary health problems.
- E. It will be the responsibility of the employee to comply with the referral for diagnosis of his or her problems and to follow the recommendations of the EAP professional.
- F. Employees are assured that their employment status will not be jeopardized because they voluntarily utilize the EAP or if they are referred for diagnosis and treatment, accept the diagnosis, and respond to treatment.
 - 1. If the employee refuses to follow through on an EAP referral, refuses to accept diagnosis and treatment or fails to respond to treatment, and the result of such refusal or failure is that job performance continues to be substandard, regular procedures for substandard job performance issues will be followed. Such procedures may include disciplinary action and/or termination of employment.
- G. Because employee work performance can be affected by the problems of an employee's spouse or dependents, the program shall also be available to the families of Independent School District #659 employees.

- B. IV. COLLECTIVE BARGAINING AGREEMENT UNAFFECTED

This policy shall not be construed as a reopening of negotiations between the district and the special education teachers' exclusive representative, nor shall it be construed to alter or limit in any way the managerial rights or other authority of the district set forth in the Public Employment Labor Relations Act or in the collective bargaining agreement between the district and the special education teachers' exclusive representative.

Policy 428 DISTRICT MEDICAL EMERGENCY LEAVE BANK

I. PURPOSE

The purpose of this policy is for the Northfield School District to establish a bona fide medical emergency leave sharing program for eligible employees of the district who are experiencing a medical emergency. This medical emergency leave sharing program is intended to comply with IRS Revenue Ruling 90-29.

II. GENERAL STATEMENT OF POLICY

Eligible employees have the ability to participate in a districtwide Medical Emergency Leave Bank (“Bank”). This Bank is intended to support employees who have exhausted all other appropriate leave options and experience a medical emergency that would normally qualify for sick or bereavement leave. This policy may only be modified by mutual agreement between the Northfield Education Association and the Northfield School District.

A “medical emergency” means a medical condition of the employee that will require the prolonged absence from duty and will result in a substantial loss of income to the employee because the employee has exhausted all forms of paid leave. A medical condition means a serious health condition that is recognized by the mainstream medical community. By way of example, but without limitation, conditions such as multiple chemical sensitivity and idiopathic environmental illness are not recognized as valid diagnoses by the mainstream medical community. A “prolonged absence” means an absence of more than five (5) consecutive duty days.

III. ELIGIBILITY

An employee must work 20 hours or more per week to participate in the Bank.

IV. PARTICIPATION AND USE

An employee experiencing a medical emergency may apply for leave from the Bank.

1. All employees who wish to participate shall notify the Human Resources Office by Sept. 30 of each year. If Sept. 30 falls on a weekend, the deadline will be the close of business on the Monday immediately following Sept. 30. Participating employees will be assessed one (1) day of sick leave allowance at the time they join the Bank. All assessed days will be accumulated in a bank where they will

be available to participants who have used all their designated sick leave allowance days and experience a medical emergency of more than five (5) consecutive days. All donations are nonrefundable. Once a day is donated, the employee may not retract or reclaim the donated sick leave for any reason. If at any point the Bank is reduced to twenty (20) or fewer days, the district will assess all members one (1) additional day.

2. An employee withdrawing from the Bank shall notify the Human Resources Office by Sept. 30 of each year. If Sept. 30 falls on a weekend, the deadline will be the close of business on the Monday immediately following Sept. 30. In case of withdrawal, an employee's contribution of days to the Bank stays in the Bank.
3. An employee may use no more than twenty (20) days from the Bank in any given school year.
4. Both the employer and employees have a substantial interest in ensuring that days from the Bank are used only for legitimate reasons in accordance with the terms of this policy. To withdraw leave from the Bank, eligible employees must submit a written application to the district's human resources department along with medical certification of the serious health condition from the employees' treating physician. An employee may not begin to withdraw leave from the Bank until the district has approved the written application.
5. Days from the Bank shall be used only for the illness or medically necessary appointments for the employee and/or the employee's dependent child. Days from the Bank may be used for bereavement leave not to exceed the number of days allowed in each individual employee contract or agreement. The Bank shall not be used when an employee qualifies for disability income, workers' compensation, or other pay or other benefits from the district or the state in place of any part of their salary.

II. GENERAL STATEMENT OF POLICY

- A. The district will make every effort to attract, secure, and retain the highest qualified personnel for all employee positions. All candidates will be considered on the basis of their qualifications and the district needs. There will be no discrimination in the hiring process due to race, color, creed, religion, national origin, sex, sexual orientation, age, disability, marital or parental status, or status with regard to public assistance.
- B. The superintendent, or their designee, shall develop procedures for the recruitment and selection of employees. These procedures shall include prioritizing applicants who have experience supporting a diverse population of learners.

Procedures for Policy 430: RECRUITMENT AND SELECTION OF EMPLOYEES

Posting Requirements

Posted positions must be available for at least five days. Postings can be identified as accepting internal applicants only or as accepting both internal and external applications.

The District will post internal positions using its application software provider. External positions will be posted in digital format in identified publications that facilitate the recruitment of a diverse pool of applicants.

Nepotism/Conflict of Interest

Organizational and supervisory integrity are essential to effective decision-making and maintaining employee morale. There is an appearance of impropriety, including an appearance of favoritism, when a special relationship exists between an administrator and an employee and the administrator directly supervises the employee. Such an arrangement also negatively impacts morale and the integrity of workplace decisions by eliminating impartiality.

- No employee shall be directly hired, supervised, evaluated or have direct administrative authority exercised over them by a close relative or by any relative residing in the same household.
- A close relative is defined as father, mother, sister, brother, spouse, son, daughter, step-child, step-parent, son-in-law, daughter-in-law, mother-in-law, father-in-law, or someone living in the same household as the administrator.
- When such a family relationship is established after employment, one or both of the employees may be transferred at a date to be determined by the district.
- No relative of an employee shall be shown preference in employment.

Policy 436 LICENSED TEACHING STAFF PERFORMANCE EVALUATIONS

I. PURPOSE

The purpose of licensed staff performance evaluations is to provide the best possible learner outcomes for students of the Northfield School District. Effective educators are essential to achieve this goal. Providing educators with ongoing feedback and coaching for continuous improvement will result in improved learner outcomes, higher quality services and the best educational opportunities for students.

II. GENERAL STATEMENT OF POLICY

The district shall establish performance evaluation procedures for its probationary and tenured professional staff members. The procedures shall focus on the improvement of both the individual and the goals of the program, department, building, and school district.

These performance evaluation procedures shall enable the individual to understand more completely the scope of their duties and responsibilities, place priorities, and clarify working relationships with students, peers, subordinates, and supervisors. The evaluations should also provide a written record of individual achievement as well as information on how the employee is doing in relation to expectations and objectives. Procedures may also allow for obtaining input in the evaluation process from one or more of the following groups: students, peers, subordinates, parents, and other members of the community.

III. PROBATIONARY STAFF

Probationary professional staff shall be evaluated pursuant to Minnesota Statute 122A.40, subd. 5. Data gathered during these evaluations will assist in making decisions regarding continuation of employment and granting of tenure status in the district. Each licensed teaching staff member will receive the number of written evaluations on an annual basis during their probationary period in compliance with the statute.

IV. NONPROBATIONARY STAFF

Nonprobationary professional staff shall be evaluated pursuant to Minnesota Statute 122A.40, subd. 8. Each nonprobationary professional staff member will receive a written evaluation on a three-year review cycle in compliance with the statute.

Policy 441 USE OF TECHNOLOGY AND TELECOMMUNICATIONS SYSTEMS BY EMPLOYEES

I. PURPOSE

The Northfield School District provides technology and telecommunications resources for district employees to support the educational and operational mission of the district. Access to and use of technology resources for students and employees is a fundamental part of the school day. This policy covers district employee use of all technology and telecommunications resources in the district. The purpose of this policy is to govern and guide the appropriate use of these resources.

II. GENERAL STATEMENT OF POLICY

The district provides technology and devices to employees in order to support quality education, information and communication systems. It is the expectation that staff will use these technologies for meaningful educational activities that support the curriculum and district operations needs, as well as provide strong guidance and supervision toward appropriate student use.

III. EMPLOYEE EXPECTATIONS FOR TECHNOLOGY USE

1. Each employee shall act responsibly when utilizing technology resources.
 - a. The use of the district technology services and devices is a privilege, not a right. Employees may occasionally access district technology services and devices for personal use as long as it does not interfere with the employee's job duties and performance. Employees will use electronic information resources in compliance with all existing policies.
 - b. Devices issued to a district employee will be used by the employee only. If an employee is using a shared device, they must use their own unique credentials and user profiles. The Director of Technology Services or their designee may make exceptions.
 - c. Employees will not:
 - Use district technology resources to access student, guardian, or staff data that is not needed to carry out their role for the district.
 - Use the district technology resources to access, display, store, upload, download, distribute or print pornographic, obscene or sexually explicit materials.
 - Use the district technology resources to access, display, store, upload, download, distribute or print materials that advocate violence, harassment or discrimination or are disruptive in any way.
 - Send abusive, intimidating, harassing, or unwanted material, such as advertising, causing the work of others to be disrupted.
 - Use the district technology resources to vandalize, damage or disable the property of another person, will not make deliberate attempts to degrade, vandalize or disrupt equipment, software, or system performance, will not violate the network's security in any way, and will not use the district technology and devices in any way so as to disrupt the use of the system by other users.
 - Use the district technology resources to gain unauthorized access to resources, passwords, accounts, information or files without direct permission from a network authority.

- Mishandle devices in a way that will cause damage to the device. Multiple occurrences may result in the employee's financial responsibility for repair or replacement.
 - Send or forward unnecessary or frivolous emails or messages in any quantity to other users of the district email system. Transmission of chain letters and pyramid schemes is strictly prohibited.
 - Use district technology resources for commercial purposes, political lobbying or solicitation of any kind.
 - Use non-district equipment to access the district wired, password-protected wireless networks, or district accounts without explicit permission of the director of technology services or their designee. This does not apply to district systems for which users have their own username and password.
 - Use district technology resources to communicate under a false name or designation or a name or designation they are not authorized to use, including instances in conjunction with representing that they are somehow acting on behalf of or under the auspices of the district.
 - Use the name "Northfield Public Schools" in any form or use any symbol or logo or graphic used by the district without the district's prior consent.
2. Each employee shall respect copyright and other intellectual property rights.
- a. Copying of data and files belonging to others will be considered a violation of district policies, a violation of law, and may constitute fraud, plagiarism or theft.
 - b. Software licensed by the district must only be used in accordance with applicable license specifications and agreements. Illegal copying and/or installing of software on district or personal computers is strictly prohibited.
 - c. Modifying or damaging information without authorization including but not limited to altering data, introducing viruses or damaging files or data is unethical and a violation of district policies.

 - c. Users shall not allow anyone else to use their credentials to access technology services and devices. District technology staff and administrators in line with their duties and responsibilities can request access to credentials at any time
 - d. Users shall not leave their user accounts logged in on unattended district technology services and devices.
 - e. Users shall not store credentials where others may access them. Users who suspect their account has been compromised must report it to the technology services and change their password as soon as possible.
 - f. Attempting to evade or disable desktop security systems, or other security precautions, or assisting others in doing so threatens work, privacy, and the integrity of district information, and is a serious violation of district policy.

- g. Users must immediately report to Technology Services (i.e. within 24 hours if possible) when they believe that a digital technology under their control has been lost, stolen, compromised, or significantly damaged.
 - h. All acquisitions whether by purchase or otherwise of digital technologies or digital resources must be approved in advance by the Director of Technology Services or their designee to ensure functionality with district technology and devices. In most cases, users are able to install software via district software installation portals.
 - i. Personal software installation is prohibited on district computers. Employees may request an exception to this prohibition when the software will be used in an approved graduate-level course that will be used for a teacher lane change as outlined in the agreement with the Northfield Education Association.
 - j. User accounts will be disabled and users are required to return district-issued digital technology to the district upon unenrollment, unemployment, long long-term leave with the district. The Director of Technology Services or their designee may make exceptions.
- 4. Each employee shall recognize limitations to privacy and use of electronic communications. Employees and staff do not own district technology and telecommunications equipment or software. The district reserves the right to access user files at any time to protect the integrity of the systems and property of the district.
 - a. The district may examine or make copies of files that are suspected of misuse, or that have been corrupted or damaged. Files may be subject to search by law enforcement agencies if files contain information, which may be used as evidence in a court of law.
 - b. An individual investigation or search will be conducted if school authorities have a reasonable suspicion that the search will uncover a violation of law or district policy. The district will cooperate fully with local, state and federal authorities in any investigation concerning or related to any illegal activities and activities not in compliance with district policies.
 - c. District-owned laptops and mobile devices may be used outside of school except when employees are directed by technology or administrative staff to leave equipment on site.
- 5. Each employee shall be aware that data and other materials in files maintained on district property may be subject to review, disclosure or discovery under state and federal legislation, including the Minnesota Government Data Practices Act.
 - a. The district can and will monitor the online activities of all employees and students, and employ “filtering” protection measures during any use by employees and/or students. The “filtering” measures are intended to block internet sites that contain violent, obscene, pornographic or sexually explicit materials. The district will comply with any and all state and federal requirements around internet filtering for student use. The use of this software does not guarantee that students or staff will not be able to obtain objectionable or pornographic materials over the internet, but the chances have been minimized.
 - b. It is mandatory that staff monitor and supervise student use of the internet and all other technology resources at school to ensure appropriate, educational use.
- 6. Each employee shall be aware of limitations of district liability. Use of the district system is at the user’s own risk. While the district will take precautions with the

installation of hardware and software in the security of data and systems, there are no foolproof means for absolutely securing all data and systems.

- a. The district will not be responsible for any damage users may suffer, including, but not limited to, loss, damage or unavailability of data stored on district disks, tapes, hard drives, servers, vendor-provided systems, cloud-based services, and/or for delays or changes in or interruptions of service.
 - b. The district is not responsible for the accuracy or quality of any advice or information obtained through or stored on the district network/internet/email system. The district will not be responsible for financial obligations arising through unauthorized use of the district system or the Internet.

Policy 448 DISTRICT PAID MATERNITY LEAVE

I. PURPOSE

The purpose of this policy is for the Northfield School District to establish parameters governing district paid maternity leave.

II. GENERAL STATEMENT OF POLICY

Paid maternity leave may be granted for the birth of a child or children of the employee. This policy may only be modified by mutual agreement between the Northfield Education Association and the Northfield School District.

III. ELIGIBILITY

Eligible employees must qualify for the Federal Family and Medical Leave Act (FMLA), as outlined in Policy 410. To qualify for FMLA, an employee must have worked for the employer for twelve months and have worked 1,250 annual hours. Maternity leave for those employees that do not meet the current eligibility requirements of FMLA shall be processed under the District Disability After Childbirth Policy 411.

IV. PARTICIPATION AND USE

- A. An employee making an application for maternity leave under this policy shall inform the district in writing with intention to take the leave as soon as possible and at least one calendar month before commencement of the intended leave, except in unusual circumstances. The district and the employee will attempt to work out a satisfactory plan for the leave.
- B. The district, upon meeting in person and discussing the employee's return date preferences, may make moderate adjustments in the proposed beginning or ending date of a maternity leave so that the dates of the leave coincide with some natural break in the school year - e.g., winter vacation, spring vacation, semester break or quarter break, end of reporting period, end of the school year, or the like.

- D. An employee who returns from maternity leave within the provisions of this policy shall retain all previous experience credit and any unused leave time accumulated under the provisions of this policy at the commencement of the leave. The employee shall accrue additional experience credit or leave time during the period of absence for maternity leave, if the leave commences and ends within the same school year.

Policy 460 REMOTE WORK

I. PURPOSE

The purpose of this policy is to provide guidance to Northfield School District employees and supervisors regarding the availability and expectations of any remote work accommodations.

II. GENERAL STATEMENT OF POLICY

- A. Remote work options may be appropriate for some positions and/or job duties but not for others. Remote work options may also be available for all or part of an employee's assignment. The employee may be able to do some of their work at home and some of their work may require in-person attendance. In all cases, the Remote Work Procedures, listed below, must be completed by the employee and the supervisor. Approved remote work agreements will be considered approved under a trial basis and will be assessed regularly for feasibility. The agreement may be discontinued at will and at any time at the request of either the employee or the district. If the agreement is discontinued by the district, administration will allow for a reasonable transition period so that the employee can establish the necessary accommodations for returning to work onsite (e.g. transportation, child care, etc.).
- B. Employees, regardless of whether the work is completed onsite or remotely will be held to the following expectations:
 - 1. Perform duties during the designated work schedule unless otherwise agreed upon and approved by administration.
 - 2. Remain productive, responsive, and available to the department, supervisor, and/or students and parents/guardians during the designated work schedule.
 - 3. Request additional work or guidance from administration when workload is diminished.

III. DEFINITION

For the purposes of this policy remote work means that an employee is authorized to perform their work duties from an approved site other than a district facility. This policy does not address short term changes in the academic calendar such as e-Learning or distance learning.

IV. ELIGIBILITY

- A. Remote work options may be appropriate for some positions/jobs but not for others. Positions that have been evaluated and are not eligible for remote work include positions under the Northfield Education Association master agreement, Educational Assistants, Child Nutrition and Buildings & Grounds. Portage online employees, regardless of their bargaining unit, may be eligible for remote work.

- B. Employees must have a satisfactory performance record in order to be eligible for remote work options. Probationary employees or employees currently undergoing supervised training may not be eligible for remote work options.
- C. Before establishing a remote work agreement, the following areas will be reviewed for feasibility:
 - 1. Responsibilities/Job Duties
 - a. Is it feasible for the job duties to be performed off-site?
 - b. Are there job duties/responsibilities that require an onsite presence?
 - 2. Internet Access
 - a. Is the employee's home internet service sufficient to support remote work?
 - b. The district will not reimburse remote workers for internet access fees.
 - 3. Employee Suitability
 - a. Do the employee's typical work habits translate well in a remote work setting?
 - 4. Accountability
 - a. Are there strong measures of accountability in place to support the remote work agreement?

V. EMPLOYEE PROCEDURES

Employee Assignment. When requested, employees should discuss their preferences for remote work or work onsite with their supervisor. Employees who have been assigned for remote work, for part or all of their assignment, should:

- 1. Assess their remote work space for ergonomic comfort and safety precautions.
- 2. Determine what, if any, accessibility needs they may require to complete their work tasks from their remote space.
- 3. Assess the remote work space for security and data privacy concerns.
- 4. Any accessibility needs or security concerns should be communicated prior to completing the remote work agreement.
- 5. Discuss remote work assignment parameters with supervisor and complete Remote Work Agreement.

Employee Request. Employees may request to work remotely; however, this must be formally approved prior to transitioning to remote work. Employees who would like to request remote work should:

- 1. Complete and submit the remote work request form (Appendix A) to their supervisor.
- 2. Discuss remote work availability and assignment parameters with their supervisor.
- 3. Communicate any accessibility needs or security concerns prior to completing the remote work agreement.

4. Complete remote work agreement (Appendix B) with their supervisor.

VI. ADMINISTRATIVE PROCEDURES

Administration will also consider employee preference for working remotely or onsite when determining remote work assignments. Supervisory staff will:

1. Work with Human Resources to develop remote work agreements (Appendix B) for employees identified for remote work.
2. Meet with designated employees to discuss remote work assignment parameters and complete remote work agreement (Appendix B).
3. Submit remote work agreements to Human Resources. A copy should be retained by the employee and the supervisor.

Employee Request. Employees must have formal approval prior to transitioning to remote work. Supervisors who receive these requests should:

1. Review and assess the remote work request form (Appendix A).
2. Discuss remote work availability and assignment parameters with the employee.
3. Discuss any accessibility needs or security concerns prior to completing the remote work agreement.
4. Complete remote work agreement (Appendix B) with the employee.

The supervisor and technology department will determine appropriate equipment in consultation with the employee, subject to change at any time at the supervisor's and/or technology department's discretion. Equipment supplied by the organization will be maintained by the organization. Equipment supplied by the employee, if deemed appropriate by the organization, will be maintained by the employee. The use of personal computers for remote work is prohibited. Staff are required to use district issued computers. The district accepts no responsibility for damage or repairs to employee-owned equipment. Equipment supplied by the organization is to be used in accordance with district Policy 441 Use of Technology and Telecommunications Systems by Employees. The employee must continue to comply with all policies, procedures, and regulations especially related to technology and security of information. The district will supply the employee with appropriate office supplies (pens, paper, etc.) as deemed necessary.

2. The employee will establish an appropriate office environment within their home for work purposes. The district is not responsible for costs associated with the setup of the employee's home office, such as remodeling, furniture or lighting, nor for repairs or modifications to the home office space. It is intended that the employee maintain a single location as their work environment.

B. Security

1. Consistent with the district's expectations of information security for employees working onsite, remote work employees will be expected to ensure the protection of private and confidential data. Steps include the use of locked file cabinets and desks, regular password maintenance, and any other measures appropriate for the job and the environment. Remote work employees should ensure a space that allows for confidential or private conversations. Use of headsets when listening to virtual meetings or classrooms is required.
2. The employee must comply with all record retention policies.

C. Safety

1. Employees are expected to maintain their home workspace in a safe manner, free from safety hazards. Injuries sustained by the employee in a home office location and in conjunction with their regular work duties are normally covered by the company's workers' compensation policy. Remote work employees are responsible for notifying the employer of such injuries as soon as practicable. The employee will allow the employer to have access to the remote work location for purposes of assessing safety and security, upon reasonable notice, if applicable. The employee is liable for any injuries sustained by visitors to his or her home worksite.
2. Working remotely is not designed to be a replacement for appropriate child care. Although an individual employee's schedule may be modified to accommodate child care needs, the focus of the arrangement must remain on job performance and expectations. Employees requesting a remote work assignment are required to discuss expectations of the remote work assignment with family members prior to entering into a remote work agreement.

D. Time Worked

1. Non-Exempt employees who have entered into a remote work agreement will be required to accurately record all hours worked using the district's time and attendance system. Hours worked in excess of those scheduled per day and per workweek **require advance approval** by the employee's supervisor. Failure to comply with this requirement may result in the immediate termination of the

remote work agreement. Employees unable to work due to illness or other personal reasons while working remotely will still be responsible for completing an absence request using the district's absence management system. Employees should discuss remote work absences with their supervisor to ensure appropriate coverage is available.

E. Evaluation

1. Evaluation of performance during the trial period will include regular interaction by phone, video conference, and email between the employee and the direct supervisor, and weekly meetings to discuss work progress and issues. At any time during the remote work agreement, the employee and supervisor can complete an evaluation of the arrangement and make recommendations for modifications. Evaluation of performance beyond the trial period will be consistent with current policies and practices of the normal employment arrangement but will focus on work output and completion of objectives rather than on time-based performance.
2. An appropriate level of communication between the employee and supervisor will be agreed to as part of the discussion process and will be more formal during the trial period. After the conclusion of the trial period, the direct supervisor and remote work employee will communicate at a level consistent with the normal employment arrangement or in a manner and frequency that is appropriate for the job and the individuals involved.

Policy 491 COVID-19 VACCINATION REPORTING, TESTING, AND FACE COVERINGS

I. PURPOSE

The Northfield School District has adopted this policy to safeguard the health of its employees from the hazard of COVID-19. This policy complies with the Occupational Safety and Health Administration's ("OSHA") Emergency Temporary Standard on Vaccination and Testing (29 CFR Part 1910, Subpart U) ("ETS").

II. DEFINITIONS

For purposes of this policy, the following definition applies:

A. "Fully vaccinated" means:

- a. A person's status two weeks after completing primary vaccination with a COVID-19 vaccine with, if applicable, at least the minimum recommended interval between doses in accordance with the approval, authorization, or listing that is:
 - a. Approved or authorized for emergency use by the U.S. Food and Drug Administration ("FDA");
 - b. Listed for emergency use by the World Health Organization ("WHO"); or
 - c. Administered as part of a clinical trial at a U.S. site, if the recipient is documented to have primary vaccination with the active (not placebo) COVID-19 vaccine candidate, for which vaccine efficacy has been independently confirmed (e.g., by a data and safety monitoring board) or if the clinical trial participant at U.S. sites had received a COVID-19 vaccine that is neither approved nor authorized for use by FDA but is listed for emergency use by WHO; or
- ii. A person's status two weeks after receiving the second dose of any combination of two doses of a COVID-19 vaccine that is approved or authorized by the FDA, or listed as a two-dose series by the WHO (i.e., a heterologous primary series of such vaccines, receiving doses of different COVID-19 vaccines as part of one primary series). The second dose of the series must not be received earlier than 17 days (21 days with a 4-day grace period) after the first dose.

B. "COVID-19 test" means a test for SARS-CoV-2 that is:

- i. Cleared, approved, or authorized, including in an Emergency Use Authorization (“EUA”), by the FDA to detect current infection with the SARSCoV-2 virus (e.g., a viral test);
- ii. Administered in accordance with the authorized instructions; and
- iii. Not both self-administered and self-read unless observed by the school district or an authorized telehealth proctor. Examples of tests that satisfy this requirement include tests with specimens that are processed by a laboratory (including home or on-site collected specimens which are processed either individually or as pooled specimens), proctored over-the-counter tests, point of care tests, and tests where specimen collection and processing is either done or observed by the school district.

C. **“Face covering”** means a covering that:

- i. Completely covers the nose and mouth;
- ii. Is made with two or more layers of a breathable fabric that is tightly woven (i.e., fabrics that do not let light pass through when held up to a light source);
- iii. Is secured to the head with ties, ear loops, or elastic bands that go behind the head. If gaiters are worn, they should have two layers of fabric or be folded to make two layers;
- iv. Fits snugly over the nose, mouth, and chin with no large gaps on the outside of the face; and
- v. Is a solid piece of material without slits, exhalation valves, visible holes, punctures, or other openings.

This definition includes clear face coverings or cloth face coverings with a clear plastic panel that, despite the non-cloth material allowing light to pass through, otherwise meet this definition and which may be used to facilitate communication with people who are deaf or hard-of-hearing or others who need to see a speaker’s mouth or facial expressions to understand speech or sign language respectively.

This definition is intended to be consistent with the district’s approved 2021-2022 face covering procedures.

III. SCOPE

- A. **Only in Effect if Legally Required.** This policy will only be in effect if OSHA or Minnesota OSHA are enforcing the ETS and the district or its employees could be subject to sanctions for noncompliance with the ETS. This school district will not enforce the provisions of this policy if the ETS is expired, subject to a court

order staying its implementation, or otherwise not legally binding on the school district.

- B. **Application to All Employees.** This policy applies to all employees of the school district, except for employees who do not report to a workplace where other individuals (such as students, coworkers, or visitors) are present; employees while working from home; and employees who work exclusively outdoors.
- C. **Application to Independent Contractors and Volunteers.** Independent contractors and volunteers are not considered school district employees for purposes of this policy. Independent contractors and volunteers will be required to comply with COVID-19 mitigation protocols established for building visitors.
- D. **Intersection with Other Policies and Procedures.** If this policy or any subsection of this policy conflicts with any other school district policy or procedure, this policy will be followed.

IV. VACCINATION

- A. **Employee Choice.** The school district is not imposing a vaccine mandate for its employees. Employees may choose to be vaccinated against COVID-19. Any employee not fully vaccinated when the ETS is legally enforceable against the school district will be subject to the weekly testing and face covering requirements of this policy until they become fully vaccinated. The face covering requirements set forth in this policy will begin when the face covering requirement in the ETS is legally enforceable against the school district. Weekly testing requirements set forth in this policy will begin when the testing requirements set forth in the ETS become legally enforceable against the school district.
- B. **Deadlines.** To be considered fully vaccinated, an employee must have received the final dose of a primary COVID-19 vaccination at least two weeks prior to the date when the ETS is legally enforceable against the school district.
- C. **Vaccine Availability.** Employees are responsible for scheduling their own vaccination appointments. Employees may schedule a vaccination appointment through their own medical provider, local pharmacies, mass-vaccination clinics, community vaccination sites, or any other place where COVID-19 vaccines are offered. Information about vaccination locations is available through Minnesota's COVID-19 Response webpage at:

<https://mn.gov/covid19/vaccine/find-vaccine/locations/index.jsp>.
- D. **Time to Receive Vaccination.** The school district will provide a reasonable amount of time to each employee to receive their primary vaccination dose or doses. An employee may take up to four hours of paid duty time, at the employee's regular rate of pay, per primary vaccination dose to travel to a

vaccination site, receive a vaccination, and return to work. This means a maximum of eight hours of paid duty time for employees receiving two primary vaccine doses.

- a. If an employee spends less time getting the vaccine, only the amount of paid duty time needed for a primary vaccination appointment will be granted. Given the widespread availability of the COVID-19 vaccine in Minnesota, the school district expects that employees will schedule vaccination appointments in a way that minimizes the need to be absent from work.
- b. Employees who take longer than four hours to get the vaccine must contact their supervisor immediately and must explain the reason for the additional time (e.g., they may need to travel long distances to get the vaccine). Any additional time requested will be granted, if reasonable, but will not be paid. In that situation, the employee can elect to use accrued paid leave to cover the additional time needed to obtain a primary vaccination dose.
- c. If an employee is vaccinated outside of their approved duty time, the employee will not be compensated.
- d. The school district will not reimburse employees for transportation costs (e.g., gas money, train/bus fare, etc.) incurred to receive the vaccination.

E. **Time for Recovery.** The school district will provide reasonable time and paid sick leave to employees who are unable to work due to side effects experienced following any primary vaccination doses.

- a. The school district will provide no more than two days of paid leave per primary vaccination dose for employees who are unable to work due to vaccination side effects. Any request for additional leave will be governed by the school district's established procedures for requesting a medical leave.
- b. Employees who have available accrued sick leave will be required to use their available accrued leave for recovery time. Employees who have no sick leave will be granted up to two days of paid sick leave immediately following each dose, if necessary for the employee to recover from side effects.
- c. The following procedures apply for requesting and granting duty time to obtain the COVID-19 vaccine or sick leave to recover from side effects:
 - i. If an employee has available accrued leave, the employee must report the use of leave for vaccine side effects in the same manner

as the employee would ordinarily report leave due to personal illness.

- ii. If an employee does not have sufficient accrued sick leave to cover the time period needed to recover from side effects of the vaccination, the employee must notify their supervisor upon learning of the need for leave. The school district will provide up to two days of paid leave if the employee is unable to work due to side effects from a primary vaccination dose.

V. REPORTING VACCINATION STATUS

- A. **Obligation to Report.** All employees are required to report their vaccination status and, if vaccinated, provide proof of vaccination as set forth in this section. Employees must provide truthful and accurate information about their COVID-19 vaccination status. Employees who do not comply with this policy may be subject to discipline. Vaccination status information must be reported to the school district by the deadline set forth by the school district administration. This deadline will be based on the date the ETS will be legally enforceable against the school district. In order to comply with this reporting requirement, employees must provide proof of their vaccination status, including whether they are fully or partially vaccinated. Acceptable forms of proof are outlined below. Employees who are not vaccinated must also report their vaccination status.
- B. **Reporting.** The superintendent will be responsible for developing a system through which employees will report their vaccination status.
- C. **Proof of Vaccination.** All vaccinated employees are required to provide proof of vaccination status, regardless of where they received their vaccination.
 - i. Acceptable “proof of vaccination status” includes:
 - a. The record of immunization from a health care provider or pharmacy;
 - b. A copy of a COVID-19 Vaccination Record Card;
 - c. A copy of medical records documenting the vaccination;
 - d. A copy of immunization records from a public health, state, or tribal immunization information system; or
 - e. A copy of any other official documentation that contains the type of vaccine administered, date(s) of administration, and the name of the health care professional(s) or clinic site(s) administering the vaccine(s).

- ii. Proof of vaccination generally should include the employee's name, the type of vaccine administered, the date(s) of administration, and the name of the health care professional(s) or clinic site(s) that administered the vaccine. In some cases, state immunization records may not include one or more of these data fields, such as clinic site. In those circumstances, the school district will still accept the state immunization record as acceptable proof of vaccination.
- iii. Employees may submit a physical copy of a vaccination record or employees may provide a digital copy, including, for example, a digital photograph, scanned image, or PDF of such a record that clearly and legibly displays the necessary vaccination information.
- iv. An employee who does not possess their COVID-19 vaccination record card (e.g. because it was lost or stolen) should contact their vaccination provider to obtain a new copy or other acceptable documentation of their vaccination status. If the employee is unable to produce acceptable proof of vaccination after contacting the vaccine provider, then they may attest to their vaccination as described below.
- v. In instances where an employee is unable to produce acceptable proof of vaccination status, the employee may submit a signed and dated statement by the employee:
 - a. Attesting to the employee's vaccination status (fully vaccinated or partially vaccinated);
 - b. Attesting that the employee has lost or are otherwise unable to produce proof of vaccination; and
 - c. Including the following language in the attestation: "I declare that this statement about my vaccination status is true and accurate. I understand that knowingly providing false information regarding my vaccination status on this form may subject me to criminal penalties."

An employee who attests to their vaccination status should, to the best of their recollection, include the following information in their attestation: the type of vaccine administered; date(s) of administration; and the name of the health care professional(s) or clinic site(s) administering the vaccine(s).

- D. **Treated as Unvaccinated if No Proof or Attestation.** An employee who does not provide acceptable proof of vaccination status, or an attestation, is treated as not fully vaccinated for purposes of this policy.

- E. **Penalty for Providing False Information.** Employees are prohibited from knowingly supplying false statements or documentation regarding their vaccination status under 18 U.S.C. § 1001 and section 17(g) of the Occupational Safety and Health Act (“OSH Act”). Employees who violate those laws may be subject to criminal penalties.
- F. **Recordkeeping.** The school district will maintain a roster of each employee’s vaccination status and maintain records of acceptable proof of vaccination for each employee who is fully vaccinated or partially vaccinated. These records are considered to be employee medical records, and will be maintained in a confidential manner as required by law.

VI. FACE COVERINGS

- A. **Mandatory if Not Fully Vaccinated.** When the ETS is legally enforceable against the school district, any employee who is not fully vaccinated must wear a face covering over their nose and mouth while indoors at school or while in a school vehicle while occupied by any other passengers. Employees must replace their face covering if it becomes wet, soiled, or damaged (e.g., ripped, has holes, or has broken ear loops).
- B. **Exceptions to Face Covering Requirement.** Any employee who is not fully vaccinated does not have to wear a face covering:
 - i. When the employee is alone in a room with floor to ceiling walls and a closed door;
 - ii. For a limited time while the employee is eating or drinking at the workplace or for identification purposes in compliance with safety and security requirements;
 - iii. When the employee is wearing a “respirator” or “facemask”, as defined by the ETS;
 - iv. Where the school district has advised the employee a face covering is not required because it has determined that the use of face coverings is infeasible or creates a greater hazard (e.g., when it is important to see the employee’s mouth for reasons related to their job duties, when the work requires the use of the employee’s uncovered mouth, or when the use of a face covering presents a risk of serious injury or death to the employee.)
- C. **Cost for Face Coverings.** Employees are generally responsible for acquiring their own face coverings. The school district will not pay or reimburse employees for any costs associated with acquiring their own face coverings.

VII. COVID-19 TESTING

- A. **Test Requirement.** Beginning on the date when the mandatory testing requirement in the ETS becomes legally enforceable against the school district, any employee who is not fully vaccinated must participate in weekly COVID-19 testing. Any employee who is not fully vaccinated and who reports to the workplace at least once every seven days:
- i. Must be tested for COVID-19 at least once every seven days; and
 - ii. Must provide documentation of the most recent COVID-19 test result to the school district no later than the seventh day following the date on which the employee last provided a test result.

The superintendent is responsible for developing a protocol for employees to report COVID-19 test results and will communicate the protocol to all employees.

- B. **Testing Following Longer Absences.** Any employee who is not fully vaccinated and who does not report to the workplace during a period of seven or more days:
- i. Must be tested for COVID-19 within seven days prior to returning to the workplace; and
 - ii. Must provide documentation of that COVID-19 test result to the school district in the manner to be determined by the superintendent upon return to the workplace.
- C. **Failure to Provide Test Result.** If an employee who is not fully vaccinated does not provide documentation of a COVID-19 test result as required by this policy, they will be removed from the workplace until they provide a test result.
- D. **Exemption for Recent Infection.** Employees who are not fully vaccinated and who have received a positive COVID-19 test, or have been diagnosed with COVID-19 by a licensed health care provider, are not required to undergo COVID-19 testing for 90 days following the date of their positive test or diagnosis.
- E. **Record of Testing.** The district will maintain a record of each test result provided by each employee under this policy. These records are considered to be employee medical records and will be maintained in a confidential manner as required by law.
- F. **Cost of Testing.** The school district will not pay or reimburse employees for any costs associated with COVID-19 testing.
- G. **Availability of Testing.** Employees may schedule their own testing appointments. Information about testing locations is available online at: <https://mn.gov/covid19/get-tested/testing-locations/index.jsp>.

VIII. MANDATORY REPORTING OF COVID-19 DIAGNOSIS OR POSITIVE TEST

A. Reporting and Removal from Workplace Following Positive Test. Regardless of an employee's vaccination status:

- i. The school district requires all employees to promptly notify their immediate supervisor when they have tested positive for COVID-19 or have been diagnosed with COVID-19 by a licensed health care provider; and
- ii. The school district will immediately remove from the workplace any employee who receives a positive COVID-19 test or is diagnosed with COVID-19 by a licensed health care provider and keep the employee removed until the employee:
 - a. Receives a negative result on a COVID-19 nucleic acid amplification test (NAAT) following a positive result on a COVID-19 antigen test if the employee chooses to use a NAAT test for confirmatory testing;
 - b. Meets the return to work criteria in CDC's "Isolation Guidance" (available online at https://www.osha.gov/sites/default/files/CDC's_Isolation_Guidance.pdf); or
 - c. Receives a recommendation to return to work from a licensed healthcare provider.

B. Return to Work after Positive Test. Under CDC's "Isolation Guidance," asymptomatic employees may return to work once 10 days have passed since the positive test, and symptomatic employees may return to work after all the following are true:

- i. At least 10 days have passed since symptoms first appeared, and
- ii. At least 24 hours have passed with no fever without fever-reducing medication, and
- iii. Other symptoms of COVID-19 are improving (loss of taste and smell may persist for weeks or months and need not delay the end of isolation).

If the CDC's Isolation Guidance changes following the adoption of this policy, the school district will update its isolation guidance and communicate that to affected employees. The district's guidance will at least meet the minimum CDC requirements.

- C. **Status of Leave After Positive Test.** The district will not provide any paid time off to any employee for removal from the workplace as a result of a positive COVID-19 test or diagnosis of COVID-19. Employees may use accrued paid leave to receive pay for their absences.
- D. **Exposure to COVID-19.** Employees who are exposed to an individual with a confirmed case of COVID-19 will be subject to the quarantine protocols set forth in the school district's overall COVID-19 mitigation strategy.

IX. NEW HIRES

- A. All new employees are required to comply with the vaccination, testing, and face covering requirements outlined in this policy as of the start date of their employment. Candidates for employment will be notified of the requirements of this policy following a job offer and prior to the start of employment.
- B. New employees must provide acceptable proof of vaccination prior to their first day of work. A new employee who cannot provide acceptable proof of vaccination must submit results from a COVID-19 test taken within the previous seven days prior to the employee's first day of work.

X. EXEMPTIONS

- A. **Accommodations.** An employee may be entitled to a reasonable accommodation from the district if the employee is unable to comply with the requirements of this policy because of a medical condition, disability, or a sincerely held religious belief, practice or observance.
- B. **Requests for Reasonable Accommodation.** Requests for reasonable accommodations must be initiated by the individual employee and submitted in writing to Superintendent Dr. Matt Hillmann at mhillmann@northfieldschools.org.
- C. **Determination of Reasonable Accommodation.** Requests for reasonable accommodations will be addressed on a case-by-case basis by school administration.

XI. QUESTIONS

Questions regarding this policy should be directed to:

Matt Hillmann, Ed.D.
Superintendent

XII. DISSEMINATION OF THIS POLICY AND INFORMATION TO EMPLOYEES

- A. **Dissemination of Policy.** The superintendent will distribute a copy of this policy to all employees via the school district's e-mail system following its adoption.
- B. **Other Required Disclosures to Employees.** The ETS requires the district to provide the following information to employees:

The full text of OSHA's ETS is available online at:

<https://www.federalregister.gov/documents/2021/11/05/2021-23643/covid-19-vaccination-and-testing-emergency-temporary-standard>.

The CDC has published information about COVID-19 vaccine efficacy, safety, and the benefits of being vaccinated. This information can be accessed by visiting: <https://www.cdc.gov/coronavirus/2019-ncov/vaccines/keythingstoknow.html>.

Federal regulation, specifically 29 CFR § 1904.35(b)(1)(iv), prohibits the school district from discharging or in any manner discriminating against an employee for reporting a work-related injury or illness.

Section 11(c) of the OSH Act prohibits the district from discriminating against an employee for exercising rights under, or as a result of actions that are required by, the ETS. Section 11(c) also protects the employee from retaliation for filing an occupational safety or health complaint, reporting a work-related injury or illness, or otherwise exercising any rights afforded by the OSH Act.

Federal law, specifically 18 U.S.C. § 1001 and of section 17(g) of the OSH Act, prohibits employees from knowingly supplying false statements or documentation in accordance with this Policy. Anyone who violates those provisions may be subject to criminal penalties.

Policy 491 Vaccination Reporting, Testing, and Face Coverings

Adopted: 01.10.2022

Board of Education

INDEPENDENT SCHOOL DISTRICT NO. 659

Northfield, Minnesota

Policy 501 SCHOOL WEAPONS

I. PURPOSE

The purpose of this policy is to assure a safe school environment for students, staff and the public within the Northfield School District.

II. GENERAL STATEMENT OF POLICY

No student or nonstudent, including teachers, administrators, school employees, volunteers, visitors, or any member of the public, shall possess, use or distribute a weapon when in a school location except as provided in this policy. The district will act to enforce this policy and to discipline or take appropriate action against anyone who violates this policy. This policy *does* apply to persons authorized by a permit to carry a firearm, except as stated below.

III. DEFINITIONS

- A. A “firearm” is defined as a gun, whether loaded or unloaded, that discharges shot or a projectile by means of an explosive charge or element, such as gunpowder. A firearm as herein defined may cause serious injury or death.
- B. A “weapon” means any object, device or instrument designed as a weapon or through its use is capable of threatening or producing bodily harm or which may be used to inflict self-injury including, but not limited to: any firearm (whether loaded or unloaded), air guns, pellet guns, BB guns (whether loaded or unloaded), all knives, blades, clubs, metal knuckles, nunchucks, throwing stars, explosives, fireworks, mace and other propellants, stun guns, ammunition, poisons, chains, arrows, and objects that have been modified to serve as a weapon.
 - 1. No person shall possess, use or distribute any object, device or instrument having the appearance of a weapon and such objects, devices or instruments shall be treated as weapons including, but not limited to, weapons listed above which are broken or non-functional, look-alike guns, toy guns, and any object that is a facsimile of a real weapon.
 - 2. No person shall use articles designed for other purposes (i.e., lasers or laser pointers, belts, combs, pencils, files, scissors, etc.), to inflict bodily harm and/or intimidate, and such use will be treated as the possession and use of a weapon.
- C. “School Location” includes any district building or grounds, whether leased, rented, owned or controlled by the district, locations of school activities or trips, bus stops, school buses or school vehicles, school-contracted vehicles, the area of entrance or departure from school premises or events, all locations where school-related functions are conducted, and anywhere students are under the jurisdiction of the district.
- D. “Possession” means having a weapon on one’s person or in an area subject to one’s control in a school location, including a vehicle parked on school grounds.

As used in this definition, "flammable liquid" means any liquid having a flashpoint below 100 degrees Fahrenheit and having a vapor pressure not exceeding 40 pounds per square inch (absolute) at 100 degrees Fahrenheit but does not include intoxicating liquor. As used in this subdivision, "combustible liquid" is a liquid having a flash point at or above 100 degrees Fahrenheit.

IV. EXCEPTIONS

- A. A student who finds a weapon in a school location, or a student who discovers that they accidentally have a weapon in their possession must immediately contact a school administrator.
- B. If a student discovers that they accidentally have a weapon in their possession, and the student fails to contact a school administrator immediately, the student will be deemed to have committed a separate violation of the policy prohibiting weapons in school.
- C. It shall not be a violation of this policy if a nonstudent, nonemployee, student where specified, or situation falls within one of the following categories:
1. Active licensed peace officers or military personnel participating in military training, when they are on duty performing official duties.
 2. Persons authorized to carry a pistol under Minnesota Statutes Section 624.714 while in a motor vehicle or outside of a motor vehicle for the purpose of directly placing a firearm in, or retrieving it from, the trunk or rear area of the vehicle.
 3. Persons who keep or store in a motor vehicle pistols in accordance with Minnesota Statutes, Sections 624.714 or 624.715 or other firearms in accordance with Minnesota Statutes, Section 97B.045.
 - a. Section 624.714 specifies procedures and standards for obtaining pistol permits and penalties for the failure to do so. Section 624.715 defines an exception to the pistol permit requirements for “antique firearms which are carried or possessed as curiosities or for their historical significance or value.”
 - b. Section 97B.045 generally provides that a firearm may not be transported in a motor vehicle unless it is (1) unloaded and in a gun case without any portion of the firearm exposed; (2) unloaded and in the closed trunk; or (3) a handgun carried in compliance with Sections 624.714 and 624.715.

4. Firearm safety or marksmanship courses or activities for students or non-students conducted on school property.
5. Ceremonial color guard in possession of dangerous weapons, BB guns, or replica firearms.
6. Possession of dangerous weapons, BB guns, or replica firearms with written permission of the principal or other school/district administrator.

D. Policy Application to Instructional Equipment/Tools

While the district does not allow the possession, use or distribution of weapons by students or non-students, such a position is not meant to interfere with instruction or the use of appropriate equipment and tools by students or nonstudents. Such equipment and tools, when properly possessed, used and stored, shall not be considered in violation of the rule against the possession, use or distribution of weapons. However, when authorized instructional and work equipment and tools are used in a potentially dangerous or threatening manner, such possession and use will be treated as the possession and use of a weapon.

V. CONSEQUENCES FOR STUDENT POSSESSION, USE, OR DISTRIBUTION OF A WEAPON

- A. The district does not allow the possession, use, or distribution of weapons by students. Consequently, the minimum consequence for students willfully possessing, using or distributing weapons shall include:
 1. Immediate out-of-school suspension.
 2. Confiscation of the weapon.
 3. Immediate notification of police.
 4. Parent or guardian notification.
 5. Possible recommendation to the superintendent of expulsion for a period of time not to exceed twelve months.

502 SEARCH OF STUDENT LOCKERS, DESKS, PERSONAL POSSESSIONS AND STUDENT'S PERSON

I. PURPOSE

The purpose of this policy is to provide for a safe and healthful educational environment by enforcing the Northfield School District's policies against contraband.

II. GENERAL STATEMENT OF POLICY

A. Lockers and Personal Possessions Within a Locker

Pursuant to Minnesota statutes, school lockers are the property of the district. At no time does the district relinquish its exclusive control of lockers provided for the convenience of students. Inspection of the interior of lockers may be conducted by school officials for any reason at any time, without notice, without student consent, and without a search warrant. The personal possessions of students within a school locker may be searched only when school officials have a reasonable suspicion that the search will uncover evidence of a violation of law or school rules. As soon as practicable after the search of a student's personal possessions, the school officials must provide notice of the search to students whose lockers were searched unless disclosure would impede an ongoing investigation by police or school officials.

B. Desks

School desks are the property of the district. At no time does the district relinquish its exclusive control of desks provided for the convenience of students. Inspection of the interior of desks may be conducted by school officials or the classroom teacher for any reason at any time, without notice, without student consent, and without a search warrant.

C. Personal Possessions and Student's Person

The personal possessions of students and/or a student's person may be searched when school officials have a reasonable suspicion that the search will uncover a violation of law or school rules. The search will be reasonable in its scope and intrusiveness.

D. A violation of this policy occurs when students use lockers and desks for unauthorized purposes or to store contraband. A violation occurs when students carry contraband on their person or in their personal possessions.

III. DEFINITIONS

A. "Contraband" means any unauthorized item possession of which is prohibited by district policy and/or law. It includes but is not limited to weapons and "look-alikes," alcoholic beverages, controlled substances and "look-alikes," overdue books and other materials belonging to the district, and stolen property.

B. "Personal possessions" includes but is not limited to purses, backpacks, bookbags, packages and clothing.

- C. “Reasonable suspicion” means that a school official has grounds to believe that the search will result in evidence of a violation of district policy, rules, and/or law. Reasonable suspicion may be based on a school official’s personal observation, a report from a student, parent or staff member, a student’s suspicious behavior, a student’s age and past history or record of conduct both in and out of the school context, or other reliable sources of information.
- D. “Reasonable scope” means that the scope and/or intrusiveness of the search is reasonably related to the objectives of the search. Factors to consider in determining what is reasonable include the seriousness of the suspected infraction, the reliability of the information, the necessity of acting without delay, the existence of exigent circumstances necessitating an immediate search and further investigation (e.g., to prevent violence, serious and immediate risk of harm or destruction of evidence), and the age of the student.
- E. “School official” means superintendent, building principal or their designee. For the purposes of this policy assistant principal and parking lot/security monitors are considered designees.

IV. SEARCH PROCESSES

- A. School officials may inspect the interiors of lockers and desks for any reason at any time, without notice, without student consent, and without a search warrant.
- B. School officials may inspect the personal possessions of a student and/or a student’s person based on a reasonable suspicion that the search will uncover a violation of law or school rules. A search of personal possessions of a student and/or a student’s person will be reasonable in its scope and intrusiveness.
- C. As soon as practicable after a search of personal possessions within a locker pursuant to this policy, the school officials must provide notice of the search to students whose possessions were searched unless disclosure would impede an ongoing investigation by police or school officials.
- D. Whenever feasible, a search of a person shall be conducted in private by a school official of the preferred gender. A second school official of the preferred gender shall be present as an observer during the search of a person whenever feasible.
- E. A strip search is a search involving the removal of coverings or clothing from private areas. Mass strip searches, or body cavity searches, are prohibited. Strip searches will be conducted only in circumstances involving imminent danger.
- F. A school official conducting any other search may determine when it is appropriate to have a second official present as an observer.
- G. School officials may ask that law enforcement to assist with any search.
- H. A copy of this policy will be included in the student handbook, posted on the district website, and disseminated in any other way which school officials deem

appropriate. The district shall provide a copy of this policy to a student when the student is given use of a locker.

V. DIRECTIVES AND GUIDELINES

- A. A school official conducting any search will notify the parent/guardian of the student, unless the student is 18 years or older and has specifically requested the parent/guardian not be informed of educational data.
- B. If a teacher or staff member has grounds to believe that a search will result in evidence of a violation of district policy, rules, and/or law, they must inform a school official. School officials only may conduct a search.
- C. School administration may establish reasonable directives and guidelines which address specific needs of the district, such as use of tape in lockers, standards of cleanliness and care, posting of pin-ups and posters which may constitute sexual harassment, etc.

VI. SEIZURE OF CONTRABAND

If a search yields contraband, school officials will seize the item and, where appropriate, turn it over to legal officials for ultimate disposition.

VIII. VIOLATIONS

A student found to have violated this policy and/or the directives and guidelines implementing it shall be subject to discipline in accordance with the district's Student Discipline Policy, which may include suspension, exclusion, or expulsion, and the student may, when appropriate, be referred to legal officials.

Policy 503 STUDENT ATTENDANCE

I. PURPOSE

The purpose of this policy is to encourage regular school attendance to meet the district's vision of preparing every student for lifelong success. This policy recognizes that class attendance is a joint responsibility to be shared by the student, parent or guardian, teacher and administrators in the Northfield School District.

The district believes that regular school attendance is directly related to success in academic work, benefits students socially, provides opportunities for important communications between teachers and students, and establishes regular habits of dependability important to the future of the student.

II. GENERAL STATEMENT OF POLICY

A. Responsibilities

1. Student's responsibility. It is the student's right to be in school. It is also the student's responsibility to attend all assigned classes and study halls every day that school is in session and to be aware of and follow the correct procedures when absent from an assigned class or study hall. Finally, it is the student's responsibility to request or access any missed assignments due to an absence.
2. Parent or guardian's responsibility. It is the responsibility of the student's parent or guardian to ensure the student is attending school, to inform the school in the event of a student absence, and to work cooperatively with the school and the student to solve any attendance problems that may arise.
3. Teacher's responsibility. It is the teacher's responsibility to take daily attendance and to maintain accurate attendance records in each assigned class and study hall. It is also the teacher's responsibility to be familiar with all procedures governing attendance and to apply these procedures uniformly. It is also the teacher's responsibility to provide any student who has been absent access to missed assignments. Finally, it is the teacher's responsibility to work cooperatively with the student's parent or guardian and the student to solve any attendance problems that may arise. This could include collaborating with members of the school's attendance committee, problem solving team, or other designated attendance support personnel.
4. Administrator's responsibility
 - a. It is the administrator's responsibility to require students to attend all assigned classes and study halls. It is also the administrator's responsibility to be familiar with all procedures governing attendance and to apply these procedures uniformly to all students, to maintain accurate records on student attendance and to prepare a list of the previous day's absences stating the status of each.

Finally, it is the administrator's responsibility to inform the student's parent or guardian of the student's attendance and to work cooperatively with them and the student to solve attendance problems.

- b. In accordance with the Minnesota Compulsory Instruction Law, Minnesota Statutes Section 120A.22, the students of the school district are required to attend all assigned classes and/or study halls every day school is in session, unless the student has an excused absence, has withdrawn, or has been excused by the school board from attendance because the student has already completed state and school district standards required to graduate from high school.

B. Attendance Procedures

Attendance procedures shall be presented to the board for review and approval. Following approval by the board, the attendance procedures shall be included in student handbooks developed for the elementary, middle school and high school buildings and have the force of policy. A note from a physician or a licensed mental health professional stating that the child cannot attend school is a valid excuse.
- b. To be considered an excused absence, the student's parent or legal guardian may be asked to verify, in writing, the reason for the student's absence from school.
- c. The board of the district in which the child resides may approve the application under subparagraph (a) above upon a legitimate exception being demonstrated to the satisfaction of that board.
- d. Legitimate Exceptions. The following reasons shall be sufficient to constitute excused absences:

506 STUDENT DISCIPLINE

I. PURPOSE

The purpose of this policy is to establish Northfield Public Schools' expectations for student conduct. Compliance with this policy will enhance the district's ability to maintain discipline and ensure that there is no interference with the educational process. The district will take appropriate disciplinary action when students fail to adhere to the expectations as established in the Student Citizenship Handbook established under this policy.

II. GENERAL STATEMENT OF POLICY

The Board of Education believes that discipline is the positive direction of behavior toward established standards of conduct, fully understood by all, and based upon reason, judgment, and the rights of others. School discipline is to be administered firmly, fairly, and with consideration for the maturity of the individual student.

III. STATEMENT OF PHILOSOPHY

Students must accept certain responsibilities regarding their behavior in school. Parents likewise, through teaching and example, have a responsibility to develop in their children an understanding of and respect for school, which includes support for rules and regulations that are necessary to protect the welfare of all.

It shall be the policy of the district that the following will not be tolerated:

1. Disruption of the learning process
2. Interference with the orderly conduct of school and school activities
3. Infringement of the rights of others
4. Violations of public law

The Board of Education will support district personnel who, when dealing with students in disciplinary matters, act in accordance with state law, district policy, sound professional judgment, and individual building/program procedures.

The Board of Education delegates implementation of the policy on student discipline to the school administration, who shall develop and annually review sound disciplinary procedures with their teaching staff for their individual buildings as detailed in the Student Citizenship Handbook. The Student Citizenship Handbook, issued pursuant to this policy, shall be annually reviewed and approved by the School Board.

IV. DISTRIBUTION OF POLICY

The district will notify students and parents of the existence and contents of this policy through the Student Citizenship Handbook, which shall be available online and by request from the district office.

Policy 507 CORPORAL PUNISHMENT AND PRONE RESTRAINT

I. PURPOSE

The purpose of this policy is to describe limitations on use of corporal punishment and prone restraint upon a student in the Northfield School District.

II. GENERAL STATEMENT OF POLICY

No employee or agent of the district or charter school shall inflict corporal punishment or use prone restraint upon a student except as provided below.

III. DEFINITIONS

1. "Corporal punishment" means conduct involving:
 - a. Hitting or spanking a person with or without an object.
 - b. Unreasonable physical force that causes bodily harm or substantial emotional harm.
2. "Employee or agent of the district" does not include a school resource officer as defined in Minnesota Statutes, section 626.8482, subdivision 1, paragraph (c).
3. "Prone restraint" means placing a child in a face-down position.

IV. PROHIBITIONS

1. An employee or agent of a district shall not inflict corporal punishment or cause corporal punishment to be inflicted upon a pupil to reform unacceptable conduct or as a penalty for unacceptable conduct.
2. An employee or agent of a district shall not use prone restraint.
3. An employee or agent of a district shall not inflict any form of physical holding that restricts or impairs a pupil's ability to breathe; restricts or impairs a pupil's ability to communicate distress; places pressure or weight on a pupil's head, throat, neck, chest, lungs, sternum, diaphragm, back, or abdomen; or results in straddling a pupil's torso.
4. Conduct that violates this Article is not a crime under Minnesota Statutes, section 645.241, but may be a crime under Minnesota Statutes, chapter 609 if the conduct violates a provision of Minnesota Statutes, chapter 609. Conduct that violates IV.1 above is not per se corporal punishment under the statute. Nothing in this Minnesota Statutes, section 121A.58 or 125A.0941 precludes the use of reasonable force under Minnesota Statutes, section 121A.582. The use of reasonable force as set forth in Section V does not authorize conduct prohibited pursuant to Minnesota Statutes, section 125A.0942.

V. REASONABLE FORCE

1. Reasonable force may be used upon or toward the person of another without the other's consent when used by a teacher, school principal, school employee, school bus driver, or other agent of the school in the exercise of lawful authority, to restrain a child or pupil to prevent bodily harm or death to the child, pupil, or another.
2. Reasonable force may be used upon or toward the person of a child without the child's consent when used by a teacher, school principal, school employee, school bus driver, other agent of the district, or other member of the instructional, support, or supervisory staff upon or toward a child or pupil when necessary to restrain the child or pupil to prevent bodily harm or death to the child, pupil, or another pursuant to [Minnesota Statutes, section 609.379](#). Nothing in section 609.379 limits any other authorization to use reasonable force including but not limited to authorizations under [Minnesota Statutes, section 121A.582, subdivision 1](#), and [section 609.06, subdivision 1](#).
3. A teacher, school principal, and other school staff may use reasonable force under the conditions set forth in Policy 506 (Student Discipline) and the Student Citizenship Handbook.

VI. VIOLATION

Employees who violate the provisions of this policy shall be subject to disciplinary action. Any such disciplinary action shall be made pursuant to and in accordance with applicable statutory authority, collective bargaining agreements and district policies. Violation of this policy may also result in civil or criminal liability for the employee.

POLICY 507.5 SCHOOL RESOURCE OFFICERS

I. PURPOSE

The purpose of this policy is to establish the contractual duties and training requirements of a Northfield School District school resource officer.

II. GENERAL STATEMENT OF POLICY

The district, upon securing the services of one or more school resource officers, is committed to establishing the qualifications and duties required of these officers. Any contract for the services of a school resources officer with the school district must meet the requirements of this policy.

III. DEFINITIONS

- A. "School" means an elementary school, middle school or secondary school, as defined in Minnesota Statutes, section 120A.05, subdivisions 9, 11, and 13.
- B. "School Resource Officer" means a peace officer who is assigned to work in an elementary school, middle school, or secondary school during the regular instructional school day as one of the officer's regular responsibilities through the terms of a contract entered between the peace officer's employer and the designated district or charter school.

IV. CONTRACTUAL DUTIES

- A. A school resource officer's contractual duties with the district shall include:
 - 1. Fostering a positive school climate through relationship building and open communication.
 - 2. Protecting students, staff, and visitors to the school grounds from criminal activity.
 - 3. Serving as a liaison from law enforcement to school officials.
 - 4. Providing advice on safety drills.
 - 5. Identifying vulnerabilities in school facilities and safety protocols.
 - 6. Educating and advising students and staff on law enforcement topics.
 - 7. Enforcement of criminal laws.
- B. The district may contract with a school resource officer's employer for the officer to perform additional duties to those described in paragraph IV.A.
- C. A school resource officer must not use force or the authority of their office solely to enforce school rules or policies or participate in the enforcement of discipline for violations of school rules.

- D. Nothing in this Article limits any other duty or responsibility imposed on peace officers; limits the expectation that peace officers will exercise professional judgment and discretion to protect the health, safety, and general welfare of the public when carrying out their duties; or creates a duty for school resource officers to protect students, staff, or others on school grounds that is different from the duty to protect the public as a whole.

V. TRAINING

- A. Except as provided for in paragraphs V.B., V.C., and V.D., beginning September 1, 2025, a peace officer assigned to serve as a school resource officer must complete a training course that provides instruction on the learning objectives identified in Minnesota Statutes, section 626.8482, subdivision 4 prior to assuming the duties of a school resource officer.
- B. A peace officer who has completed either the School Safety Center standardized Basic School Resource Officer Training or the National School Resource Officer Basic School Resource Officer course prior to September 1, 2025, must complete the training mandated under paragraph V.A. above before June 1, 2027. A peace officer covered under this paragraph may complete a supplemental training course approved by the board pursuant to Minnesota Statutes, section 626.8482, subdivision 4, paragraph (b), to satisfy the training requirement.
- C. If an officer's employer is unable to provide the required training course to the officer prior to the officer assuming the duties of a school resource officer, the officer must complete the required training within six months of assuming the duties of a school resource officer. The officer is not required to perform the duties described in Minnesota Statutes, section 626.8482, subdivision 2, paragraph (a), clause (4) or (5), until the officer has completed the required training course. The officer must review any policy adopted by the officer's employer pursuant to section 626.8482, subdivision 6 before assuming the other duties of a school resource officer and must comply with that policy.
- D. An officer who is serving as a substitute school resource officer for fewer than 60 student contact days within a school year is not obligated to complete the required training or perform the duties described in Minnesota Statutes, section 626.8482 subdivision 2, paragraph (a), clause (4) or (5), but must review and comply with any policy adopted pursuant to subdivision 6 by the law enforcement agency that employs the substitute school resource officer.
- E. For each school resource officer employed by an agency, the chief law enforcement officer must maintain a copy of the most recent training certificate issued to the officer for completion of the training mandated under this section.

**Policy 508 EXTENDED SCHOOL YEAR FOR CERTAIN STUDENTS WITH
INDIVIDUALIZED EDUCATION PROGRAMS**

I. PURPOSE

The purpose of this policy is to ensure that Northfield Public Schools complies with the overall requirements of law as mandated for certain students subject to individualized education programs (IEPs) when necessary to provide a free appropriate public education (FAPE).

II. GENERAL STATEMENT OF POLICY

- A. Extended School Year Services Must Be Available to Provide a FAPE. The district shall provide extended school year (ESY) services to a student who is the subject of an IEP if the student's IEP team determines the services are necessary during a break in instruction in order to provide a FAPE.
- B. Extended School Year Determination. At least annually, the IEP team must determine that a student is in need of ESY services if the student meets any one or more of the following conditions:
1. There will be significant regression of a skill or acquired knowledge from the student's level of performance on an annual goal that requires more than the length of the break in instruction to recoup unless the IEP team determines a shorter time for recoupment is more appropriate. Or,
 2. Services are necessary for the student to attain and maintain self-sufficiency because of the critical nature of the skill addressed by an annual goal, the student's age and level of development, and the timeliness for teaching the skill. Or,
 3. The IEP team otherwise determines, given the student's unique needs, that ESY services are necessary to ensure the pupil receives a FAPE.
- C. Required Factors Schools Must Consider in Making ESY Determinations. The IEP team must decide ESY eligibility using information including:
1. Prior observations of the student's regression and recoupment over the summer.
 2. Observations of the student's tendency to regress over extended breaks in instruction during the school year.
 3. Experience with other students with similar instructional needs.
- D. Additional Factors to Consider, Where Relevant. In making its determination of ESY needs, the following factors must be considered, where relevant:
1. The student's progress and maintenance of skills during the regular school year.
 2. The student's degree of impairment.

3. The student's rate of progress.
4. The student's behavioral or physical problems.
5. The availability of alternative resources.
6. The student's ability and need to interact with nondisabled peers.
7. The areas of the student's curriculum which need continuous attention.
8. The student's vocational needs.

E. No Unilateral Decisions. In the course of providing ESY services to children with disabilities, the district may not unilaterally limit the type, amount, or duration of those services.

F. Services to Nonresident Students Temporarily Placed in School District. The district may provide ESY services to nonresident children with disabilities temporarily placed in the district in accordance with applicable state law.

Policy 509 ENROLLMENT OF NONRESIDENT STUDENTS

I. PURPOSE

In alignment with the Northfield School District's strategic commitments to equity and stewardship, the district chooses to participate in the Enrollment Options Program (Open Enrollment) established by Minnesota Statutes, section 124D.03. This policy sets forth the application and exclusion procedures used by the school district in making said determination.

II. GENERAL STATEMENT OF POLICY

The Northfield Board of Education authorizes the superintendent or their designee to approve applications for enrollment under the school district enrollment options program and enter into nonresident student attendance agreements with other school districts.

III. DEFINITION OF RESIDENCY

- A. Open Enrollment applications will be approved provided that acceptance of the application will not exceed the capacity of a program, excluding special education services; class; grade level; or school building as established by school board resolution and provided that:
 - 1. Space is available for the applicant under enrollment cap standards established by school board policy or other directives.
 - 2. In considering the capacity of a grade level, the school district may only limit the enrollment of nonresident students to a number not less than the lesser of: (a) one percent of the total enrollment at each grade level in the school district; or (b) the number of school district resident students at that grade level enrolled in a nonresident school district in accordance with Minnesota Statutes, section 124D.03.
 - 3. The applicant is not otherwise excluded by action of the school district because of previous conduct in another school district.
- B. If the district limits enrollment of nonresident students pursuant to this section, the district shall report to the Commissioner of the Minnesota Department of Education (MDE) by July 15 on the number of nonresident pupils denied admission due to the limitations on the enrollment of nonresident pupils.
- C. The parent of a nonresident student with a disability not yet enrolled in kindergarten and not open enrolled in a nonresident district may elect, in the same manner as the parent of a resident student with a disability, a school in the nonresident district where the child is enrolled in a Head Start program or a licensed child care setting in the nonresident district, provided the child can be served in the same setting as other children in the nonresident district with the same level of disability.

Under this paragraph, parents must demonstrate enrollment in a community preschool or childcare setting.

- D. A nonresident preschool aged child with a disability open enrolled in the district may be required to open enroll for kindergarten.

IV. BASIS FOR DECISIONS

A. ***Standards that may be used for rejection of application***

In addition to the provisions above, the school district may refuse to allow a pupil who is expelled under Minnesota Statutes, section 121A.45 to enroll during the term of the expulsion if the student was expelled for:

1. Possessing a dangerous weapon, including a weapon, device, instruments, material, or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious bodily injury, ~~with~~ except that such term does not include a pocket knife with a blade less than two and one-half inches in length, at school or a school function.
2. Possessing or using an illegal drug at school or a school function.
3. Selling or soliciting the sale of a controlled substance while at school or a school function.
4. Committing a third-degree assault involving assaulting another and inflicting substantial bodily harm.

B. ***Standards that may not be used for rejection of application***

The district may not use the following standards in determining whether to accept or reject an application for open enrollment:

1. Previous academic achievement of a student.
2. Athletic or extracurricular ability of a student.
3. Disabling conditions of a student.
4. A student's proficiency in the English language.
5. The student's district of residence except where the district of residence is directly included in an enrollment options strategy included in an approved achievement and integration program; or
6. Previous disciplinary proceedings involving the student. This shall not preclude the school district from proceeding with exclusion as set out in this policy.

C. ***Application***

The student and parent/guardian must complete and submit the "General Statewide Enrollment Options Application for K-12 and Early Childhood Special Education (or the Statewide Enrollment Options Application for

State-funded Voluntary Prekindergarten (VPK) developed by MDE and available on its website.

The district may require a nonresident student enrolled in a program under Minnesota Statutes, section 125A.13, or in a preschool program, except for a program under Minnesota Statutes, section 124D.151 to follow the application procedures under this subdivision to enroll in kindergarten. A district must allow a nonresident student enrolled in a program under Minnesota Statutes, section 124D.151 to remain enrolled in the district when the student enters kindergarten without submitting annual or periodic applications, unless the district terminates the student's enrollment under subdivision 12.

The district shall notify the parent or guardian in writing by February 15 or within ninety (90) days for applications submitted after January 15 in the case of achievement and integration district transfers whether the application has been accepted or rejected. If an application is rejected, the district must state in the notification the reason for rejection. The parent or guardian must notify the nonresident district by March 1 or within ten (10) business days whether the pupil intends to enroll in the nonresident district.

D. *Lotteries*

If a district has more applications than available seats at a specific grade level, it must hold an impartial lottery following the January 15 deadline to determine which students will receive seats. The district must give priority to enrolling siblings of currently enrolled students, students whose applications are related to an approved integration and achievement plan, children of the school district's staff, and students residing in that part of a municipality (a statutory or home rule charter city or town) where:

1. The student's resident district does not operate a school building.
2. The municipality is located partially or fully within the boundaries of at least five school districts.
3. The nonresident district in which the student seeks to enroll operates one or more school buildings within the municipality.
4. No other nonresident, independent, special, or common school district operates a school building within the municipality.

The process for the district lottery must be established by school board policy and posted on the district's website.

E. *Exclusion*

1. ***Administrator's initial determination.*** If a school district administrator knows or has reason to believe that an applicant has engaged in conduct that has subjected or could subject the applicant to expulsion or exclusion under law or school district policy, the administrator will transmit the application to the superintendent with a recommendation of whether exclusion proceedings should be initiated.

2. ***Superintendent's review.*** The superintendent may make further inquiries. If the superintendent determines that the applicant should be admitted, he or she will notify the applicant and the school board chair. If the superintendent determines that the applicant should be excluded, the superintendent will notify the applicant and determine whether the applicant wishes to continue the application process. Although an application may not be rejected based on previous disciplinary proceedings, the school district reserves the right to initiate exclusion procedures pursuant to the Minnesota Pupil Fair Dismissal Act as warranted on a case-by-case basis.

F. ***Termination of Enrollment***

The district may terminate the enrollment of a nonresident student enrolled under an enrollment options program pursuant to Minnesota Statutes, section 124D.03 or 124D.08 at the end of a school year if the student meets the definition of a habitual truant, the student has been provided appropriate services for truancy under Minnesota Statutes, chapter 260A, and the student's case has been referred to juvenile court. A "habitual truant" is a child under 17 years of age who is absent from attendance at school without lawful excuse for seven school days in a school year if the child is in elementary school or for one or more class periods on seven school days in a school year if the child is in middle school, junior high school, or high school, or a child who is 17 years of age who is absent from attendance at school without lawful excuse for one or more class periods on seven school days in a school year and who has not lawfully withdrawn from school under Minnesota Statutes, section 120A.22, subdivision 8. The district may also terminate the enrollment of a nonresident student over 17 years of age if the student is absent without lawful excuse for one or more periods on 15 school days and has not lawfully withdrawn from school under Minnesota Statutes, section 120A.22, subdivision 8.

A student who has not applied for and been accepted for open enrollment pursuant to this policy and does not otherwise meet the residency requirements for enrollment may be terminated from enrollment and removed from school. Prior to removal from school, the district will send to the student's parents a written notice of the district's belief that the student is not a resident of the district. The notice shall include the facts upon which the belief is based and notice to the parents of their opportunity to provide documentary evidence, in person or in writing, of residency to the superintendent or the superintendent's designee. The superintendent or the superintendent's designee will make the final determination as to the residency status of the student.

Notwithstanding the requirement that an application must be approved by the board of the nonresident district, a student who has been enrolled in a district, who is identified as homeless, and whose parent or legal guardian moves to another district, or who is placed in foster care in another school district, may continue to enroll in the nonresident district without the approval of the board of the nonresident district. The approval of the board of the student's resident district is not required.

Policy 509 NONRESIDENT OPEN ENROLLMENT PROCEDURES

1. PROTOCOLS

Open enrollment for all district schools is handled through the Student Information Systems Specialist at the Northfield School District Office, 201 Orchard Street South, Northfield. Open enrollment requests are for enrollment into the school district, not a particular elementary building. Parents/guardians may request to be considered for a particular building, but the decision as to building availability is made by the district in consultation with individual buildings. **No students are enrolled in an individual school until staff has verified that the student lives in the district or the parent/guardian has provided a copy of the open enrollment signed by the superintendent or their designee.**

- a. If a parent/guardian contacts an individual building requesting open enrollment, please refer them to the Student Information Systems specialist.
- b. If a parent/guardian attempts to enroll at a building with an address that is not in the district, tell them that they are not eligible to enroll in any district building unless they are approved by the superintendent's office for open enrollment.
- c. Even if open enrollment is not requested by the parent/guardian, if building staff is unsure whether the address is in the district, contact the student information systems specialist, the administrative assistant to the superintendent, or Benjamin Bus Company and request a check of the address. **Do not enroll the student unless one of these individuals indicates that they reside in the school district.**

2. OPEN ENROLLMENT

A student is eligible to apply for open enrollment between Dec. 1–Jan. 15 of each year for attendance beginning the following fall. Parents who have submitted open enrollment forms during this enrollment window will receive a response by Feb. 15 of the acceptance or denial of their open enrollment request. By March 15, parents should notify the district office of their intent to attend school in the district the following fall.

Students wishing to enroll in the Area Learning Center are not required to have approval from their resident district prior to enrollment. Please contact the Area Learning Center for enrollment.

II. GENERAL STATEMENT OF POLICY

- A. Expressions and representations made by students in school-sponsored publications and activities are not expressions of official district policy. Faculty advisors shall supervise student writers to ensure compliance with the law and district policies.

 - 1. Students producing school-sponsored media and activities shall be under the supervision of a faculty adviser and the school principal. School-sponsored media and activities shall be subject to the guidelines set forth below.
 - 2. School-sponsored media may be distributed at reasonable times and locations.

III. DEFINITIONS

- A. - B. "Material and substantial disruption" of a normal school activity means:
 - 1. Where the normal school activity is an educational program of the school district for which student attendance is compulsory, "material and substantial disruption" is defined as any disruption which interferes with or impedes the implementation of that program.
 - 2. Where the normal school activity is voluntary in nature (including, without limitation, school athletic events, school plays and concerts, and lunch periods) "material and substantial disruption" is defined as student rioting, unlawful seizures of property, conduct inappropriate to the event,

participation in a school boycott, demonstration, sit-in, stand-in, walk-out, or other related forms of activity.

In order for expression to be considered disruptive, there must exist specific facts upon which the likelihood of disruption can be forecast, including past experience in the school, current events influencing student activities and behavior, and instances of actual or threatened disruption relating to the written material in question.

C. "Obscene to minors" means:

1. The average person, applying contemporary community standards, would find that the material, taken as a whole, appeals to the salacious interest of minors of the age to whom distribution is requested;
2. The material depicts or describes, in a manner that is patently offensive to prevailing standards in the adult community concerning how such conduct should be presented to minors of the age to whom distribution is requested, sexual conduct, excretory functions, or lewd exhibition; and
3. The material, taken as a whole, lacks serious literary, artistic, political, or scientific value for minors.

D. "Minor" means any person under the age of eighteen (18).

E. "School activities" means any activity of students sponsored by the school including, but not limited to, classroom work, library activities, physical education classes, official assemblies and other similar gatherings, school athletic contests, band concerts, school plays and other theatrical productions, and in-school lunch periods.

1. Prepared, wholly or substantially written, published, broadcast, or otherwise disseminated by a student journalist enrolled in the district.
2. Distributed or generally made available to students in the school.
3. Prepared by a student journalist under the supervision of a student media adviser.

School-sponsored media does not include material prepared solely for distribution or transmission in the classroom in which the material is produced, or a yearbook.

- H. "Student media adviser" means a qualified teacher, as defined in Minnesota Statutes, section 122A.16, that the school district employs, appoints, or designates to supervise student journalists or provide instruction relating to school-sponsored media.
- I. "Administration" means the building administrator or principal. It can include consultation of the building administrator or principal with the superintendent or other relevant district administrators.

IV. GUIDELINES

- A. Except as provided in paragraph B below, a student journalist has the right to exercise freedom of speech and freedom of the press in school-sponsored media regardless of whether the school-sponsored media receives financial support from the school or district, uses school equipment or facilities in its production, or is produced as part of a class or course in which the student journalist is enrolled. Freedom of speech includes freedom to express political viewpoints. Consistent with paragraph B below, a student journalist has the right to determine the news, opinion, feature, and advertising content of school-sponsored media. The school district must not discipline a student journalist for exercising rights or freedoms under this paragraph or the First Amendment of the United States Constitution.

 - 9. Advocates sexual, racial, or religious harassment or violence or prejudice.
 - 10. Is distributed or displayed in violation of time, place, and manner regulations.
- C. The school district must not retaliate or take adverse employment action against a student media adviser for supporting a student journalist exercising rights or freedoms under paragraph A above or the First Amendment of the United States Constitution.
- D. Notwithstanding the rights or freedoms of this Article or the First Amendment of the United States Constitution, nothing in this Article inhibits a student media

adviser from teaching professional standards of English and journalism to student journalists. These professional standards may include, but are not limited to, efforts to assure that:

1. Participants learn whatever lessons the activity is designed to teach.
2. Readers or listeners are not exposed to material that may be inappropriate for their level of maturity.
3. The views of the individual speaker are not erroneously attributed to the school.

Policy 513.1 DETERMINATION OF LEGAL AGE OF STUDENTS FOR SCHOOL ADMISSION

I. PURPOSE

The purpose of this policy is to define how Northfield Public Schools will verify evidence of age for kindergarten enrollment.

II. GENERAL STATEMENT OF POLICY

Minnesota Statute 120A.20 requires that "A person shall not be admitted to a public school

1. As a kindergarten student, unless the student is at least five years of age on September 1 of the calendar year in which the school year for which the student seeks admission commences, or
2. As a first grade student, unless the student is at least six years of age on September 1 of the calendar year in which the school year for which the student seeks admission commences or has completed kindergarten; except that any school board may establish a policy for admission of selected pupils at an earlier age."

The district is obligated to comply with state law. Therefore, in order to verify the age of a student applying for admission to Northfield Public Schools, the building principal will require either an official birth certificate issued by the county of birth, a hospital birth certificate provided the child's name was originally included on it, or other record, deemed satisfactory by the building principal, which provides evidence of age.

Policy 513.2 EARLY ENTRANCE INTO KINDERGARTEN

I. PURPOSE

The purpose of this policy is to establish the process to request early entrance into kindergarten in the Northfield School District.

II. GENERAL STATEMENT OF POLICY

Children shall be five years of age on or before September 1 of the year in which they start kindergarten and six years of age on or before September 1 of the year in which they start first grade. When a student has successfully completed an accredited kindergarten program, he or she may be placed in first grade, at the parents' request, regardless of age. Early entrance to kindergarten will be considered if a child's fifth birthday falls on a date after September 1, and before October 1, provided that the child demonstrates superior levels of intellectual, academic, and social development as specified by the early entrance procedures. Such decisions shall be made cautiously due to the possible negative consequences for a student who spends his/her school career as the youngest member in the identity group.

A request must be made in writing directly to the elementary school principal no later than May 1 of the year for which early entrance is requested. An exception may be permitted at the discretion of the superintendent of schools.

I. PURPOSE

The purpose of this policy is to establish advanced grade placement guidelines for students enrolled in the Northfield School District.

II. GENERAL STATEMENT OF POLICY

It shall be the policy of the Northfield Board of Education to allow advanced grade placement provided that a child demonstrates specified superior levels of intellectual, academic, adaptive and/or physical development; and, in the judgment of school personnel, will benefit from such placement. Such decisions shall be made cautiously due to the possible negative consequences for a student who spends his/her school career as the youngest member in the identity group.

Applications for advanced grade placement must be submitted in writing to the principal by the parents/guardians seeking advanced grade placement for their child. The district shall have 30 school days to complete the assessment.

POLICY 514 BULLYING PROHIBITION

I. PURPOSE

A safe and civil environment is needed for students to learn and attain high academic standards and to promote healthy human relationships. Bullying, like other violent or disruptive behavior, is conduct that interferes with a student's ability to learn and/or a teacher's ability to educate students in a safe environment. The Northfield School District cannot monitor the activities of students at all times and eliminate all incidents of bullying between students, particularly when students are not under the direct supervision of school personnel. However, to the extent such conduct affects the educational environment of the district and the rights and welfare of its students and is within the control of the district in its normal operations, the district intends to prevent bullying and to take action to investigate, respond to, remediate and discipline for those acts of bullying which have not been successfully prevented. The purpose of this policy is to assist the district in its goal of preventing and responding to acts of bullying, intimidation, violence, reprisal, retaliation, and other similar disruptive and detrimental behavior.

II. GENERAL STATEMENT OF POLICY

- A. An act of bullying, by either an individual student or a group of students, is expressly prohibited:
 - 1. On the school premises, on district property, at school functions or activities, and on school transportation.
 - 2. By the use of electronic technology and communications on the school premises, during the school functions or activities, on the school transportation, or on the school computers, networks, forums, and mailing lists.
 - 3. By use of electronic technology and communications off the school premises to the extent such use substantially and materially disrupts student learning or the school environment.
- B. A school-aged child who voluntarily participates in a public school activity, such as a co-curricular or extracurricular activity, is subject to the policy provisions applicable to the public school students participating in the activity.
- C. This policy applies not only to students who directly engage in an act of bullying but also to students who, by their willful indirect behavior, condone or support another student's act of bullying. This policy also applies to any student whose conduct at any time or in any place constitutes bullying or other prohibited conduct that interferes with or obstructs the mission or operations of the district or the safety or welfare of the student or other students, or materially and substantially interferes with a student's educational opportunities or performance or ability to participate in school functions or activities or receive school benefits, services, or privileges. This policy also applies to an act of cyberbullying

regardless of whether such act is committed on or off district property and/or with or without the use of district resources. This policy also applies to sexual exploitation.

- D. Malicious and sadistic conduct involving race, color, creed, national origin, sex, age, marital status, status with regard to public assistance, disability, religion, sexual harassment, and sexual orientation and gender identity as defined in Minnesota Statutes, chapter 363A is prohibited. This prohibition applies to students, independent contractors, teachers, administrators, and other school personnel.
- E. No teacher, administrator, volunteer, contractor, or other employee of the district shall permit, condone, or tolerate bullying.
- F. Apparent permission or consent by a student being bullied does not lessen or negate the prohibitions contained in this policy.
- G. Retaliation against a victim, good faith reporter, or a witness of bullying is prohibited.
- H. False accusations or reports of bullying against another student are prohibited.
- I. A person who engages in an act of bullying, reprisal, retaliation, or false reporting of bullying or permits, condones, or tolerates bullying shall be subject to discipline or other remedial responses for that act in accordance with the district's policies and procedures, including the district's discipline policy. The district may take into account the following factors:
 - 1. The developmental ages and maturity levels of the parties involved.
 - 2. The levels of harm, surrounding circumstances, and nature of the behavior.
 - 3. Past incidences or past or continuing patterns of behavior.
 - 4. The relationship between the parties involved.
 - 5. The context in which the alleged incidents occurred.

Consequences for students who commit prohibited acts of bullying may range from remedial responses or positive behavioral interventions up to and including suspension and/or expulsion. The district shall employ research-based developmentally appropriate best practices that include preventative and remedial measures and effective discipline for deterring violations of this policy, apply throughout the district, and foster student, parent, and community participation.

Consequences for employees who permit, condone, or tolerate bullying or engage in an act of reprisal or intentional false reporting of bullying may result in disciplinary action up to and including termination or discharge.

Consequences for other individuals engaging in prohibited acts of bullying may include, but not be limited to, exclusion from district property and events.

- J. The district will act to investigate all complaints of bullying reported to the district and will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the district who is found to have violated this policy.

III. DEFINITIONS

For purposes of this policy, the definitions included in this section apply.

- A. “Bullying” means intimidating, threatening, abusive, or harming conduct that is objectively offensive and:
1. An actual or perceived imbalance of power exists between the student engaging in the prohibited conduct and the target of the prohibited conduct, and the conduct is repeated or forms a pattern.

District property also may mean a student's walking route to or from school for purposes of attending school or school-related functions, activities, or events. While prohibiting bullying at these locations and events, the district does not represent that it will provide supervision or assume liability at these locations and events.

IV. REPORTING PROCEDURE

- A. Any person who believes he or she has been the target or victim of bullying or any person with knowledge or belief of conduct that may constitute bullying or prohibited conduct under this policy shall report the alleged acts immediately to an appropriate district official designated by this policy. A person may report bullying anonymously. However, the district may not rely solely on an anonymous report to determine discipline or other remedial responses.
- B. The district encourages the reporting party or complainant to use the report form available from the principal or building supervisor of each building, on the district's website or available in the district office, but oral reports shall be considered complaints as well.
- C. The building principal, the principal's designee, or the building supervisor (hereinafter the "building report taker") is the person responsible for receiving

reports of bullying or other prohibited conduct at the building level. Any person may report bullying or other prohibited conduct directly to a district human rights officer or the superintendent. If the complaint involves the building report taker, the complaint shall be made or filed directly with the superintendent or the district human rights officer by the reporting party or complainant.

The building report taker shall ensure that this policy and its procedures, practices, consequences, and sanctions are fairly and fully implemented and shall serve as the primary contact on policy and procedural matters. The building report taker or a third party designated by the district shall be responsible for the investigation. The building report taker shall provide information about available community resources to the target or victim of the bullying or other prohibited conduct, the perpetrator, and other affected individuals as appropriate.

- D. A teacher, school administrator, volunteer, contractor, or other school employee shall be particularly alert to possible situations, circumstances, or events that might include bullying. Any such person who witnesses, observes, receives a report of, or has other knowledge or belief of conduct that may constitute bullying or other prohibited conduct shall make reasonable efforts to address and resolve the bullying or prohibited conduct and shall inform the building report taker immediately. School district personnel who fail to inform the building report taker of conduct that may constitute bullying or other prohibited conduct or who fail to make reasonable efforts to address and resolve the bullying or prohibited conduct in a timely manner may be subject to disciplinary action.
- E. Reports of bullying or other prohibited conduct are classified as private educational and/or personnel data and/or confidential investigative data and will not be disclosed except as permitted by law. The building report taker, in conjunction with the responsible authority, shall be responsible for keeping and regulating access to any report of bullying and the record of any resulting investigation.
- F. Submission of a good faith complaint or report of bullying or other prohibited conduct will not affect the complainant's or reporter's future employment, grades, work assignments, or educational or work environment.
- G. The district will respect the privacy of the complainant(s), the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the district's obligation to investigate, take appropriate action, and comply with any legal disclosure obligations.

V. SCHOOL DISTRICT ACTION

- A. Within three school days of the receipt of a complaint or report of bullying or other prohibited conduct, the district shall undertake or authorize an investigation by the building report taker or a third party designated by the district.
- B. The building report taker or other appropriate district officials may take

immediate steps, at their discretion, to protect the target or victim of the bullying or other prohibited conduct, the complainant, the reporter, and students or others, pending completion of an investigation of the bullying or other prohibited conduct, consistent with applicable law.

- C. The alleged perpetrator of the bullying or other prohibited conduct shall be allowed the opportunity to present a defense during the investigation or prior to the imposition of discipline or other remedial responses.
- D. Upon completion of an investigation that determines that bullying or other prohibited conduct has occurred, the district will take appropriate action. Such action may include, but is not limited to, warning, suspension, exclusion, expulsion, transfer, remediation, termination, or discharge. Disciplinary consequences will be sufficiently severe to try to deter violations and to appropriately discipline prohibited conduct. Remedial responses to the bullying or other prohibited conduct shall be tailored to the particular incident and nature of the conduct and shall take into account the factors specified in Section II.F. of this policy. District action taken for violation of this policy will be consistent with the requirements of applicable collective bargaining agreements; applicable statutory authority, including the Minnesota Pupil Fair Dismissal Act; the student discipline policy and other applicable district policies; and applicable regulations.
- E. The district is not authorized to disclose to a victim private educational or personnel data regarding an alleged perpetrator who is a student or employee of the district. School officials will notify the parent(s) or guardian(s) of students who are targets of bullying or other prohibited conduct and the parent(s) or guardian(s) of alleged perpetrators of bullying or other prohibited conduct who have been involved in a reported and confirmed bullying incident of the remedial or disciplinary action taken, to the extent permitted by law.
- F. In order to prevent or respond to bullying or other prohibited conduct committed by or directed against a child with a disability, the district shall, when determined appropriate by the child's individualized education program (IEP) team or Section 504 team, allow the child's IEP or Section 504 plan to be drafted to address the skills and proficiencies the child needs as a result of the child's disability to allow the child to respond to or not to engage in bullying or other prohibited conduct.

VI. RETALIATION OR REPRISAL

The district will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the district who commits an act of reprisal or who retaliates against any person who asserts, alleges, or makes a good faith report of alleged bullying or prohibited conduct, who provides information about bullying or prohibited conduct, who testifies, assists, or participates in an investigation of alleged bullying or prohibited conduct, or who testifies, assists, or participates in a proceeding or hearing relating to such bullying or prohibited conduct. Retaliation includes, but is not limited to, any form of intimidation, reprisal, harassment, or intentional disparate treatment. Disciplinary consequences will be sufficiently severe to

deter violations and to appropriately discipline the individual(s) who engaged in the prohibited conduct. Remedial responses to the prohibited conduct shall be tailored to the particular incident and nature of the conduct and shall take into account the factors specified in this policy.

VII. TRAINING AND EDUCATION

- A. Consistent with its applicable policies and practices, the district must discuss this policy with students, school personnel and volunteers and provide appropriate training for all district personnel to prevent identify and respond to prohibited conduct. The district must establish a training cycle for school personnel to occur during a period not to exceed every three school years. Newly employed school personnel must receive the training within the first year of their employment with the district. The district or a school administrator may accelerate the training cycle or provide additional training based on a particular need or circumstance. This policy shall be included in employee handbooks, training materials, and publications on school rules, procedures, and standards of conduct, which materials shall also be used to publicize this policy.
- B. The district shall require ongoing professional development, consistent with Minnesota Statutes, section 122A.60, to build the skills of all school personnel who regularly interact with students to identify, prevent, and appropriately address bullying and other prohibited conduct. Such professional development includes, but is not limited to, the following:
 - 1. Developmentally appropriate strategies both to prevent and to immediately and effectively intervene to stop prohibited conduct.
 - 2. The complex dynamics affecting a perpetrator, target, and witnesses to prohibited conduct.
 - 3. Research on prohibited conduct, including specific categories of students at risk for perpetrating or being the target or victim of bullying or other prohibited conduct in school.
 - 4. The incidence and nature of cyberbullying.
 - 5. Internet safety and cyberbullying.
- C. The district annually will provide education and information to students regarding bullying, including information regarding this district policy prohibiting bullying, the harmful effects of bullying, and other applicable initiatives to prevent bullying and other prohibited conduct.
- D. The administration of the district is directed to implement programs and other initiatives to prevent bullying, to respond to bullying in a manner that does not stigmatize the target or victim, and to make resources or referrals to resources available to targets or victims of bullying.
- E. The administration is encouraged to provide developmentally appropriate instruction and is directed to review programmatic instruction to determine if adjustments are necessary to help students identify and prevent or reduce bullying

and other prohibited conduct, to value diversity in school and society, to develop and improve students' knowledge and skills for solving problems, managing conflict, engaging in civil discourse, and recognizing, responding to, and reporting bullying or other prohibited conduct, and to make effective prevention and intervention programs available to students.

The administration must establish strategies for creating a positive school climate and use evidence-based social-emotional learning to prevent and reduce discrimination and other improper conduct.

The administration is encouraged, to the extent practicable, to take such actions as it may deem appropriate to accomplish the following:

1. Engage all students in creating a safe and supportive school environment.
 2. Partner with parents and other community members to develop and implement prevention and intervention programs.
 3. Engage all students and adults in integrating education, intervention, and other remedial responses into the school environment.
 4. Train student bystanders to intervene in and report incidents of bullying and other prohibited conduct to the schools' primary contact person.
 5. Teach students to advocate for themselves and others.
 6. Prevent inappropriate referrals to special education of students who may engage in bullying or other prohibited conduct.
 7. Foster student collaborations that, in turn, foster a safe and supportive school climate.
- F. The district may implement violence prevention and character development education programs to prevent or reduce policy violations. Such programs may offer instruction on character education including, but not limited to, character qualities such as attentiveness, truthfulness, respect for authority, diligence, gratefulness, self-discipline, patience, forgiveness, respect for others, peacemaking, and resourcefulness.
- G. The district shall inform affected students and their parents of rights they may have under state and federal data practices laws to obtain access to data related to an incident and their right to contest the accuracy or completeness of the data. The district may accomplish this requirement by inclusion of all or applicable parts of its protection and privacy of pupil records policy in the Student Citizenship Handbook.

VIII. NOTICE

- A. The district will give annual notice of this policy to students, parents or guardians, and staff, and this policy shall appear in the student handbook.
- B. Article II, paragraph D, regarding malicious and sadistic conduct must be conspicuously posted throughout each school building. This policy shall be conspicuously posted in the administrative offices of the school and district in

summary form.

- C. This policy must be distributed to each district or school employee and independent contractor, if the contractor regularly interacts with students, at the time of employment with the district or the school.
- D. Notice of the rights and responsibilities of students and their parents under this policy must be included in the student discipline policy distributed to parents at the beginning of each school year.
- E. This policy shall be available to all parents and other school community members in an electronic format in the languages appearing on the district's or a school's website, consistent with the district policies and practices.
- F. The district shall provide an electronic copy of its most recently amended policy to the Commissioner of Education.

II. GENERAL STATEMENT OF POLICY

The following procedures and policies regarding the protection and privacy of parents and students are adopted by the Board of Education, pursuant to the requirements of 20 United States Code section 1232g, *et seq.*, (Family Educational Rights and Privacy Act (FERPA)) 34 Code of Federal Regulations part 99 and consistent with the requirements of the Minnesota Government Data Practices Act, Minnesota Statutes chapter 13, and Minnesota Rules parts 1205.0100-1205.2000.

III. DEFINITIONS

A. Authorized Representative

“Authorized Representative” means any entity or individual designated by the school district, state, or an agency headed by an official of the Comptroller of the United States, the Attorney General of the United States, the Secretary of the U.S. Department of Education, or state and local educational authorities to conduct, with respect to federal or state supported education programs, any audit or evaluation or any compliance or enforcement activity in connection with federal legal requirements that relate to these programs.

B. Biometric Record

“Biometric Record,” as referred to in “Personally Identifiable,” means a record of one or more measurable biological or behavioral characteristics that can be used for automated recognition of an individual (e.g., fingerprints, retina and iris patterns, voice prints, DNA sequence, facial characteristics, and handwriting).

C. Dates of Attendance

“Dates of attendance” as referred to in “Directory Information” means the period of time during which a student attends or attended a school or schools in the school district, including attendance in person or by paper correspondence, videoconference, satellite, internet, or other electronic information and telecommunications technologies for students who are not in the classroom, and including the period during which a student is working under a work-study program. It does not include specific daily records of a student’s attendance at a school or schools in the school district.

D. Directory Information

1. “Directory information,” under federal law, means information contained in an education record of a student that would not generally be considered harmful or an invasion of privacy if disclosed. It includes the student’s:
 - Name.
 - Address.

- Telephone listing.
- Electronic mail address.
- Photograph.
- Date and place of birth.
- Major field of study.
- Dates of attendance.
- Grade level.
- Enrollment status (i.e. full-time or part-time).
- Participation in officially recognized activities and sports.
- Weight and height of members of athletic teams.
- Degrees, honors and awards received.
- Most recent educational agency or institution attended.
- Name, address and telephone number of the student's parent(s).

Directory information does not include a student's:

- Social security number.
- Identification number (ID), user ID, or other unique personal identifier used by a student for purposes of accessing or communicating in electronic systems if the identifier may be used to access education records without use of one or more factors that authenticate the student's identity such as a personal identification number (PIN), password, or other factor known or possessed only by the authorized user.
- ID or other unique personal identifier that is displayed on a student ID badge if the identifier can be used to gain access to educational records when used in conjunction with one or more factors that authenticate the student's identity, such as a PIN, password, or other factor known or possessed only by the student.
- Personally identifiable data which references religion, race, color, social position or nationality.
- Data collected from nonpublic school students, other than those who receive shared time educational services, unless written consent is given by the student's parent.

2. Under Minnesota law, a school district may not designate a student's home address, telephone number, email address, or other personal contact information as "directory information." Minnesota law prohibits schools from designating student contact information as "directory information" despite the FERPA definition. Minnesota schools should comply with Minnesota law and should not include student contact information in their definition of "directory information."

"Education records" means those records that are directly related to a student and maintained by the district or by a party acting for the district.

1. "Education records" does not include:

- a. Records of instructional personnel that are:

 2. Used only as a personal memory aid.
 3. Not accessible or revealed to any other individual except a temporary substitute teacher.

However, records relating to an individual in attendance at the school district who is employed as a result of his or her status as a student are education records.

- d. Records relating to an eligible student, or a student attending an institution of post-secondary education, that are:
1. Made or maintained by a physician, psychiatrist, psychologist or other recognized professional or paraprofessional acting in their professional or paraprofessional capacity or assisting in that capacity
 2. Made, maintained or used only in connection with the provision of treatment to the student.
 3. Disclosed only to individuals providing the treatment, provided that the records can be personally reviewed by a physician or other appropriate professional of the student's choice. For the purpose of this definition, "treatment" does not include remedial educational activities or activities which are part of the program of instruction within the school district.
- e. Records created or received by the district after an individual is no longer a student at the district and that are not directly related to the individual's attendance as a student.

J. Parent

"Parent" means a parent of a student and includes a natural parent, a guardian, or an individual acting as a parent of the student in the absence of a parent or guardian. B. Eligible Students

All rights and protections given to parents under this policy transfer to the student when he or she reaches eighteen (18) years of age or enrolls in an institution of post-secondary education. The student then becomes an "eligible student." However, the parents of an eligible student who is also a "dependent student" are entitled to gain access to the education records of such student without first obtaining the consent of the student. In addition, parents of an eligible student may be given access to education records in connection with a health or safety emergency if the disclosure meets the conditions of any provision set forth in 34 Code of Federal Regulations section 99.31(a).

B. Prior Consent for Disclosure Not Required

The district may disclose personally identifiable information from the education records of a student without the written consent of the parent of the student or the eligible student unless otherwise provided herein and if the disclosure is:

1. To other school officials, including teachers, within the district whom the school district determines have a legitimate educational interest in such records.
2. To a contractor, consultant, volunteer, or other party to whom the district has outsourced institutional services or functions provided that the outside party:
 - a. Performs an institutional service or function for which the district would otherwise use employees.
 - b. Is under the direct control of the district with respect to the use and maintenance of education records.
 - c. Will not disclose the information to any other party without the prior consent of the parent or eligible student and uses the information only for the purposes for which the disclosure was made.
3. To officials of other schools, school districts, or post-secondary educational institutions in which the student seeks or intends to enroll, or is already enrolled, as long as the disclosure is for purposes related to the student's enrollment or transfer. The records shall include information about disciplinary action taken as a result of any incident in which the student possessed or used a dangerous weapon, and with proper annual notice (see Section Annual Notification of Rights), suspension and expulsion information pursuant to section 7917 of the federal Every Student Succeeds Act, 20 United States Code section 7917, and, if applicable, data regarding a student's history of violent behavior. The records also shall include a copy of any probable cause notice or any disposition or court order under Minnesota Statutes Section 260B.171, unless the data are required to be destroyed under Minnesota Statutes Section 120A.22, subdivision 7(c) or section 121A.75. On request, the school district will provide the parent or eligible student with a copy of the education records that have been transferred and provide an opportunity for a hearing to challenge the content of those records in accordance with this policy.

4. To authorized representatives of the Comptroller General of the United States, the Attorney General of the United States, the Secretary of the U.S. Department of Education, or the Commissioner of the State Department of Education or his or her representative, subject to the conditions relative to such disclosure provided under federal law.
5. In connection with financial aid for which a student has applied or has received, if the information is necessary for such purposes as to:
 - a. Determine eligibility for the aid.
 - b. Determine the amount of the aid.
 - c. Determine conditions for the aid.
 - d. Enforce the terms and conditions of the aid.

“Financial aid” for purposes of this provision means a payment of funds provided to an individual or a payment in kind of tangible or intangible property to the individual that is conditioned on the individual’s attendance at an educational agency or institution.

6. To state and local officials or authorities to whom such information is specifically allowed to be reported or disclosed pursuant to state statute adopted:
 - a. Before November 19, 1974, if the allowed reporting or disclosure concerns the juvenile justice system and such system’s ability to effectively serve the student whose records are released.
 - b. After November 19, 1974, if the reporting or disclosure allowed by state statute concerns the juvenile justice system and the system’s ability to effectively serve, prior to adjudication, the student whose records are released, provided the officials and authorities to whom the records are disclosed certify in writing to the district that the data will not be disclosed to any other party, except as provided by state law, without the prior written consent of the parent of the student. At a minimum, the district shall disclose the following information to the juvenile justice system under this paragraph: a student’s full name, home address, telephone number, and date of birth; a student’s school schedule, attendance record, and photographs, if any; and parents’ names, home addresses, and telephone numbers.
7. To organizations conducting studies for or on behalf of educational agencies or institutions for the purpose of developing, validating, or administering predictive tests, administering student aid programs, or improving instruction; provided that the studies are conducted in a manner which does not permit the personal identification of parents or students by individuals other than representatives of the organization who have a legitimate interest in the information, the information is destroyed when no longer needed for the purposes for which the study was conducted, and the district enters into a written agreement with the organization that:
 - a. Specifies the purpose, scope, and duration of the study or studies and the information to be disclosed.

- b. Requires the organization to use personally identifiable information from education records only to meet the purpose or purposes of the study as stated in the written agreement.
 - c. Requires the organization to conduct the study in a manner that does not permit personal identification of parents and students by anyone other than representatives of the organization with legitimate interests.
 - d. Requires the organization to destroy all personally identifiable information when information is no longer needed for the purposes for which the study was conducted and specifies the time period in which the information must be or destroyed. For purposes of this provision, the term, “organizations,” includes, but is not limited to, federal, state, and local agencies and independent organizations. In the event the Department of Education determines that a third party outside of the school district to whom information is disclosed violates this provision, the school district may not allow that third party access to personally identifiable information from education records for at least five (5) years.
8. To accrediting organizations in order to carry out their accrediting functions.
9. To parents of a student eighteen (18) years of age or older if the student is a dependent of the parents for income tax purposes.
10. To comply with a judicial order or lawfully issued subpoena, provided, however, that the school district makes a reasonable effort to notify the parent or eligible student of the order or subpoena in advance of compliance therewith so that the parent or eligible student may seek protective action, unless the disclosure is in compliance with a federal grand jury subpoena, or any other subpoena issued for law enforcement purposes, and the court or other issuing agency has ordered that the existence or the contents of the subpoena or the information furnished in response to the subpoena not be disclosed, or the disclosure is in compliance with an ex parte court order obtained by the United States Attorney General (or designee not lower than an Assistant Attorney General) concerning investigations or prosecutions of an offense listed in 18 United States Code section 2332b(g)(5)(B), an act of domestic or international terrorism as defined in 18 United States Code section 2331, or a parent is a party to a court proceeding involving child abuse and neglect or dependency matters, and the order is issued in the context of the proceeding. If the school district initiates legal action against a parent or student, it may disclose to the court, without a court order or subpoena, the education records of the student that are relevant for the school district to proceed with the legal action as a plaintiff. Also, if a parent or eligible student initiates a legal action against the school district, the school district may disclose to the court, without a court order or subpoena, the student’s education records that are relevant for the school district to defend itself.
11. To appropriate parties, including parents of an eligible student, in connection with an emergency if knowledge of the information is necessary to protect the health, including the mental health, or safety of the student or other individuals. The decision is to be based upon information available at the time the threat occurs that indicates that there is an articulable and significant threat to the health or safety of a student or other individuals. In making a determination whether to

disclose information under this section, the school district may take into account the totality of the circumstances pertaining to a threat and may disclose information from education records to any person whose knowledge of the information is necessary to protect the health or safety of the student or other students. A record of this disclosure must be maintained pursuant to Section XIII.E. of this policy. In addition, an educational agency or institution may include in the education records of a student appropriate information concerning disciplinary action taken against the student for conduct that posed a significant risk to the safety or well-being of that student, other students, or other members of the school community. This information may be disclosed to teachers and school officials within the school district and/or teachers and school officials in other schools who have legitimate educational interests in the behavior of the student.

12. To the juvenile justice system if information about the behavior of a student who poses a risk of harm is reasonably necessary to protect the health or safety of the student or other individuals.
13. Information the district has designated as “directory information” pursuant to this policy.
14. To military recruiting officers and post-secondary educational institutions pursuant to this policy.
15. To the parent of a student who is not an eligible student or to the student himself or herself.
16. To appropriate health authorities to the extent necessary to administer immunization programs and for bona fide epidemiologic investigations which the commissioner of health determines are necessary to prevent disease or disability to individuals in the public educational agency or institution in which the investigation is being conducted.
17. To volunteers who are determined to have a legitimate educational interest in the data and who are conducting activities and events sponsored by or endorsed by the educational agency or institution for students or former students.
18. To the juvenile justice system, on written request that certifies that the information will not be disclosed to any other person except as authorized by law without the written consent of the parent of the student:
 - a. The following information about a student must be disclosed:
 - i. A student’s full name, home address, telephone number, date of birth, a student’s school schedule, daily attendance record, and photographs, if any, and any parents’ names, home addresses, and telephone numbers.
 - b. The existence of the following information about a student, not the actual data or other information contained in the student’s education record, may be disclosed provided that a request for access must be submitted on the statutory

form and it must contain an explanation of why access to the information is necessary to serve the student:

1. Use of a controlled substance, alcohol, or tobacco.
2. Assaultive or threatening conduct that could result in dismissal from school under the Pupil Fair Dismissal Act.
3. Possession or use of weapons or look-alike weapons.
4. Theft.
5. Vandalism or other damage to property.

Prior to releasing this information, the principal or chief administrative officer of a school who receives such a request must, to the extent permitted by federal law, notify the student's parent or guardian by certified mail of the request to disclose information. If the student's parent or guardian notifies the school official of an objection to the disclosure within ten (10) days of receiving certified notice, the school official must not disclose the information and instead must inform the requesting member of the juvenile justice system of the objection. If no objection from the parent or guardian is received within fourteen (14) days, the school official must respond to the request for information.

The written requests of the juvenile justice system member(s), as well as a record of any release, must be maintained in the student's file.

19. To the principal where the student attends and to any counselor directly supervising or reporting on the behavior or progress of the student if it is information from a disposition order received by a superintendent under Minnesota Statutes Section 260B.171, subdivision 3. The principal must notify the counselor immediately and must place the disposition order in the student's permanent education record. The principal also must notify immediately any teacher or administrator who directly supervises or reports on the behavior or progress of the student whom the principal believes needs the information to work with the student in an appropriate manner, to avoid being needlessly vulnerable, or to protect other persons from needless vulnerability. The principal may also notify other school district employees, substitutes, and volunteers who are in direct contact with the student if the principal determines that these individuals need the information to work with the student in an appropriate manner, to avoid being needlessly vulnerable, or to protect other persons from needless vulnerability. Such notices from the principal must identify the student, outline the offense, and describe any conditions of probation about which the school must provide information if this information is provided in the disposition order. Disposition order information received is private educational data received for the limited purpose of serving the educational needs of the student and protecting students and staff. The information may not be further disseminated by the counselor, teacher, administrator, staff member, substitute, or volunteer except as necessary to serve the student, to protect students and staff, or as otherwise required by law, and only to the student or the student's parent or guardian.

20. To the principal where the student attends if it is information from a peace officer's record of children received by a superintendent under Minnesota Statutes Section 260B.171, subdivision 5. The principal must place the information in the student's education record. The principal also must notify immediately any teacher, counselor, or administrator directly supervising the student whom the principal believes needs the information to work with the student in an appropriate manner, to avoid being needlessly vulnerable, or to protect other persons from needless vulnerability. The principal may also notify other district employees, substitutes, and volunteers who are in direct contact with the student if the principal determines that these individuals need the information to work with the student in an appropriate manner, to avoid being needlessly vulnerable, or to protect other persons from needless vulnerability. Such notices from the principal must identify the student and describe the alleged offense if this information is provided in the peace officer's notice. Peace officer's record information received is private educational data received for the limited purpose of serving the educational needs of the student and protecting students and staff. The information must not be further disseminated by the counselor, teacher administrator, staff member, substitute, or volunteer except to communicate with the student or the student's parent or guardian as necessary to serve the student, to protect students and staff, or as otherwise required by law.

The principal must delete the peace officer's record from the student's education record, destroy the data, and make reasonable efforts to notify any teacher, counselor, staff member, administrator, substitute, or volunteer who received information from the peace officer's record if the county attorney determines not to proceed with a petition or directs the student into a diversion or mediation program or if a juvenile court makes a decision on a petition and the county attorney or juvenile court notifies the superintendent of such action;

21. To the Secretary of Agriculture, or authorized representative from the Food and Nutrition Service, for the purposes of conducting program monitoring, evaluations, and performance measurements of state and local educational and other agencies and institutions receiving funding or providing benefits of one or more programs authorized under the National School Lunch Act or the Child Nutrition Act of 1996 for which the results will be reported in an aggregate form that does not identify any individual, on the conditions that:
- a) Any data collected shall be protected in a manner that will not permit the personal identification of students and their parents by other than the authorized representatives of the Secretary, and
 - b) Any personally identifiable data shall be destroyed when the data are no longer needed for program monitoring, evaluations, and performance measurements. Or
22. To an agency caseworker or other representative of a State or local child welfare agency, or tribal organization (as defined in 25 United States Code section 5304), who has the right to access a student's case plan, as defined and determined by the State or tribal organization, when such agency or organization is legally responsible, in accordance with State or tribal law, for the care and protection of

the student, provided that the education records, or the personally identifiable information contained in such records, of the student will not be disclosed by such agency or organization, except to an individual or entity engaged in addressing the student's education needs and authorized by such agency or organization to receive such disclosure and such disclosure is consistent with the State or tribal laws applicable to protecting the confidentiality of a student's education records.

C. Nonpublic School Students

The district may disclose personally identifiable information from the education records of a nonpublic school student, other than a student who receives shared time educational services, without the written consent of the parent of the student or the eligible student unless otherwise provided herein, if the disclosure is:

1. Pursuant to a valid court order.
2. Pursuant to a statute specifically authorizing access to the private data.
3. To appropriate health authorities to the extent necessary to administer immunization programs and for bona fide epidemiological investigations which the commissioner of health determines are necessary to prevent disease or disability to individuals in the public educational agency or institution in which the investigation is being conducted.

VII. RELEASE OF DIRECTORY INFORMATION

A. Educational Data

1. Educational data designated as directory information is public data on individuals to the extent required under federal law. Directory information must be designated pursuant to the provisions of:
 - a. Minnesota Statutes, section 13.32, subdivision 5.
 - b. United States Code, title 20, section 1232g, and Code of Federal Regulations, title 34, section 99.37, which were in effect on January 3, 2012.
2. The district may not designate a student's home address, telephone number, email address, or other personal contact information as directory information under this section.
3. When requested, the district must share personal contact information and directory information, whether public or private, with the Minnesota Department of Education, as required for federal reporting purposes.

B. Former Students

Unless a former student validly opted out of the release of directory information while the student was in attendance and has not rescinded the opt out request at any time, the district may disclose directory information from the education records generated by it regarding the former student without meeting the requirements of Paragraph C. of this section. In addition, under an explicit exclusion from the definition of an "education record," the school district may release records that only contain information about an individual obtained after he or she is no longer a student at the district and that are not directly related to the individual's attendance as a student (e.g., a student's activities as an alumnus of the district).

C. Present Students and Parents

The district may disclose directory information from the education records of a student and information regarding parents without prior written consent of the parent of the student or eligible student, except as provided herein.

1. When conducting the directory information designation and notice process required by federal law, the school district shall give parents and students notice of the right to refuse to let the district designate specified data about the student as directory information.
2. The district shall give annual notice by any means that are reasonably likely to inform the parents and eligible students of:
 - a. The types of personally identifiable information regarding students and/or parents that the school district has designated as directory information.
 - b. The parent's or eligible student's right to refuse to let the school district designate any or all of those types of information about the student and/or the parent as directory information, and
 - c. The period of time in which a parent or eligible student has to notify the school district in writing that he or she does not want any or all of those types of information about the student and/or the parent designated as directory information.
3. Allow a reasonable period of time after such notice has been given for a parent or eligible student to inform the school district in writing that any or all of the information so designated should not be disclosed without the parent's or eligible student's prior written consent, except as provided in this policy.
4. A parent or eligible student may not opt out of the directory information disclosures to:
 - a. Prevent the district from disclosing or requiring the student to disclose the student's name, ID, or school district email address in a class in which the student is enrolled.
 - b. Prevent the district from requiring a student to wear, to display publicly, or to disclose a student ID card or badge that exhibits information that may be designated as directory information and that has been properly designated by the district as directory information.
5. The district shall not disclose or confirm directory information without meeting the written consent requirements contained in this policy if a student's social security number or other non-directory information is used alone or in combination with other data elements to identify or help identify the student or the student's records.

D. Procedure for Obtaining Nondisclosure of Directory Information

The parent's or eligible student's written notice shall be directed to the responsible authority and shall include the following:

1. Name of the student and/or parent, as appropriate.
2. Home address.
3. School presently attended by student.
4. Parent's legal relationship to student, if applicable.
5. Specific categories of directory information to be made not public without the parent's or eligible student's prior written consent, which shall only be applicable for that school year.

E. Duration

The designation of any information as directory information about a student or parents will remain in effect for the remainder of the school year unless the parent or eligible student provides the written notifications provided herein.

VIII. DISCLOSURE OF PRIVATE RECORDS

A. Private Records

For the purposes herein, education records are records which are classified as private data on individuals by state law and which are accessible only to the student who is the subject of the data and the student's parent if the student is not an eligible student. The district may not disclose private records or their contents except as summary data, or except as provided in Section VI. of this policy, without the prior written consent of the parent or the eligible student. The district will use reasonable methods to identify and authenticate the identity of parents, students, school officials, and any other party to whom personally identifiable information from education records is disclosed.

B. Private Records Not Accessible to Parent

In certain cases state law intends, and clearly provides, that certain information contained in the education records of the district pertaining to a student be accessible to the student alone, and to the parent only under special circumstances, if at all.

1. The responsible authority may deny access to private data by a parent when a minor student who is the subject of that data requests that the responsible authority deny such access. The minor student's request must be submitted in writing setting forth the reasons for denying access to the parent and must be signed by the minor. Upon receipt of such request the responsible authority shall determine if honoring the request to deny the parent access would be in the best interest of the minor data subject. In making this determination the responsible authority shall consider the following factors, whether:
 - a. The minor is of sufficient age and maturity to be able to explain the reasons for and understand the consequences of the request to deny access.
 - b. The personal situation of the minor is such that denying parental access may protect the minor data subject from physical or emotional harm.
 - c. There are grounds for believing that the minor data subject's reasons for precluding parental access are reasonably accurate.
 - d. The data in question is of such a nature that disclosure of it to the parent may lead to physical or emotional harm to the minor data subject.

- e. The data concerns medical, dental or other health services provided pursuant to Minnesota Statutes Sections 144.341 to 144.347, in which case the data may be released only if the failure to inform the parent would seriously jeopardize the health of the minor.

C. Private Records Not Accessible to Student

Students shall not be entitled to access to private data concerning financial records and statements of the student's parent or any information contained therein.

D. Military-Connected Youth Identifier

When a district updates its enrollment forms in the ordinary course of business, the school district must include a box on the enrollment form to allow students to self-identify as a military-connected youth. For purposes of this section, a "military-connected youth" means having an immediate family member, including a parent or sibling, who is currently in the armed forces either as a reservist or on active duty or has recently retired from the armed forces. Data collected under this provision is private data on individuals, but summary data may be published by the Department of Education.

IX. DISCLOSURE OF CONFIDENTIAL RECORDS

A. Confidential Records

Confidential records are those records and data contained therein which are made not public by state or federal law and which are inaccessible to the student and his or her parent or to an eligible student.

B. Reports Under the Maltreatment of Minors Reporting Act

Pursuant to Minnesota Statutes, chapter 260E, written copies of reports pertaining to a neglected and/or physically and/or sexually abused child shall be accessible only to the appropriate welfare and law enforcement agencies. In respect to other parties, such data shall be confidential and will not be made available to the parent or the subject individual by the school district. The subject individual, however, may obtain a copy of the report from either the local welfare agency, county sheriff or the local police department subject to the provisions of Minnesota Statutes, chapter 260E.

Regardless of whether a written report is made under Minnesota Statutes Chapter 260E, as soon as practicable after a school receives information regarding an incident that may constitute maltreatment of a child in a school facility, the school shall inform the parent, legal guardian or custodian of the child that an incident occurred that may constitute maltreatment of the child, when the incident occurred, and the nature of the conduct that may constitute maltreatment.

C. Investigative Data

Data collected by the district as part of an active investigation undertaken for the purpose of the commencement or defense of pending civil legal action, or which are retained in anticipation of a pending civil legal action are classified as protected nonpublic data in the case of data not on individuals, and confidential data in the case of data on individuals.

1. The district may make any data classified as protected non-public or confidential data pursuant to this subdivision accessible to any person, agency or the public if the school district determines that such access will aid the law enforcement process, promote public health or safety, or dispel widespread rumor or unrest.
2. A complainant has access to a statement he or she provided to the district.
3. Parents or eligible students may have access to investigative data of which the student is the subject, but only to the extent the data is not inextricably intertwined with data about other school district students, school district employees, and/or attorney data as defined in Minnesota Statutes, section 13.393.
4. Once a civil investigation becomes inactive, civil investigative data becomes public unless the release of the data would jeopardize another pending civil legal action, except for those portions of such data that are classified as not public data under state or federal law. Any civil investigative data presented as evidence in court or made part of a court record shall be public. For purposes of this provision, a civil investigation becomes inactive upon the occurrence of any of the following events
 - a. A decision by the district, or by the chief attorney for the district, not to pursue the civil legal action. However, such investigation may subsequently become active if the district or its attorney decides to renew the civil legal action.
 - b. The expiration of the time to file a complaint under the statute of limitations or agreement applicable to the civil legal action.
 - c. The exhaustion or expiration of rights of appeal by either party to the civil legal action.
5. A “pending civil legal action” for purposes of this subdivision is defined as including, but not limited to, judicial, administrative or arbitration proceedings.

D. Chemical Abuse Records

To the extent the district maintains records of the identity, diagnosis, prognosis, or treatment of any student which are maintained in connection with the performance of any drug abuse prevention function conducted, regulated, or directly or indirectly assisted by any department or agency of the United States, such records are classified as confidential and shall be disclosed only for the purposes and under the circumstances expressly authorized by law.

X. DISCLOSURE OF SCHOOL RECORDS PRIOR TO EXCLUSION OR EXPULSION HEARING

At a reasonable time prior to any exclusion or expulsion hearing, the student and the student’s parent or guardian or representative shall be given access to all school district records pertaining to the student, including any tests or reports upon which the action proposed by the school district may be based, pursuant to the Minnesota Pupil Fair Dismissal Act, Minnesota Statutes, section 121A.40, *et seq.*

XI. DISCLOSURE OF DATA TO MILITARY RECRUITMENT OFFICERS AND POST-SECONDARY EDUCATIONAL INSTITUTIONS

- A. The district will release the names, addresses, electronic mail address (which shall be the electronic mail addresses provided by the school district, if available, that may be released to military recruiting officer only), and home telephone numbers of students in grades 11 and 12 to military recruiting officers and post-secondary educational institutions within sixty (60) days after the date of the request unless a parent or eligible student has refused in writing to release this data pursuant to Paragraph C. below.
- B. Data released to military recruiting officers under this provision:
 - 1. May be used only for the purpose of providing information to students about military service, state and federal veterans' education benefits, other career and educational opportunities provided by the military.
 - 2. Cannot be further disseminated to any other person except personnel of the recruiting services of the armed forces.
 - 3. Copying fees shall not be imposed.
- C. A parent or eligible student has the right to refuse the release of the name, address, electronic mail addresses (which shall be the electronic mail addresses provided by the school, if available, that may be released to military recruiting officers only) or home telephone number to military recruiting officers and post-secondary educational institutions. To refuse the release of the above information to military recruiting officers and post-secondary educational institutions, a parent or eligible student must notify the responsible authority, building principal, in writing each year. The written request must include the following information:
 - 1. Name of student and parent, as appropriate.
 - 2. Home address.
 - 3. Student's grade level.
 - 4. School presently attended by student.
 - 5. Parent's legal relationship to student, if applicable.
 - 6. Specific category or categories of information which are not to be released to military recruiting officers and post-secondary educational institutions.
 - 7. Specific category or categories of information which are not to be released to the public, including military recruiting officers and post-secondary educational institutions.
- D. Annually, the district will provide public notice by any means that are reasonably likely to inform the parents and eligible students of their rights to refuse to release the names, addresses, and home phone numbers of students in grades 11 and 12 without prior consent.
- E. A parent or eligible student's refusal to release the above information to military recruiting officers and post-secondary educational institutions does not affect the school district's release of directory information to the rest of the public, which includes military recruiting officers and post-secondary educational institutions. In order to make any directory information about a student private, the procedures

contained in this policy also must be followed. Accordingly, to the extent the district has designated the name, address, home phone number, and grade level of students as directory information, absent a request from a parent or eligible student not to release such data, this information will be public data and accessible to members of the public, including military recruiting officers and post-secondary educational institutions.

XII. LIMITS ON REDISCLOSURE

A. Redisclosure

Consistent with the requirements herein, the district may only disclose personally identifiable information from the education records of a student on the condition that the party to whom the information is to be disclosed will not disclose the information to any other party without the prior written consent of the parent of the student or the eligible student, except that the officers, employees, and agents of any party receiving personally identifiable information under this section may use the information, but only for the purposes for which the disclosure was made.

B. Redisclosure Not Prohibited

1. Subdivision A. of this section does not prevent the district from disclosing personally identifiable information under Section Disclosure of Education Records of this policy with the understanding that the party receiving the information may make further disclosures of the information on behalf of the school district provided:
 - a. The disclosures meet the requirements of this policy.
 - b. The district has complied with the record-keeping requirements of this policy.
2. Subdivision A. of this section does not apply to disclosures made pursuant to court orders or lawfully issued subpoenas or litigation, to disclosures of directory information, to disclosures to a parent or student or to parents of dependent students, or to disclosures concerning sex offenders and other individuals required to register under 42 United States Code section 14071. However, the district must provide the notification required in this policy if a redisclosure is made based upon a court order or lawfully issued subpoena.

C. Classification of Disclosed Data

The information disclosed shall retain the same classification in the hands of the party receiving it as it had in the hands of the district.

D. Notification

The district shall inform the party to whom a disclosure is made of the requirements set forth in this section, except for disclosures made pursuant to court orders or lawfully issued subpoenas, disclosure of directory information under Release of Directory Information of this policy, disclosures to a parent or student, or disclosures to parents of a dependent student. In the event that the Family Policy Compliance Office determines that a state or local educational authority, a federal agency headed by an official listed in 34 United States Code section 99.31(a)(3), or an authorized representative of a state or local educational

authority or a federal agency headed by an official listed in section 99.31(a)(3), or a third party outside of the district improperly rediscloses personally identifiable information from education records or fails to provide notification required under this section of this policy, the district may not allow that third party access to personally identifiable information from education records for at least five (5) years.

XIII. RESPONSIBLE AUTHORITY, RECORD SECURITY, AND RECORD KEEPING

A. Responsible Authority

The responsible authority shall be responsible for the maintenance and security of student records and shall be the superintendent of schools or their designee.

B. Record Security

The principal of each school and the director of special services, subject to the supervision and control of the superintendent, shall be the records manager of their school or program and shall have the duty of maintaining and securing the privacy and/or confidentiality of student records. The Office of the Superintendent shall be the records manager for student records maintained in the district storage.

C. Plan for Securing Student Records

The building principal shall submit to the responsible authority a written plan for securing students records by September 1 of each school year. The written plan shall contain the following information:

1. A description of records maintained.
2. Titles and addresses of person(s) responsible for the security of student records.
3. Location of student records, by category, in the buildings.
4. Means of securing student records.
5. Procedures for access and disclosure.

D. Review of Written Plan for Securing Student Records

The responsible authority shall review the plans submitted pursuant to Paragraph C. of this section for compliance with the law, this policy, and the various administrative policies of the school district. The responsible authority shall then promulgate a chart incorporating the provisions of Paragraph C. which shall be attached to and become a part of this policy.

E. Record Keeping

1. The district shall, for each request for and each disclosure of personally identifiable information from the education records of a student, maintain a record with the education records of the student, that indicates:
 - a. The parties who have requested or obtained personally identifiable information from the education records of the student.
 - b. The legitimate interests these parties had in requesting or obtaining the information.
 - c. The date of the request.
 - d. The names of the state and local educational authorities and federal officials and agencies listed in this policy may make further disclosures of

personally identifiable information from the student's education records without consent.

- e. Whether the request was granted and, if it was, the date access was permitted or the disclosure was made.
2. In the event the district discloses personally identifiable information from an education record of a student pursuant to this policy, the record of disclosure required under this section shall also include:
 - a. The names of the additional parties to which the receiving party may disclose the information on behalf of the school district.
 - b. The legitimate interests under Section VI. of this policy which each of the additional parties has in requesting or obtaining the information.
 - c. A copy of the record of further disclosures maintained by a state or local educational authority or federal official or agency listed in Section VI.B.4. of this policy in accordance with 34 Code of Federal Regulations section 99.32 and to whom the school district disclosed information from an education record. The district shall request a copy of the record of further disclosures from a state or local educational authority or federal official or agency to whom education records were disclosed upon a request from a parent or eligible student to review the record of requests for disclosure.
3. Section XIII.E.1. does not apply to requests by or disclosure to a parent of a student or an eligible student, disclosures pursuant to the written consent of a parent of a student or an eligible student, requests by or disclosures to other school officials under Section VI.B.1. of this policy, to requests for disclosures of directory information under Section VII. of this policy, or to a party seeking or receiving the records as directed by a federal grand jury or other law enforcement subpoena and the issuing court or agency has ordered that the existence or the contents of the subpoena or the information provided in response to the subpoena not be disclosed or as directed by an ex parte court order obtained by the United States Attorney General (or designee not lower than an Assistant Attorney General) concerning investigations or prosecutions of an offense listed in 18 United States Code section 2332b(g)(5)(B) or an act of domestic or international terrorism.
4. The record of requests of disclosures may be inspected by:
 - a. The parent of the student or the eligible student.
 - b. The school official or his or her assistants who are responsible for the custody of the records.
 - c. The parties authorized by law to audit the record-keeping procedures of the district.
5. The district shall record the following information when it discloses personally identifiable information from education records under the health or safety emergency exception:
 - a. The articulable and significant threat to the health or safety of a student or other individual that formed the basis for the disclosure.
 - b. The parties to whom the district disclosed the information.

6. The record of requests and disclosures shall be maintained with the education records of the student as long as the district maintains the student's education records.

XIII. RIGHT TO INSPECT AND REVIEW EDUCATION RECORDS

A. Parent of a Student, an Eligible Student or the Parent of an Eligible Student Who is Also a Dependent Student/Response to Request for Access

The district shall permit the parent/guardian of a student, an eligible student, or the parent of an eligible student who is also a dependent student who is or has been in attendance in the district to inspect and review all education records of the student (except those records which are made confidential by state or federal law). A written request must be submitted in accordance with district procedure. All education records include education records kept by teachers, counselors and other school staff members, and education records kept in school offices and district-level records storage. The district shall comply with a request immediately, if possible, or within ten (10) working days of the date of that request, excluding Saturdays, Sundays and legal holidays.

B. Right to Inspect and Review

The right to inspect and review education records includes:

1. The right to a response from the district to reasonable requests for explanations and interpretations of the records.
2. If circumstances effectively prevent the parent or eligible student from exercising the right to inspect and review the education records, the school district shall provide the parent or eligible student with a copy of the records requested or make other arrangements for the parent or eligible student to inspect and review the requested records.
3. Nothing in this policy shall be construed as limiting the frequency of inspection of the education records of a student with a disability by the student's parent or guardian or by the student upon the student reaching the age of majority.

C. Form of Request

Parents or eligible students shall submit to the district a written request to inspect education records which identify as precisely as possible the record or records they wish to inspect.

D. Collection of Student Records

If a student's education records are maintained in more than one location, the responsible authority may collect copies of the records or the records themselves from the various locations so they may be inspected at one site. However, if the parent or eligible student wishes to inspect these records where they are maintained, the school district shall attempt to accommodate those wishes. The parent or eligible student shall be notified of the time and place where the records may be inspected.

E. Records Containing Information on More Than One Student

If the education records of a student contain information on more than one student, the parent or eligible student may inspect and review or be informed of only the specific information which pertains to that student.

F. Authority to Inspect or Review

The district may presume that either parent of the student has authority to inspect or review the education records of a student unless the school district has been provided with evidence that there is a legally binding instrument or a state law or court order governing such matters as marriage dissolution, separation, or custody which provides to the contrary.

G. Fees for Copies of Records

1. The district shall charge a reasonable fee for providing photocopies or printed copies of records unless printing a copy is the only method to provide for the inspection of data. In determining the amount of the reasonable fee, the district shall consider the following:
 - a. The cost of materials, including paper, used to provide the copies.
 - b. The cost of the labor required to prepare the copies.
 - c. Any schedule of standard copying charges established by the school district in its normal course of operations.
 - d. Any special costs necessary to produce such copies from machine based record-keeping systems, including but not limited to computers and microfilm systems.
 - e. Mailing costs.
2. If 100 or fewer pages of black and white, letter or legal size paper copies are requested, actual costs shall not be used, and, instead, the charge shall be no more than 25 cents for each page copied.
3. The cost of providing copies shall be borne by the parent or eligible student.
4. The responsible authority, however, may not impose a fee for a copy of an education record made for a parent or eligible student if doing so would effectively prevent or, in the case of a student with a disability, impair the parent or eligible student from exercising their right to inspect or review the student's education records.

XIV. REQUEST TO AMEND RECORDS; PROCEDURES TO CHALLENGE DATA

A. Request to Amend Education Records

The parent of a student or an eligible student who believes that information contained in the education records of the student is inaccurate, misleading, or violates the privacy of the student may request in writing that the district amend the records.

1. The request shall be in writing, shall identify the item the requestor believes to be inaccurate, misleading, or in violation of the privacy or other rights of the student, shall state the reason for this belief, and shall specify the correction the requestor wishes the district to make. The request shall be signed and dated by the requestor.

2. The district shall decide whether to amend the education records of the student in accordance with the request within thirty (30) days after receiving the request.
3. If the district decides to refuse to amend the education records of the student in accordance with the request, they shall inform the parent of the student or the eligible student of the refusal and advise the parent or the eligible student of the right to a hearing under Section B below.

B. Right to a Hearing

If the district refuses to amend the education records of a student, the district shall, on request, provide an opportunity for a hearing in order to challenge the content of a student's education records to insure that information in the education records of the student is not inaccurate, misleading, incomplete or otherwise in violation of the privacy or other rights of students. The hearing shall be conducted in accordance with Section C below.

1. If, as a result of the hearing, the district decides that the information is inaccurate, misleading, or otherwise in violation of the privacy or other rights of students, it shall amend the education records of the student accordingly and so inform the parent of the student or the eligible student in writing.
2. If, as a result of the hearing, the district decides that the information is not inaccurate, misleading, or otherwise in violation of the privacy or other rights of students, it shall inform the parent or eligible student of the right to place a statement in the record commenting on the contested information in the record or stating why they disagree with the decision of the district, or both.
3. Any statement placed in the education records of the student based on the results of a hearing to amend that student's records shall:
 - a. Be maintained by the district as part of the education records of the student as long as the record or contested portion thereof is maintained by the district.
 - b. If the education records of the student or the contested portion thereof is disclosed by the district to any party, the statement shall also be disclosed to that party.

C. Conduct of Hearing

1. The hearing shall be held within a reasonable period of time after the district has received the request, and the parent of the student or the eligible student shall be given notice of the date, place and time reasonably in advance of the hearing.
2. The hearing may be conducted by the superintendent or other designated representative of the school board who has no direct interest in the outcome of the hearing. The school board attorney shall be in attendance to present the district's position and to advise the superintendent or designated representative on legal and evidentiary matters.
3. The parent of the student or eligible student shall be afforded a full and fair opportunity at the hearing to present evidence relevant to the issues raised under

sections A. and B. above and may be assisted by individuals of his or her choice at his or her own expense, including an attorney.

4. The decision shall be made in writing in a reasonable period of time after the conclusion of the hearing. The decision shall be based solely on evidence presented at the hearing and shall include a summary of evidence and reasons for the decision.
5. The decision of the superintendent or designated representative shall be the final decision of the district.

D. Appeal

The final decision may be appealed in accordance with the applicable provisions of Minnesota Statutes, chapter 14 relating to contested cases.

XVI. PROBLEMS ACCESSING DATA

- A. The data practices compliance official is the designated employee to whom persons may direct questions or concerns regarding problems in obtaining access to data or other data practices problems.
- B. Data practices compliance official means building principal.
- C. Any request by an individual with a disability for reasonable modifications of the district's policies or procedures for purposes of accessing records shall be made to the data practices compliance official.

XVII. COMPLAINTS FOR NONCOMPLIANCE WITH FERPA

Complaints regarding alleged violations of rights accorded parents and eligible students by FERPA and the rules promulgated thereunder, shall be submitted in writing to the U.S. Department of Education, Student Privacy Policy Office, 400 Maryland Avenue SW., Washington, D.C. 20202-8520. A complaint filed pursuant to this section must contain specific allegations of fact giving reasonable cause to believe that a violation of FERPA and the rules promulgated thereunder has occurred.

XVIII. WAIVER

A parent or eligible student may waive any of his or her rights provided herein pursuant to FERPA. A waiver shall not be valid unless in writing and signed by the parent or eligible student. The district may not require such a waiver.

XIX. ANNUAL NOTIFICATION OF RIGHTS

A. Contents of Notice

The district shall give parents of students in attendance or eligible students in attendance annual notice by such means as are reasonably likely to inform them of the following:

1. That the parent or eligible student has a right to inspect and review the student's education records and the procedure for inspecting and reviewing education records.
2. That the parent or eligible student has a right to seek amendment of the student's education records to ensure that those records are not inaccurate, misleading, or otherwise in violation of the student's privacy or other rights and the procedure for requesting amendment of records.
3. That the parent or eligible student has a right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that federal and state law and the regulations promulgated thereunder authorize disclosure without consent.
4. That the parent or eligible student has a right to file a complaint with the U.S. Department of Education regarding an alleged failure by the school district to comply with the requirements of FERPA and the rules promulgated thereunder.
5. The criteria for determining who constitutes a school official and what constitutes a legitimate educational interest for purposes of disclosing education records to other school officials whom the school district has determined to have legitimate educational interests, and
6. That the district forwards education records on request to a school in which a student seeks or intends to enroll or is already enrolled as long as the disclosure is for purposes related to the student's enrollment or transfer and that such records may include suspension and expulsion records pursuant to the federal Every Student Succeeds Act and, if applicable, a student's history of violent behavior.

B. The district shall provide for the need to effectively notify parents of students identified as having a primary or home language other than English.

C. The district shall provide for the need to effectively notify parents or eligible students identified as disabled.

XX. DESTRUCTION AND RETENTION OF RECORDS

Destruction and retention of records by the district shall be controlled by state and federal law.

XXI. COPIES OF POLICY

This policy can be viewed on the district's website. Copies of this policy may be obtained by parents and eligible students at the superintendent's office.

APPENDIX A STATEMENT OF RIGHTS

Parents/guardians and eligible students have the following rights under the Family Educational Rights and Privacy Act, the Minnesota Government Data Practices Act, Tennesen Notice, the Confidentiality of Information section of the regulations implementing the Education for all Handicapped Children Act of 1975, and Independent School District No. 659 Policy 515 Protection and Privacy of Pupil Records.

1. The right to inspect and review the student's records within 45 days after the day the request for access is received by the school district. A parent or eligible student should submit to the school district a written request to inspect education records which identify as precisely as possible the record or records he or she wishes to inspect. The parent or eligible student will be notified of the time and place where the records may be inspected.
2. The right to request the amendment of the student's education records to ensure that they are not inaccurate, misleading, or otherwise in violation of the student's privacy or other rights, in a hearing if necessary.
3. The right to consent to disclosures of personally identifiable information contained in the student's education records except to the extent that such consent is not required for disclosure pursuant to Policy 515, federal or state law, or the regulations promulgated thereunder.
 - a. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests.
 - b. Another exception is that upon request, the district discloses education records without consent to officials of another school district in which a student seeks or intends to enroll, including suspension and expulsion records pursuant to the federal law and, if applicable, a student's history of violent behavior, and any disposition order which adjudicates the student as delinquent for committing an illegal act on district property.
4. The right to refuse release of names, addresses, email, and home telephone numbers of students in grades 11 and 12 to military recruiting officers and post-secondary education institutions.
5. The right to file a complaint and report violations of the rules and regulations, cited above, with the U.S. Department of Education concerning alleged failures by the school district to comply with the federal law and the regulations promulgated thereunder.
6. The right to explanations and interpretations of the records.
7. The right to have a representative of the parent/guardian or eligible student inspect and review the records.
8. The right to exercise a limited control over other people's access to the student's records.
9. The right, if asked to provide private or confidential data, to be informed of:

11. The right to obtain a copy of Policy 515.

All rights and protections given parents/guardians under the above statutes, regulations and district policy transfer to the student when the student becomes an eligible student. An eligible student means a student who has attained eighteen (18) years of age or is attending an institution of post-secondary education. The parents of an eligible student who is also a “dependent student” are entitled to gain access to the education records of such student without first obtaining the consent of the student. In addition, parents of an eligible student may be given access to education records in connection with a health or safety emergency if the disclosure meets the conditions of any provision set forth in 34 C.F.R. § 99.31(a).

Parents/guardians or eligible students wishing access to or copies of student record policies and administrative procedures should present their request to the building principal or to the Superintendent of Schools.

APPENDIX D NOTICE TO PARENTS/GUARDIANS AND STUDENTS REGARDING THE RELEASE OF INFORMATION TO MILITARY RECRUITERS

Federal and State laws require all school districts, including Northfield Public Schools, to provide military recruiters, upon request, with the name, address, electronic email address, and telephone number of all 11th and 12th grade students unless the parent or eligible student (students over 18 years old and not a dependent) requests that the information not be provided without written permission.

According to State law, military recruiters may only use the information for the purpose of providing notification to students about military service, State and Federal veteran's education benefits, and other career and educational opportunities provided by the military. Additionally, military recruiters are prohibited from sharing the information except to recruiting services personnel of the armed forces.

It is important to understand that if you do nothing, Northfield Public Schools will release your student's name, address and telephone number to a military recruiter who requests the information.

If you do not want the Northfield Public Schools to release your student's name, address, electronic email address, and telephone number to a military recruiter, you must complete the bottom portion of this form and Appendix C, Denial of Release of Directory Information, and return it to the Northfield Public Schools District Office, Attention: Student Information Specialist, 201 Orchard Street South, Northfield, MN 55057.

Please note that if you previously submitted a Denial of Release of Directory Information, it alone will not be sufficient. The law requires that a specific denial of access to military recruiters be made. As a result of completing the bottom portion of this form and Appendix C, the Northfield Public Schools will not release your student's name, address, electronic email address, and telephone number to a military recruiter who makes a request.

Submitting this Denial of Release of Information to Military Recruiters does not affect the release of directory information to the public, including military recruiting officers. In order to make all directory information about a student private to the public in general, including military recruiting officers, the parent/guardian or eligible student must complete the form below and also complete and submit a Denial of Release of Directory Information (Appendix C).

**Policy 515.2 ACCESS TO STUDENTS AND STUDENT RECORDS BY
CUSTODIAL AND NON-CUSTODIAL PARENTS**

I. PURPOSE

It is the policy of the Northfield School District to remain neutral in all custody-related disputes. This policy governs both physical access to students while on school property and access to a student's educational records.

II. DEFINITIONS

- A. "Custodial parent" means the person who has been granted physical custody of the child.
- B. "Custody" refers to the rights and responsibilities of a parent with respect to a child, including the right to physical access and the right to make decisions with respect to the child's health, education, and welfare in the best interests of the child.
- C. "Educational records" are records that are ~~(a)~~ directly related to the student and ~~(b)~~ maintained by the district or an employee or agent of the district.
- D. "Guardian" is defined as a person, other than a parent, who has lawful custody of a child, as established by a court order.
- E. "Legal custody" is the right to make decisions, including educational decisions, for a child.
- F. "Joint legal custody" means that both parents have equal rights and responsibilities, including the right to participate in major decisions determining the child's upbringing, including decisions regarding the child's education.
- G. "Joint physical custody" means that the routine daily care and control and the residence of the child is structured between the parties.
- H. "Non-custodial parent" means a parent who has not been granted physical custody of a child at the time the right as a parent is asserted. In the case of a court order giving a third party, such as legal guardian grandparents, or foster parents the right to physical custody of a child, both biological parents are non-custodial parents. Non-custodial parents can have joint legal custody of their children.
- I. "Parent" means a parent of a student and includes a natural parent, a guardian, or an individual acting as a parent in the absence of a parent or guardian.
- J. "Physical access" includes the right to visit with and be visited by the child during school hours and on school property.

- K. “Physical custody” means the routine daily care and control and the residence of the child.

III. GENERAL STATEMENT OF POLICY

A. Access to Educational Records

Both custodial and non-custodial parents are presumed to have the right to access or to control access to a child’s educational records and the right to be informed by school officials about their children’s welfare, educational progress and status. Custodial and non-custodial parents have equal right to inspect and challenge the accuracy of their child’s educational records. The fact that the parents are divorced or legally separated does not alter these rights unless the district has been presented with a court order or other legally binding document terminating the parental rights of the non-custodial parent or denying the non-custodial parent a specific right in a written order.

If a custodial parent wishes to limit the non-custodial parent’s access to a student’s educational records, he or she must obtain and present to the school a legally binding document, which prevents the release of such information. A copy of the written order must be provided to school officials before the district will limit a parent’s right of access.

B. Physical Access to a Student During the School Day

All parents, whether custodial or non-custodial, may visit a student at school or remove a student from school based on the professional judgment of staff, provided the parent complies with the district’s visitor’s policy and does not disrupt the student’s program of education. Both custodial and non-custodial parents also have the right to attend parent-teacher conferences, although the district is not required to hold a separate conference for each parent, and the right to attend other school events designed for parents. The fact that the parents are divorced or legally separated does not alter these rights unless a parent provides the district with a court order or other legally binding document specifically prohibiting physical contact between a non-custodial parent or other named individual and a student.

To limit access to a student, a parent is required to file with the district a copy of the form entitled, “Notification of Court Order or Restraining Order.” The parent’s request will remain in effect for the current school year unless the non-custodial parent or the other individual named in the legally binding order provides a court order reversing the previous decision.

By adoption of this policy, the school board does not guarantee that it will verify that a student rides the proper school bus or will only be released to the custodial parent.

Procedures to Policy 516 - STUDENT MEDICATION

- A. The administration of prescription medication or drugs at school requires a completed signed request from the student's licensed prescriber and the parent/guardian. An oral request must be reduced to writing within two school days for non-regulated and/or Over the Counter (OTC) medications, provided that the district relies on written or oral permission from parent/guardian to dispense medication until a written request is received from the provider. Regulated medications will be given only with a completed signed request.
- B. A "School Medication Physician Order and Parent Authorization" form must be completed annually (once per school year) and/or when a change in the prescription or requirements for administration occurs. Prescription medication as used in this policy does not include any form of medical cannabis as defined in Minnesota Statute section 152.22, Subd. 6.
- C. Prescription medication must come to school in the original container labeled for the student by a pharmacist in accordance with law and must be administered in a manner consistent with the instructions on the label.
- D. In the elementary schools, parents/guardians are to bring prescription and non-prescription medication to the health office and not send it with their child. In the middle school, high school and Area Learning Center, students or their parents/guardians shall bring the medication to the nurse's office. Non-prescription medication should be in a container with the name of the student on it. The school nurse may request to receive further information about the prescription, if needed, prior to administration of the substance.
- E. Prescription medications are not to be carried by the student, but will be left in the health office. Controlled substances cannot be carried by a student and must be brought in by an adult. Exceptions to this requirement are: prescription asthma medications self-administered with an inhaler, OTC medication at the secondary level according to Minnesota Statute 121A.222, and medications administered as noted in a written agreement between the district and the parent/guardian or as specified in an IEP (individualized education program), Section 504 plan, or IHP (individual health plan).
- F. The school must be notified immediately by the parent/guardian or student 18 years old or older in writing of any change in the student's prescription medication administration. A new medical authorization and container label with new pharmacy instructions shall be required immediately as well.
- G. For drugs or medicine used by children with a disability, administration may be as provided in the IEP, Section 504 plan or IHP.
- H. The school nurse, or other designated person, shall be responsible

for the filing of the Administering Prescription Medications form in the health records section of the student file. The school nurse, or other designated person shall be responsible for providing a copy of such form to the principal and to other personnel designated to administer the medication. If needed, training will be provided to staff in safe administration of medication, conditions under which medication should be administered and appropriate response to medication reactions.

I. Medications will be stored in a locked secure facility. Health records will be stored and maintained in compliance with data privacy laws.

J. Field trips: Teacher or Educational Assistant assigned to student may dispense medication as instructed by school nurse.

K. Parents/guardians will pick up their student's unused medication. Disposal of discontinued/unused/expired medications will be witnessed and documented and the school police liaison officer will dispose of these medications.

L. Complementary and alternative medications require the same authorization as other prescription medications, i.e. completed signed request from the student's licensed prescriber and the parent/guardian.

M. Procedures for administration of drugs and medicine at school and school activities shall be developed in consultation with a school nurse, a licensed school nurse, or a public or private health organization or other appropriate party if appropriately contracted by the school district under Minnesota Statute 121A.21. District administration shall submit these procedures and any additional guidelines and procedures necessary to implement this policy to the school board for approval. Upon approval by the board, such guidelines and procedures shall be an addendum to this policy.

N. If the administration of a drug or medication described in this section requires the district to store the drug or medication, the parent/guardian must inform the school if the drug or medication is a controlled substance. For a drug or medication that is not a controlled substance, the request must include a provision designating the district as an authorized entity to transport the drug or medication for the purpose of destruction if any unused drug or medication remains in the possession of school personnel. For a drug or medication that is a controlled substance, the request must specify that the parent/guardian is required to retrieve the drug or controlled substance when requested by the school.

O. Specific Exceptions:

1. Special health treatments and health functions such as catheterization, tracheostomy suctioning, and gastrostomy feedings do not constitute

- administration of drugs and medicine.
2. Emergency health procedures, including emergency administration of drugs and medicine are not subject to this policy.
 3. Drugs or medicine provided or administered by a public health agency to prevent or control an illness or a disease outbreak are not governed by this policy.
 4. Drugs or medicines used at school in connection with services for which a minor may give effective consent are not governed by this policy.
 5. OTC medications or medicines that are prescription asthma or reactive airway disease medications can be self-administered by a student with an asthma inhaler if:
 - a. The district has received a written authorization from the pupil's parent/guardian permitting the student to self-administer the medication.
 - b. The medication is properly labeled for that student.
 - c. The parent/guardian has not requested school personnel to administer the medication to the student.

The parent/guardian must submit written authorization for the student to self-administer the medication each school year. The school nurse must assess the student's knowledge and skills to safely possess and use the medication in a school setting and enter into the student's school health record a "contract" for the safe possession and use of medication.

6. Medications that are not governed by this policy include medications that are used:
 - a. Off school grounds.
 - b. In connection with athletics or extracurricular activities.
 - c. In connection with activities that occur before or after the regular school day.
7. At the start of each school year or at the time a student enrolls in school, whichever is first, a student's parent/guardian, school staff, including those responsible for student health care, and the prescribing medical professional must develop and implement an individualized written health plan (IHP) for a student who is prescribed epinephrine auto-injectors that enables the student to:
 - a. Possess epinephrine auto-injectors.
 - b. If the parent/guardian and prescribing medical professional determine the student is unable to possess the epinephrine and requires immediate access to epinephrine auto-injectors that the parent/guardian provides, properly labeled, to the school for the pupil as needed.

The plan must designate the school staff responsible for implementing the student's health plan, including recognizing anaphylaxis and administering epinephrine auto-injectors when required, consistent with state law. This health plan may be included in a student's 504 plan.

8. Nonprescription Medication. A secondary student may possess and use nonprescription pain relief in a manner consistent with the labeling, if the district has received written authorization from the student's parent/guardian permitting the student to self-administer the medication. The parent/guardian must submit written authorization for the student to self-administer the medication each school year. The district may revoke a student's privilege to possess and use nonprescription pain relievers if the district determines that the student is abusing the privilege. This provision does not apply to the possession or use of any drug or product containing ephedrine or pseudoephedrine as its sole active ingredient or as one of its active ingredients. Nonprescription OTC ibuprofen and acetaminophen pain relievers may be dispensed to a secondary student in a manner consistent with the labeling if the school nurse deems it necessary and the district has written authorization from the student's parent/guardian permitting the student to self-administer the medication. Except as stated in this paragraph, only prescription medications are governed by this policy.
9. A student may possess and apply a topical sunscreen product during the school day while on school property or at a school-sponsored event without a prescription, physician's note, or other documentation from a licensed health care professional. School personnel are not required to provide sunscreen or assist students in applying sunscreen.
- P. Schools may obtain and possess epinephrine auto-injectors to be maintained and administered by school personnel to a student or other individual if, in good faith, it is determined that person is experiencing anaphylaxis regardless of whether the student or other individual has a prescription for an epinephrine auto-injector. The administration of an epinephrine auto-injector in accordance with this section is not the practice of medicine.

A district may enter into arrangements with manufacturers of epinephrine auto-injectors to obtain epinephrine auto-injectors at fair-market, free, or reduced prices. A third party, other than a manufacturer or supplier, may pay for a school's supply of epinephrine auto-injectors.
- Q. "Parent/Guardian" for student 18 years old or older is the student.
- R. Procedure regarding unclaimed drugs or medications.

1. The district has adopted the following procedure for the collection and transport of any unclaimed or abandoned prescription drugs or medications remaining in the possession of school personnel in accordance with this policy. Before the transportation of any prescription drug or medication under this policy, the district shall make a reasonable attempt to return the unused prescription drug or medication to the student's parent/guardian. Transportation of unclaimed or unused prescription drugs or medications will occur at least annually, but may occur more frequently at the discretion of the district.
2. If the unclaimed or abandoned prescription drug is not a controlled substance as defined under Minnesota Statute section 152.01, subdivision 4, or is an OTC medication, the district will either designate an individual who shall be responsible for transporting the drug or medication to a designated drop-off box or collection site or request that a law enforcement agency transport the drug or medication to a drop-off box or collection site on behalf of the district.
3. If the unclaimed or abandoned prescription drug is a controlled substance as defined in Minnesota Statute section 152.01, subdivision 4, the district or school personnel is prohibited from transporting the prescription drug to a drop-off box or collection site for prescription drugs identified under this paragraph. The district must request that a law enforcement agency transport the prescription drug or medication to a collection bin that complies with Drug Enforcement Agency regulations, or if a site is not available, under the agency's procedure for transporting drugs.

Policy 516.5 OVERDOSE MEDICATION

I. PURPOSE

As a means of enhancing the health and safety of its students, staff and visitors, the Northfield School District will acquire, administer, and store doses of an opiate antagonist, specifically Naloxone (Narcan)^[1], and administration devices or kits for emergency use to assist a student, staff member, or other individual believed or suspected to be experiencing an opioid overdose on district property during the school day or at district activities.

II. GENERAL STATEMENT OF POLICY

The Board of Education authorizes district administration to obtain and possess opioid overdose reversal medication, such as Naloxone to be maintained and administered to a student or other individual by trained school staff if the staff member determines in good faith that the person to whom the medication is administered is experiencing an opioid overdose. Authorization for obtaining, possessing and administering Naloxone or similar permissible medications under this policy are contingent upon:

1. The continued validity of state and federal law that permit a person who is not a healthcare professional to dispense an opiate antagonist to the district and its employees by law.
2. That the district and its staff are immune from criminal prosecution and not otherwise liable for civil damages for administering the opiate antagonist to another person who the staff member believes in good faith to be suffering from a drug overdose.
3. The availability of funding either from outside sources or as approved by the board to obtain and administer opioid overdose reversal medication.

III. DEFINITIONS

- A. “Drug-related overdose” means an acute condition, including mania, hysteria, extreme physical illness, respiratory depression or coma, resulting from the consumption or use of a controlled substance, or another substance with which a controlled substance was combined, and that a layperson would reasonably believe to be a drug overdose that requires immediate medical assistance.
- B. “Naloxone Coordinator” is a district staff person or administrator appointed to monitor adherence to protocols outlined in this policy and referenced procedures. The Naloxone Coordinator is responsible for building-level administration and management of Opiate Antagonist medications and supplies. The district’s Naloxone Coordinator is the district’s licensed school nurse.

- C. “Opiate” means any dangerous substance having an addiction forming or addiction sustaining liability similar to morphine or being capable of conversion into a drug having such addiction forming or addiction sustaining liability.
- D. “Opiate Antagonist” means naloxone hydrochloride (“Naloxone”) or any similarly acting drug approved by the federal Food and Drug Administration for the treatment of a drug overdose.
- E. “Standing Order” means directions from the district’s medical provider that sets forth how to house and administer Naloxone or other Opiate Antagonist medications to students, staff members or other individuals believed or suspected to be experiencing an opioid overdose. This Standing Order should include the following information:
 - 1. Administration type.
 - 2. Dosage.
 - 3. Date of issuance.
 - 4. Signature of the authorized provider.

IV. GENERAL STATEMENT OF POLICY AND RESPONSIBILITIES

- A. The school district must maintain a supply of opiate antagonists at each school site to be administered in compliance with Minnesota law. Each school building must have two doses of nasal naloxone available on-site.

Note: The Minnesota Department of Education offered guidance regarding the meaning of “school site.” If a school site includes multiple buildings, the two-dose requirement applies to buildings used for instruction. It does not apply to administrative buildings, facility buildings, ice arenas, and similar buildings not used for instruction.

- B. A licensed physician, a licensed advanced practice registered nurse authorized to prescribe drugs pursuant to Minnesota Statutes, section 148.235, or a licensed physician assistant may authorize a nurse or other personnel employed by, or under contract with, a public school may be authorized to administer opiate antagonists as defined under Minnesota Statutes, section 604A.04, subdivision 1.
- C. A licensed practical nurse is authorized to possess and administer an opiate antagonist in a school setting notwithstanding Minnesota Statutes, 148.235, subdivisions 8 and 9.
- D. District Collaborative Planning and Implementation Team
To the extent Naloxone is obtained for use consistent with this policy, the district will establish a districtwide collaborative planning and implementation District Planning Team (the ‘Team’) to oversee the general development and operations

related to the use of opiate antagonist Naloxone and regularly report to the board as to its activities.

1. The Team will include the Naloxone Coordinator and may include the superintendent or their designee, building nurses, public health experts, first responders, student or family representatives, and community partners who will be assigned to the Team by the superintendent or designee or solicited as volunteers by the superintendent.
2. The Team, through the Naloxone Coordinator, will obtain a protocol or Standing Order from a licensed medical prescriber for the use of Naloxone or other Opiate Antagonist by district staff in all school facilities and activities and will update or renew the protocol or Standing Order annually or as otherwise required. A copy of the protocol or Standing Order will be maintained in the office of the Naloxone Coordinator.
3. The Team will develop districtwide guidelines and procedures and determine the form(s) of Naloxone to be used within the district (nasal, auto injector, manual injector) and the method and manner of arranging for the financing and purchasing, storage and use of Naloxone to be approved by the board. Once approved by the board, these guidelines and procedures will be attached and incorporated into this policy. At a minimum, these guidelines and procedures will:
 - a. Ensure that when Naloxone is administered, district employees must activate the community emergency response system (911) to ensure additional medical support due to the limited temporary effect of Naloxone and the continued need of recipients of additional medical care.
 - b. Require district employees to contact a district healthcare professional to obtain medical assistance for the recipient of the Naloxone, if possible, pending arrival of emergency personnel.
 - c. Direct district employees to make immediate attempts to determine if the recipient is a minor and, if so, locate the identity of the parent/guardian/caregiver of the minor and ensure contact with that parent/guardian/caregiver is made as soon as possible after administration of the Naloxone for the purpose of informing the parent/guardian/caregiver of the actions that have been taken.
 - d. Require district staff to inform the building administrator or other administrator overseeing an event or activity of the administration of Naloxone, as well as the Naloxone Coordinator, after taking necessary immediate emergency steps.
4. The Team will determine the type and method of annual training, identify staff members at each school site to be trained and coordinate the implementation of the training with the assistance of the Naloxone Coordinator.

E. Site Planning Teams

1. In consultation with the Team, the administrator at each school site may establish, in the manner the superintendent or Naloxone Coordinator deems appropriate, a Site Planning Team within the school site.
2. The Site Planning Team will be responsible for the coordination and implementation of this policy, districtwide guidelines and procedures within the school site and will develop and implement any specific guidelines and procedure for the storage and use of Naloxone within the school site in a manner consistent with this policy and districtwide procedures and guidelines.

F. School District Staff

District staff members will be responsible for attending all required training pertaining to the policy, procedures and guidelines for the storage and use of Naloxone and performing any assigned responsibilities pursuant to the guidelines and procedures.

V. NALOXONE STORAGE

- A. The Site Planning Team will select numerous Naloxone storage locations within the school site.
- B. The selected storage locations of Naloxone will be classified as non-public "security information" as the board has determined that the disclosure of this data to the general public would be likely to substantially jeopardize the security of the medication that could be subject to theft, tampering, and improper use. Therefore, the identity of the storage locations will be shared only with those district staff members whom the Team or Site Team have determined need access to this information to aid public health and safety as determined in the procedures and guidelines.
- C. Stock Naloxone will be clearly labeled, monitored for expiration dates, and stored in a secured location that is accessible by trained staff.

VI. PRIVACY PROTECTIONS

The district will maintain the privacy of students and staff related to the administration of Naloxone as required by law.

- B. District staff will provide reasonable emergency care and assistance when a student is undergoing a medical emergency during school or school activities.
- C. District staff will activate emergency medical services (911) as soon as possible when a student is undergoing a medical emergency during school or school activities.
- D. The parent/guardian will be notified of the emergency as soon as possible.
- E. Individual Education Program and Section 504 teams must develop individualized medical emergency care plans for students when appropriate in accordance with state and federal law.
- F. Parents/guardians who request that emergency care be withheld for their child or who present DNR-DNI orders, shall be advised of and shall be given a copy of this policy upon request.

Policy 519 INTERVIEWS OF STUDENTS BY OUTSIDE AGENCIES

I. PURPOSE

There are occasions in which persons other than school district officials and employees find it necessary to speak with a student during the school day. Student safety and disruption of the educational program is of concern to the school district. In alignment with the district's strategic commitment to partnerships, the purpose of this policy is to establish the procedures at Northfield Public Schools for access to students by authorized individuals during the school day.

II. GENERAL STATEMENT OF POLICY

- A. Generally, students may not be interviewed during the school day by persons other than a student's parents, school district officials, school district employees and/or agents, except as otherwise provided by law and/or this policy.
- B. Requests from those other than a student's parents, school district officials, school district employees and/or agents to interview students shall be made through the principal's office. Upon receiving such a request, it shall be the responsibility of the principal, in consultation with the superintendent, to determine whether the request will be granted. Prior to granting such a request, the principal shall attempt to contact the student's parents to inform them of the request, except where otherwise prohibited by law. If the parents cannot be contacted, requests from those other than a student's parents, school district officials, school district employees and/or agents to interview students will be denied, except as otherwise provided by law and/or this policy.

III. INTERVIEWS CONDUCTED UNDER THE MALTREATMENT OF MINORS ACT

- A. In the case of an investigation pursuant to the Reporting of Maltreatment of Minors Act, Minnesota Statutes Chapter 260E, a local welfare agency, the agency responsible for investigating the report, and a local law enforcement agency may interview, without parental consent, an alleged victim and any minors who currently reside with or who have resided with the alleged perpetrator. The interview may take place at school and during school hours. School district officials will work with the local welfare agency, the agency responsible for investigating the report, or law enforcement agency to select a place appropriate for the interview. When it is possible and the report alleges substantial child endangerment or sexual abuse, the interview may take place outside the presence of the alleged offender and may take place prior to the interviews of the alleged offender.
- B. If the interview took place or is to take place on school district property, an order of the juvenile court pursuant to Minnesota Statutes Chapter 260E may specify that school district officials may not disclose to the parent, legal custodian, or guardian the contents of the notification of intent to interview the child on school district property and/or any other related information regarding the interview that may be a

part of the child's record. The school district official must receive a copy of the order from the local welfare or law enforcement agency.

- C. When the local welfare agency, local law enforcement agency, or agency responsible for assessing or investigating a report of maltreatment determines that an interview should take place on school district property, school district officials must receive written notification of intent to interview the child on school district property prior to the interview. The notification shall include the name of the child to be interviewed, the purpose of the interview, and a reference to the statutory authority to conduct an interview on school district property. Where the interviews are conducted by the local welfare agency, the notification must be signed by the chair of the local social services agency or the chair's designee. The notification is private educational data on the student. School district officials may not disclose to the parent, legal custodian or guardian the contents of the notification or any other related information regarding the interview until notified in writing by the local welfare or law enforcement agency that the investigation or assessment has been concluded, unless a school employee or agent is alleged to have maltreated the child. Until school district officials receive said notification, all inquiries regarding the nature of the investigation or assessment should be directed to the local welfare or law enforcement agency or the agency responsible for assessing or investigating a report of maltreatment shall be solely responsible for any disclosures regarding the nature of the assessment or investigation.
- D. School district officials shall have discretion to reasonably schedule the time, place, and manner of an interview by a local welfare or local law enforcement agency on school district premises. However, where the alleged perpetrator is believed to be a school district official or employee, the local welfare or local law enforcement agency will have discretion to determine where the interview will be held. The interview must be conducted not more than 24 hours after the receipt of the notification unless another time is considered necessary by agreement between the school district officials and the local welfare or law enforcement agency. However, school district officials must yield to the discretion of the local welfare or law enforcement agency concerning other persons in attendance at the interview. School district officials will make every effort to reduce the disruption to the educational program of the child, other students, or school staff when an interview is conducted on school district premises.
- E. Students shall not be taken from school district property without the consent of the principal and without proper warrant.

Policy 520 STUDENT SURVEYS

I. PURPOSE

Occasionally the Northfield School District utilizes surveys to obtain student opinions and information about students. The purpose of this policy is to establish the parameters of information that may be sought in student surveys.

II. GENERAL STATEMENT OF POLICY

Student surveys may be conducted as determined to be beneficial to the district. Surveys, analyses and evaluations conducted as part of any program funded through the U.S. Department of Education must comply with 20 United States Code section 1232h.

III. STUDENT SURVEYS IN GENERAL

- A. Student surveys will be conducted anonymously and in an indiscernible fashion. No mechanism will be used for identifying the participating student in any way. No attempt will be made in any way to identify a student survey participant. There will be no requirement that the student return the survey, and no record of the student returning a survey will be maintained.
- B. The superintendent may choose not to approve any survey that seeks probing personal and/or sensitive information that could result in identifying the survey participant, or is discriminatory in nature based on age, race, color, sex, disability, religion, or national origin.
- C. Surveys containing questions pertaining to the student's or the student's parent(s) or guardian(s) personal beliefs or practices in sex, family life, morality and religion will not be administered to any student unless the parent or guardian of the student is notified in writing that such survey is to be administered and the parent or guardian of the student gives written permission for the student to participate or has the opportunity to opt out of the survey depending upon how the survey is funded. Any and all documents containing the written permission of a parent for a student to participate in a survey will be maintained by the district in a file separate from the survey responses.
- D. Although the survey is conducted anonymously, potential exists for personally identifiable information to be provided in response thereto. To the extent that personally identifiable information of a student is contained in his or her responses to a survey, the district will take appropriate steps to ensure the data is protected in accordance with Minnesota Statutes chapter 13 (Minnesota Government Data Practices Act), 20 United States Code section (Family Educational Rights and Privacy Act) and 34 Code of Federal Regulations Part 99.
- E. The district must not impose an academic or other penalty on a student who opts out of participating in a student survey.

IV. STUDENT SURVEYS CONDUCTED AS PART OF DEPARTMENT OF EDUCATION PROGRAM

- A. All instructional materials, including teacher's manuals, films, tapes, or other supplementary material which will be used in connection with any survey, analysis, or evaluation as part of any program funded in whole or in part by the U.S. Department of Education, shall be available for inspection by the parents or guardians of the students.
- B. No student shall be required, as part of any program funded in whole or in part by the U.S. Department of Education, without the prior consent of the student (if the student is an adult or emancipated minor), or in the case of an unemancipated minor, without the prior written consent of the parent, to submit to a survey that reveals information concerning:
 - 1. Political affiliations or beliefs of the student or the student's parents/guardians.
 - 2. Mental and psychological problems of the student or the student's family.
 - 3. Sex behavior or attitudes.
 - 4. Illegal, antisocial, self-incriminating, or demeaning behavior.
 - 5. Critical appraisals of other individuals with whom respondents have close family relationships.
 - 6. Legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers.

 - (2) The administration of any third-party survey (non-Department of Education funded) containing one or more of the items contained in Section IV.B., above.
 - (3) Any nonemergency, invasive physical examination or screening that is required as a condition of attendance, administered by the school and scheduled by the school in advance, and not necessary to protect the immediate health and safety of the student or other students.
“Invasive physical examination” means any medical

examination that involves the exposure of private body parts, or act during such examination that includes incision, insertion, or injection into the body, but does not include a hearing, vision, or scoliosis screening.

- c. The notice will advise students of the specific or approximate dates during the school year when the activities in Section IV.C.2., Subparagraph b., above, are scheduled, or expected to be scheduled.
- d. The notice provisions shall not be construed to preempt applicable provisions of state law that require parental notification and do not apply to any physical examination or screening that is permitted or required by applicable state law, including physical examinations or screenings that are permitted without parental notification.

Complaint Procedures Section 504

Northfield Public Schools, in compliance with Section 504 of the Rehabilitation Act of 1973, prohibits discrimination on the basis of a handicapping condition. If any person believes Northfield Public Schools or any of the district's staff have violated the principles and/or regulations of Section 504 of the Rehabilitation Act of 1973, they may bring forward a complaint in accordance with the following procedure. This procedure does not preclude informal solutions or restrict the right of the complainant to file formal complaints with state and federal agencies or to seek private counsel for complaints alleging discrimination at any time.

If discrimination is determined to have occurred, the district will take prompt action to correct any effects of the discrimination and to prevent further occurrences.

Complaint Procedure:

Step 1

The complainant must submit a signed, written Statement of Complaint to the District 504 Coordinator. The Statement of Complaint must fully set out the circumstances giving rise to the alleged complaint and include a statement of the relief sought by the complainant. The Statement of Complaint shall be filed within thirty (30) calendar days of the alleged violation. A Statement of Complaint filed beyond thirty (30) calendar days of the alleged violation may not be considered.

The investigation will be completed and a written report of findings and recommendations shall be given to the complainant within thirty (30) calendar days of receipt of the Statement of Complaint. If the District 504 Coordinator is the subject of the written complaint, the Superintendent will appoint an impartial investigator who will conduct the investigation.

**Policy 522 TITLE IX SEX NONDISCRIMINATION POLICY, GRIEVANCE
PROCEDURE AND PROCESS**

I. GENERAL STATEMENT OF POLICY

- A. The Northfield School District does not discriminate on the basis of sex in its education programs or activities, and it is required by Title IX of the Education Amendments Act of 1972, and its implementing regulations, not to discriminate in such a manner. The requirement not to discriminate in its education program or activity extends to admission and employment. The school district is committed to maintaining an education and work environment that is free from discrimination based on sex, including sexual harassment.
- B. The school district prohibits sexual harassment that occurs within its education programs and activities. When the school district has actual knowledge of sexual harassment in its education program or activity against a person in the United States, it shall promptly respond in a manner that is not deliberately indifferent.
- C. This policy applies to sexual harassment that occurs within the school district's education programs and activities and that is committed by a school district employee, student, or other members of the school community. This policy does not apply to sexual harassment that occurs off school grounds, in a private setting, and outside the scope of the school district's education programs and activities. This policy does not apply to sexual harassment that occurs outside the geographic boundaries of the United States, even if the sexual harassment occurs in the school district's education programs or activities.
- D. Any student, parent, or guardian having questions regarding the application of Title IX and its regulations and/or this policy and grievance process should discuss them with the Title IX Coordinator.

The school district's Title IX Coordinator is:

Title IX Coordinator(s), the Assistant Secretary for Civil Rights of the United States Department of Education, or both.

- E. The effective date of this policy is August 14, 2020 and applies to alleged violations of this policy occurring on or after August 14, 2020.

II. DEFINITIONS

- A. “Actual knowledge” means notice of sexual harassment or allegations of sexual harassment to the school district’s Title IX Coordinator or to any employee of the school district. Imputation of knowledge based solely on vicarious liability or constructive notice is insufficient to constitute actual knowledge. This standard is not met when the only official of the school district with actual knowledge is the respondent.
- B. “Complainant” means a person who is alleged to be the victim of conduct that could constitute sexual harassment under Title IX. A Title IX Coordinator who signs a formal complaint is not a complainant unless the Title IX Coordinator is alleged to be the victim of the conduct described in the formal complaint.
- C. “Day” or “days” means, unless expressly stated otherwise, business days (i.e. day(s) that the school district office is open for normal operating hours, Monday - Friday, excluding State-recognized holidays).
- A. “Deliberately indifferent” means clearly unreasonable in light of the known circumstances. The school district is deliberately indifferent only if its response to sexual harassment is clearly unreasonable in light of the known circumstances.
- B. “Education program or activity” means locations, events, or circumstances for which the school district exercises substantial control over both the respondent and the context in which the sexual harassment occurs and includes school district education programs or activities that occur on or off of school district property.
- C. “Formal complaint” means a document filed by a complainant or signed by the Title IX Coordinator alleging sexual harassment against a respondent and requesting that the school district investigate the allegation of sexual harassment.
 - 1. A formal complaint filed by a complainant must be a physical document or an electronic submission. The formal complaint must contain the complainant’s physical or digital signature, or otherwise indicate that the complainant is the person filing the formal complaint, and must be submitted to the Title IX Coordinator in person, by mail, or by email.
 - 2. A formal complaint shall state that, at the time of filing the formal complaint, the complainant was participating in, or attempting to participate in, an education program or activity of the school district with which the formal complaint is filed.

- D. “Informal resolution” means options for resolving a formal complaint that do not involve a full investigation and adjudication. Informal resolution may encompass a broad range of conflict resolution strategies, including mediation or restorative justice.
- E. “Relevant questions” and “relevant evidence” are questions, documents, statements, or information that are related to the allegations raised in a formal complaint. Relevant evidence includes evidence that is both inculpatory and exculpatory. Questions and evidence about the complainant’s sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence about the complainant’s prior sexual behavior are offered to prove that someone other than the respondent committed the conduct alleged by the complainant, or if the questions and evidence concern specific incidents of the complainant’s prior sexual behavior with respect to the respondent and are offered to prove consent.
- F. “Remedies” means actions designed to restore or preserve the complainant’s equal access to education after a respondent is found responsible. Remedies may include the same individualized services that constitute supportive measures, but need not be non-punitive or non-disciplinary, nor must they avoid burdening the respondent.
- G. “Respondent” means an individual who has been reported to be the perpetrator of conduct that could constitute sexual harassment under Title IX.
- H. “Sexual harassment” means any of three types of misconduct on the basis of sex that occurs in a school district education program or activity and is committed against a person in the United States:
1. *Quid pro quo* harassment by a school district employee (conditioning the provision of an aid, benefit, or service of the school district on an individual's participation in unwelcome sexual conduct);
 2. Unwelcome conduct that a reasonable person would find so severe, pervasive, and objectively offensive that it denies a person equal educational access; or
 3. Any instance of sexual assault (as defined in the Clery Act, 20 United States Code section 1092(f)(6)A(v)), dating violence, domestic violence, or stalking (as defined in the Violence Against Women Act, 34 United States Code section 12291).
- I. “Supportive measures” means individualized services provided to the complainant or respondent without fee or charge that are reasonably available, non-punitive, non-disciplinary, not unreasonably burdensome to the other party, and designed to ensure equal educational access, protect safety, and deter sexual harassment. Supportive measures may include counseling, extensions of

deadlines or other course-related adjustments, modifications of work or class schedules, alternative educational services as defined under Minnesota Statutes section 121A.41, as amended, mutual restrictions on contact between the parties, changes in work locations, leaves of absence, increased security and monitoring of certain areas of the school district buildings or property, and other similar measures.

- J. “Title IX Personnel” means any person who addresses, works on, or assists with the school district’s response to a report of sexual harassment or formal complaint, and includes persons who facilitate informal resolutions. The following are considered Title IX Personnel:
1. “Title IX Coordinator” means an employee of the school district that coordinates the school district’s efforts to comply with and carry out its responsibilities under Title IX. The Title IX Coordinator is responsible for acting as the primary contact for the parties and ensuring that the parties are provided with all notices, evidence, reports, and written determinations to which they are entitled under this policy and grievance process. The Title IX Coordinator is also responsible for effective implementation of any supportive measures or remedies. The Title IX Coordinator must be free from conflicts of interest and bias when administering the grievance process.
 2. “Investigator” means a person who investigates a formal complaint. The investigator of a formal complaint may not be the same person as the Decision-maker or the Appellate Decision-maker. The Investigator may be a school district employee, school district official, or a third party designated by the school district.
 3. “Decision-maker” means a person who makes a determination regarding responsibility after the investigation has concluded. The Decision-maker cannot be the same person as the Title IX Coordinator, the Investigator, or the Appellate Decision-maker.
 4. “Appellate Decision-maker” means a person who considers and decides appeals of determinations regarding responsibility and dismissals of formal complaints. The Appellate Decision-maker cannot be the same person as the Title IX Coordinator, Investigator, or Decision-maker. The Appellate Decision-maker may be a school district employee, or a third party designated by the school district.
 5. The superintendent of the school district may delegate functions assigned to a specific school district employee under this policy, including but not limited to the functions assigned to the Title IX Coordinator, Investigator, Decision-maker, Appellate Decision-maker, and facilitator of informal resolution processes, to any suitably qualified individual and such delegation may be rescinded by the superintendent at any time. The school district may also, in its discretion, appoint suitably qualified persons who are not school district employees to fulfill any function under this policy, including, but not limited to, Investigator, Decision-maker,

Appellate Decision-maker, and facilitator of informal resolution processes.

III. BASIC REQUIREMENTS FOR GRIEVANCE PROCESS

A. Equitable Treatment

1. The school district shall treat complainants and respondents equitably. However, equality or parity with respect to supportive measures provided to complainants and respondents is not required.
2. The school district will not impose any disciplinary sanctions or take any other actions against a respondent that do not constitute supportive measures until it has completed this grievance process and the respondent has been found responsible.
3. The school district will provide appropriate remedies to the complainant any time a respondent is found responsible.

B. Objective and Unbiased Evaluation of Complaints

1. Title IX Personnel, including the Title IX Coordinator, Investigator, Decision-maker, and Appellate Decision-maker, shall be free from conflicts of interest or bias for or against complainants or respondents generally or a specific complainant or respondent.
2. Throughout the grievance process, Title IX Personnel will objectively evaluate all relevant evidence, inculpatory and exculpatory, and shall avoid credibility determinations based solely on a person's status as a complainant, respondent, or witness.

- C. Title IX Personnel will presume that the respondent is not responsible for the alleged conduct until a determination regarding responsibility is made at the conclusion of the grievance process.

D. Confidentiality

The school district will keep confidential the identity of any individual who has made a report or complaint of sex discrimination, including any individual who has made a report or filed a formal complaint of sexual harassment, any complainant, any individual who has been reported to be the perpetrator of sex discrimination, any respondent, and any witness, except as may be permitted by the Family Educational Rights and Privacy Act (FERPA), 20 United States Code section 1232g, or FERPA's regulations, 34 Code of Federal regulations part 99, Minnesota law under Minnesota Statutes section 13.32, or as required by law, or to carry out the purposes of 34 Code of Federal Regulations part 106, including the conduct of any investigation, hearing, or judicial proceeding arising thereunder (i.e., the school district's obligation to maintain confidentiality shall not impair or otherwise affect the complainants and respondents receipt of the information to which they are entitled with respect to the investigative record and determination of responsibility).

E. Right to an Advisor; Right to a Support Person

Complainants and respondents have the right, at their own expense, to be assisted by an advisor of their choice during all stages of any grievance proceeding, including all meetings and investigative interviews. The advisor may be, but is not required to be, an attorney. In general, an advisor is not permitted to speak for or on behalf of a complainant or respondent, appear in lieu of complainant or respondent, participate as a witness, or participate directly in any other manner during any phase of the grievance process.

A complainant or respondent with a disability may be assisted by a support person throughout the grievance process, including all meetings and investigative interviews, if such accommodation is necessary. A support person may be a friend, family member, or any individual who is not otherwise a potential witness. The support person is not permitted to speak for or on behalf of a complainant or respondent, appear in lieu of complainant or respondent, participate as a witness, or participate directly in any other manner during any phase of the grievance process.

F. Notice

The school district will send written notice of any investigative interviews or meetings to any party whose participation is invited or expected. The written notice will include the date, time, location, participants, and purpose of the meeting or interview, and will be provided to allow sufficient time for the party to prepare to participate.

G. Consolidation

The school district may, in its discretion, consolidate formal complaints as to allegations of sexual harassment against more than one respondent, or by more than one complainant against one or more respondents, or by one party against the other party, where the allegations of sexual harassment arise out of the same facts or circumstances.

H. Evidence

1. During the grievance process, the school district will not require, allow, rely upon, or otherwise use questions or evidence that constitute or seek disclosure of information protected under a legally recognized privilege, unless the person holding such privilege has waived the privilege.
2. The school district shall not access, consider, disclose, or otherwise use a party's medical, psychological, and similar treatment records unless the school district obtains the party's voluntary, written consent.

I. Burden of Proof

1. The burden of gathering evidence and the burden of proof shall remain upon the school district and not upon the parties.
2. The grievance process shall use a preponderance of the evidence standard (i.e. whether it is more likely than not that the respondent engaged in sexual harassment) for all formal complaints of sexual harassment, including when school district employees are respondents.

J. Timelines

1. Any informal resolution process must be completed within thirty (30) calendar days following the parties' agreement to participate in such informal process.
2. An appeal of a determination of responsibility or of a decision dismissing a formal complaint must be received by the school district within five (5) days of the date the determination of responsibility or dismissal was provided to the parties.
3. Any appeal of a determination of responsibility or of a dismissal will be decided within thirty (30) calendar days of the day the appeal was received by the School District.
4. The school district will seek to conclude the grievance process, including any appeal, within 120 calendar days of the date the formal complaint was received by the School District.
5. Although the school district strives to adhere to the timelines described above, in each case, the school district may extend the time frames for good cause. Good cause may include, without limitation: the complexity of the allegations; the severity and extent of the alleged misconduct; the number of parties, witnesses, and the types of other evidence (e.g., forensic evidence) involved; the availability of the parties, advisors, witnesses, and evidence (e.g., forensic evidence); concurrent law enforcement activity; intervening school district holidays, breaks, or other closures; the need for language assistance or accommodation of disabilities; and/or other unforeseen circumstances.

K. Potential Remedies and Disciplinary Sanctions

1. The following is the range of possible remedies that the school district may provide a complainant and disciplinary sanctions that the school district might impose upon a respondent, following determination of responsibility: counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, mutual or unilateral restrictions on contact between the parties, changes in work locations, leaves of absence, monitoring of certain areas of the school district buildings or property, warning, suspension, exclusion, expulsion, transfer, remediation, termination, or discharge.

2. If the Decision-maker determines a student-respondent is responsible for violating this policy, the Decision-maker will recommend appropriate remedies, including disciplinary sanctions/consequences. The Title IX Coordinator will notify the superintendent of the recommended remedies, such that an authorized administrator can consider the recommendation(s) and implement appropriate remedies in compliance with MSBA Model Policy 506 – Student Discipline. The discipline of a student-respondent must comply with the applicable provisions of Minnesota Pupil Fair Dismissal Act, the Individuals with Disabilities Education Improvement Act (IDEA) and/or Section 504 of the Rehabilitation Act of 1972, and their respective implementing regulations.

IV. REPORTING PROHIBITED CONDUCT

- A. Any student who believes they have been the victim of unlawful sex discrimination or sexual harassment, or any person (including the parent of a student) with actual knowledge of conduct which may constitute unlawful sex discrimination or sexual harassment toward a student should report the alleged acts as soon as possible to the Title IX Coordinator.
- B. Any employee of the school district who has experienced, has actual knowledge of, or has witnessed unlawful sex discrimination, including sexual harassment, or who otherwise becomes aware of unlawful sex discrimination, including sexual harassment, must promptly report the allegations to the Title IX Coordinator without screening or investigating the report or allegations.
- C. A report of unlawful sex discrimination or sexual harassment may be made at any time, including during non-business hours, and may be made in person, by mail, by telephone, or by e-mail using the Title IX Coordinator's contact information. A report may also be made by any other means that results in the Title IX Coordinator receiving the person's verbal or written report.
- D. Sexual harassment may constitute both a violation of this policy and criminal law. To the extent the alleged conduct may constitute a crime, the School District may report the alleged conduct to law enforcement authorities. The school district encourages complainants to report criminal behavior to the police immediately.

V. INITIAL RESPONSE AND ASSESSMENT BY THE TITLE IX COORDINATOR

- A. When the Title IX Coordinator receives a report, the Title IX Coordinator shall promptly contact the complainant confidentially to discuss the availability of supportive measures, consider the complainant's wishes with respect to supportive measures, inform the complainant of the availability of supportive measures with or without the filing of a formal complaint, and explain to the complainant the process for filing a formal complaint.

- B. The school district will offer supportive measures to the complainant whether or not the complainant decides to make a formal complaint. The school district must maintain as confidential any supportive measures provided to the complainant or respondent, to the extent that maintaining such confidentiality would not impair the school district's ability to provide the supportive measures. The Title IX Coordinator is responsible for coordinating the effective implementation of supportive measures.
- C. If the complainant does not wish to file a formal complaint, the allegations will not be investigated by the school district unless the Title IX Coordinator determines that signing a formal complaint to initiate an investigation over the complainant's wishes is not clearly unreasonable in light of the known circumstances.
- D. Upon receipt of a formal complaint, the school district must provide written notice of the formal complaint to the known parties with sufficient time to prepare a response before any initial interview. This written notice must contain:
 - 1. The allegations of sexual harassment, including sufficient details known at the time, the identities of the parties involved in the incident (if known), the conduct allegedly constituting sexual harassment, and the date and location of the alleged incident, if known;
 - 2. A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility will be made at the conclusion of the grievance process;
 - 3. A statement explaining that the parties may have an advisor of their choice, who may be, but is not required to be, an attorney;
 - 4. A statement that the parties may inspect and review evidence gathered pursuant to this policy;
 - 5. A statement informing the parties of any code of conduct provision that prohibits knowingly making false statements or knowingly submitting false information; and
 - 6. A copy of this policy.

VI. STATUS OF RESPONDENT DURING PENDENCY OF FORMAL COMPLAINT

A. Emergency Removal of a Student

- 1. The school district may remove a student-respondent from an education program or activity of the school district on an emergency basis before a determination regarding responsibility is made if:
 - a. The school district undertakes an individualized safety and risk analysis;
 - b. The school district determines that an immediate threat to the physical health or safety of any student or other individual arising

from the allegations of sexual harassment justifies removal of the student-respondent; and

- c. The school district determines the student-respondent poses such a threat, it will so notify the student-respondent and the student-respondent will have an opportunity to challenge the decision immediately following the removal. In determining whether to impose emergency removal measures, the Title IX Coordinator shall consult related school district policies, including MSBA Model Policy 506 – Student Discipline. The school district must take into consideration applicable requirements of the Individuals with Disabilities Education Act and Section 504 of the Rehabilitation Act of 1973, prior to removing a special education student or Section 504 student on an emergency basis.

[NOTE: The interrelationship between the Title IX regulations authorizing the emergency removal of student and the Minnesota Pupil Fair Dismissal Act (MPFDA) is unclear at this time. School districts should consult with legal counsel regarding the emergency removal of a student. At a minimum, it is recommended that school districts provide alternative educational services, as defined in the MPFDA, to any student so removed under the Title IX regulations.]

B. Employee Administrative Leave

The school district may place a non-student employee on administrative leave during the pendency of the grievance process of a formal complaint. Such leave will typically be paid leave unless circumstances justify unpaid leave in compliance with legal requirements. The school district must take into consideration applicable requirements of Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act prior to removing an individual with a qualifying disability.

VII. INFORMAL RESOLUTION OF A FORMAL COMPLAINT

- A. At any time prior to reaching a determination of responsibility, informal resolution may be offered and facilitated by the school district at the school district's discretion, but only after a formal complaint has been received by the school district.
- B. The school district may not require as a condition of enrollment or continued enrollment, or of employment or continued employment, or enjoyment of any other right, waiver of the right to a formal investigation and adjudication of formal complaints of sexual harassment.
- C. The informal resolution process may not be used to resolve allegations that a

school district employee sexually harassed a student.

- D. The school district will not facilitate an information resolution process without both parties' agreement, and will obtain their voluntary, written consent. The school district will provide to the parties a written notice disclosing the allegations, the requirements of the informal resolution process including the circumstances under which it precludes the parties from resuming a formal complaint arising from the same allegations, the parties' right to withdraw from the informal resolution process, and any consequences resulting from participating in the informal resolution process, including the records that will be maintained or could be shared.
- E. At any time prior to agreeing to a resolution, any party has the right to withdraw from the informal resolution process and resume the grievance process with respect to the formal complaint.

VIII. DISMISSAL OF A FORMAL COMPLAINT

- A. Under federal law, the school district must dismiss a Title IX complaint, or a portion thereof, if the conduct alleged in a formal complaint or a portion thereof:
 - 1. Would not meet the definition of sexual harassment, even if proven;
 - 2. Did not occur in the school district's education program or activity; or
 - 3. Did not occur against a person in the United States.
- B. The school district may, in its discretion, dismiss a formal complaint or allegations therein if:
 - 1. The complainant informs the Title IX Coordinator in writing that the complainant desires to withdraw the formal complaint or allegations therein;
 - 2. The respondent is no longer enrolled or employed by the school district; or
 - 3. Specific circumstances prevent the school district from gathering sufficient evidence to reach a determination.
- C. The school district shall provide written notice to both parties of a dismissal. The notice must include the reasons for the dismissal.
- D. Dismissal of a formal complaint or a portion thereof does not preclude the school district from addressing the underlying conduct in any manner that the school district deems appropriate.

[NOTE: For example, school districts are reminded of the obligation under Minnesota Statutes section 122A.20, subdivision 2, to make a mandatory report to the Minnesota Professional Educator Licensing and Standards Board

concerning any teacher who resigns during the course of an investigation of misconduct.]

IX. INVESTIGATION OF A FORMAL COMPLAINT

- A. If a formal complaint is received by the School District, the school district will assign or designate an Investigator to investigate the allegations set forth in the formal complaint.
- B. If during the course of the investigation the school district decides to investigate any allegations about the complainant or respondent that were not included in the written notice of a formal complaint provided to the parties, the school district must provide notice of the additional allegations to the known parties.
- C. When a party's participation is invited or expected in an investigative interview, the Investigator will coordinate with the Title IX Coordinator to provide written notice to the party of the date, time, location, participants, and purposes of the investigative interview with sufficient time for the party to prepare.
- D. During the investigation, the Investigator must provide the parties with an equal opportunity to present witnesses for interviews, including fact witnesses and expert witnesses, and other inculpatory and exculpatory evidence.
- E. Prior to the completion of the investigative report, the Investigator, through the Title IX Coordinator, will provide the parties and their advisors (if any) with an equal opportunity to inspect and review any evidence directly related to the allegations. The evidence shall be provided in electronic format or hard copy and shall include all relevant evidence, evidence upon which the school district does not intend to rely in reaching a determination regarding responsibility, and any inculpatory or exculpatory evidence whether obtained from a party or another source. The parties will have ten (10) days to submit a written response, which the Investigator will consider prior to completion of the investigative report.
- F. The Investigator will prepare a written investigative report that fairly summarizes the relevant evidence. The investigative report may include credibility determinations that are not based on a person's status as a complainant, respondent or witness. The school district will send the parties and their advisors (if any) a copy of the report in electronic format or hard copy, for their review and written response at least ten (10) days prior to a determination of responsibility.

X. DETERMINATION REGARDING RESPONSIBILITY

- A. After the school district has sent the investigative report to both parties and before the school district has reached a determination regarding responsibility, the Decision-maker must afford each party the opportunity to submit written, relevant questions that a party wants asked of any party or witness.

- B. The Decision-maker must provide the relevant questions submitted by the parties to the other parties or witnesses to whom the questions are offered, and then provide each party with the answers, and allow for additional, limited follow-up questions from each party.
- C. The Decision-maker must explain to the party proposing the questions any decision to exclude a question as not relevant.
- D. When the exchange of questions and answers has concluded, the Decision-maker must issue a written determination regarding responsibility that applies the preponderance of the evidence standard to the facts and circumstances of the formal complaint. The written determination of responsibility must include the following:
 - 1. Identification of the allegations potentially constituting sexual harassment;
 - 2. A description of the procedural steps taken from the receipt of the formal complaint through the determination, including any notifications to the parties, interviews with parties and witnesses, site visits, and methods used to gather other evidence;
 - 3. Findings of fact supporting the determination;
 - 4. Conclusions regarding the application of the school district's code of conduct to the facts;
 - 5. A statement of, and rationale for, the result as to each allegation, including a determination regarding responsibility, any disciplinary sanctions the school district imposes on the respondent, and whether remedies designed to restore or preserve equal access to the recipient's education program or activity will be provided by the school district to the complainant; and
 - 6. The school district's procedures and permissible bases for the complainant and respondent to appeal and the date by which an appeal must be made.
- E. In determining appropriate disciplinary sanctions, the Decision-maker should consider the surrounding circumstances, the nature of the behavior, past incidents or past or continuing patterns of behavior, the relationships between the parties involved, and the context in which the alleged incident occurred.
- F. The written determination of responsibility must be provided to the parties simultaneously.
- G. The Title IX Coordinator is responsible for the effective implementation of any remedies.
- H. The determination regarding responsibility becomes final either on the date that the school district provides the parties with the written determination of the result of the appeal, if an appeal is filed, or if an appeal is not filed, the date on which an appeal would no longer be considered timely.

XI. APPEALS

- A. The school district shall offer the parties an opportunity to appeal a determination regarding responsibility or the school district's dismissal of a formal complaint or any allegations therein, on the following bases:
 - 1. A procedural irregularity that affected the outcome of the matter (e.g., a material deviation from established procedures);
 - 2. New evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made, that could affect the outcome of the matter; and
 - 3. The Title IX Coordinator, Investigator, or Decision-maker had a conflict of interest or bias for or against complainants or respondents generally or the individual complainant or respondent that affected the outcome of the matter.
- B. If notice of an appeal is timely received by the school district, the school district will notify the parties in writing of the receipt of the appeal, assign or designate the Appellate Decision-maker, and give the parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome.
- C. After reviewing the parties' written statements, the Appellate Decision-maker must issue a written decision describing the result of the appeal and the rationale for the result.
- D. The written decision describing the result of the appeal must be provided simultaneously to the parties.
- E. The decision of the Appellate Decision-maker is final. No further review beyond the appeal is permitted.

XII. RETALIATION PROHIBITED

- A. Neither the school district nor any other person may intimidate, threaten, coerce, or discriminate against any individual for the purpose of interfering with any right or privilege secured by Title IX, its implementing regulations, or this policy, or because the individual made a report or complaint, testified, assisted, or participated or refused to participate in any manner in an investigation, proceeding, or hearing under this policy. Intimidation, threats, coercion, or discrimination, including charges against an individual for code of conduct violations that do not involve sex discrimination or sexual harassment, but arise out of the same facts or circumstances as a report or complaint of sex discrimination, or a report or formal complaint of sexual harassment, for the purpose of interfering with any right or privilege secured by Title IX, its

implementing regulations, or this policy, constitutes retaliation. Retaliation against a person for making a report of sexual harassment, filing a formal complaint, or participating in an investigation, constitutes a violation of this policy that can result in the imposition of disciplinary sanctions/consequences and/or other appropriate remedies.

- B. Any person may submit a report or formal complaint alleging retaliation in the manner described in this policy and it will be addressed in the same manner as other complaints of sexual harassment or sex discrimination.
- C. Charging an individual with violation of school district policies for making a materially false statement in bad faith in the course of a grievance proceeding under this policy shall not constitute retaliation, provided, however, that a determination regarding responsibility, alone, is not sufficient to conclude that any party made a materially false statement in bad faith.

XIII. TRAINING

- A. The school district shall ensure that Title IX Personnel receive appropriate training. The training shall include instruction on:
 - 1. The Title IX definition of sexual harassment;
 - 2. The scope of the school district's education program or activity;
 - 3. How to conduct an investigation and grievance process, appeals, and informal resolution processes, as applicable;
 - 4. How to serve impartially, including by avoiding prejudgment of the facts at issue, conflicts of interest, and bias;
 - 5. For Decision-makers, training on issues of relevance of questions and evidence, including when questions and evidence about the complainant's prior sexual behavior are not relevant; and
 - 6. For Investigators, training on issues of relevance, including the creation of an investigative report that fairly summarizes relevant evidence.
- B. The training materials will not rely on sex stereotypes and must promote impartial investigations and adjudications of formal complaints.
- C. Materials used to train Title IX Personnel must be posted on the school district's website. If the school district does not have a website, it must make the training materials available for public inspection upon request.

XIV. DISSEMINATION OF POLICY

- A. This policy shall be made available to all students, parents/guardians of students, school district employee, and employee unions.
- B. The school district shall conspicuously post the name of the Title IX Coordinator,

including office address, telephone number, and work e-mail address on its website and in each handbook that it makes available to parents, employees, students, unions, or applicants.

- C. The school district must provide applicants for admission and employment, students, parents or legal guardians of secondary school students, employees, and all unions holding collective bargaining agreements with the school district, with the following:
 - 1. The name or title, office address, electronic mail address, and telephone number of the Title IX Coordinator;
 - 2. Notice that the school district does not discriminate on the basis of sex in the education program or activity that it operates, and that it is required by Title IX not to discriminate in such a manner;
 - 3. A statement that the requirement not to discriminate in the education program or activity extends to admission and employment, and that inquiries about the application of Title IX may be referred to the Title IX Coordinator, to the Assistant Secretary for Civil Rights of the United States Department of Education, or both; and
 - 4. Notice of the school district's grievance procedures and grievance process contained in this policy, including how to report or file a complaint of sex discrimination, how to report or file a formal complaint of sexual harassment, and how the school district will respond.

XV. RECORDKEEPING

- A. The school district must create, and maintain for a period of seven calendar years, records of any actions, including any supportive measures, taken in response to a report or formal complaint of sexual harassment. In each instance, the school district must document:
 - 1. The basis for the school district's conclusion that its response to the report or formal complaint was not deliberately indifferent;
 - 2. The measures the school district has taken that are designed to restore or preserve equal access to the school district's education program or activity; and
 - 3. If the school district does not provide a complainant with supportive measures, then it must document the reasons why such a response was not clearly unreasonable in light of the known circumstances. Such a record must be maintained for a period of seven years.
 - 4. The documentation of certain bases or measures does not limit the recipient in the future from providing additional explanations or detailing additional measures taken.
- B. The school district must also maintain for a period of seven calendar years records of:

1. Each sexual harassment investigation including any determination regarding responsibility, any disciplinary sanctions imposed on the respondent, and any remedies provided to the complainant designed to restore or preserve equal access to the recipient's education program or activity;
2. Any appeal and the result therefrom;
3. Any informal resolution and the result therefrom; and
4. All materials used to train Title IX Personnel.

Policy 524.2 ACCEPTABLE USE AND SAFETY OF TECHNOLOGY AND TELECOMMUNICATION SYSTEMS BY STUDENTS

I. PURPOSE

To prepare every student for lifelong success, the Northfield School District provides technology and telecommunications resources for district students to equitably support and enhance student learning so they can become critical thinkers who are curious and ready to engage in our society. Access to and use of technology resources for students and employees is a fundamental part of education. This policy covers district student use of all technology and telecommunications resources in the district. The purpose of this policy is to govern and guide the appropriate use of these resources as we prepare every student to be academically and socially ready to choose their preferred pathway after high school graduation.

II. GENERAL STATEMENT OF POLICY

The district provides students with access to computers and peripherals, district networks, on campus and hotspot Internet access, software applications and other technology services in order to support and enhance student learning and to prepare them for work and life.

III. ACCEPTABLE/UNACCEPTABLE USES

A. Each student shall act responsibly when utilizing technology resources.

1. The use of the school district networks/computers/peripherals and internet/software applications and systems is a privilege that can be revoked at any time for abusive behavior. All activity and utilization of district technology resources must comply with Student Citizenship Handbook and school board policies.
2. While not an exhaustive list, students will not:
 - Use district technology resources to access, review, display, store, upload, download, distribute, post, receive, transmit, or print pornographic, obscene or sexually explicit materials or language, or other visual depictions that are harmful to minors.
 - Use district technology resources to access, display, store, upload, download, distribute or print materials that advocate violence, harassment or discrimination (hate literature) or are disruptive in any way.
 - Send abusive, intimidating, harassing, or unwanted material causing the work of others to be disrupted.
 - Use the district technology resources to vandalize, damage or disable the property of another person, will not make deliberate attempts to degrade, vandalize or disrupt equipment, software, or system performance, will not violate the network's security in any way, and will not use the district network/Internet/email system in any way so as to disrupt the use of the system by other users.
 - Use district technology resources to gain unauthorized access to resources, passwords, accounts, information or files without direct permission from the district.

- Use district technology resources to violate copyright laws, download or pirate software or plagiarize information, or engage in any illegal act or violate any local, state, or federal statute or law.
- Send or forward unnecessary or frivolous emails or messages in any quantity to other users of the district email system or other digital applications. Transmission of chain letters and pyramid schemes is strictly prohibited.
- Use district technology resources for commercial purposes, political lobbying or solicitation of any kind.
- Use non-district owned equipment or devices to access networks and file servers that require district-provided credentials.
- Use district technology resources to communicate under a false name or designation or a name or designation they are not authorized to use, including instances in conjunction with representing that they are somehow acting on behalf of or under the auspices of the district.
- Use the name “Northfield Public Schools” in any form or use any symbol or logo or graphic used by Northfield Schools without the district’s prior consent.
- Utilize the district system to post personal information about a user or another individual on social networks, including, but not limited to, social networks such as Facebook, Twitter, Instagram, Snapchat, TikTok, Reddit, and similar websites or applications.

3. Students will use electronic information resources in compliance with all existing school board policies. Non-district owned equipment may access district guest networks but must comply with district policy and procedures.

B. Each student shall respect private passwords, copyright and other intellectual property rights.

1. Copying of data, files or using passwords belonging to others will be considered a violation of district policies, a violation of law, and may constitute fraud, plagiarism or theft.
2. Software licensed by the district must only be used in accordance with applicable license specifications and agreements. Illegal copying and/or installing of software on district computers is strictly prohibited. Illegal copying and/or installing of district licensed software on personal devices is strictly prohibited.
3. Modifying or damaging information without authorization including but not limited to altering data, introducing viruses or damaging files or data is unethical and a violation of district policies.

C. Each student shall abide by security restrictions on all systems and information.

1. Distributing or making your password or another person’s password or access code available to others or otherwise attempting to evade, disable or “crack” passwords, desktop security systems, or other security precautions, or assisting others in doing so threatens work, privacy and the integrity of district information, and is a serious violation of district policy.
2. Attempts to “bypass” virus protection software on workstations or servers are violations of district security procedures.

3. Software or applications are generally installed by District technology services staff. Software or applications may only be installed by students with specific permission from the district.
- D. Each student shall recognize limitations to privacy and use of electronic communications. Employees, staff and students do not own district technology and telecommunications equipment or software. The district reserves the right to access user files at any time to protect the integrity of the systems and property of the district.
1. The district may examine or make copies of files that are suspected of misuse, or that have been corrupted or damaged. Files may be subject to search by law enforcement agencies if files contain information, which may be used as evidence in a court of law.
 2. An individual investigation or search will be conducted if school authorities have a reasonable suspicion that the search will uncover a violation of law or district policy. The district will cooperate fully with local, state and federal authorities in any investigation concerning or related to any illegal activities and activities not in compliance with district policies.
- E. Each student shall be aware that data and other materials in files maintained on district property or hosted solutions licensed by the district may be subject to review, disclosure or discovery under State and Federal legislation, including the Minnesota Government Data Practices Act.
1. The district can and will monitor the online activities of all employees and students, and employ “filtering” protection measures during any use by employees and/or students. The “filtering” measures are intended to block Internet sites that contain violent, obscene, pornographic or sexually explicit materials. The district will comply with any and all state and federal requirements around Internet filtering for student use. The use of this software does not guarantee that students or staff will not be able to obtain objectionable or pornographic materials over the Internet, but the chances have been minimized.
 2. It is mandatory that staff closely monitor and supervise student use of the Internet and all other technology resources at school to ensure appropriate, educational use.
- F. The district has a special interest in regulating off-campus speech that materially disrupts classwork or involves substantial disorder or invasion of the rights of others. A student or employee engaging in the foregoing unacceptable uses of the internet when off district premises also may be in violation of this policy as well as other district policies. Examples of such violations may include, but are not limited to, serious or severe bullying or harassment targeting particular individuals, threats aimed at teachers or other students, failure to follow rules concerning lessons, the writing of papers, the use of computers, or participation in other online school activities, and breaches of school security devices. If the district receives a report of an unacceptable use originating from a non-school computer or resource, the district may investigate such reports to the best of its ability. Students or employees may be subject to disciplinary action for such conduct, including, but not limited to, suspension or cancellation of the use or access to the district computer system and

the internet and discipline under other appropriate district policies, including suspension, expulsion, exclusion, or termination of employment.

IV. PARENTS' RESPONSIBILITY; NOTIFICATION OF STUDENT INTERNET USE

Outside of school, parents are responsible for monitoring their student's use of the district system and of the Internet if the student is accessing the district system from home or a remote location.

Parents may have the right at any time to investigate or review the contents of their child's files and email files in accordance with the school district's Protection and Privacy of Pupil Records Policy. Parents have the right to request the termination of their child's individual account at any time.

V. NOTIFICATION REGARDING TECHNOLOGY PROVIDERS

A. "Technology provider" means a person who:

1. Contracts with the district, as part of a one-to-one program or otherwise, to provide a school-issued device for student use.
2. Creates, receives, or maintains educational data pursuant or incidental to a contract with the district.

B. "Parent" means a parent of a student and includes a natural parent, a guardian, or an individual acting as a parent in the absence of a parent or a guardian.

C. Within 30 days of the start of each school year, the district must give parents and students direct and timely notice, by United States mail, e-mail, or other direct form of communication, of any curriculum, testing, or assessment technology provider contract affecting a student's educational data. The notice must:

1. Identify each curriculum, testing, or assessment technology provider with access to educational data.
2. Identify the educational data affected by the curriculum, testing, or assessment technology provider contract.
3. Include information about the contract inspection and provide contact information for a school department to which a parent or student may direct questions or concerns regarding any program or activity that allows a curriculum, testing, or assessment technology provider to access a student's educational data.

D. The district must provide parents and students an opportunity to inspect a complete copy of any contract with a technology provider.

E. A contract between a technology provider and the district must include requirements to ensure appropriate security safeguards for educational data. The contract must require that:

1. The technology provider's employees or contractors have access to educational data only if authorized.
 2. The technology provider's employees or contractors may be authorized to access educational data only if access is necessary to fulfill the official duties of the employee or contractor.
- F. All educational data created, received, maintained, or disseminated by a technology provider pursuant or incidental to a contract with a public educational agency or institution are not the technology provider's property.

VI. SCHOOL-ISSUED DEVICES

- A. "School-issued device" means hardware or software that the school district, acting independently or with a technology provider, provides to an individual student for that student's dedicated personal use. A school-issued device includes a device issued through a one-to-one program.
- B. Except as provided in paragraph C, the district or a technology provider must not electronically access or monitor:
1. Any location-tracking feature of a school-issued device.
 2. Any audio or visual receiving, transmitting, or recording feature of a school-issued device., or
 3. Student interactions with a school-issued device, including but not limited to keystrokes and web-browsing activity.
- C. The school district or a technology provider may only engage in activities prohibited by paragraph B if:
1. The activity is limited to a noncommercial educational purpose for instruction, technical support, or exam-proctoring by district employees, student teachers, staff contracted by the district, a vendor, or the Minnesota Department of Education, and notice is provided in advance.
 2. The activity is permitted under a judicial warrant.
 3. The district is notified or becomes aware that the device is missing or stolen.
 4. The activity is necessary to respond to an imminent threat to life or safety and the access is limited to that purpose.
 5. The activity is necessary to comply with federal or state law, including but not limited to Minnesota Statutes section 121A.031., or
 6. The activity is necessary to participate in federal or state funding programs, including but not limited to the E-Rate program.
- D. If the district or a technology provider interacts with a school-issued device as provided in paragraph C, clause 4, it must, within 72 hours of the access, notify the

student to whom the school-issued device was issued or that student's parent and provide a written description of the interaction, including which features of the device were accessed and a description of the threat. This notice is not required at any time when the notice itself would pose an imminent threat to life or safety, but must instead be given within 72 hours after that imminent threat has ceased.

VII. LIMIT ON SCREEN TIME FOR CHILDREN IN PRESCHOOL AND KINDERGARTEN

A child in a publicly funded preschool or kindergarten program may not use an individual-use screen, such as a tablet, smartphone, or other digital media, without engagement from a teacher or other students. This section does not apply to a child for whom the school has an individualized family service plan, an individualized education program, or a 504 plan in effect.

VIII. CELL PHONE USE

The board directs the superintendent and district administration to establish rules and procedures regarding student possession and use of cell phones in schools. These rules and procedures should minimize the impact of cell phones on student behavior, mental health, and academic attainment. These rules and procedures may be designed for specific school buildings, grade levels, or similar criteria.

Purpose

The purpose of iPad use for students in the Northfield Public Schools is to personalize learning, provide equity in the access of technology for students, and to offer immediate access to educational materials.

We believe that access to technology has the ability to increase student engagement, creativity, collaboration, and academic achievement. Providing mobile technology to students is an important step in personalizing learning. We expect students to:

- use district-provided iPads as a tool for learning.
- accelerate your knowledge and application of academic and creative pursuits.
- use district-provided iPads to demonstrate mastery of academic and artistic concepts.
- take care of district-provided iPads - keeping them clean and secure.
- use district-provided iPads responsibly and respectfully in accordance with [Policy 524-2: Use of Technology and Telecommunications Systems by Students](#).

This document provides information about the use and care of your iPad.

Receiving Your iPad

iPads will be distributed to students as determined by each school. All families have the option to purchase the iPad Protection Plan, which is detailed below. In some cases, an Apple ID will be required to redeem texts provided by Northfield Public Schools. In compliance with the Children's Online Privacy Protection Act, no students under the age of 13 will be asked to create an Apple ID.

iPad Return/Fines

Individual school iPads and accessories must be returned to the Media Center in which the student is enrolled as requested by the District or school. Students who graduate early, withdraw, or terminate enrollment within Northfield Public Schools for any other reason must return their individual school iPad on the date of termination.

If a student fails to return the iPad and accessories (case, cord, etc.) as requested by the District or school, or upon termination of enrollment within Northfield Public Schools, that student or his/her parent/guardian will be subject to criminal prosecution or civil liability. The student or parent/guardian will also pay the replacement cost of the iPad. Failure to return the iPad may result in a theft report being filed with the Police Department.

Furthermore, students will be responsible for any damage to the iPad, consistent with the District's iPad Protection plan and must return the iPad and accessories to the Media Center in satisfactory condition.

Taking Care of Your iPad

Students are responsible for the general care of the iPad they have been issued by the school. iPads that are broken or fail to work properly must be taken to the Media Center for an evaluation of the equipment as soon as possible.

2.1 General Precautions

- The iPad is school property and all users will follow Policy 524.2 - Use of Technology and Telecommunications Systems By Students within Northfield Public Schools.
- Only use a clean, soft cloth to clean the screen.
- Cords and cables must be inserted carefully into the iPad to prevent damage.
- iPads must remain free of any writing, drawing, stickers, labels, or any other physical alterations that are not the property of Northfield Public Schools.
- iPads must never be left in an unlocked locker, unlocked car, or any unsupervised area.
- iPads must never be left in a location susceptible to extreme cold or hot weather.
- iPads must be handled with care at all times to minimize jostling or any force against them, including while stored in backpacks or other bags.
- Students are responsible for keeping their iPad's battery charged for school each day.
- iPads that are stolen must be reported immediately to the Principal's Office and the Police Department.

2.2 Protective Case

- The protective cases provided with iPads have sufficient padding to protect the iPad from normal treatment and provide a suitable means for carrying the device within the school.
- The protective case is not waterproof and will not protect iPads from excessive pressure/weight or blunt force against them.
- iPads should always be within the protective case provided by the District.
- The iPad Protection Plan is void if student iPads are removed from the protective case or if the case is damaged to a point that it doesn't adequately protect an iPad.

2.3 Screen Care

- The iPad screens can be damaged if subjected to rough treatment.
- The screens are particularly sensitive to damage from excessive pressure.
- Do not lean on the top of the iPad.
- Do not place anything near the iPad that could put pressure on the screen (keep this in mind when placing your iPad in your backpack).
- Do not place anything in the carrying case that will press against the cover.
- Clean the screen with a soft, dry cloth or anti-static cloth.
- Do not bump the iPad against lockers, walls, or car.

Using Your iPad At School

iPads are intended for use at school each day. In addition to teacher expectations for iPad use, school messages, announcements, calendars and schedules may be accessed using the iPad. Students are responsible for bringing their iPad to all classes and having it charged and ready for use.

3.1 iPads Left at Home

If students leave their iPad at home, they are responsible for completing coursework as if they had their iPad present.

3.2 iPad Undergoing Repair

If student iPads require repair, they will be issued another iPad to be used with their existing case and charging cable. The repaired iPad will be placed back into inventory and circulation upon return from repair.

3.3 Charging Your iPad's Battery

iPads must be brought to school each day adequately charged to work throughout the school day. Students need to charge their iPads each evening by plugging them into an electrical outlet only. *Do not charge the iPads from a computer port.*

3.4 Screen Savers/Background Photos

Inappropriate media may not be used as a screensaver or background photo.

Presence of guns, weapons, pornographic materials, inappropriate language, alcohol, drug, gang-related symbols or pictures will result in disciplinary actions.

3.5 Sound, Music, Games, or Programs

Sound must be muted at all times or used with personal headphones unless permission is obtained from the teacher for instructional purposes.

See Section 5.2 regarding Additional Software below for more information about adding content to District iPads.

3.6 Home Internet Access

Students are allowed to access wireless networks on their iPads. This will assist them with iPad use while away from school.

However, [District policy 524.2: Use of Technology and Telecommunications Systems By Students](#) must be followed while away from school.

Managing Your Files & Saving Your Work

4.1 Saving to the iPad/Home Directory/Submitting Work

Email: Most iPad productivity apps support the ability to open and email word processing documents, presentations, spreadsheets, PDFs, images, or other common file types. Students and teachers can exchange course-related files through their District-provided email, Google Drive sharing, and learning management platforms such as Seesaw and Schoology.

Cloud-Based Services: Students may also have the option to utilize any number of free cloud-based options such as Google Drive. The District will allow the use of such services by students on their iPads, but the District cannot be held responsible for the support of personal, non-District provided services or the data that students may store on these services. Students must backup their work to prevent loss of data.

4.2 Network Connectivity

Northfield Public Schools makes no guarantee that their network will be up and running 100% of the time. In the rare case that the network is down, the District will not be responsible for lost or missing data.

iPad Applications

5.1 District Installed Software

The software/apps installed by Northfield Public Schools must remain on the iPad in usable condition and be easily accessible at all times. From time to time the school may add software applications for use in a particular course. Periodic checks of iPads will be made to ensure that students have not removed required apps.

5.2 Additional Software

Access to the iTunes and App Stores may be limited by the District. Apps installed on District iPads must be approved and

provisioned by a member of the Northfield Public Schools' Technology Department or building designee and installed through the District's mobile device management system.

Students and families may request additional applications and install apps as needed for the purpose of customizing their learning experience if granted approval to do so. Students are not permitted to connect their iPads to any computers.

5.3 Circumvention of Managed Settings

All student iPads are provisioned by the Technology department for the purposes of initializing and managing all iPads in a secure and organized fashion. Any attempts by students to circumvent any District management settings through software restoration or jailbreaking will result in the confiscation of the iPad, disciplinary action, and voiding of the iPad Projection Plan if actions cause damage to the device. District personnel will be alerted when a student circumvents the original managed settings. Students or their families will be liable for any damage to District iPads caused in an effort to circumvent management settings.

5.4 Inspection

Students may be selected at random, at any time, to provide their iPad for inspection.

5.5 Procedure for Re-Loading Software

If technical difficulties occur, the iPad will be restored from backup whenever possible. The school does not accept responsibility for the loss of any software or documents deleted due to a re-formatting.

5.6 Software Upgrades

Upgrade versions of licensed software/apps are available from time to time. Students may be required to check in their iPads for periodic updates and syncing.

Acceptable Use

The use of Northfield Public Schools technology resources is a privilege, not a right. The privilege of using the technology resources provided by the District is not transferable or extendable by students to people or groups outside the District and terminates when a student is no longer enrolled in Northfield Public Schools. This policy is provided to make all users aware of the responsibilities associated with efficient, ethical, and lawful use of technology resources. If a person violates any of the User Terms and Conditions named in this document, as well as [District policy 524.2: Use of Technology and Telecommunications Systems By Students](#), privileges may be terminated, access to the school district technology resources may be denied, and the appropriate disciplinary action shall be applied. The Northfield Public Schools' [Student Citizenship Handbook](#) shall be applied to all student infractions. Violations may result in disciplinary action up to and including suspension/expulsion for students. When applicable, law enforcement agencies may be involved.

6.1 Parent/Guardian Responsibilities

Parents/guardians may access content on their students' District-provided iPads at any time.

Talk to your student about values and the standards they should follow on the use of the Internet just as you do on the use of all media information sources such as television, telephones, movies, radio, social media, and media streaming services.

Please see attached detailed Parent/Guardian Responsibilities

6.2 School Responsibilities are to:

- Provide internet and access age appropriate learning tools at school to its students.
- Provide internet blocking of inappropriate materials as able. (Parents can also set internet controls at home).
- Provide network or cloud-based data storage areas. These will be treated similar to school lockers. Northfield Public Schools reserves the right to review, monitor, and restrict information stored on or transmitted via school district-owned equipment and services and to investigate inappropriate use of resources.
- Provide staff guidance to aid students in doing research and to help ensure student compliance of [District policy 524.2:](#)

Use of Technology and Telecommunications Systems By Students

6.3 Student Responsibilities are to:

- Use iPads in a responsible and ethical manner.
- Obey general school expectations concerning behavior and communication that applies to iPad use.
- Use all technology resources in an appropriate manner so as to not damage school equipment. This damage includes, but is not limited to, the loss of data resulting from delays, non-deliveries, misdeliveries or service interruptions caused by the student's own negligence, errors or omissions. Use of any information obtained via Northfield Public Schools' designated internet system is at your own risk. Northfield Public Schools specifically denies any responsibility for the accuracy or quality of information obtained through its services.
- Help Northfield Public Schools protect our computer system/device by contacting an administrator about any security problems they may encounter.
- Turn off and secure their iPad after they are done working to protect their work and information.
- Make a teacher (at school) or parent/guardian (at home) aware immediately in the event that any email is received or content encountered that contains inappropriate or abusive language.
- Return their iPad to the media center according to the iPad Return guidelines set forth in this document..

6.4 Student Activities Strictly Prohibited:

- Illegal installation or transmission of copyrighted materials.
- Any action that violates existing School Board policy or public law.
- Sending, accessing, uploading, downloading, or distributing offensive, profane, threatening, pornographic, obscene, or sexually explicit materials.
- Use of chat rooms, sites selling term papers, book reports and other forms of student work.
- Use of outside data disks or external attachments without prior approval from the administration.
- Changing of managed iPad settings (exceptions include personal settings such as font size, brightness, etc.)
- Restoring or jailbreaking iPad.
- Downloading unauthorized apps.
- Spamming (sending mass or inappropriate emails or messages).
- Gaining access to other students' accounts, files, and/or data.
- Exchanging iPads and/or switching iPad identification labels to conceal fault of damage.
- Use of the school's internet/email accounts for financial or commercial gain or for any illegal activity.
- Use of anonymous and/or false communications through social media or other Internet-based tools.
- Participation in credit card fraud, electronic forgery or other forms of illegal behavior.
- Vandalism (any malicious attempt to harm or destroy hardware, software or data, including, but not limited to, the uploading or creation of computer viruses or computer programs that can infiltrate computer systems and/or damage software components) of school equipment.
- Transmission or accessing materials that are obscene, offensive, threatening or otherwise intended to harass or demean recipients.
- Bypassing Northfield Public Schools' content filter through a web proxy or VPN.

Student Citizenship Handbook

The Northfield School District [Student Citizenship Handbook](#) addresses the manner in which students are expected to act. Students are expected to use their iPads in a manner that aligns with the expectations of the Student Citizenship handbook.

Use of Technology and Telecommunications Systems By Students

The District requires that students use of all electronic devices is in accordance with [Policy 524.2 that focuses on use of Technology and Telecommunications Systems by Students](#).

6.6 Legal Propriety

- Comply with trademark and copyright laws and all license agreements. Ignorance of the law is not immunity. If you are unsure, ask a teacher or parent.
- Plagiarism is a violation of Northfield Public Schools' [Student Citizenship Handbook](#). Give credit to all sources used, whether quoted or summarized. This includes all forms of media on the internet, such as graphics, videos, movies, music, and text.
- Use or possession of hacking software is strictly prohibited and violators will be subject to District disciplinary procedures. Violation of applicable state or federal law will result in criminal prosecution or disciplinary action by the District.

Protecting and Storing Your iPad

7.1 iPad Identification

Student iPads can be identified in the following ways:

- Record of serial number and/or District asset tag number.
- Enrollment of iPads with the District's Mobile Device Management system.

7.2 Storing Your iPad

When students are not using their iPads, they should be stored in their locked lockers. Nothing should be placed on top of the iPad when stored in the locker. Students should take their iPads home everyday after school, regardless of whether or not they are needed. iPads should not be stored in a vehicle at school or at home.

7.3 iPads Left in Unsupervised Areas

Under no circumstances should iPads be left in unsupervised areas. Unsupervised areas include the school grounds and campus, the lunchroom, computer lab, locker rooms, media center, unlocked classrooms, gymnasiums, auditorium, and hallways. Any iPad left in these areas is in danger of being stolen. If an iPad is found in an unsupervised area, it will be taken to the media center.

Repairing/Replacing Your iPad

8.1 iPad Protection Plan

Northfield Public Schools recognizes that with the use of student technology, there is a need to protect the investment by both the District and families. The annual iPad Protection Plan Cost is \$20.00 per device and will be due upon receipt of your student's iPad. The iPad insurance cost will be capped at \$100.00 for families with multiple students attending school in the District. iPad insurance coverage will be provided by the school district for families that qualify for free and reduced lunch at a reduced rate (\$15 for students qualifying for reduced price lunch and \$10 for those students who qualify for free lunch.)

The iPad Protection Plan will provide insurance coverage for accidental damage (drops/spills), cracked screens, theft, vandalism caused by others, fire, flood, natural disasters, and power surges due to lightning. The payment is nonrefundable. This annual coverage begins upon receipt of the payment and ends at the conclusion of each school year. Students or families will be accountable for a deductible fee for multiple damaged iPads for an individual student within any single year. This includes accidental breakage or theft of multiple iPads. Students or their parent/guardian will be assessed an iPad Protection Plan fee as follows for accidental damage or theft:

- First occurrence: No additional fee
- Second occurrence: \$25
- Third occurrence: \$50
- Any additional occurrence: Full cost of repair or device replacement

All insurance claims must be reported to the media center of your student's school. In case of theft or other criminal acts, a police report, or fire report in the case of fire, MUST be filed for the protection coverage to be utilized. A copy of the police/fire report must be provided to the Principal's Office.

INTENTIONAL DAMAGE: Students/families are responsible for full payment of intentional damages to iPads and/or the protective cases provided by the District.

The School District iPad Protection Plan DOES NOT cover repair or replacement costs for district-provided protective cases, Logitech Crayons, charging cords and bricks (unless manufacturer defective), or damage to the iPad caused by situations outside of the iPad Use Agreement including:

- Intentional damage
- Loss of District iPad
- Theft of District iPad left in an unsupervised area
- Damage caused to an iPad in an effort to modify hardware or software of the device
- Damage caused to an iPad outside of the District-provided protective case

Living Document

Technology evolves rapidly. As a result, the Northfield Public Schools reserve the right to make changes to this document as needed, using [District policy 524.2: Use of Technology and Telecommunications Systems By Students](#) and the District [Student Citizenship Handbook](#) as its guide. The District reserves the right for administrators and teachers to use their best judgment in addressing situations not specifically covered in this agreement or by the [Student Citizenship Handbook](#).

Parent Guide

Digital safety is of the utmost importance. Intentional, frequent discussions with your student of any age, are necessary and allow you to be proactive in protecting your student and further educating him/her. Experts warn that students are most vulnerable to online dangers while at home. Please note the following suggestions as they might be of assistance in further educating your student about appropriate use of technology including the iPad and home Internet use.

Beyond school, parents must take responsibility for their student's use of technology and the Internet in alignment with the Northfield Public Schools Policy 524.2 governing the use of Telecommunications and Technology by students and the District's Student Citizenship Handbook. While the District has purchased filtering software that will be enforced on the school's network, filtering does not take the place of quality supervision. As a parent, you are responsible for monitoring your student's use of District-provided educational technology. This includes Internet use at home or any other remote location outside of school.

Set Expectations

Regularly share your expectations with your student about accessing only appropriate sites and content, as well as being a good person when online (even when parents aren't watching). Understand that your student's use of many technologies (such as computers, iPods, video game systems, and cell phones) likely gives your student the ability to connect to unfiltered public wireless networks (such as in a library or coffee shop, by picking up a neighbor's wireless signal, or connecting to the Internet through a cell service). Therefore, it is important to maintain regular, open dialog about Internet use and access. Discuss your expectation for appropriate use and behavior.

Monitor & Limit Screen Time

Experts suggest having students surf the Internet in a central place at home, such as the kitchen or family room, rather than away from adult supervision or behind a closed door. Know what your student is doing with technology and how his or her time is being spent. Technology can be a great tool and resource, but also has the potential to be a big distractor. Help your student learn to focus on completing tasks or assignments prior to engaging in other Internet activities. Teaching today's students how to manage multiple sources of information and potential distractions is a critical life skill, one best learned before heading off to college or the workplace.

Put the iPad to Bed, But Not in the Bedroom

Parenting experts suggest parking all technology devices, from cell phones to iPads, in a common family room overnight to discourage late night, unmonitored use and sleep disruption. Don't allow your student to sleep with the iPad. Remember to model appropriate use and balance of technology in your own life as well.

Family Media Use Agreements

The following links will take you to some useful Family Media Agreements provided by [Common Sense Media](#).

You will need to sign up for an account with Common Sense Media to access the Family Media Agreements, which you can do from

this link: <https://www.common sense media.org/research/technology-addiction-concern-controversy-and-finding-balance/resources>.

Here are some additional things to review with your student:

- Anything they do or post online creates a digital record, often called a "Digital Footprint." Nothing online is totally private, even if it is intended to be. Once digitized, it can be saved, sent and reposted elsewhere.
- A good rule of thumb: If you don't want a parent, teacher, principal, future employer or college admissions office to know something, don't post it online. Set up some sort of test question to frequently ask your student, such as "Would Grandma approve?"
- "Friends" aren't always who they say they are. Encourage your student to only be friends online with friends they know in person. Never give access to personal information to people met online.
- Never post personally identifiable information online. This includes: full name, address, phone number, email, where you are meeting friends or where you hang out. Discuss with your student how easy it is for someone to find you based on what you post online.
- Regularly check your student's privacy settings on all commonly used sites and networks. Ignoring privacy settings on sites like Facebook means your student's photos, contact information, interests, and possibly even cell phone GPS location could be shared with others using the platform.
- Cyberbullying (threatening or harassing another individual through technology) is a growing concern for today's youth. It takes many forms, such as forwarding a private email, photo, or text message for others to see, starting a rumor, or sending a threatening or aggressive message, often anonymously. Talk with your student about not partaking in this behavior and encourage her/him to report incidents of cyberbullying to an adult.

Procedimientos e información del iPad

Actualizado 11/5/21

Objetivo

El objetivo de que los estudiantes usen los iPad en las escuelas públicas de Northfield es para poder personalizar el aprendizaje, ofrecer igualdad en el acceso a la tecnología para todos los estudiantes y ofrecer un acceso inmediato a los materiales educativos.

Creemos que el acceso a la tecnología proporciona la capacidad para aumentar la participación de los estudiantes, la creatividad y el éxito académico. Ofrecer tecnología móvil a los estudiantes es un paso importante para personalizar su aprendizaje. Esperamos que los estudiantes:

- Use iPads provistos por el distrito como una herramienta para el aprendizaje.
- Le ayude a mejorar sus conocimientos y cómo utilizarlos para sus metas académicas y creativas.
- Use iPads provistos por el distrito para demostrar su dominio de los conceptos académicos y artísticos.
- Cuida de los iPads provistos por el distrito por mantenerlos limpios y seguros.
- Use los iPads provistos por el distrito responsablemente y según la política del distrito: [Policy 524-2: Use of Technology and Telecommunications Systems by Students](#).

Este documento le dará información sobre cómo usar y cuidar su iPad.

Recibir su iPad

Los iPads se distribuirán a los estudiantes en una manera establecida por cada escuela. Todas las familias tienen la opción de comprar el plan de protección de los iPads que se describe con detalle abajo. En algunos casos, una Apple ID se requerirá para canjear los textos proveídos por las escuelas públicas de Northfield. Conforme a la ley de protección de la privacidad en línea de niños, los alumnos menores de 13 años no tendrán que crear una Apple ID. Una Apple ID administrado por el distrito escolar puede ser provista y requerida para uso en los iPads de los estudiantes.

Devolución del iPad/Multas

Los iPads y sus accesorios deberán ser devueltos al Media Center de la escuela en la que su hijo/a esté matriculado/a como pedido por el Distrito o la escuela. Los estudiantes que se gradúen temprano, dejen la escuela o no sigan en las escuelas públicas de Northfield, cualquiera que sea la razón, deberán devolver sus iPads al final de su inscripción y asistencia a la escuela.

Si un/a estudiante no devuelve su iPad y sus accesorios (funda, cable, etc.) como pedido por el Distrito o la escuela o cuando termine su matrícula en una de las escuelas públicas de Northfield, el/la estudiante o su padre, madre o tutor/a sufrirá un proceso penal y responsabilidad civil. El/la estudiante o su padre, madre o tutor/a también deberá pagar por un nuevo iPad. No devolver el iPad puede resultar que se hará una denuncia por robo a la policía.

Además, los estudiantes serán responsables por cualquier desperfecto o daño causado al iPad, de acuerdo al plan de protección de los iPad del distrito y deben devolver los iPad y sus accesorios al Media Center en buenas condiciones.

Cómo cuidar su iPad

Los estudiantes son responsables del cuidado general del iPad que les presta la escuela. Los iPads que estén rotos o no funcionen bien deben llevarlos al Media Center para que se pueda evaluar el equipo.

2.1 Precauciones generales

- El iPad es propiedad de la escuela y todos los usuarios deben seguir las normas, [Policy 524.2 - Sobre el uso de los sistemas de tecnología y telecomunicaciones por parte de los estudiantes en las escuelas públicas de Northfield](#).
- Sólo usen un trozo de tela limpia y suave para limpiar la pantalla.
- Los cables los deben poner en el iPad con cuidado para evitar causar daños a su iPad.
- Los iPads no deben tener nada escrito, dibujos, pegatinas (stickers), etiquetas u otras alteraciones que no sean propiedad de las escuelas públicas de Northfield.
- Los iPads nunca se deben dejar en una casilla abierta (locker), en un coche sin cerrar o en otra zona no supervisada.
- Los iPads nunca se pueden dejar en un lugar en el que haga demasiado frío o demasiado calor.
- Los estudiantes son responsables de que la batería de los iPads esté cargada para cada día de escuela.
- Los iPads necesitan ser tratado con cuidado siempre para reducir atropello o cualquier fuerza contra ellos, incluso mientras están guardados en las mochilas u otras bolsas.
- Si les roban el iPad deben informar inmediatamente a la oficina del director o directora de la escuela y al departamento de policía.

2.2 Cómo llevar los iPads

- La funda protectora que se les da con el iPad tiene suficiente relleno para proteger el iPad en su uso normal y es un buen método para llevar el iPad por la escuela.
- La funda protectora no es impermeable y no protegerá al iPad de la presión o el peso excesivo o una fuerza excesiva contra el iPad.
- Los iPads siempre deben estar dentro de la funda protectora que les da el distrito con el iPad.
- El plan de protección de los iPads es inválido si los iPads se quiten de la funda protectora o si la funda protectora está dañado hasta no proteger un iPad suficientemente.

2.3 Cuidado de la pantalla

- Las pantallas de los iPads se pueden dañar si se las trata sin cuidado.
- Las pantallas son especialmente sensibles al daño que se produce por apretar con demasiada fuerza en la pantalla.
- No se apoye encima del iPad.
- No coloque nada cerca del iPad que pueda poner presión en la pantalla (tengan esto en cuenta cuando pongan el iPad en su mochila).
- No pongan nada en la funda protectora que presione la tapa.
- Limpíen la pantalla con una tela suave y seca o con una tela especial que no crea electricidad.
- No le den golpes al iPad contra las casillas (lockers), paredes, o el coche.

Cómo deben usar su iPad en la escuela

Los iPads se deben usar en la escuela cada día. Además del uso que hagan los maestros del iPad, también se podrán consultar en los iPads mensajes, anuncios, calendarios y horarios. Los estudiantes son responsables por llevar su iPad a todas sus clases y deben tenerlo cargado y listo para usar.

3.1 Si se dejan el iPad en casa

Si los estudiantes se dejan el iPad en casa, son responsables de terminar su trabajo para la escuela como si tuvieran su iPad con ellos en la escuela.

3.2 Mientras reparan el iPad

Si los iPads de los estudiantes requieren reparación, ellos recibirán otro iPad que será utilizado con la funda protectora y cable de carga existentes. El iPad reparado se volverá al inventario y se pondrá en circulación al volver de la reparación.

3.3 Cargar la batería del iPad

Los iPads se deben llevar a la escuela cada día con la batería cargada para poder trabajar en la escuela todo el día. Los estudiantes necesitan cargar las baterías de sus iPads cada noche en casa con el cable enchufado sólo a la electricidad. *No intenten recargar la batería del iPad desde una computadora.*

3.4 Salvapantallas/Fotos del fondo

No se pueden usar ni fotos ni imágenes inapropiadas para el salvapantallas o para las fotos del fondo.

Si las imágenes son de armas, pistolas, material pornográfico, lenguaje inapropiado, alcohol, drogas, símbolos o fotos relacionados con pandillas los estudiantes recibirán una medida disciplinaria.

3.5 Sonido, música, juegos o programas

El sonido debe estar apagado todo el tiempo o usado con audífonos personales a no ser que para una clase el maestro o la maestra les den permiso a los estudiantes para poner el sonido.

Todos los Apps instalados en los iPads para los estudiantes de K-8 deben ser aprobados e instalados por

un miembro del departamento de tecnología de las escuelas públicas de Northfield o alguien encargado de cada escuela que puede hacer ese servicio.

Los estudiantes de los grados 9 a 12 y sus familias que tengan su propio ID de Apple, pueden instalar en los iPads del distrito los apps que necesiten con la meta de personalizar su experiencia de aprendizaje.

3.6 Acceso a Internet desde casa

Los estudiantes pueden acceder a redes wireless en sus iPads. Esto les puede ayudar a que usen sus iPads fuera de la escuela. Pero las normas sobre uso de tecnología, [District policy 524.2: Use of Technology and Telecommunications Systems By Students](#) se deben seguir también cuando estén fuera de la escuela.

Organizar los archivos y guardar sus trabajos

4.1 Guardar en el iPad/directorio principal (Home Directory)/entregar trabajos

Email: Casi todos los apps en el iPad tienen la capacidad de abrir y enviar correos electrónicos (emails) con documentos, presentaciones, hojas de cálculo, PDFs, imágenes y otros archivos de uso común. Los estudiantes y los maestros pueden intercambiar archivos relacionados con las clases a través del email que proporciona el distrito, compartir por Google Drive, o los sistemas de aprendizaje como Seesaw y Schoology.

Servicios del tipo “Cloud”: Los estudiantes también pueden tener la opción de acceder a servicios gratis del tipo cloud como por ejemplo, Google Drive. El distrito permitirá el uso de esos servicios por parte de los estudiantes en sus iPads, pero el distrito no se hace responsable del apoyo de estos servicios personales, no proporcionados por el distrito o de los archivos y datos que los estudiantes archiven en esos servicios. Los estudiantes necesitan hacer una copia de respaldo de sus tareas para prevenir la pérdida de los datos.

4.2 Conexión a la red

Las escuelas públicas de Northfield no pueden garantizar que su red funcione el 100% de las veces. En aquellos casos raros en los que la red no funcione, el distrito no es responsable de la información, datos o archivos que se puedan perder o desaparecer.

Las aplicaciones del iPad

5.1 El software instalado originalmente

El software/apps que el distrito de las escuelas públicas de Northfield instalen al principio deben seguir en el iPad para poder utilizarse y para poder acceder a ellos en todo momento. De vez en cuando la escuela puede añadir nuevas aplicaciones para que se puedan usar en un curso específico. Se harán inspecciones de los iPads de vez en cuando para asegurar que los estudiantes no han quitado apps que son necesarios.

5.2 Software adicional

Todos los apps que proporciona el distrito se distribuirán a través de una distribución de apps segura que va a actuar como puente entre los iPads y la tienda de Apps de Apple. Los estudiantes podrán obtener (download) apps de este modo directamente en sus iPads.

Los estudiantes y sus familias pueden pedir aplicaciones adicionales e instalarlas como sea necesario para el propósito de personalizar su experiencia de aprendizaje si reciben aprobación para hacerlo. No está permitido que los estudiantes conecten sus iPads a computadoras.

5.3 No seguir la configuración obligatoria

Todos los iPads de los estudiantes vienen organizados desde el departamento de tecnología con una serie de configuraciones que facilitan el iniciar los iPads y su uso de una forma segura y organizada. Cualquier intento por parte de los estudiantes de cambiar la configuración obligatoria del distrito a través de restaurar cierto software o evitar la configuración llevará a confiscar el iPad, una respuesta disciplinaria y anulará el plan de protección de los iPads si las acciones de el/la estudiante causan daño al iPad. El personal del distrito sabrá en todo momento si un/a estudiante ha intentado cambiar la configuración inicial (managed settings).

5.4 Inspección

Los estudiantes pueden ser elegidos al azar en cualquier momento para que se inspeccione su iPad.

5.5 Procedimiento de reformatear el iPad

En el caso de que haya dificultades técnicas, el iPad se podría restaurar. En ese caso, la escuela no tendrá responsabilidad alguna en la pérdida de programas o archivos que se puedan borrar durante el proceso de reformatear el iPad.

5.6 Puesta al día de programas (Software Upgrades)

De vez en cuando se podrán poner al día ciertos programas/apps. Los estudiantes deberán estar dispuestos a dejar que se les hagan estas puestas al día a sus iPads.

Uso aceptable

El uso de los recursos tecnológicos de las escuelas públicas de Northfield es un privilegio, no un derecho. El privilegio de usar los recursos tecnológicos que ofrece el distrito no se puede transferir u ofrecer por los estudiantes a gente o grupos que no pertenezcan al distrito y se acaba cuando los estudiantes ya no están matriculados en las escuelas públicas de Northfield. Esta norma se hace para asegurarse de que todos los usuarios conocen las responsabilidades asociadas con un uso eficiente, ético y legal de los recursos tecnológicos. Si una persona infringe cualquiera de los términos y condiciones para el uso de los iPads contenidos en este documento, así como la norma del distrito [District policy 524.2: Use of Technology and Telecommunications Systems By Students](#), los privilegios para seguir usando los iPads pueden ser revocados y terminados, el acceso a los recursos tecnológicos del distrito podría serle negado y se seguiría la acción disciplinaria necesaria. Se aplica el libro de normas de las escuelas públicas de Northfield [Student Citizenship Handbook](#) en todas las infracciones de

los estudiantes. Las violaciones de las condiciones de uso podrían provocar acciones disciplinarias que podrían llevar a la suspensión/expulsión de los estudiantes. Si fuera necesario las fuerzas del orden, como la policía, podrían tener que intervenir.

6.1 Las responsabilidades de los padres, madres/tutores

Los padres, madres y tutores de estudiantes pueden revisar el contenido de los iPads provistos del distrito para sus estudiantes en cualquier momento.

Hable con su hijo/a sobre los valores y estándares que deben seguir en el uso de Internet tal y como hacen con el uso de todos los medios de información como televisión, teléfonos, películas, radio, redes sociales y servicios de *streaming*.

Por favor, consulte el documento adjunto con más información sobre las responsabilidades de los padres, madres y tutores.

6.2 Las responsabilidades de las escuelas son:

- Ofrecerles acceso a Internet y las herramientas de aprendizaje más adecuadas para cada edad en la escuela a todos los estudiantes.
- Ofrecer acceso a Internet pero sin poder acceder a material inadecuado. (Los padres, madres y tutores también pueden poner controles en Internet en casa).
- Ofrecer espacio para guardar sus archivos en la red de las escuelas o en la nube. Estas zonas serán tratadas de modo similar a como se hace con las casillas de la escuela (lockers). Las escuelas públicas de Northfield se reservan el derecho de revisar, inspeccionar y restringir la información que se almacene en los espacios proveídos por el distrito y los datos transmitidos por los equipos y los servicios que pertenecen al distrito y a investigar el uso inapropiado de los recursos.
- Ofrecer ayuda a los estudiantes para hacer sus investigaciones y para ayudar a los estudiantes a que sigan las normas del distrito, norma número 524.2 sobre el uso de sistemas de tecnología y telecomunicaciones por parte de los estudiantes, [District policy 524.2: Use of Technology and Telecommunications Systems By Students](#)

6.3 Las responsabilidades de los estudiantes:

- Usar los iPads de una forma responsable y ética.
- Obedecer las expectativas de las escuelas en cuanto a comportamiento y comunicación que se refiere al uso de los iPads.
- Usar todos los recursos tecnológicos de una forma apropiada para no dañar los equipos de las escuelas. El daño incluye, pero no se limita a, la pérdida de datos y archivos como resultado de retrasos, no haberlos enviados, enviarlos mal o interrupciones en el servicio causados por la negligencia de los estudiantes, errores u omisiones. El uso de cualquier información obtenida a través del sistema de Internet asignado a las escuelas públicas de Northfield lo hacen por su cuenta y bajo su propia responsabilidad. Las escuelas públicas de Northfield no se hacen responsables por la veracidad o calidad de la información obtenida a través de esos servicios.
- Ayuden a las escuelas públicas de Northfield a proteger nuestro sistema de computadores y otros equipos poniéndose en contacto con alguien de las escuelas en cuanto note problemas de seguridad que se pueda encontrar.

- Apaguen y guarden sus iPads después de que hayan terminado de trabajar en sus archivos para proteger su trabajo y la información que tengan en el iPad.
- Si un/a estudiante recibe un email o se encuentra con contenidos que no son apropiados o con un lenguaje ofensivo, debe inmediatamente decírselo a su maestro o maestra (en la escuela) o padre, madre o tutor/a (en casa).
- Devolved los iPads al media center al final del año escolar. Los estudiantes que se gradúen temprano, que se vayan de la escuela o que no sigan en la escuela por cualquier razón deberán devolver su iPad de la escuela el día que terminen en la escuela.

6.4 Actividades de los estudiantes estrictamente prohibidas:

- Instalar o transmitir ilegalmente material con derecho de autor (con copyright).
- Cualquier acción que vaya en contra de las normas y existentes en el Consejo escolar o contra la ley pública.
- Enviar, acceder, subir (upload), bajarse o descargar (download) o distribuir material ofensivo, soez, amenazante, pornográfico, obsceno o explícitamente sexual.
- Usar lugares para charlar con otros (chat), lugares donde se venden trabajos de estudiantes (term papers), informes de libros (book reports) y otros tipos de trabajos de los estudiantes.

- Transmitir o acceder a material que sea obsceno, ofensivo, amenazante o que pueda acosar o humillar a otros.
- Evitar los filtros de las escuelas públicas de Northfield a través de un "proxy" en Internet o red de VPN.

El libro de normas de comportamiento de los estudiantes

El libro de normas de comportamiento de los estudiantes del distrito escolar de Northfield ([Student Citizenship Handbook](#)) contiene información y normas sobre el modo en que los estudiantes deben

actuar. Se supone que los estudiantes deben usar sus iPads del mismo modo que se supone deben comportarse, es decir, siguiendo las normas del libro de comportamiento de los estudiantes.

Uso de sistemas de tecnología y telecomunicaciones por parte de los estudiantes

El distrito requiere que el uso que hacen los estudiantes de todos los aparatos electrónicos se haga de acuerdo a la norma número 524.2 que se centra en el uso de los sistemas de tecnología y telecomunicaciones por parte de los estudiantes ([Policy 524.2 that focuses on use of Technology and Telecommunications Systems by Students.](#))

6.6 Propiedad legal

- Cumplir con los requisitos de las leyes sobre marcas registradas y derechos de autor y todos los acuerdos de licencias de todo tipo. Ignorar la ley no significa que haya impunidad. Si no está seguro/a de qué hacer, consulte con un maestro o maestra o con su padre, madre o tutor/a.
- Plagiar algo es una violación de las normas para los estudiantes de las escuelas públicas de Northfield. Siempre reconozca de dónde vienen sus fuentes, cítelas entre comillas de forma literal o haciendo un resumen de la idea o información. Esta norma incluye todas las formas de medios de comunicación en Internet, como gráficos, videos, películas, música y textos.
- Se prohíbe terminantemente el uso o posesión de programas que sirvan para la piratería informática. Aquellos que lo hagan sufrirán acciones disciplinarias. Si la violación llega a violar leyes estatales o federales la situación llegará a convertirse en un asunto criminal en el que intervendrá la policía o en acciones disciplinarias por parte del distrito.

Cómo proteger y guardar el iPad

7.1 Identificación del iPad

Los iPads de los estudiantes se pueden identificar de las siguientes maneras:

- El registro del número de serie (serial number) o la etiqueta del recurso asignado por el distrito.
- Entrar los iPads en el sistema de Mobile Device Management.

7.2 Guardar el iPad

Cuando los estudiantes no estén usando sus iPads, deben estar guardados en sus casillas cerradas (locked lockers). Nada debe ponerse encima del iPad, cuando esté en la casilla. Todos los estudiantes deben llevar sus iPads a casa cada día después de la escuela, aunque no los necesiten usar en casa. Los iPads no deben dejarse nunca en un coche en la escuela o en casa.

7.3 iPads que se dejen en zonas no supervisadas y no seguras

Bajo ninguna circunstancia se deben dejar los iPads en zonas no supervisadas. Las zonas sin supervisión incluyen las zonas alrededor de la escuela y el campus de la escuela, la cafetería para el almuerzo, el laboratorio de computadoras, las zonas de las casillas, el media center, los salones de clases con la puerta abierta, los gimnasios, la sala de conciertos (auditorio) y los pasillos. Los iPads que

se dejen en esas áreas corren el riesgo de que los roben. Si se encuentra un iPad en una zona no supervisada se llevará al media center.

Reparar/Reemplazar su iPad

8.1 El plan de protección de los iPads (iPad plan de seguros)

Las escuelas públicas de Northfield reconocen que junto con el uso de la tecnología estudiantil, hay una necesidad de proteger la inversión para ambas partes, el distrito y las familias. El plan de protección de los iPads anual cuesta \$20.00 dólares por cada aparato y debe pagarse en el momento en el que los estudiantes reciben sus iPads. El coste del seguro para familias con varios estudiantes que asisten a escuelas en el distrito con iPads no podrá ser superior a \$100.00 dólares como máximo. El plan de protección de los iPads tendrá un precio reducido para aquellas familias que cumplen los requisitos para los almuerzos gratis y almuerzos reducidos (\$15 para los estudiantes que tienen almuerzo reducido y \$10 para aquellas familias que cumplen los requisitos para un almuerzo gratis).

El plan de protección del iPad va a ofrecer una cobertura de seguro por daños accidentales (caídas y líquidos derramados encima del iPad), pantallas rotas, robo, vandalismo hecho por otros, fuego, inundación, desastres naturales, aumento rápido de la tensión eléctrica (sobrecarga). El pago del seguro no es reembolsable. La cobertura anual del seguro empieza en el momento de recibir el pago y termina al final de cada año escolar. Los alumnos o sus familias serán responsables para un pago adicional por más de un iPad dañado dentro de un año. Este cargo adicional se aplica a la rotura accidental o al robo de más de un iPad. El distrito les aplicará un cargo adicional del plan de protección de los iPads a estudiantes o su madre, padre o tutor(a) como sigue por el daño accidental o robo de los iPads:

- Primer caso: No hay cargo adicional
- Segundo caso: \$25
- Tercer caso: \$50
- Cualquier caso adicional: El costo total de reparar o reemplazar el aparato

Todas las reclamaciones del seguro se deben dirigir al media center de la escuela del estudiante. En caso de robo o de otros actos delictivos, se DEBE realizar un informe a la policía o un informe de un incendio en caso de fuego para que la protección de la cobertura del seguro se pueda utilizar. La copia del informe de la policía/incendio debe llevarse a la oficina del director o directora.

DAÑOS INTENCIONADOS: Los estudiantes/padres, madres y tutores son responsables de pagar por los daños intencionados a los iPads y/o las fundas protectoras que provee el distrito.

El plan de protección de los iPads que proporciona el distrito no cubre costos de reparar ni reemplazar las fundas protectoras, los Logitech Crayones, ni los cargadores (sino que sean defectuosos), ni el daño causado a los iPads por situaciones fuera del acuerdo del uso de los iPads, incluso:

- Daño intencional
- Pérdida del iPad
- El robo del iPad dejado en un área pública
- Daño causado al iPad con intención de modificar el hardware o software del aparato
- Daño causado al iPad fuera de la funda protectora proveída por el distrito

Documento “vivo” y en constante evolución

La tecnología evoluciona rápidamente. Como resultado, las escuelas públicas de Northfield se reservan el derecho de hacer los cambios necesarios a este documento, utilizando como guía la norma 542.2 del uso de la tecnología y las telecomunicaciones por parte de los estudiantes y el libro sobre normas y comportamiento de los estudiantes. El distrito se reserva el derecho de que los de la administración y los maestros usen su sentido común y su juicio personal para enfrentarse a situaciones que no aparecen cubiertas en este acuerdo o en el libro sobre normas y comportamiento de los estudiantes [Student Citizenship Handbook](#).

Guía para los padres, madres y tutores

La seguridad en el mundo digital es algo muy importante. Es necesario que tengan frecuentes charlas sobre este tema con su hijo/a a cualquier edad. Estas charlas permiten que puedan estar activos en la protección de su hijo/a y además seguir educando a su hijo/a. Los expertos dicen que los estudiantes son más vulnerables a los peligros de Internet cuando están en casa. Por favor, tengan en cuenta las siguientes sugerencias ya que les pueden ayudar a educar a sus hijos sobre el uso apropiado de la tecnología, incluyendo el iPad y el uso de Internet en casa.

Fuera de la escuela, los padres, madres y tutores deben ser responsables por cómo usan la tecnología e Internet sus hijos que tiene que seguir las normas de las escuelas públicas de Northfield sobre el buen uso de la tecnología y las telecomunicaciones por parte de los estudiantes tal y como aparece en la norma número 524.2 y en el libro sobre normas y comportamiento de los estudiantes. El distrito ha comprado programas especiales para filtrar la información en la red de las escuelas pero ni siquiera estos filtros deben sustituir una buena supervisión. Como un padre, madre o tutor/a, son responsables de supervisar cómo usa la tecnología educacional que ofrece el distrito su hijo/a. Esto incluye el uso de Internet en casa o en cualquier otro lugar fuera de la escuela.

Explíqueles lo que esperan de ellos

Con frecuencia comparta con sus hijos la importancia de sólo acceder a páginas y contenidos apropiados así como ser una buena persona mientras están en Internet (incluso cuando los padres, madres o tutores no les estén viendo). Deben entender que su hijo/a sabe usar la tecnología (como computadoras, iPods, sistemas de videojuegos y teléfonos celulares) lo que les permite conectar con redes que no tienen filtros (como una biblioteca o lugar para tomar un café), y con facilidad acceder a la señal de alguien que esté cerca o conectar a Internet con un teléfono celular. Por lo tanto, es importante que tengan conversaciones regularmente con sus hijos, con un diálogo abierto sobre el uso y acceso a Internet. Comparta con ellos lo que espera de ellos y qué es para ustedes un uso y comportamiento apropiados.

Supervise y limite el tiempo que pasan enfrente de una pantalla

Los expertos sugieren que los estudiantes estén en Internet en un lugar central de la casa como la cocina o la sala de estar o comedor, en lugar de en un lugar lejos del resto de los miembros de la familia o en un lugar con la puerta cerrada. Deben saber qué hacen sus hijos con la tecnología y de qué modo están usando su tiempo. La tecnología puede ser una gran herramienta y recurso pero también tiene el potencial de ser una gran distracción. Ayuden a que sus hijos aprendan a centrarse en terminar tareas o encargos antes de hacer otras actividades en Internet. Enseñarles a los estudiantes hoy cómo lograr organizar varias fuentes de información y las posibles distracciones es un conocimiento muy importante para toda la vida y muy útil antes de ir a la universidad o el mundo laboral de los trabajos.

Apaguen el iPad y métenlo en la cama pero no es su cuarto de dormir

Los expertos sugieren que se dejen todos los aparatos electrónicos como teléfonos celulares, iPads y otros en un área común de la familia durante la noche para evitar que se usen tarde en la noche y sin supervisión y provocando el que los estudiantes no duerman lo suficiente. No permitan que sus hijos se vayan a dormir con el iPad. Recuerden que es siempre muy bueno servir de ejemplo ustedes mismos.

Uso de los medios en la familia

Las siguientes páginas de Internet les llevarán a unas páginas muy útiles hechas por [Common Sense Media](#).

Tendrá que inscribirse y crear un cuento con Common Sense Media para acceder a los acuerdos de la familia para usar los medios de comunicación. Se puede hacerlo por este vínculo:

<https://www.common sense media.org/research/technology-addiction-concern-controversy-and-finding-balance/resources>.

Aquí tienen algunos puntos más que pueden revisar con su hijo/a:

- Todo lo que pongan en Internet crea un rastro digital, a lo que muchas veces se refiere como “la huella digital”. Nada en Internet es totalmente privado, incluso cuando la intención es de que lo sea. Una vez que algo está en Internet se puede guardar, enviar y poner en cualquier otro sitio.
- Una buena regla a seguir: si no quiere que lo vean su padre, madre, tutor/a, maestro/a, director/a, futuro jefe o jefa o departamento de admisiones de una universidad, no lo ponga en Internet. Pregunte a su hijo/a, ¿esto sería algo que le gustaría ver ahí puesto a tu abuela?
- "Los amigos" no siempre son quienes dicen ser. Explique a su hijo/a a que sólo se haga amigos en Internet de personas que conozca personalmente. Nunca permita que personas que conoce en Internet accedan a su información personal.
- Nunca ponga información personal que lo/la identifique en Internet. Esto incluye: su nombre completo, dirección, número de teléfono, email, dónde se reúne con sus amigos o donde suele ir. Muestre a sus hijos que es muy fácil para alguien adivinar dónde se encuentra a través de algo que ponga en Internet.
- Revise con regularidad la configuración de seguridad en los lugares más usados y en las redes. Ignorar las configuraciones de seguridad en lugares como Facebook significa que las fotos de su hijo/a, información de contacto, intereses y posiblemente el lugar de su teléfono celular a través del GPS puede ser compartida con otros que usan el plataforma.
- Cyberbullying-acoso digital (amenazar o acosar a otra persona a través de la tecnología) es un problema cada vez mayor para la juventud de hoy. Se muestra de diferentes modos. Puede tener la forma de un email privado, foto, o mensaje de texto que otros pueden ver, iniciar un rumor o enviar un mensaje agresivo o amenazante, en muchas ocasiones de forma anónima. Hablen con su hijo/a sobre no participar en este tipo de comportamiento y anímelos a que denuncien incidentes de cyberbullying a un adulto/a.

The term hazing includes, but is not limited to:
 1. Any type of physical brutality, such as whipping, beating, striking, branding, electronic shocking or placing a harmful substance on the body.

IV. REPORTING PROCEDURES

- A. Any person who believes he or she has been the target or victim of hazing or any person with knowledge or belief of conduct which may constitute hazing shall report the alleged acts immediately to an appropriate school district official designated by this policy. A person may report hazing anonymously. However, the district may not rely solely on an anonymous report to determine discipline or other remedial responses.
- B. The district encourages the reporting party to use the report form available from the principal or building supervisor of each building or available from the district office, but oral reports shall be considered complaints as well.

The building principal, the principal’s designee, or the building supervisor (hereinafter the “building report taker”) is the person responsible for receiving reports of hazing at the building level. Any adult district personnel who receives a report of hazing prohibited by this policy shall inform the building report taker immediately. Any person may report hazing directly to a district human rights officer or to the superintendent. If the complaint involves the building report taker, the complaint shall be made or filed directly with the superintendent or the school district human rights officer by the reporting party or complainant.

The building report taker shall ensure that this policy and its procedures, practices, consequences, and sanctions are fairly and fully implemented and shall serve as a primary contact on policy and procedural matters.

- C. A teacher, administrator, volunteer, contractor, and other school employees shall be particularly alert to possible situations, circumstances or events that might include hazing. Any such person who witnesses, observes, receives a report of, or has other knowledge or belief of conduct that may constitute hazing shall make reasonable efforts to address and resolve the hazing and shall inform the building report taker immediately. District personnel who fail to inform the building report taker of conduct that may constitute hazing or who fail to make reasonable efforts to address and resolve the hazing in a timely manner may be subject to disciplinary action.

- A. Within three (3) days of the receipt of a complaint or report of hazing, the district shall undertake or authorize an investigation by district officials or a third party designated by the district.
- B. The building report taker or other appropriate district officials may take immediate steps, at their discretion, to protect the target or victim of the hazing, the complainant, the reporter, and students or others pending completion of an investigation of alleged hazing prohibited by the policy.
- C. The alleged perpetrator of the hazing shall be allowed the opportunity to present a defense during the investigation or prior to the imposition of discipline or other remedial responses.
- D. Upon completion of an investigation that determines hazing has occurred, the district will take appropriate action. Such action may include, but is not limited to, warning, suspension, exclusion, expulsion, transfer, remediation, termination or discharge. Disciplinary consequences will be sufficiently severe to try to deter violations and to appropriately discipline prohibited behavior. District action taken for violation of this policy will be consistent with the requirements of applicable collective bargaining agreements; applicable statutory authority, including the Minnesota Pupil Fair Dismissal Act; and applicable district policies and regulations.
- E. The district is not authorized to disclose to a victim private educational or personnel data regarding an alleged perpetrator who is a student or employee of the school district. School officials will notify the parent(s) or guardian(s) of students who are targets or victims of hazing and the parent(s) or guardian(s) of alleged perpetrators of hazing who have been involved in a reported and confirmed hazing incident of the remedial or disciplinary action taken, to the extent permitted by law.
- F. In order to prevent or to respond to hazing committed by or directed against a child with a disability, the district shall, where determined appropriate by the child's individualized education program (IEP) team or Section 504 team, allow the child's IEP or Section 504 plan to be drafted to address the skills and proficiencies the child needs as a result of the child's disability to allow the child to respond to or not to engage in hazing.

VI. RETALIATION OR REPRISAL

The district will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor or other employee of the district who commits an act of reprisal or who retaliates against any person who asserts, alleges, or makes a good faith report of alleged hazing who provides information about hazing who testifies, assists, or participates in an investigation of alleged hazing, or who testifies, assists or participates in a proceeding or hearing relating to such hazing. Retaliation includes, but is not limited to, any form of intimidation, reprisal or harassment, or intentional disparate treatment. Disciplinary consequences will be sufficiently severe to deter violations and to appropriately discipline the individual(s) who engaged in the prohibited conduct. Remedial responses to the prohibited conduct shall be tailored to the particular incident and nature of the conduct.

VII. DISSEMINATION OF POLICY

A copy of this policy is available from the superintendent's office and is published on the district's website. The district will develop a procedure for disseminating this policy with students and employees.

527 STUDENT USE AND PARKING OF MOTOR VEHICLES; PATROLS, INSPECTIONS AND SEARCHES

I. PURPOSE

The purpose of this policy is to provide guidelines for use and parking of motor vehicles by students in Northfield Public School locations, to maintain order and discipline in the schools and to protect the health, safety and welfare of students and school personnel.

II. GENERAL STATEMENT OF POLICY

The policy of this school district is to allow the limited use and parking of motor vehicles by students in school district locations. This policy applies to all students in the school district.

III. DEFINITIONS

- A. “Contraband” means any unauthorized item possession of which is prohibited by school district policy and/or law. It includes but is not limited to weapons and “look-alikes,” alcoholic beverages, controlled substances and “look-alikes,” materials belonging to the school district that the student should not possess, and stolen property.
- B. “Reasonable suspicion” means that a school official has grounds to believe that the search will result in evidence of a violation of school district policy, rules, and/or law. Reasonable suspicion may be based on a school official’s personal observation, a report from a student, parent or staff member, a student’s suspicious behavior, a student’s age and past history or record of conduct both in and out of the school context, or other reliable sources of information.
- C. “Reasonable scope” means that the scope and/or intrusiveness of the search is reasonably related to the objectives of the search. Factors to consider in determining what is reasonable include the seriousness of the suspected infraction, the reliability of the information, the necessity of acting without delay, the existence of exigent circumstances necessitating an immediate search and further investigation (e.g., to prevent violence, serious and immediate risk of harm or destruction of evidence), and the age of the student.
- D. “School district location” means property that is owned, rented, leased, or borrowed by the school district for school purposes, as well as property immediately adjacent to such property that may be used for parking or gaining access to such property. A school district location also shall include off school property at any school-sponsored or school-approved activity, event, or function, such as a field trip or athletic event, where students are under the jurisdiction of the school district.
- E. “School official” means superintendent, building principal or their designee. For the purposes of this policy assistant principal and parking lot/security monitors are considered designees.

IV. STUDENT PARKING OF MOTOR VEHICLES AT SCHOOL DISTRICT LOCATIONS

- A. Students are permitted to park in a school district location as a matter of privilege, not of right. Students driving a motor vehicle to a high school campus may park the motor vehicle only in parking lots designated for student parking. Students may not park vehicles in driveways, on private property, or in other designated no parking areas.
- B. When there are unauthorized vehicles parked on school district property, school officials may:
 - 1. Require the driver or other person in charge of the vehicle to move it off school district property.
 - 2. Provide for the removal of the vehicle, at the expense of the owner or operator.

V. PATROLS, INSPECTIONS AND SEARCHES

- A. Patrols and Inspections.
School officials may conduct routine patrols of student parking lots and other school district locations and routine inspections of the exteriors of the motor vehicles of students. Such patrols and inspections may be conducted without notice, without student consent, and without a search warrant.
- B. Search of Interior of Student Motor Vehicle.
The interiors of unlocked or locked motor vehicles of students in school district locations, including glove or trunk compartments, may be searched when school officials have a reasonable suspicion that the search will uncover a violation of law and/or school policy or rule. The search will be reasonable in its scope and intrusiveness. Such searches may be conducted without notice, without consent, and without a search warrant. A student must unlock a locked motor vehicle or its compartments upon the request of a school official. Failure to do so is a violation of this policy. A school resource officer may assist in the search of a student vehicle at the request of a school official.
- C. Drug Dog Search - Purpose and Procedure.
The district will conduct periodic searches of the schools and their adjacent parking lots with the assistance of local and county law enforcement officers and drug-sniffing dogs. Each canine unit will be accompanied by at least one school official and, when possible, the school resource officer.

In the event of a positive identification by the canines, two school officials will conduct a search of the locker or vehicle in question. If the search reveals unauthorized or illegal items, school officials may ask that law enforcement finish the search of the locker or vehicle.
- D. Prohibition of Contraband and Interference with Patrols, Inspections, Searches and/or Seizures.

A violation of this policy occurs when students store or carry contraband in motor vehicles in a school district location or interfere with patrols, inspections, searches and/or seizures as provided by this policy.

E. Seizure of Contraband.

If a search yields contraband, school officials will seize the item and may turn it over to legal officials for ultimate disposition when appropriate.

F. Dissemination of Policy.

A copy of this policy is available on the district's website.

VI. DIRECTIVES AND GUIDELINES

The superintendent or their designee shall develop reasonable directives and guidelines to accompany this policy.

VII. VIOLATIONS

A student found to have violated this policy and/or the directives and guidelines implementing it shall be subject to withdrawal of parking privileges and/or to discipline in accordance with the school district's Student Discipline Policy, which may include suspension, exclusion, or expulsion. In addition, the student may be referred to legal officials when appropriate.

NONDISCRIMINATION**

I. PURPOSE

The purpose of this Northfield Public Schools' policy is to provide equal educational opportunity for all students and to prohibit discrimination on the grounds of sex, parental, family, or marital status. Students are protected from discrimination on the basis of sex and marital status pursuant to Title IX of the Education Amendments of 1972 and the Minnesota Human Rights Act. This includes discrimination on the basis of pregnancy.

II. GENERAL STATEMENT OF POLICY

- A. The district provides equal educational opportunity for all students, and will not apply any rule concerning a student's actual or potential parental, family, or marital status which treats students differently on the basis of sex.
- B. The district will not discriminate against any student, or exclude any student from its education program or activity, including any class or extracurricular activity, on the basis of such students' pregnancy, childbirth, false pregnancy, termination of pregnancy or recovery therefrom, unless the student requests voluntarily to participate in a separate portion of the program or activity of the recipient.
- C. The district may require such a student to obtain the certification of a physician that the student is physically and emotionally able to continue participation in the normal education program or activity so long as such a certification is required of all students for other physical or emotional conditions requiring the attention of a physician.
- D. The school district will ensure that any separate and voluntary instructional program is comparable to that offered to non-pregnant students.
- E. It is the responsibility of every school district employee to comply with this policy.
- F. The school board has designated Molly Viesselman, Director of Human Resources, Northfield School District Office, 201 Orchard Street South, Northfield, MN 55057 as its Title IX Coordinator (mviesselman@northfieldschools.org). This employee coordinates the school district's efforts to comply with and carry out its responsibilities under Title IX. Any student, parent or guardian having questions regarding this policy should discuss it with the appropriate school district official provided by policy. In the absence of a specific designee, an inquiry or complaint should be referred to the superintendent or the school district human rights officer.
- G. Any student, parent or guardian having questions regarding the application of Title IX and its regulations and/or this policy should discuss them with the Title IX coordinator. Questions relating solely to Title IX and its regulations may be referred to the Assistant Secretary for Civil Rights of the United States Department of Education. In the absence of a specific designee, an inquiry or

complaint should be referred to the superintendent or the school district human rights officer.

- H. Any reports of unlawful discrimination under this policy will be handled, investigated and acted upon in the manner specified in Policy 522.

530 IMMUNIZATION REQUIREMENTS

I. PURPOSE

The purpose of this policy is to require that all Northfield School District students receive the proper immunizations as mandated by law to ensure the health and safety of all students.

II. GENERAL STATEMENT OF POLICY

All students are required to provide proof of immunization, or appropriate documentation exempting the student from such immunization, and such other data necessary to ensure that the student is free from any communicable diseases, as a condition of enrollment.

III. STUDENT IMMUNIZATION REQUIREMENTS

- A. No student may be enrolled or remain enrolled, on a full-time, part-time, or shared-time basis, in any elementary or secondary school within the school district until the student or the student's parent or guardian has submitted to the designated school district administrator the required proof of immunization. Prior to the student's first date of attendance, the student or the student's parent or guardian shall provide to the designated school district administrator one of the following statements:
 - 1. A statement, from a physician, advanced practice registered nurse, physician assistant, or a public clinic which provides immunizations (hereinafter "medical statement"), affirming that the student received the immunizations required by law, consistent with medically acceptable standards.
 - 2. A medical statement, affirming the student received the primary schedule of immunizations required by law and has commenced a schedule of the remaining required immunizations, indicating the month and year each immunization was administered, consistent with medically acceptable standards.
- B. The statement of a parent or guardian of a student or an emancipated student may be substituted for the medical statement. If such a statement is substituted, this statement must indicate the month and year each immunization was administered. Upon request, the designated school district administrator will provide information to the parent or guardian of a student or an emancipated student of the dosages required for each vaccine according to the age of the student.
- C. The parent or guardian of persons receiving instruction in a home school shall submit one of the statements set forth in Section III.A. or III.B., above, or statement of immunization set forth in Section IV below, to the superintendent of the school district by Oct. 1 of the first year of their home schooling in Minnesota and the grade 7 year.
- D. When there is evidence of the presence of a communicable disease, or when required by any state or federal agency and/or state or federal law, students and/or

their parents or guardians may be required to submit such other health care data as is necessary to ensure that the student has received any necessary immunizations and/or is free of any communicable diseases. No student may be enrolled or remain enrolled in any elementary or secondary school within the school district until the student or the student's parent or guardian has submitted the required data.

- E. The district may allow a student transferring into a school a maximum of 30 days to submit a statement specified in Section III.A. or III.B. above, or Section IV below. Students who do not provide the appropriate proof of immunization or the required documentation related to an applicable exemption of the student from the required immunization within the specified time frames shall be excluded from school until such time as the appropriate proof of immunizations or exemption documentation has been provided.
- F. If a person who is not a Minnesota resident enrolls in a district online learning course or program that delivers instruction to the person only online and does not provide any teacher or instructor contact time or require classroom attendance, the person is not subject to the immunization, statement, and other requirements of this policy.

IV. EXEMPTIONS FROM IMMUNIZATION REQUIREMENTS

Students will be exempt from the foregoing immunization requirements under the following circumstances:

- A. The parent/guardian of a minor student or an emancipated student submits a signed medical statement affirming the immunization of the student is contraindicated for medical reasons or that laboratory confirmation of the presence of adequate immunity exists.
- B. The parent/guardian of a minor student or an emancipated student submits their notarized statement stating the student has not been immunized because of the conscientiously held beliefs of the parent, guardian or student.

V. NOTICE OF IMMUNIZATION REQUIREMENTS

- A. The school district will develop and implement a procedure to:
 - 1. Notify parents and students of the immunization and exemption requirements by use of a form approved by the Department of Health.
 - 2. Notify parents and students of the consequences for failure to provide required documentation regarding immunizations.
 - 3. Review student health records to determine whether the required information has been provided.
 - 4. Make reasonable arrangements to send a student home when the immunization requirements have not been met and advise the student and/or the student's parent or guardian of the conditions for re-enrollment.
- B. The notice provided shall contain written information describing the exemptions

from immunization as permitted by law. The notice shall be in a font size at least equal to the font size and style as the immunization requirements and on the same page as the immunization requirements.

VI. IMMUNIZATION RECORDS

- A. The school district will maintain a file containing the immunization records for each student in attendance at the school district for at least five years after the student attains the age of majority.
- B. Upon request, the school district may exchange immunization data with persons or agencies providing services on behalf of the student. Immunization data is private student data and disclosure of such data shall be governed by Policy 515 Protection and Privacy of Pupil Records.
- C. The designated school district administrator will assist a student and/or the student's parent or guardian in the transfer of the student's immunization file to the student's new school within 30 days of the student's transfer.
- D. Upon request of a public or private post-secondary educational institution, the designated school district administrator will assist in the transfer of the student's immunization file to the post-secondary educational institution.

VII. OTHER

Within 60 days of the commencement of each new school term, the district will forward a report to the Commissioner of the Department of Education stating the number of students attending each school in the district, including the number of students receiving instruction in a home school, the number of students who have not been immunized, and the number of students who received an exemption. The district also will forward a copy of all exemption statements received by the district to the Commissioner of the Department of Health.

Policy 532 USE OF PEACE OFFICERS AND CRISIS TEAMS TO REMOVE STUDENTS WITH IEPs FROM SCHOOL GROUNDS

I. PURPOSE

In alignment with its strategic commitments to people, equity, and partnerships, the purpose of this policy is to describe the appropriate use of peace officers and crisis teams to remove, if necessary, a student with an individualized education program (IEP) from Northfield Public Schools' grounds.

II. GENERAL STATEMENT OF POLICY

The school district is committed to promoting learning environments that are safe for all members of the school community. It further believes that students are the first priority and that they should be reasonably protected from physical or emotional harm at all school locations and during all school activities.

In general, all students, including those with IEPs, are subject to the terms of the school district's discipline policy. Building-level administrators have the leadership responsibility to maintain a safe, secure, and orderly educational environment within which learning can occur. Corrective action to discipline a student and/or modify a student's behavior will be taken by staff when a student's behavior violates the school district's discipline policy.

If a student with an IEP engages in conduct which, in the judgment of school personnel, endangers or may endanger the health, safety, or property of the student, other students, staff members, or school property, that student may be removed from school grounds in accordance with this policy.

III. DEFINITIONS

For purposes of this policy, the following terms have the meaning given them in this section:

- A. "Student with an IEP" or "the student" means a student who is eligible to receive special education and related services pursuant to the terms of an IEP or an individual interagency intervention plan (IIIP).
- B. "Peace officer" means an employee or an elected or appointed official of a political subdivision or law enforcement agency who is licensed by the Board of Peace Officer Standards and Training, charged with the prevention and detection of crime and the enforcement of general criminal laws of the state and who has the full power of arrest. The term "peace officer" includes a person who serves as a sheriff, a deputy sheriff, a police officer, or a state patrol trooper.
- C. "Physical holding" means physical intervention intended to hold a child immobile or limit a child's movement, where body contact is the only source of physical

restraint, and where immobilization is used to effectively gain control of a child in order to protect a child or other individual from physical injury.

- D. “Crisis team” means a group of persons, which may include teachers and non-teaching school personnel, selected by the building administrator in each school building who have received crisis intervention training and are responsible for becoming actively involved with resolving crises. The building administrator or designee shall serve as the leader of the crisis team.
- E. The phrase “remove the student from school grounds” is the act of securing the person of a student with an IEP and escorting that student from the school building or school activity at which the student with an IEP is located.
- F. “Emergency” means a situation where immediate intervention is needed to protect a child or other individual from physical injury.
- G. “School Resource Officer” means a peace officer who is assigned to work in an elementary school, middle school, or secondary school during the regular instructional school day as one of the officer’s regular responsibilities through the terms of a contract entered between the peace officer’s employer and the designated school district or charter school.
- H. All other terms and phrases used in this policy shall be defined in accordance with applicable state and federal law or ordinary and customary usage.

IV. REMOVAL OF STUDENTS WITH IEPs FROM SCHOOL GROUNDS:

A. ***Removal By Crisis Team***

If the behavior of a student with an IEP escalates to the point where the student’s behavior endangers or may endanger the health, safety, or property of the student, other students, staff members, or school property, the school building’s crisis team may be summoned. The crisis team may attempt to de-escalate the student’s behavior by means including, but not limited to, those described in the student’s IEP and/or behavior intervention plan. When such measures fail, or when the crisis team determines that the student’s behavior continues to endanger or may endanger the health, safety, or property of the student, other students, staff members, or school property, the crisis team may remove the student from school grounds.

If the student’s behavior cannot be safely managed, school personnel may immediately request assistance from the school resource officer or a peace officer.

B. ***Removal By School Resource Officer or Peace Officer***

If a student with an IEP engages in conduct which endangers or may endanger the health, safety, or property of the student, other students, staff members, or school property, the school building’s crisis team, building administrator, or the building administrator’s designee, may request that the school resource officer or a peace officer remove the student from school grounds.

If a student with an IEP is restrained or removed from a classroom, school building, or school grounds by a peace officer at the request of a school

administrator or school staff person during the school day twice in a 30-day period, the student's IEP team must meet to determine if the student's IEP is adequate or if additional evaluation is needed.

Whether or not a student with an IEP engages in conduct which endangers or may endanger the health, safety, or property of the student, other students, staff members, or school property, school district personnel may report a crime committed by a student with an IEP to appropriate authorities. If the school district reports a crime committed by a student with an IEP, school personnel shall transmit copies of the special education and disciplinary records of the student for consideration by appropriate authorities to whom it reports the crime, to the extent that the transmission is permitted by the Family Education Rights and Privacy Act (FERPA), the Minnesota Government Data Practices Act, and school district's policy, Protection and Privacy of Pupil Records.

The fact that a student with an IEP is covered by special education law does not prevent state law enforcement and judicial authorities from exercising their responsibilities with regard to the application of federal and state law to crimes committed by a student with an IEP.

C. *Reasonable Force Permitted*

1. In removing a student with an IEP from school grounds, a building administrator, other crisis team members, or the school resource officer or other agents of the school district, whether or not members of a crisis team, may use reasonable force when it is necessary under the circumstances to correct or restrain a student or prevent bodily harm or death to another.
2. In removing a student with an IEP from school grounds, school resource officers and school district personnel are further prohibited from engaging in the following conduct:
 - a. Corporal punishment is prohibited by Minnesota Statutes Section 121A.58.
 - b. Requiring a child to assume and maintain a specified physical position, activity, or posture that induces physical pain.
 - c. Totally or partially restricting a child's senses as punishment.
 - d. Denying or restricting a child's access to equipment and devices such as walkers, wheel chairs, hearing aids and communication boards that facilitate the child's functioning except when temporarily removing the equipment or device is needed to prevent injury to the child or others or serious damage to the equipment or device, in which case the equipment or device shall be returned to the child as soon as possible.
 - e. Interacting with a child in a manner that constitutes sexual abuse, neglect, or physical abuse under Minnesota Statutes Chapter 260E.
 - f. Physical holding (as defined above and in Minnesota Statutes, section 125A.0941) that restricts or impairs a child's ability to breathe, restricts or impairs a child's ability to communicate distress, places pressure or weight on a child's head, throat, neck,

chest, lungs, sternum, diaphragm, back, or abdomen, or results in straddling a child's torso.

- g. Withholding regularly scheduled meals or water.
- h. Denying a child access to toilet facilities.

- 3. Any reasonable force used under Minnesota Statutes, sections 121A.582; 609.06, subdivision 1; and 609.379 which intends to hold a child immobile or limit a child's movement where body contact is the only source of physical restraint or confines a child alone in a room from which egress is barred shall be reported to the Minnesota Department of Education as a restrictive procedure, including physical holding or seclusion used by an unauthorized or untrained staff person.

D. ***Parental Notification***

The building administrator or designee shall make reasonable efforts to notify the student's parent or guardian of the student's removal from school grounds as soon as possible following the removal.

E. ***Continued Removals; Review of IEP***

Continued and repeated use of the removal process described herein must be reviewed in the development of the individual student's IEP or IIIP.

F. ***Effect of Policy in an Emergency; Use of Restrictive Procedures***

A student with an IEP may be removed in accordance with this policy regardless of whether the student's conduct would create an emergency.

If the school district seeks to remove a student with an IEP from school grounds under this policy due to behaviors that constitute an emergency and the student's IEP, IIIP, or behavior intervention plan authorizes the use of one or more restrictive procedures, the crisis team may employ those restrictive procedures, in addition to any reasonable force that may be necessary, to facilitate the student's removal from school grounds, as long as the crisis team members who are implementing the restrictive procedures have received the training required by Minnesota Statutes Section 125A.0942, subdivision 5, and otherwise comply with the requirements of section 125A.0942.

G. ***Reporting to the Minnesota Department of Education (MDE)***

Annually, stakeholders may recommend, as necessary, to the Commissioner of MDE (Commissioner) specific and measurable implementation and outcome goals for reducing the use of restrictive procedures. The Commissioner must submit to the Legislature a report on districts' progress in reducing the use of restrictive procedures that recommends how to further reduce these procedures and eliminate the use of seclusion. By January 15, April 15, July 15, and October 15 of each year, districts must report in a form and manner determined by the Commissioner, about individual students who have been secluded. By July 15 each year, districts must report summary data. The summary data must include information on the use of restrictive procedures for the prior school year, July 1 through June 30, including the use of reasonable force by school personnel that is consistent with the definition of physical holding or seclusion of a child with a disability.

Policy 533 WELLNESS

I. PURPOSE

As required by the federal Healthy and Hunger Free Kids Act of 2010, the purpose of this policy is to set forth methods that promote student and staff wellness, prevent and reduce childhood obesity, and ensure that school meals and other food and beverages sold and otherwise made available on the Northfield Public Schools' campus during the school day are consistent with applicable minimum local, state, and federal standards.

II. GENERAL STATEMENT OF POLICY

- A. The Board of Education recognizes that nutrition promotion and education, physical activity, and other school-based activities that promote student wellness are essential components of the educational process and that good holistic health fosters student attendance and learning.
- B. The school environment should promote student and staff health, well-being, and ability to learn by encouraging healthy eating and physical activity.
- C. The district encourages the involvement of parents, caregivers, students, representatives of the child nutrition department, teachers, school health professionals, the board, school administrators, and the general public in the development, implementation, and periodic review and update of the district's wellness policy.
- D. Children need access to healthy foods and opportunities to be physically active in order to grow, learn, and thrive.
- E. All students in grades E-12 will have opportunities, support, and encouragement to be physically active on a regular basis.
- F. Qualified child nutrition personnel will provide students with access to a variety of affordable, nutritious, and appealing foods that meet the health and nutrition needs of students; try to accommodate the religious, ethnic, and cultural diversity of the student body in meal planning; and will provide clean, safe, and pleasant settings and adequate time for students to eat.

III. WELLNESS GOALS

- A. Nutrition Promotion and Education
 - 1. The district will encourage and support healthy eating by students and staff, and engage in nutrition promotion that is:

- a. Offered as part of a comprehensive program designed to provide students and staff with the knowledge and skills necessary to promote and protect their health.
 - b. Part of health education classes, as well as classroom instruction in subjects such as math, science, language arts, social sciences, and elective subjects, where appropriate.
 - c. Enjoyable, developmentally appropriate, culturally relevant, and includes participatory activities, such as contests, promotions, taste testing, and field trips.
2. The district will encourage all students and staff to make age appropriate, healthy selections of foods and beverages, including those sold individually outside the reimbursable school meal programs, such as through a la carte/snack lines, vending machines, fundraising events, concession stands, and student stores.

B. Physical Activity

1. Students need opportunities for physical activity and to fully embrace regular physical activity as a personal behavior. Toward that end, health and physical education will reinforce the knowledge and self-management skills needed to maintain a healthy lifestyle and reduce sedentary activities.
2. Opportunities for physical activity will be incorporated into other subject lessons, where appropriate.
3. Classroom teachers will provide short physical activity breaks between lessons or classes, as appropriate.
4. The district will provide students whose families qualify for free or reduced priced meals through the National School Lunch Program with scholarships for athletic and community education classes that promote physical activities. The district will make every effort to eliminate any social stigma attached to, and prevent the overt identification of, students who are eligible for these scholarships.

C. Communications with Parents

1. The district recognizes that parents, guardians, and caregivers have a primary role in promoting their children's health and well-being.
2. The district will support parents' efforts to provide a healthy diet and daily physical activity for their children.
3. The district encourages parents to pack healthy lunches and snacks and refrain from including beverages and foods without nutritional value.
4. The district will provide information about physical education and other school-based physical activity opportunities and will support family efforts to provide their children with opportunities to be physically active outside of school.

IV. STANDARDS AND NUTRITION GUIDELINES

A. School Meals

1. The district will provide healthy and safe school meal programs that comply with all applicable federal, state, and local laws, rules, and regulations.
2. Child nutrition personnel will provide students with access to a variety of affordable, nutritious, and appealing foods that meet the health and nutrition needs of students.
3. Child nutrition personnel will try to accommodate the religious, ethnic, and cultural diversity of the student body in meal planning.
4. Child nutrition personnel will try to accommodate the needs of vegetarian/vegan students.
5. Child nutrition personnel will provide clean, safe, and pleasant settings and adequate time for students to eat.
6. Child nutrition personnel will take every measure to ensure that student access to foods and beverages meets or exceeds all applicable federal, state, and local laws, rules, and regulations and that reimbursable school meals meet USDA nutrition standards.
7. Child nutrition personnel shall adhere to all applicable federal, state, and local food safety and security guidelines.
8. The district will provide students access to hand washing or hand sanitizing before they eat meals or snacks.
9. The district will publish the process used to accommodate dietary restrictions due to allergies or intolerances on the child nutrition department website.

B. School Food Service Program/Personnel

1. The district shall designate an appropriate person to be responsible for the district's food service program, whose duties shall include the creation of nutrition guidelines and procedures for the selection of foods and beverages made available on campus to ensure food and beverage choices are consistent with current USDA guidelines.
2. As part of the district's responsibility to operate a food service program, the district will provide continuing professional development for all child nutrition personnel in schools.

C. Competitive Foods and Beverages

1. All foods and beverages sold on school grounds to students and staff, outside of reimbursable meals, are considered “competitive foods.” Competitive foods include items sold à la carte in the cafeteria, from vending machines, school stores, and for in-school fundraisers.
2. All competitive foods will meet the USDA Smart Snacks in School (Smart Snacks) nutrition standards and any applicable state nutrition standards, at a minimum. Smart Snacks aim to improve student health and well-being, increase consumption of healthful foods during the school day, and create an environment that reinforces the development of healthy eating habits.
3. Before and Aftercare (child care) programs must also comply with the district’s nutrition standards unless they are reimbursable under USDA school meals program, in which case they must comply with all applicable USDA standards.

D. Other Foods and Beverages Made Available to Students

1. Student and staff wellness will be a consideration for all foods offered, but not sold, to students on the school campus, including those foods provided through:

[**Note: Up to two special event exceptions will be allowed at the Middle School, the High School, and the Area Learning Center per year. Two exceptions per grade level, per year, will be allowed at the Elementary Schools. These events will be determined by the building administrator and Wellness Committee Coordinator. These exceptions will be documented on our District Wellness procedures form and provided to the Director of Finance to determine if an expense is allowable under the wellness policy guidelines.]

 3. Fundraising. The district will make available to parents and teachers a list of suggested healthy fundraising ideas.

E. Food and Beverage Marketing in Schools

1. School-based marketing will be consistent with nutrition education and health promotion.
2. Schools will restrict food and beverages marketing to the promotion of only those foods and beverages that meet the Smart Snacks nutrition standards.

 - c. a description of the progress made in attaining the goals of the district's wellness policy.
2. The Wellness Coordinator will be responsible for conducting the triennial assessment.
3. The triennial assessment report shall be posted on the district's website or otherwise made available to the public.

Notes:

- *All school districts that participate in the National School Lunch and School Breakfast Programs are required by the Healthy, Hunger-Free Kids Act of 2010 (Act) to have a wellness policy that includes standards and nutrition guidelines for foods and beverages made available to students on campus during the school day, as well as specific goals for nutrition promotion and education, physical activity, and other school-based activities that promote student wellness. The Act requires the involvement of parents, students, representatives of the child nutrition department, teachers of physical education, school health professionals, the school board, school administrators, and the public in the development, implementation, and periodic review and update of the wellness policy. The Act also requires a plan for measuring implementation of the policy and reporting wellness policy content and implementation issues to the public, as well as the designation of at least one person charged with responsibility for the*

implementation and oversight of the wellness policy to ensure the district is in compliance with the policy.

- *The Act requires that school districts have standards, selected by the district, for all foods available on the school campus during the school day with the objective of promoting student health and reducing childhood obesity. For foods and beverages sold to students during the school day on school campus, the Act requires that districts also have nutrition guidelines.*
- *The Act specifically requires that this wellness policy contain standards and nutrition guidelines for all foods and beverages sold to students during the school day that are consistent with the meal requirements for lunches and after-school snacks set forth in 7 Code of Federal Regulations Section 210.10 and the meal requirements for breakfasts set forth in Code of Federal Regulations Section 220.8.*

Policy 534 SCHOOL MEALS

I. PURPOSE

The purpose of this policy is to ensure that students receive healthy and nutritious meals through the Northfield School District's nutrition program and that school district employees, families, and students have a shared understanding of expectations regarding meal charges. The policy of the district is to provide meals to students in a respectful manner and to maintain the dignity of students by prohibiting lunch shaming or otherwise ostracizing the student. The policy seeks to allow students to receive the nutrition they need to stay focused during the school day and keep confidential the identification of students with insufficient funds to pay for a la carte items or second meals as well as to maintain the financial integrity of the school nutrition program.

II. PAYMENT OF MEALS

- A. All students will have individual meal accounts with a separate 4-digit PIN (Personal Identification Number) for each student/user in the family to record individual meal purchases. When an account reaches zero or there is insufficient funds a student shall not be allowed to purchase a la carte items until the negative account balance is paid. Families may pay for meals by using cash, check or the district's online payment system. Payments may be made daily and sent to any school the student attends. Checks should be made out to Northfield Public Schools and must include the student's first and last name and personal identification number (PIN). Cash payments will be accepted in a sealed envelope with the student and parent's first and last name, PIN number, and the amount of payment written on the outside of the envelope. Payments may also be mailed to Northfield Public Schools, Child Nutrition Office, 201 Orchard Street South, Northfield, MN 55057. All schools have payment envelopes and collection boxes placed in the Child Nutrition area for receipt of payments. Each school collects and posts money daily into individual meal accounts. Money collected will be posted into the account as it is turned in or at least by 10:30 a.m. and again by 2:00 p.m. All other cash or check payments will be posted the following day.

See Negative Balance and NSF procedure for payment of meals.

- B. A school that participates in the United States Department of Agriculture National School Lunch program and has an Identified Student Percentage at or above the federal percentage determined for all meals to be reimbursed at the free rate must participate in the federal Community Eligibility Provision in order to participate in the free school meals program.
- C. Each school that participates in the free school meals program must:
1. Participate in the United States Department of Agriculture School Breakfast Program and the United States Department of Agriculture National School Lunch Program.
 2. Provide to all students at no cost up to two federally reimbursable meals per school day, with a maximum of one free breakfast and one free lunch.

- D. Once a reimbursable meal has been placed on a student's tray or otherwise served to a student, the meal may not be subsequently withdrawn from the student by the cashier or other school official, whether or not the student has an outstanding meals balance.
- E. When a student has a negative account balance, the student will not be allowed to charge an a la carte item or a second meal.
- F. If a parent/guardian chooses to send in one payment that is to be divided between sibling accounts, the parent/guardian must specify how the funds are to be distributed to the students' accounts. Funds may not be transferred between sibling accounts unless written permission is received from the parent/guardian. Parents/guardians can request a transfer of funds by completing the **refund request form** found on the Child Nutrition Department website.

III. LOW OR NEGATIVE ACCOUNT BALANCES NOTIFICATION AND UNPAID MEAL CHARGES

- A. The district will make reasonable efforts to notify families when meal account balances are low or fall below zero.
- B. Reminders for payment of outstanding student meal balances will not demean or stigmatize any student participating in the school lunch program, including, but not limited to, dumping meals, withdrawing a meal that has been served, announcing or listing students' names publicly, providing alternative meals not specifically related to dietary needs; providing nonreimbursable meals, or affixing stickers, stamps, or pins.
- C. The district will make reasonable efforts to communicate with families to resolve the matter of unpaid charges. Where appropriate, families may be encouraged to apply for free or reduced-price meals for their children.
- D. The district will make reasonable efforts to collect unpaid meal charges classified as delinquent debt. Unpaid meal charges are designated as delinquent debt when payment is overdue, the debt is considered collectable, and efforts are being made to collect it.
- E. Negative balances of more than \$30, not paid prior to *end of the school year*, will be turned over to the superintendent or superintendent's designee for collection. In some instances, the district does use a collection agency to collect unpaid school meal debts after reasonable efforts first have been made by the school district to collect the debt. Collection options may include, but are not limited to, use of collection agencies, claims in the conciliation court, or any other legal method permitted by law.
- F. The school district may not enlist the assistance of non-school district employees, such as volunteers, to engage in debt collection efforts.

- G. The superintendent or designee will develop procedures for collecting unpaid meal charges and notification of low or negative balances. [Refer to negative balance and NSF procedure guidelines.](#)
- H. The district will not impose any other restriction prohibited under Minnesota Statutes section 123B.37 due to unpaid student meal balances. The school district will not limit a student's participation in any school activities, graduation ceremonies, field trips, athletics, activity clubs, or other extracurricular activities or access to materials, technology, or other items provided to students due to an unpaid student meal balance.

IV. COMMUNICATION OF POLICY

- A. This policy and any pertinent supporting information shall be provided in writing (i.e., mail, email, back-to-school packet, student handbook, etc.) to:
 - 1. All households at or before the start of each school year.
 - 2. Students and families who transfer into the school district at the time of enrollment.
 - 3. All district personnel who are responsible for enforcing this policy.
- B. The district will post this policy on the district's website in addition to providing the required written notification described above.

Policy 535 SERVICE ANIMALS IN SCHOOLS

I. PURPOSE

The purpose of this policy is to establish equitable parameters for the use of service animals by students, employees, and visitors within Northfield School District buildings and on school grounds.

II. GENERAL STATEMENT OF POLICY

Individuals with disabilities shall be permitted to bring their service animals into school buildings or on school grounds in accordance with, and subject to, this policy.

III. DEFINITIONS

A. *Service Animal*

A “service animal” is a dog (regardless of breed or size) or miniature horse that is individually trained to perform “work or tasks” for the benefit of an individual with a disability, including an individual with a physical, sensory, psychiatric, intellectual, or mental disability. Other species of animals, whether wild or domestic, trained or untrained, are not service animals. Service animals are working animals that perform valuable functions; they are not pets. The work or tasks performed by the service animal must be directly related to the individual’s disability. An animal accompanying an individual for the sole purpose of providing emotional support, therapy, comfort, or companionship is not a service animal.

B. *Handler*

A “handler” is an individual with a disability who uses a service animal. In the case of an individual who is unable to care for and supervise the service animal for reasons such as age or disability, “handler” means the person who cares for and supervises the animal on that individual’s behalf. District personnel are not responsible for the care, supervision, or handling responsibilities of a service animal.

C. *Work or Tasks*

1. “Work or tasks” are those functions performed by a service animal.
2. Examples of “work or tasks” include, but are not limited to, assisting individuals who are blind or have low vision with navigation and other tasks, alerting individuals who are deaf or hard of hearing to the presence of people or sounds, providing non-violent protection or rescue work, pulling a wheelchair, assisting an individual during a seizure, alerting individuals to the presence of allergens, retrieving items such as medicine or the telephone, providing physical support and assistance with balance and stability to individuals with mobility disabilities, and helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors.

3. The crime deterrent effects of an animal's presence and the provision of emotional support, well-being, comfort, or companionship are not "work or tasks" for the purposes of this policy.

D. *Trainer*

A "trainer" is a person who is training a service animal and is affiliated with a recognized training program for service animals.

IV. ACCESS TO PROGRAMS AND ACTIVITIES; PERMITTED INQUIRIES

- A. In general, handlers (i.e., individuals with disabilities or trainers) are permitted to be accompanied by their service animals in all areas of district properties where members of the public, students, and employees are allowed to go. A handler has the right to be accompanied by a service animal whenever and to the same extent that the handler has the right:
 1. To be present on district property or in district facilities.
 2. To attend or participate in a school-sponsored event, activity, or program.
 3. To be transported in a vehicle that is operated by or on behalf of the district.
- B. It is an unfair discriminatory practice to prohibit a person with a disability from taking a service animal into the public place or conveyance to aid persons with disabilities, and if the service animal is properly harnessed or leashed so that the person with a disability may maintain control of the service animal.
- C. The district shall not require a person with a disability to make an extra payment or pay an additional charge when taking a service animal into any district building.
- D. When an individual with a disability brings a service animal to a district property, district employees shall not ask about the nature or extent of a person's disability, but may make the following two inquiries to determine whether the animal qualifies as a service animal:
 1. Is the service animal required because of a disability.
 2. What work or tasks is the service animal trained to perform.
- E. District employees shall not make these inquiries of an individual with a disability bringing a service animal to district property when it is readily apparent that an animal is trained to do work or perform tasks for an individual with a disability. However, district employees may inquire whether the individual with a disability has completed and submitted the request form described in Part VI. below.
- F. An individual with a disability may not be required to provide documentation such as proof that the animal has been certified, trained, or licensed as a service animal.

V. REQUIREMENTS FOR ALL SERVICE ANIMALS

- A. The service animal must be required for the individual with a disability.
- B. The service animal must be individually trained to do work or tasks for the benefit of the individual with a disability.
- C. A service animal must have a harness, leash, or other tether, unless either the handler is unable, because of a disability, to use a harness, leash, or other tether, or the use of a harness, leash, or other tether would interfere with the service animal's safe, effective performance of work or tasks, in which case, the service animal must be otherwise under the handler's control (e.g., voice control, signals, or other effective means).
- D. The service animal must be housebroken.
- E. The service animal must be under the control of its handler at all times. The handler is responsible for the care and supervision of a service animal, including walking the service animal, feeding the service animal, grooming the service animal, providing veterinary care to the service animal, and responding to the service animal's need to relieve itself, including the proper disposal of the service animal's waste.
- F. The district is not responsible for providing a staff member to walk the service animal or to provide any other care or assistance to the animal.
- G. In the case of a student who is unable to care for and/or supervise his or her service animal, the student's parent/guardian is responsible for arranging for such care and supervision. In the case of an employee or other individual who is unable to care for and/or supervise his or her service animal, the employee or other individual's authorized representative is responsible for arranging for a service animal's care and supervision.
- H. The service animal must be properly licensed and vaccinated in accordance with applicable state laws and local ordinances.

VI. REQUESTING THE USE OF A SERVICE ANIMAL AT SCHOOL

- A. Students with a disability seeking to be accompanied by a service animal are requested to submit the Approval Request Form to the building principal of the school the student attends. The principal will notify the superintendent or the administrator designated with responsibility to address such requests. District employees seeking to be accompanied by a service animal are requested to submit the Approval Request Form to the superintendent or the administrator designated with responsibility to address such requests.
- B. Students or employees seeking to bring a service animal onto district premises are requested to identify whether the need for the service animal is required because of a disability and to describe the work or tasks that the service animal is trained to perform.

- C. The owner of the service animal shall provide written evidence that the service animal has received all vaccinations required by state law or local ordinance.

VII. REMOVAL OR EXCLUSION OF A SERVICE ANIMAL

- A. A school official may require a handler to remove a service animal from district property, a school building, or a school-sponsored program or activity, if:
 - 1. Any of the requirements described in Part V., above, are not met.
 - 2. The service animal is out of control and/or the handler does not effectively control the animal's behavior.
 - 3. The presence of the service animal would fundamentally alter the nature of a service, program or activity.
 - 4. The service animal behaves in a way that poses a direct threat to the health or safety of others, has a history of such behavior, or otherwise poses a significant health or safety risk to others that cannot be eliminated by reasonable accommodations.
- B. If the service animal is properly excluded, the district shall give the individual with a disability the opportunity to participate in the service, program, or activity without the service animal, unless such individual has violated a law or school rule or regulation that would warrant the removal of the individual.

VIII. ADDITIONAL LIMITATIONS FOR MINIATURE HORSES

In assessing whether a miniature horse may be permitted in a school building or on school grounds as a service animal, the following factors shall be considered:

- A. The type, size, and weight of the miniature horse and whether the facility can accommodate these features.
- B. Whether the handler has sufficient control of the miniature horse.
- C. Whether the miniature horse is housebroken.
- D. Whether the miniature horse's presence in a specific building or on school grounds compromises legitimate health and safety requirements.

IX. ALLERGIES; FEAR OF ANIMALS

If a student or employee notifies the district that he or she is allergic to a service animal, the district will balance the rights of the individuals involved. In general, allergies that are not life threatening are not a valid reason for prohibiting the presence of a service animal. Fear of animals is generally not a valid reason for prohibiting the presence of a service animal.

X. NON-SERVICE ANIMALS FOR STUDENTS WITH INDIVIDUALIZED EDUCATION PROGRAMS (IEPS) OR SECTION 504 PLANS

If a special education student or a student with a Section 504 plan seeks to bring an animal onto school property that is not a service animal, the request shall be referred to the student's IEP team or Section 504 team, as appropriate, to determine whether the animal is necessary for the student to receive a free appropriate public education (FAPE) or, in the case of a Section 504 student, to reasonably accommodate the student's access to the district's programs and activities.

XI. NON-SERVICE ANIMAL AS AN ACCOMMODATION FOR EMPLOYEES

If an employee seeks to bring an animal onto school property that is not a service animal, the request shall be referred to the superintendent or the administrator designated to handle such requests. A district employee who is a qualified individual with a disability will be allowed to bring such animal onto school property when it is determined that such use is required to enable the employee to perform the essential functions of his or her position or to enjoy the benefits of employment in a manner comparable to those similarly situated non-disabled employees.

XII. LIABILITY

- A. The owner of the service animal or non-service animal is responsible for any harm or injury to an individual and for any property damage caused by the service animal while on district property.
- B. An individual who, directly or indirectly through statements or conduct, intentionally misrepresents an animal in that person's possession as a service animal may be subject to criminal liability.

Policy 560 MEMORIALS

I. PURPOSE

The Northfield School District recognizes that the loss of a student has a great impact on students, staff, and families belonging to the school community. The purpose of this policy is to assist staff, students, and families impacted by a death by providing guidelines for decision-making regarding memorials, and memorial-related activities.

II. GENERAL STATEMENT OF POLICY

- A. While the district wants to support students and staff who are grieving a loss, memorials can be an ongoing reminder of a traumatic event and can be impossible for students to avoid when located on school property or included in schoolwide events.
- B. The superintendent or their designee shall develop procedures governing public memorials.

III. DEFINITIONS

- A. “Memorials” mean objects of or activities meant to remember an event or deceased person(s).

- Scholarship availability
- Number of anticipated student participants
- Number of school staff chaperones
 - Approximate guidelines to use are ranges of 5-10 students per adult for grades 4-5;

 - Variables affecting the ratio include type of transportation and accommodations, length and distance of trip, complexity of planned activities and location of trip.

If supported by the principal, the principal should seek board approval for the overnight student field trip as far in advance of the trip as possible, but no later than the second board meeting in August for first semester trips, the second board meeting in October for second semester trips, and the second board meeting in February for summer trips.

Fundraising efforts should not begin until board approval has been obtained.

It is expected that efforts will be made to schedule student trips during non-student days. In the event that students will need to miss school days, the proposal must include the rationale for scheduling the trip at that time.

Policy 612 DEVELOPMENT OF PARENT AND FAMILY ENGAGEMENT POLICIES FOR TITLE I PROGRAMS

[Note: This policy reflects recent federal statutory changes made by the Every Student Succeeds Act (ESSA) which require school districts and schools to meet with parents and jointly develop parent and family engagement policies at both a district wide and school building level. This policy lists the required components of the parent and family engagement policies described herein and serves as a framework for their development. The policies and these components are mandatory in order for the school district to receive federal funds under this program.]

I. PURPOSE

The purpose of this policy is to encourage and facilitate involvement by parents of students participating in Title I in the educational programs and experiences of students. The policy shall provide the framework for organized, systematic, ongoing, informed, and timely parental involvement in relation to decisions about the Title I services within the Northfield Public Schools. The involvement of parents by the district shall be directed toward both public and private school children whose parents are district residents or whose children attend school within the boundaries of the district.

II. GENERAL STATEMENT OF POLICY

- A. The policy of the district is to plan and implement, with meaningful consultation with parents of participating children, programs, activities, and procedures for the engagement of parents and families in its Title I programs.
- B. The policy of the district is to fully comply with Title 20 United States Code Section 6318, which requires the district to develop jointly with, agree upon with, and distribute to parents of children participating in Title I programs written parent and family engagement policies.

III. DEVELOPMENT OF DISTRICT LEVEL POLICY

The district will develop jointly with, agree upon with, and distribute to parents of children participating in Title I a written parent and family engagement policy that will be incorporated into the district's Title I plan, and establish the expectations for parent and family involvement and describe how the district will do the following:

- A. Involve parents and family members in the joint development of the Title I plan and the process of school review and improvement.
- B. Provide the coordination, technical assistance and other support necessary to assist participating schools in planning and implementing effective parent involvement activities to improve student academic achievement and school performance.
- C. Build the schools' and parents' capacity for strong parental involvement to ensure effective involvement of parents and to support a partnership among

the school, parents and the community to improve student academic achievement.

- D. Coordinate and integrate parental involvement strategies for Title I with parental involvement strategies under other programs (such as Head Start, Even Start, the Parents as Teachers Program, Reading First program, Early Reading First program, home instruction program for preschool youngsters and state-run preschool programs).
- E. Conduct, with the involvement of parents, an annual evaluation of the content and the effectiveness of the parental involvement policy in improving the academic quality of the schools served by Title I, including:
 - 1. Identifying barriers to greater participation by parents in activities authorized by Title I, with particular attention to parents who are economically disadvantaged, disabled, have limited English proficiency, have limited literacy, or are of any racial or ethnic minority background.
 - 2. Use the findings of the evaluation to design strategies for more effective parental involvement and to revise, if necessary, the parental involvement policies.
- F. Involve parents in the activities of the schools served through Title I.

IV. DEVELOPMENT OF SCHOOL LEVEL POLICY

Each Title I target school shall jointly develop with, and distribute to, parents of participating children a written parental involvement policy agreeing with requirements of the district parental involvement policy. (If the target school has a parental involvement policy that applies to all parents, this policy may be amended to meet the requirements.) Parents shall be notified about the policy in an understandable and uniform format and, to the extent practicable, in a language the parents can understand. The policy shall be made available to the local community and updated periodically to meet the changing needs of parents and the school.

- A. The policy will describe the means by which each school with a Title I program will:
 - 1. Convene an annual parent meeting, at a convenient time, to which all parents of participating children shall be invited and encouraged to attend, to inform parents of their school's participation in Title I, to explain the requirements and to inform parents of their right to be involved.
 - 2. Offer a flexible number of alternative meetings and funds (provided through Title I) for transportation, child care or home visits as such services relate to parental involvement.
 - 3. Involve parents in an organized, ongoing and timely way in the planning, review and implementation of school-based Title I programs.
 - 4. Provide parents of participating children with:

 - c. If requested by parents, opportunities for regular meetings to formulate suggestions and to participate, as appropriate, in decisions relating to the education of their children, and respond to any such suggestions as soon as practicably possible.
5. Jointly develop the school-parent compact (as described in federal law) that outlines how parents, the entire school staff and students will share the responsibility for improved student achievement and the means by which the school and parents will build and develop a partnership to help children achieve the state's high standards. The compact shall do the following:
 - a. Describe the school's responsibility to provide high quality curriculum and instruction in a supportive and effective learning environment that enables the children served under this part to meet the state's student academic achievement standards.
 - b. Describe the ways in which each parent will be responsible for supporting their children's learning, such as monitoring attendance, homework completion and television watching; volunteering in their child's classroom and participating, as appropriate, in decisions relating to the education of their children and positive use of extracurricular time.
 - c. Address the importance of communication between teachers and parents on an ongoing basis through, at a minimum:
 1. Parent-teacher conferences in elementary schools, at least annually, during which the compact shall be discussed as it relates to the individual child's achievement.
 2. Frequent reports to parents on their children's progress.
 3. Reasonable access to staff, opportunities to volunteer and participate in their child's class and observation of classroom activities.
 4. Ensuring regular two-way, meaningful communication between family members and school staff and, to the extent practicable, in a language that family members can understand.

7. Provide materials and training to help parents work with their children to improve their children's achievement, such as literacy training and technology, as appropriate, to foster parental involvement.
8. Educate teachers, pupil services personnel, principals and other staff, with the assistance of parents, in the value and utility of contributions of parents, and in how to reach out to, communicate and work with parents as

equal partners, implement and coordinate parent programs, and build ties between parents and the school.

9. To the extent feasible and appropriate, coordinate and integrate parent involvement programs and activities with Head Start, Reading First, Early Reading First, Even Start, the home instruction programs for preschool youngsters, the Parents as Teachers Program, and public preschool and other programs, and conduct other activities such as parent resource centers that encourage and support parents to more fully participate in the education of their children.
 10. Develop appropriate roles for community-based organizations and businesses in parent involvement activities.
 11. Conduct other activities, such as parent resource centers and providing opportunities to learn about child development and child rearing issues (such as Community Education activities).
 12. To the extent practicable, ensure information sent home is in the language used in the home.
 13. Ensure parents with limited English proficiency or disabilities have access to parent involvement activities.
 14. May involve parents in the development of training for teachers, principals and other educators to improve the effectiveness of such training.
 15. May provide necessary literacy training from Title I funds if all other reasonably available sources of funding for such training have been exhausted.

Policy 615 TESTING ACCOMMODATIONS, MODIFICATIONS, AND EXEMPTIONS FOR IEPs, SECTION 504 PLANS, AND LEP STUDENTS

I. PURPOSE

The purpose of the policy is to provide adequate opportunity for Northfield School District students identified as having individualized education program (IEP), Rehabilitation Act of 1973, Section 504 accommodation plan (504 plan), or English Learner (EL) needs to participate in statewide assessment systems designed to hold schools accountable for the academic performance of all students.

II. GENERAL STATEMENT OF POLICY

A. Minnesota Test of Academic Skills (MTAS)

1. The school district will utilize the existing annual review of IEPs or 504 plans to review, on a case-by-case basis, and determine how a student with a disability will participate in statewide testing.
2. Participation decisions will be made separately for mathematics, reading, and science. The assessment options are the Minnesota Comprehensive Assessment (MCA) and the MTAS.
3. Eligibility Requirements
 - a. The following requirements must be met for a student with a significant cognitive disability to be eligible for the MTAS:
 - (1) The IEP team must consider the student's ability to access the MCA, with or without accommodations;
 - (2) The IEP must review the student's instructional program to ensure that the student is receiving instruction linked to the general education curriculum to the extent appropriate. If instruction is not linked to the general education curriculum, the IEP team must review the student's goals and determine how access to the general curriculum will be provided;
 - (3) The IEP team determined the student's cognitive functioning to be significantly below age expectations. The team also determined that the student's disability has a significant impact on his or her ability to function in multiple environments, including home, school, and community;
 - (4) The IEP team determined that the student needs explicit and intensive instruction and/or extensive supports in multiple settings to acquire, maintain, and generalize academic and life skills in order to actively participate in school, work, home, and community environments;
 - (5) The IEP team must document, in the IEP, reasons the MCA is or is not an appropriate measure of the student's

academic progress and how the student would participate in statewide testing.

b. MTAS participation decisions must not be made on the following factors:

- (1) Student's disability category.
- (2) Placement.
- (3) Participation in a separate, specialized curriculum.
- (4) An expectation that the student will receive a low score on the MCA.
- (5) Language, social, cultural, or economic differences.
- (6) Concern for accountability calculations.

B. Alternate ACCESS for ELs

1. The school district will utilize the existing annual review of IEPs or 504 plans to review, on a case-by-case basis, and determine how an identified EL student with a disability will participate in statewide testing.

2. Eligibility Requirements

- a. The student must be identified as EL in MARSS in order to take an English language proficiency assessment.
- b. The student must have a significant cognitive disability. If the student has been identified as eligible to take the MTAS in mathematics, reading, or science, the student meets this criterion.
- c. For students in grades that the MTAS is not administered:
 - (1) the student must have cognitive functioning significantly below age level;
 - (2) the student's disability must have a significant impact on his or her ability to function in multiple environments, including home, school, and community; and
 - (3) the student needs explicit and intensive instruction and/or extensive supports in multiple settings to acquire, maintain, and generalize academic and life skills in order to actively participate in school, work, home, and community environments.

- C. “Advisory committee” is Northfield Forward. Northfield Forward includes a variety of district stakeholders and meets four times every year. Northfield Forward is positioned as the district’s “critical friend” and provides feedback on the strategic plan, World’s Best Workforce report, building goals and results, and Professional Learning Communities’ goals and results.

The goals shall be reviewed annually and approved by the school board.

2. The Advisory Committee is established by the board to ensure active community participation in planning and improving the instruction and curriculum affecting state and district academic standards.
3. The school district-wide improvement goals should address recommendations identified through the Advisory Committee process. The district's goal setting process will include consideration of individual site goals. District goals may also be developed through an education effectiveness program or through some other locally determined process.

B. ***System for Reviewing Curriculum and Instruction***

Incorporated in the process will be analysis of the district's progress toward implementation of the Minnesota academic standards. C. ***Implementation of Graduation Requirements***

The educational assessment system component utilized by the board to measure individual students' educational progress must be based, to the extent annual tests are administered, on indicators of current achievement that show growth relative to an individual student's prior achievement. Indicators of achievement and prior achievement must be based on highly reliable statewide or districtwide assessments. The board will utilize models developed by the Commissioner for measuring individual student progress. The board must coordinate with MDE in evaluating school sites and continuous improvement plans, consistent with best practices.

D. ***Comprehensive Continuous Improvement of Student Achievement***

The advisory committee shall ensure active community participation and shall reflect the diversity of the community. To the extent possible, the advisory committee shall reflect the diversity of the district and its school sites and include teachers, parents, support staff, students, and other community residents.

E. ***Evaluation of Student Progress Committee***

A committee of professional staff shall develop a plan for assessment of student progress, the Graduation Standards, as well as program evaluation data for use by the Advisory Committee to review instruction and curriculum, cultural competencies, including cultural awareness and cross-cultural communication, and student achievement at the school site. This plan shall annually be approved by the board.

F. Translation services should be provided to the extent appropriate and practicable.

G. ***Reporting***

1. Consistent with Minnesota Statutes 120B.36, Subd. 1, the board shall publish a report in the local newspaper with the largest circulation in the district, by mail, or by electronic means on the district website. The

board shall hold an annual public meeting to review and revise, where appropriate, student achievement goals, local assessment outcomes, plans, strategies, and practices for improving curriculum and instruction and cultural competency and efforts to equitably distribute diverse, effective, experienced, and in-field teachers, and to review district success in realizing the previously adopted student achievement goals and related benchmarks and the improvement plans leading to the comprehensive achievement and civic readiness. The board must transmit an electronic summary of its report to the commissioner in the form and manner the commissioner determines. The district shall periodically survey affected constituencies in their native languages, where appropriate and practicable, about their connection to and level of satisfaction with school. The district shall include the results of this evaluation in its summary report to the commissioner.

2. The school performance report for a school site and a school district must include performance reporting information and calculate proficiency rates as required by the most recently reauthorized Elementary and Secondary Education Act.
3. The district must annually report the district's class size ratios by each grade to the commissioner of education in the form and manner specified by the commissioner.
4. The district must report whether programs funded with compensatory revenue are consistent with best practices demonstrated to improve student achievement.

Policy 620 CREDIT FOR LEARNING

I. PURPOSE

This policy recognizes student achievement that occurs in postsecondary enrollment options and other advanced enrichment programs. This policy also recognizes student achievement that occurs in other schools, in alternative learning sites, and in out-of-school experiences such as community organizations, work-based learning, and other educational activities and opportunities. This policy addresses transfer of student credit from out-of-state, private, or home schools and online learning programs and to address how the Northfield School District will recognize student achievement obtained outside of the school district.

II. GENERAL STATEMENT OF POLICY

The policy of the district is to provide a process for awarding students credit toward graduation requirements for credits and grades students complete in other schools, postsecondary or higher education institutions, other learning environments, and online courses and programs.

III. DEFINITIONS

- A. “Accredited school” means a school that is accredited by an accrediting agency, recognized according to Minnesota Statutes, section 123B.445 or recognized by the Commissioner of the Minnesota Department of Education (Commissioner).
- B. "Concurrent enrollment" means nonsectarian courses in which an eligible pupil under Minnesota Statutes, section 124D.095, subdivision 5 or 5b, enrolls to earn both secondary and postsecondary credits, are taught by a secondary teacher or a postsecondary faculty member, and are offered at a high school for which the district is eligible to receive concurrent enrollment program aid under Minnesota Statutes, section 124D.091.
- C. “Course” means a course or program.
- D. “Eligible institution” means a Minnesota public postsecondary institution, a private, nonprofit two-year trade and technical school granting associate degrees, an opportunities industrialization center accredited by an accreditor recognized by the United States Department of Education, or a private, residential, two-year or four-year, liberal arts, degree-granting college or university located in Minnesota.
- E. “Nonpublic school” is a private school or home school in which a child is provided instruction in compliance with the Minnesota compulsory attendance laws.
- F. “Weighted grade” is a letter or numerical grade that is assigned a numerical advantage when calculating the grade point average.

IV. TRANSFER OF CREDIT FROM OTHER SCHOOLS

- A. A student must provide the district with a copy of the student’s grades in each

course taken for secondary credit under this policy, including interim or nonfinal grades earned during the academic term.

V. POST-SECONDARY ENROLLMENT CREDIT

- A. A student who satisfactorily completes a postsecondary enrollment options course or program under Minnesota Statutes, section 124D.09 that has been approved as meeting the necessary requirements is not required to complete other requirements of the academic standards corresponding to that specific rigorous course of study.
- B. Secondary credits granted to a student through a post-secondary enrollment options course or program must be counted toward the graduation requirements and subject area requirements of the district.
 - 1. Course credit will be considered by the district only upon presentation of a certified transcript from an eligible institution evidencing the course taken and the grade and credit awarded.
 - 2. Seven quarter or four semester postsecondary credits shall equal at least one full year of high school credit. Fewer postsecondary credits may be prorated.
 - 3. When a determination is made that the content of the postsecondary course aligns directly with a required course for high school graduation, the commensurate credit and grade will be recorded on the student's transcript as a course credit applied toward graduation requirements.
 - 4. In the event the content of the postsecondary course does not fully align with the content of a high school course required for graduation but is comparable to elective credits offered by the school district for graduation, the school district may provide elective credit and the grade will be recorded on the student's transcript as an elective course credit applied toward graduation requirements.
 - 5. If no comparable course is offered by the district for which high school graduation credit would be provided, the school district will notify the Commissioner, who shall determine the number of credits that shall be granted to a student.
 - 6. When secondary credit is granted for postsecondary credits taken by a student, the district will record those credits on the student's transcript as credits earned at a postsecondary institution.
- C. A list of the courses or programs meeting the necessary requirements may be obtained from the district.
- D. By the earlier of (1) three weeks prior to the date by which a student must register for district courses for the following school year, or (2) March 1 of each year, the district must provide up-to-date information on the district's website and in materials that are distributed to parents and students about the program, including

information about enrollment requirements and the ability to earn postsecondary credit to all pupils in grades 8, 9, 10, and 11.

VI. CREDIT FOR EMPLOYMENT WITH HEALTH CARE PROVIDERS

Consistent with the career and technical pathways program, a student in grade 11 or 12 who is employed by an institutional long-term care or licensed assisted living facility, a home and community-based services and supports provider, a hospital or health system clinic, or a child care center may earn up to two elective credits each year toward graduation under Minnesota Statutes, section 120B.024, subdivision 1, paragraph (a), clause (7), at the discretion of the enrolling school district. A student may earn one elective credit for every 350 hours worked, including hours worked during the summer. A student who is employed by an eligible employer must submit an application, in the form or manner required by the school district, for elective credit to the school district in order to receive elective credit. The district must verify the hours worked with the employer before awarding elective credit.

Policy 621 LITERACY AND THE READ ACT

I. PURPOSE

This policy aligns with Minnesota law established in the Read Act and on other topics related to reading for the Northfield School District.

II. GENERAL STATEMENT OF POLICY

The district recognizes the centrality of reading in a student's educational experience.

III. DEFINITIONS

- A. "Evidence-based" means the instruction or item described is based on reliable, trustworthy, and valid evidence and has demonstrated a record of success in increasing students' reading competency in the areas of phonological and phonemic awareness, phonics, vocabulary development, reading fluency, and reading comprehension. Evidence-based literacy instruction is explicit, systematic, and includes phonological and phonemic awareness, phonics and decoding, spelling, fluency, vocabulary, oral language, and comprehension that can be differentiated to meet the needs of individual students. Evidence-based instruction does not include the three-cueing system, as defined in subdivision 16.
- B. "Fluency" means the ability of students to read text accurately, automatically, and with proper expression.
- C. "Foundational reading skills" includes phonological and phonemic awareness, phonics and decoding, and fluency. Foundational reading skills appropriate to each grade level must be mastered in kindergarten, grade 1, grade 2, and grade 3. Struggling readers in grades 4 and above who do not demonstrate mastery of grade-level foundational reading skills must continue to receive explicit, systematic instruction to reach mastery.
- D. "Literacy specialist" means a person licensed by the Professional Educator Licensing and Standards Board as a teacher of reading, a special education teacher, or a kindergarten through grade 6 teacher, who has completed professional development approved by the Minnesota Department of Education (MDE) in structured literacy. A literacy specialist employed by the department under Minnesota Statutes, section 120B.123, subdivision 7, or by a district as a literacy lead, is not required to complete the approved training before August 30, 2025.
- E. "Literacy lead" means a literacy specialist with expertise in working with educators as adult learners. A district literacy lead must support the district's implementation of the Read Act; provide support to school-based coaches; support the implementation of structured literacy, interventions, curriculum delivery, and teacher training; assist with the development of personal learning plans; and train paraprofessionals and other support staff to support classroom literacy instruction. A literacy lead may be employed

by one district, jointly by two or more districts, or may provide services to districts through a partnership with the regional service cooperatives or another district.

- F. "Multi Tiered system of support" or "MTSS" means a systemic, continuous improvement framework for ensuring positive social, emotional, behavioral, developmental, and academic outcomes for every student. The MTSS framework provides access to layered tiers of culturally and linguistically responsive, evidence-based practices and relies on the understanding and belief that every student can learn and thrive. Through a MTSS at the core (Tier 1), supplemental (Tier 2), and intensive (Tier 3) levels, educators provide high quality, evidence-based instruction and intervention that is matched to a student's needs; progress is monitored to inform instruction and set goals and data is used for educational decision making.
- G. "Oral language," also called "spoken language," includes speaking and listening, and consists of five components: phonology, morphology, syntax, semantics, and pragmatics.
- H. "Phonemic awareness" means the ability to notice, think about, and manipulate individual sounds in spoken syllables and words.
- I. "Phonics instruction" means the explicit, systematic, and direct instruction of the relationships between letters and the sounds they represent and the application of this knowledge in reading and spelling.
- J. "Progress monitoring" means using data collected to inform whether interventions are working. Progress monitoring involves ongoing monitoring of progress that quantifies rates of improvement and informs instructional practice and the development of individualized programs using state-approved screening that is reliable and valid for the intended purpose.
- K. "Reading comprehension" means a function of word recognition skills and language comprehension skills. It is an active process that requires intentional thinking during which meaning is constructed through interactions between the text and reader. Comprehension skills are taught explicitly by demonstrating, explaining, modeling, and implementing specific cognitive strategies to help beginning readers derive meaning through intentional, problem-solving thinking processes.
- L. "Structured literacy" means an approach to reading instruction in which teachers carefully structure important literacy skills, concepts, and the sequence of instruction to facilitate children's literacy learning and progress. Structured literacy is characterized by the provision of systematic, explicit, sequential, and diagnostic instruction in phonemic awareness, phonics, fluency, vocabulary and oral language development, and reading comprehension.

- M. "Three-cueing system," also known as "meaning structure visual (MSV)," means a method that teaches students to use meaning, structure and syntax, and visual cues when attempting to read an unknown word.
- N. "Vocabulary development" means the process of acquiring new words. A robust vocabulary improves all areas of communication, including listening, speaking, reading, and writing. Vocabulary growth is directly related to school achievement and is a strong predictor for reading success.

IV. READING SCREENER; PARENT NOTIFICATION AND INVOLVEMENT

- A. The district must administer an approved evidence-based reading screener to students in kindergarten through grade 3 within the first six weeks of the school year, and again within the last six weeks of the school year. The screener must be one of the screening tools approved by MDE.
- B. The district must identify any screener it uses in the district's annual literacy plan, and submit screening data with the annual literacy plan by June 15.
- C. Schools, at least biannually after administering each screener, must give the parent of each student who is not reading at or above grade level timely information about:
 - 1. The student's reading proficiency as measured by a screener approved by MDE.
 - 2. Reading-related services currently being provided to the student and the student's progress.
 - 3. Strategies for parents to use at home in helping their student succeed in becoming grade-level proficient in reading in English and in their native language.
- D. The district may not use this section to deny a student's right to a special education evaluation.

V. IDENTIFICATION AND REPORT

- A. Students enrolled in kindergarten, grade 1, grade 2, and grade 3, including multilingual learners and students receiving special education services, must be universally screened for mastery of foundational reading skills, including phonemic awareness, phonics, decoding, fluency, oral language, and for characteristics of dyslexia as measured by a screening tool approved by MDE. The screening for characteristics of dyslexia may be integrated with universal screening for mastery of foundational skills and oral language.
- B. The district must submit data on student performance in kindergarten, grade 1, grade 2, and grade 3 on foundational reading skills, including phonemic awareness, phonics, decoding, fluency, and oral language to MDE in the annual local literacy plan submission due on June 15.

- C. Students in grades 4 and above, including multilingual learners and students receiving special education services, who do not demonstrate mastery of foundational reading skills, including phonemic awareness, phonics, decoding, fluency, and oral language, must be screened using a screening tool approved by MDE for characteristics of dyslexia and must continue to receive evidence-based instruction, interventions, and progress monitoring until the students achieve grade-level proficiency. A parent, in consultation with a teacher, may opt a student out of the literacy screener if the parent and teacher decide that continuing to screen would not be beneficial to the student. In such limited cases, the student must continue to receive progress monitoring and literacy interventions.
- D. Reading screeners in English, and in the predominant languages of school district students where practicable, must identify and evaluate students' areas of academic need related to literacy. The school district also must monitor the progress and provide reading instruction appropriate to the specific needs of multilingual learners. The school district must use an approved, developmentally appropriate, and culturally responsive screener and annually report summary screener results to the MDE Commissioner by June 15 in the form and manner determined by the Commissioner.
- E. The district must include in its literacy plan a summary of the district's efforts to screen, identify, and provide interventions to students who demonstrate characteristics of dyslexia as measured by a screening tool approved by MDE. With respect to students screened or identified under paragraph (a), the report must include:
 - 1. A summary of the school district's efforts to screen for dyslexia.
 - 2. The number of students universally screened for that reporting year.
 - 3. The number of students demonstrating characteristics of dyslexia for that year.
 - 4. An explanation of how students identified under this subdivision are provided with alternate instruction and interventions under Minnesota Statutes, section 125A.56, subdivision 1.

VI. INTERVENTION

- A. For each student identified under the screening identification process, the district shall provide reading intervention to accelerate student growth and reach the goal of reading at or above grade level by the end of the current grade and school year.
- B. The district must implement progress monitoring, as defined in Minnesota Statutes, section 120B.119, for a student not reading at grade level.
- C. The district must use evidence-based curriculum and intervention materials at each grade level that are designed to ensure student mastery of

phonemic awareness, phonics, vocabulary development, reading fluency, and reading comprehension. Starting July 1, 2023, if the district purchases new literacy curriculum, or literacy intervention or supplementary materials, the curriculum or materials must be evidence-based as defined in Minnesota Statutes, section 120B.119.

- D. If a student does not read at or above grade level by the end of the current school year, the district must continue to provide reading intervention until the student reads at grade level. District intervention methods shall encourage family engagement and, where possible, collaboration with appropriate school and community programs that specialize in evidence-based instructional practices and measure mastery of foundational reading skills, including phonemic awareness, phonics, decoding, fluency, and oral language.
- E. By the 2025-2026 school year, intervention programs must be taught by an intervention teacher or special education teacher who has successfully completed training in evidence-based reading instruction approved by MDE. Intervention may include but is not limited to requiring student attendance in summer school, intensified reading instruction that may require that the student be removed from the regular classroom for part of the school day, extended-day programs, or programs that strengthen students' cultural connections.
- F. The district must determine the format of the personal learning plan in collaboration with the student's educators and other appropriate professionals. The school must develop the learning plan in consultation with the student's parent or guardian. The personal learning plan must include targeted instruction that is evidence-based and ongoing progress monitoring, and address knowledge gaps and skill deficiencies through strategies such as specific exercises and practices during and outside of the regular school day, group interventions, periodic assessments or screeners, and reasonable timelines. The personal learning plan may include grade retention, if it is in the student's best interest; a student may not be retained solely due to delays in literacy or not demonstrating grade-level proficiency. A school must maintain and regularly update and modify the personal learning plan until the student reads at grade level. This paragraph does not apply to a student under an individualized education program.

VII. LOCAL LITERACY PLAN

- A. The district must adopt a local literacy plan to have every child reading at or above grade level every year beginning in kindergarten and to support multilingual learners and students receiving special education services in achieving their individualized reading goals. The district must update and submit the plan to the Commissioner by June 15 each year. The plan must be consistent with the Read Act, and include the following:
 - 1. A process to assess students' foundational reading skills, oral language, and level of reading proficiency and the screeners used,

by school site and grade level, under Minnesota Statutes, section 120B.123.

2. A process to notify and involve parents/guardians.
 3. A description of how schools in the district will determine the targeted reading instruction that is evidence-based and includes an intervention strategy for a student and the process for intensifying or modifying the reading strategy in order to obtain measurable reading progress.
 4. Evidence-based intervention methods for students who are not reading at or above grade level and progress monitoring to provide information on the effectiveness of the intervention.
 5. Identification of staff development needs, including a plan to meet those needs.
 6. The curricula used by school site and grade level.
 7. A statement of whether the district has adopted an MTSS framework.
 8. Student data using the measures of foundational literacy skills and mastery identified by MDE for the following students:
 - a. In kindergarten through grade 3.
 - b. Who demonstrate characteristics of dyslexia.
 - c. Students in grades 4 to 12 who are identified as not reading at grade level.
 9. The number of teachers and other staff that have completed training approved by the department.
- B. The district must post its literacy plan on the district website and submit it to the Commissioner using the template developed by the Commissioner beginning June 15, 2024.

VIII. STAFF TRAINING

- A. Beginning July 1, 2024, a district must provide access to the training required under Minnesota Statutes, section 120B.123, subdivision 5, to:
1. Intervention teachers working with students in kindergarten through grade 12.
 2. All classroom teachers of students in kindergarten through grade 3 and children in prekindergarten programs.
 3. Special education teachers.
 4. Curriculum directors.

5. Instructional support staff who provide reading instruction.
 6. Employees who select literacy instructional materials for a district.
- B. The district must provide training from a menu of approved evidence-based training programs to all reading intervention teachers, literacy specialists, and other teachers and staff identified in Minnesota Statutes, section 120B.12, subdivision 1, paragraph (b), by July 1, 2025; and by July 1, 2027, to other teachers in the school district, prioritizing teachers who work with students with disabilities, English learners, and students who qualify for the graduation incentives program under Minnesota Statutes, section 124D.68. The Commissioner may grant a school district an extension to these deadlines.
- C. By August 30, 2025, the district must employ or contract with a literacy lead, or be actively supporting a designated literacy specialist through the process of becoming a literacy lead. The board may satisfy the requirements of this subdivision by contracting with another school board or cooperative unit under Minnesota Statutes, section 123A.24 for the services of a literacy lead by August 30, 2025. The district literacy lead must collaborate with school district administrators and staff to support the district's implementation of requirements under the Read Act.

IX. STAFF DEVELOPMENT

- A. The district must provide training programs on evidence-based reading instruction to teachers and instructional staff in accordance with subdivision 1, paragraph (b). The training must include teaching in the areas of phonemic awareness, phonics, vocabulary development, reading fluency, reading comprehension, and culturally and linguistically responsive pedagogy.
- B. The district shall use the data under Article V. above to identify the staff development needs so that:
1. Elementary teachers are able to implement explicit, systematic, evidence-based instruction in the five reading areas of phonemic awareness, phonics, fluency, vocabulary, and comprehension with emphasis on mastery of foundational reading skills as defined in Minnesota Statutes, section 120B.119 and other literacy-related areas including writing until the student achieves grade-level reading and writing proficiency.
 2. Elementary teachers have sufficient training to provide students with evidence-based reading and oral language instruction that meets students' developmental, linguistic, and literacy needs using the intervention methods or programs selected by the district for the identified students.
 3. Licensed teachers employed by the district have regular opportunities to improve reading and writing instruction.

4. Licensed teachers recognize students' diverse needs in cross-cultural settings and are able to serve the oral language and linguistic needs of students who are multilingual learners by maximizing strengths in their native languages in order to cultivate students' English language development, including oral academic language development, and build academic literacy.
 5. Licensed teachers are well trained in culturally responsive pedagogy that enables students to master content, develop skills to access content, and build relationships.
- C. The district must provide staff in early childhood programs sufficient training to provide children in early childhood programs with explicit, systematic instruction in phonological and phonemic awareness; oral language, including listening comprehension; vocabulary; and letter-sound correspondence.

X. LITERACY INCENTIVE AID USES

The district must use its literacy incentive aid to support implementation of evidence-based reading instruction. The following are eligible uses of literacy incentive aid:

1. Training for kindergarten through grade 3 teachers, early childhood educators, special education teachers, reading intervention teachers working with students in kindergarten through grade 12, curriculum directors, and instructional support staff that provide reading instruction, on using evidence-based screening and progress monitoring tools.
2. Evidence-based training using a training program approved by MDE.
3. Employing or contracting with a literacy lead, as defined in Minnesota Statutes, section 120B.119.
4. Materials, training, and ongoing coaching to ensure reading interventions under Minnesota Statutes, section 125A.56, subdivision 1, are evidence-based; and costs of substitute teachers to allow teachers to complete required training during the teachers' contract day.

Policy 655 SCHOOL VOLUNTEERS

I. PURPOSE

Volunteers are a valuable resource to the Northfield School District in assisting with and/or enhancing the educational experience for our students. They are an important and welcome part of the educational process.

II. GENERAL STATEMENT OF POLICY

Volunteers are an integral part of the district's success. District departments and schools will recruit and schedule volunteers as needed. School staff who wish to bring in a volunteer must receive prior approval of the principal, building administrator or relevant district administrator.

School volunteers are expected to meet the same high standards of conduct as school staff in their interactions with students and adults in the schools and must pass an annual volunteer background check. It shall be the supervising administrator's responsibility to monitor all volunteers in the building and to assess their effectiveness. The supervising administrator may shift or discontinue a volunteer when, in their opinion, the volunteer is not contributing positively to the educational experience of students.

Policy 701 ESTABLISHMENT, ADOPTION AND MODIFICATION OF SCHOOL DISTRICT BUDGET

I. PURPOSE

The purpose of this policy is to establish lines of authority and procedures for the establishment of Northfield Public Schools' revenue and expenditure budgets.

II. GENERAL STATEMENT OF POLICY

Budget planning is an integral part of program planning. The annual budget will effectively express and implement school board goals and the priorities of the school district. The school district shall establish its revenue and expenditure budgets in accordance with the applicable provisions of law.

III. REQUIREMENT

- A. The superintendent or designee shall each year prepare preliminary revenue and expenditure budgets for review by the school board or its designated committee or committees. The superintendent or designee shall annually prepare a budget development calendar for review and adoption by the school board. The preliminary budgets shall be accompanied by such written commentary as may be necessary for them to be clearly understood by the members of the school board and the public. The school board shall review the projected revenues and expenditures for the school district for the next fiscal year and make such adjustments in the expenditure budget as necessary to carry out the education program within the revenues projected. When projected expenditures exceed projected revenues, the school board may consider use of an available fund balance, if one exists.
- B. The school district must maintain separate accounts to identify revenues and expenditures for each building. Expenditures shall be reported in compliance with state statutes.
- C. Prior to July 1 of each year, the school board shall approve and adopt its initial revenue and expenditure budgets for the next school year. The adopted expenditure budget document shall be considered the school board's expenditure authorization for that school year. No funds may be expended for any purpose in any school year prior to the adoption of the budget document which authorizes that expenditure for that year, or prior to the adoption of an amendment to that budget document by the school board to authorize that expenditure for that year.
- D. Each year, the school district shall publish its adopted revenue and expenditure budgets for the current year, the actual revenues, expenditures, and fund balances for the prior year, and the projected fund balances for the current year in the form prescribed by the Commissioner of the Minnesota Department of Education (Commissioner) within one week of the acceptance of the final audit by the school board, or November 30, whichever is earlier. A statement shall be included in the publication that, upon request to the superintendent, the complete budget in detail may be inspected by any resident of the school district. A summary of this information and the address of the school district's website where the information can be found must be published in a newspaper of general circulation in the school district. At the same time as this publication, the school district

shall publish the other information required by state statutes.

- E. At the public hearing on the adoption of the school district's proposed property tax levy, the school board shall review its current budget and the proposed property taxes payable in the following calendar year.
- F. The school district shall also post the materials specified in Paragraph III.D. above on the school district's official website, including a link to the school district's school report card on the Minnesota Department of Education's website, and publish a summary of information and the address of the school district's website where the information can be found in a qualified newspaper of general circulation in the district.

IV. IMPLEMENTATION

- A. The school board places the responsibility for administering the adopted budget with the superintendent. The superintendent may delegate duties related thereto to other school officials, but the superintendent maintains the ultimate responsibility for this function.
- B. The program-oriented budgeting system will be supported by a program-oriented accounting structure organized and operated on a fund basis as provided for in Minnesota statutes through the Uniform Financial Accounting and Reporting Standards for Minnesota School Districts (UFARS).
- C. The superintendent or their designee is authorized to make payments of claims or salaries authorized by the adopted or amended budget prior to school board approval.
- D. Supplies and capital equipment can be ordered prior to budget adoption only by authority of the school board. If additional personnel are provided in the proposed budget, actual hiring may not occur until the budget is adopted unless otherwise approved by the school board. Other funds to be expended in a subsequent school year may not be encumbered prior to budget adoption unless specifically approved by the school board.
- E. The school district shall make such reports to the Commissioner as required relating to initial allocations of revenue, reallocations of revenue and expenditures of funds.

V. MODIFICATION

- A. If revisions or modifications in the adopted expenditure budget are determined to be advisable by the administration, the superintendent shall recommend the proposed changes to the school board. The proposed changes shall be accompanied by sufficient and appropriate background information on the revenue and policy issues involved to allow the school board to make an informed decision.
- B. If sufficient funds are not included in the expenditure budget in a particular fund to allow the proposed expenditure, funds for this purpose may not be expended from that fund prior to the adoption of an expenditure budget amendment by the school board to authorize that expenditure for that school year. An amended expenditure shall not exceed the projected revenues available for that purpose in that fund.
- C. The school district's revenue budget shall be amended from time to time during a fiscal year to reflect updated or revised revenue estimates. The superintendent shall make

recommendations to the school board for appropriate revisions. If necessary, the school board shall also make necessary revisions in the expenditure budget if it appears that expenditures would otherwise exceed revenues and fund balances in a fund.

705 INVESTMENTS

I. PURPOSE

The purpose of this policy is to establish guidelines for the investment of Northfield Public Schools' funds.

II. GENERAL STATEMENT OF POLICY

It is the policy of this school district to comply with all state laws relating to investments and to guarantee that investments meet certain primary criteria. This policy applies to all investments of the surplus funds of the school district, regardless of the fund accounts in which they are maintained, unless certain investments are specifically exempted by the school board through formal action.

III. AUTHORITY

- A. The funds of the school district shall be deposited or invested in accordance with this policy, Minnesota statutes and any other applicable state or federal law or administrative rules.
- B. The primary criteria for the investment of the funds of the school district, in priority order, are as follows
 - 1. Safety and Security. Safety of principal is the first priority. The investments of the school district shall be undertaken in a manner that seeks to ensure the preservation of the capital in the overall investment portfolio.
 - 2. Liquidity. The funds shall be invested to assure that funds are available to meet immediate payment requirements, including payroll, accounts payable and debt service.
 - 3. Return and Yield. The investments shall be managed in a manner to attain a market rate of return through various economic and budgetary cycles, while preserving and protecting the capital in the investment portfolio and taking into account constraints on risk and cash flow requirements.

IV. RESPONSIBILITIES

- A. The Director of Finance of the school district is designated as the investment officer of the school district and is responsible for investment decisions and activities under the direction of the school board. The investment officer shall operate the school district's investment program consistent with this policy. While the investment officer may delegate certain duties to a designee or designees, the investment officer shall remain responsible for the operation of the

program.

- B. All officials and employees that are a part of the investment process shall act professionally and responsibly as custodians of the public trust, and shall refrain from personal business activity that could conflict with the investment program or which could reasonably cause others to question the process and integrity of the investment program.
- C. The investment officer shall exercise that degree of judgment and care, under the circumstances then prevailing, that persons of prudence, discretion and intelligence would exercise in the management of their own affairs, investing not for speculation and considering the probable safety of their capital as well as the probable investment return to be derived from their assets. The investment officer, acting in accordance with this policy shall not be held personally responsible for a specific security's performance or for market price changes. Deviations from expectations shall be reported in a timely manner and appropriate actions shall be taken to control adverse developments.
- D. The investment officer shall routinely monitor existing investments and the contents of the school district's investment portfolio, the available markets and the relative value of competing investment instruments.
- E. The investment officer shall establish a system of internal controls which shall be documented in writing. The internal controls shall be designed to prevent and control losses of public funds due to fraud, error, misrepresentation, unanticipated market changes or imprudent actions by officers, employees or others.

V. INVESTMENTS

- A. The school district may invest its available funds in those instruments permitted under Minnesota statutes or any other law governing the investment of school district funds.
- B. Limitations on instruments, diversification and maturity scheduling shall depend on whether the funds being invested are considered short-term or long-term funds. All funds shall normally be considered short-term except those reserved for building construction projects or specific future projects and any unreserved funds used to provide financial-related managerial flexibility for future fiscal years.
- C. The school district shall diversify its investments to avoid incurring unreasonable risks inherent in over-investing in specific instruments, individual financial institutions or maturities.
- D. Investment maturities shall be scheduled to coincide with projected school district cash flow needs, taking into account large routine or scheduled expenditures, as well as anticipated receipt dates of anticipated revenues. Maturities for short-term

and long-term investments shall be timed according to anticipated need. Within those parameters, portfolio maturities shall be staggered to avoid undue concentration of assets and a specific maturity sector. The maturities selected shall provide for stability of income and reasonable liquidity.

- E. A competitive bid or quotation process shall be utilized before the school district invests any surplus funds in a specific investment instrument. Records will be kept of the quotations or bids received. If the school district contracts with an investment advisor, bids are not required in those circumstances specified in the contract with the advisor.

VI. QUALIFIED INSTITUTIONS AND BROKER-DEALERS

- A. The school district shall maintain a list of the financial institutions that are approved for investment purposes.
- B. Prior to completing an initial transaction with a broker, the school district shall provide to the broker a written statement of investment restrictions which shall include a provision that all future investments are to be made in accordance with Minnesota statutes governing the investment of public funds. The broker must annually acknowledge receipt of the statement of investment restrictions and agree to handle the school district's account in accordance with these restrictions. The school district may not enter into a transaction with a broker until the broker has provided this annual written agreement to the school district. The notification form to be used shall be that prepared by the State Auditor. A copy of this investment policy, including any amendments thereto, shall be provided to each such broker.

VII. SAFEKEEPING AND COLLATERALIZATION

- A. All investment securities purchased by the school district shall be held in third-party safekeeping by an institution designated as custodial agent. The custodial agent may be any federal reserve bank, any bank authorized under the laws of the United States or any state to exercise corporate trust powers, a primary reporting dealer in United States Government securities to the Federal Reserve Bank of New York, or a securities broker-dealer defined in Minnesota Statutes section 118A.06. The institution or dealer shall issue a safekeeping receipt to the school district listing the specific instrument, the name of the issuer, the name in which the security is held, the rate, the maturity, serial numbers and other distinguishing marks, and other pertinent information.
- B. Deposit-type securities shall be collateralized as required by Minnesota Statutes section 118A.03 for any amount exceeding FDIC, SAIF, BIF, FCUA, or other federal deposit coverage.
- C. Repurchase agreements shall be secured by the physical delivery or transfer

against payment of the collateral securities to a third party or custodial agent for safekeeping. The school district may accept a safekeeping receipt instead of requiring physical delivery or third-party safekeeping of collateral on overnight repurchase agreements of less than \$1,000,000.

VIII. REPORTING REQUIREMENTS

- A. The investment officer shall generate daily and monthly transaction reports for management purposes. In addition, the school board shall be provided a monthly report that shall include data on investment instruments being held as well as any narrative necessary for clarification.
- B. The investment officer shall establish systems and procedures to comply with applicable federal laws and regulations governing the investment of bond proceeds and funds in a debt service account for a bond issue. The record keeping system shall be reviewed annually by the independent auditor or by another party contracted or designated to review investments for arbitrage rebate or penalty calculation purposes.

IX. DEPOSITORIES

The school board shall annually designate one or more official depositories for school district funds. The treasurer or the chief financial officer of the school district may also exercise the power of the school board to designate a depository. The school board shall be provided notice of any such designation by its next regular meeting. The school district and the depository shall each comply with the provisions of Minn. Stat. § 118A.03 and any other applicable law, including any provisions relating to designation of a depository, qualifying institutions, depository bonds, and approval, deposit, assignment, substitution, addition and withdrawal of collateral.

X. ELECTRONIC FUNDS TRANSFER OF FUNDS FOR INVESTMENT

The school district may make electronic fund transfers for investments of excess funds upon compliance with Minnesota Statutes section 471.38.

Policy 707 TRANSPORTATION OF PUBLIC SCHOOL STUDENTS

I. PURPOSE

The purpose of this policy is to provide for the transportation of students for Northfield Public Schools consistent with the requirements of law.

II. GENERAL STATEMENT OF POLICY

- A. The policy of the school district is to provide for the transportation of students in a manner that will protect their health, welfare and safety.
- B. The district recognizes that transportation is an essential part of the district services to students and parents but further recognizes that transportation by school bus is a privilege and not a right for an eligible student.

III. DEFINITIONS

- A. “Child with a disability” includes every child identified under federal and state special education law as deaf or hard of hearing, blind or visually impaired, deafblind, or having a speech or language impairment, a physical impairment, other health disability, developmental cognitive disability, an emotional or behavioral disorder, specific learning disability, autism spectrum disorder, traumatic brain injury, or severe multiple impairments, and who needs special education and related services, as determined by the rules of the Commissioner of the Minnesota Department of Education (“Commissioner”). A licensed physician, an advanced practice nurse, a physician assistant, or a licensed psychologist is qualified to make a diagnosis and determination of attention deficit disorder or attention deficit hyperactivity disorder for purposes of identifying a child with a disability. In addition, every child under age three, and at the district’s discretion from age three to seven, who needs special instruction and services, as determined by the rules of the Commissioner, because the child has a substantial delay or has an identifiable physical or mental condition known to hinder normal development is a child with a disability. A child with a short-term or temporary physical or emotional illness or disability, as determined by the rules of the Commissioner, is not a child with a disability.
- B. “Home” is the legal residence of the child. In the discretion of the district, “home” also may be defined as a licensed day care facility, school day care facility, a respite care facility, the residence of a relative, or the residence of a person chosen by the student’s parent or guardian as the home of a student for part or all of the day, if requested by the student’s parent or guardian, or an afterschool program for children operated by a political subdivision of the state, if the facility, residence, or program is within the attendance area of the school the student attends. Unless otherwise specifically provided by law, a homeless student is a resident of the district if enrolled in the district.
- C. “Homeless student” means a student, including a migratory student, who lacks a fixed, regular, and adequate nighttime residence and includes: students who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; are abandoned in

hospitals; are awaiting foster care placement; have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings; are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings, and migratory children who qualify as homeless because they are living in any of the preceding listed circumstances.

- D. “Nonpublic school” means any school, church, or religious organization, or home school wherein a resident of Minnesota may legally fulfill the compulsory instruction requirements of Minnesota Statutes section 120A.22, which is located within the state, and which meets the requirements of Title VI of the Civil Rights Act of 1964.
- E. “Nonresident student” is a student who attends school in the Northfield school district and resides in another district, defined as the “nonresident district.” In those instances when the divorced or legally separated parents or parents residing separately share joint physical custody of a student and the parents reside in different districts, the student shall be a resident of the school district designated by the student’s parents. When parental rights have been terminated by court order, the legal residence of a student placed in a residential or foster facility for care and treatment is the district in which the student resides.
- F. “Pupil support services” are health, counseling and guidance services provided by the public school in the same district where the nonpublic school is located.
- G. “School of origin,” for purposes of determining the residence of a homeless student, is the school that the student attended when permanently housed or the school in which the student was last enrolled.
- H. “Shared time basis” is a program where students attend public school for part of the regular school day and who otherwise fulfill the requirements of Minnesota Statutes section 120A.22 by attendance at a nonpublic school.
- I. “Student” means any student or child attending or required to attend any school as provided in Minnesota law and who is a resident or child of a resident of Minnesota.

IV. ELIGIBILITY

- A. Upon the request of a parent or guardian, the district shall provide transportation to and from school, at the expense of the district, for all resident students who reside two miles or more from the school, except for those students whose transportation privileges have been revoked or have been voluntarily surrendered by the student’s parent or guardian.
- B. The district may, in its discretion, also provide transportation to any student to and from school, at the expense of the district, for any other purpose deemed appropriate by the board.
- C. Walk Areas and Bus Stops
 - 1. ***Walking Areas***

Distance is the primary criteria used to establish walking areas. The walking areas are determined by measuring the distance, in the most direct route, from the home of the student to the nearest property line of the school of attendance. Current walk boundaries

established by Northfield School District 659 are approximately 1 mile for students in grades 6 through 12, and approximately .75 mile for students in kindergarten through grade 5.

2. The Northfield School District has established discretionary areas of service for students who reside less than two miles from school, but in addition to the walk areas described above.

3 ***Bus Stops***

- a. Bus stops and routes may change each year based upon the student population. Students may have to walk varying distances to the bus stop depending on the route structure and time schedule. Individual stops at homes would add considerable time to a bus route.
- b. Visibility from the home to the bus stop is not part of the criteria for establishing bus stops. If a parent/guardian is concerned about watching their children at the bus stop, they need to walk with them to the stop.
- c. School buses will not travel down cul-de-sacs, except special vehicles designed to pick up students with disabilities.
- d. Bus turnarounds must meet minimum visibility and road standards for rural routes. Transportation services will be provided insofar as possible as follows:
 1. On a public road, of at least two lanes with a minimum 24' wide top surface, maintained by the state, county, city, or township and is one-half mile long to a main traveled road.
 2. There is a suitable place to turnaround, meeting safety and visibility standards.
 3. All turnarounds must be sufficiently wide, plowed of snow and otherwise maintained to allow for safe turn around of a bus.

D. ***Transportation of Any Person***

Districts may use district-owned or contractor-operated school buses to provide transportation along regular school bus routes on a space available basis for any person. Such use of a bus must not interfere with the transportation of pupils to and from school or other authorized transportation of pupils. In all cases, the total additional cost of providing these services, as determined by sound accounting procedures, must be paid by charges made against those using these services or some third-party payor. In no case shall the additional cost of this transportation be paid by the district. The provisions of section 65B.47, subdivision 4, shall be applicable to any person being transported pursuant to this subdivision.

E. ***Bus Ridership***

Based upon their home address, students are assigned to a specific bus stop and bus route. Students must ride to and from the school on the bus(es) to which they have been assigned.

Exceptions to this rule are as follows:

1. If parents will be out of town for one week or longer, and children will be staying at a different location, please contact the bus company to change the listed bus stop. The new bus stop must be on an existing route, as buses will not be rerouted for temporary

addresses.

2. In case of a serious family emergency, such as a death or unexpected hospitalization of a family member, please contact the principal's office at your child's school as early in the day as possible if alternate arrangements are necessary. Calls to the office near the end of the school day can result in missed messages and confusion.

3. ***After-School Activities***

- a. Transportation is not provided on regular route buses for non-school activities, such as work, music or dance lessons, scouts, church activities, etc.
- b. Students may be allowed to ride an alternate bus for after-school activities sponsored by the Northfield School District if space is available on an existing bus route. Advance registration for the activity is required and the school or community education activity coordinator must contact the bus company at least one month in advance to determine if space is available. The district staff in charge of the activity shall forward a list of the students involved to the bus company, and to the office of each school which the students normally attend, at least one week in advance of the activity session.
- c. Parents are responsible for transporting their child(ren) home after these activities. Parents may be required to provide identification to the school staff member in charge of the group when picking up their child(ren) from the event.

4. ***Busing to/from Daycare***

A student's daycare location may be regarded as their home residence for the purpose of transportation. The daycare must be located in the same attendance area as the student's home. Student pick-ups for afternoon kindergarten are available only in the city of Northfield. Rural kindergarten students are picked up on regular morning bus routes.

- a. Student pick ups: Students may ride from home or daycare in the morning as long as an existing stop is used and the change does not overload the bus or adversely affect the bus schedule for other students. Parents should contact the bus operator to request an alternate pick up location.
- b. Student drop offs: Students will be assigned to one take-home bus route and one drop off location only, near either the home *or* the daycare. Students will not be allowed to alternate between drop off locations. Although this policy is not always convenient for parents, it is the safest for students.
- c. Bus registration forms should be turned in before the end of the previous school year so that the bus routes may be established as accurately as possible. If daycare arrangements change over the summer, the school and transportation operator should be notified as soon as possible.

5. ***Address Changes or New Students***

Please allow up to 5 days for changes to be implemented due to adding new students whose transportation requires additional bus stops, route changes, and/or additional vehicles.

6. ***Family Residence Changes within the District***

Students whose family moves to a different elementary attendance area in mid-year will not be required to transfer to the other school during that school year. However, bus

transportation may not be available. Routes will not be added or changed to accommodate for this type of situation.

7. ***Shared Custody***

When divorced parents reside in different school attendance areas within the district and share physical custody of a student, transportation may be available to/from the residence that is located in a school attendance area different from the school where the student is enrolled. Parents must contact the transportation operator to determine whether space is available. Parents shall also provide a regular schedule to the school office and bus operator, regarding where the student needs to be transported on specific days or weeks. It is the responsibility of the parent to ensure that their child knows where he or she needs to go after school each day.

8. ***Field Trips***

Transportation is provided for curricular field trip activities during the school day. The school official organizing the field trip must obtain a price quote for transportation prior to the trip from the bus contractor. A Bus Request Form provided by the building secretary must be completed and faxed or mailed to the bus contractor to book the trip. The school official should call the bus contractor a couple of days in advance of the trip to confirm the bus and verify that the information is correct. Field trip buses must be scheduled to return students to school at least ten minutes before the end of the school day if the students are expected to ride afternoon route buses that day.

- F. For purposes of stabilizing enrollment and reducing mobility, the district may, in its discretion, establish a full-service school zone and may provide transportation for students attending a school in that full-service school zone. A full-service school zone may be established for a school that is located in an area with higher than average crime or other social and economic challenges and that provides education, health or human services, or other parental support in collaboration with a city, county, state, or nonprofit agency.

V. TRANSPORTATION OF NONRESIDENT STUDENTS

- A. If requested by the parent of a nonresident student, the district shall provide transportation to a nonresident student within its borders at the same level of service that is provided to resident students. The same level of service means using the closest current and existing pick-up/drop-off point assigned by the district within the geographical boundary of Northfield Public Schools. The stop must be at a location that allows for a safe transfer between the school bus and parents' vehicle, as determined by the bus company safety director.
- B. If the district decides to transport a nonresident student within the student's resident district, the district will notify the student's resident district of its decision, in writing, prior to providing transportation.
- C. When divorced or legally separated parents or parents residing separately reside in different school districts and share physical custody of a student, the parents shall be responsible for the transportation of the student to an appropriate stop in the district during those times when the student is residing with the parent in the nonresident district.

- D. The district may provide transportation to allow a student who attends a high-need English language learner program and who resides within the transportation attendance area of the program to continue in the program until the student completes the highest grade level offered by the program.

VI. TRANSPORTATION OF RESIDENT STUDENTS TO NONDISTRICT SCHOOLS

- A. In general, the district shall not provide transportation between a resident student's home and the border of a nonresident district where the student attends school under the Enrollment Options Program. A parent may be reimbursed by the nonresident district for the costs of transportation from the pupil's residence to the border of the nonresident district if the student is from a family whose income is at or below the poverty level, as determined by the federal government. The reimbursement may not exceed the pupil's actual cost of transportation or 15 cents per mile traveled, whichever is less. Reimbursement may not be paid for more than 250 miles per week ([Minnesota Statutes, section 124D.03, subdivision 8](#)).
- B. Resident students shall be eligible for transportation to and from a nonresident school district at the expense of the district, if in the discretion of the district, inadequate room, distance to school, unfavorable road conditions, or other facts or conditions make attendance in the resident student's own district unreasonably difficult or impracticable. The district, in its discretion, may also provide for transportation of resident students to schools in other districts for grades and departments not maintained in the district, including high school, for the whole or a part of the year or for resident students who attend school in a building rented or leased by the district in an adjacent district.

VII. SPECIAL EDUCATION STUDENTS/STUDENTS WITH A DISABILITY/STUDENTS WITH TEMPORARY DISABILITIES

- A. Upon a request of a parent or guardian, the board must provide necessary transportation, consistent with Minnesota Statutes section 123B.92, subdivision 1(b)(4), for a resident child with a disability not yet enrolled in kindergarten for the provision of special instruction and services. Special instruction and services for a child with a disability not yet enrolled in kindergarten include an individualized education program (IEP) team placement in an early childhood program when that placement is necessary to address the child's level of functioning and needs.
- B. Resident students with a disability whose disabling conditions are such that the student cannot be safely transported on the regular school bus and/or school bus route and/or when the student is transported on a special route for the purpose of attending an approved special education program shall be entitled to special transportation at the expense of the district. The district shall determine the type of vehicle used to transport students with a disability on the basis of the disabling condition and applicable laws. This provision shall not be applicable to parents who transport their own child under a contract with the district.
- C. Resident students with a disability who are boarded and lodged at Minnesota state academies for educational purposes, but who also are enrolled in a public school within the district, shall be provided transportation, by the district to and from said board and lodging

facilities, at the expense of the district.

- D. If a resident student with a disability attends a public school located in a contiguous school district and the district of attendance does not provide special instruction and services, the district shall provide necessary transportation for the student between the district boundary and the educational facility where special instruction and services are provided within the district. The district may provide necessary transportation of the student between its boundary and the school attended in the contiguous district, but shall not pay the cost of transportation provided outside the district boundary.
- E. When a student with a disability or a student with a short-term or temporary disability is temporarily placed for care and treatment in a day program located in another district and the student continues to live within the district during the care and treatment, the district shall provide the transportation, at the expense of the district, to that student. The district may establish reasonable restrictions on transportation, except if a Minnesota court or agency orders the child placed at a daycare and treatment program and the district receives a copy of the order, then the district must provide transportation to and from the program unless the court or agency orders otherwise. Transportation shall only be provided by the district during regular operating hours of the district.
 - 1. Before the placement of a pupil for care and treatment, the district of residence must be notified and provided an opportunity to participate in the placement decision. It is reasonable for the district to refuse or delay transportation to a care and treatment program if the district administration has been denied the opportunity to participate in the placement decision.
 - 2. The district will transport a student determined to need placement in a day treatment program to the therapeutic day program offered collaboratively by Rice County and the district to the extent placement is deemed appropriate by therapeutic program staff and an opening exists.
 - a. Only if placement in this program is not possible will the district transport to the next closest day treatment program as approved by the district's director of special education.
- F. When a nonresident student with a disability or a student with a short-term or temporary disability is temporarily placed in a residential program within the district, including correctional facilities operated on a fee-for-service basis and state institutions, for care and treatment, the district shall provide the necessary transportation at the expense of the district. Where a joint powers entity enters into a contract with a privately owned and operated residential facility for the provision of education programs for special education students, the joint powers entity shall provide the necessary transportation.
- G. Each driver and aide assigned to a vehicle transporting students with a disability will be provided with appropriate training for the students in their care, will assist students with their safe ingress and egress from the bus, will ensure the proper use of protective safety devices, and will be provided with access to emergency health care information as required by law.

- H. Any parent of a student with a disability who believes that the transportation services provided for that child are not in compliance with the applicable law may utilize the alternative dispute resolution and due process procedures provided for in Minnesota Statutes chapter 125A.

VIII. HOMELESS STUDENTS

- A. Homeless students shall be provided with transportation services comparable to other students in the district.
- B. Upon request by the student's parent, guardian, or homeless education liaison, the district shall provide transportation for a homeless student as follows:
 - 1. A resident student who becomes homeless and is residing in a public or private shelter location or has other non-shelter living arrangements within the district shall be provided transportation to and from the student's school of origin and the shelter or other non-shelter location if the shelter or non-shelter location is two or more miles from the school of origin and the student's transportation privileges have not been revoked.
 - 2. A resident student who becomes homeless and is residing in a public or private shelter location or has other non-shelter living arrangements outside of the district shall be provided transportation to and from the student's school of origin and the shelter or other non-shelter location if the shelter or non-shelter location is two or more miles from the school of origin and the student's transportation privileges have not been revoked, unless the district and the school district in which the student is temporarily placed agree that the district in which the student is temporarily placed shall provide transportation.
 - 3. If a nonresident student is homeless and is residing in a public or private homeless shelter or has other non-shelter living arrangements within the district, the district may provide transportation services between the shelter or non-shelter location and the student's school of origin outside of the school district upon agreement with the district in which the school of origin is located.
 - 4. A homeless nonresident student enrolled under Minnesota Statutes section 124D.08, subdivision 2a, must be provided transportation from the student's district of residence to and from the school of enrollment.

IX. AVAILABILITY OF SERVICES

Transportation will be provided on all regularly scheduled school days or make-up days. Transportation will not be provided during the summer school break. Transportation may be provided for summer instructional programs for students with a disability or in conjunction with a learning year program. Transportation between home and school may also be provided, in the discretion of the district, on staff development days.

X. MANNER OF TRANSPORTATION

The scheduling of routes, establishment of the location of bus stops, manner and method of transportation, control and discipline of school children, the determination of fees, and any other matter relating thereto shall be within the sole discretion, control and management of the school board. The district may, in its discretion, provide room and board, in lieu of transportation, to a student who may be more economically and conveniently provided for by that means.

XI. RESTRICTIONS

Transportation by the school district is a privilege and not a right for an eligible student. A student's eligibility to ride a school bus may be revoked for a violation of school bus safety or conduct policies, or violation of any other law governing student conduct on a school bus pursuant to the district's discipline policy. Revocation of a student's bus riding privilege is not an exclusion, expulsion, or suspension under the Pupil Fair Dismissal Act. Revocation procedures for a student who is an individual with a disability under 20 United States Code section 1415 (Individuals with Disabilities Act), 29 United States Code section 794 (the Rehabilitation Act), and 42 United States Code section 12132, (Americans with Disabilities Act) are governed by these provisions.

XII. FEES

- A. At its discretion, the district may charge fees for transportation of students to and from extra curricular activities conducted at locations other than school, where attendance is optional.
- B. The district may charge fees for transportation of students to and from school when authorized by law. If the district charges fees for transportation of students to and from school, guidelines shall be established to ensure that no student is denied transportation solely because of inability to pay. The district also may waive fees for transportation if the student's parent is serving in, or within the past year has served in, active military service as defined in Minnesota Statutes section 190.05.
- C. The district may charge reasonable fees for transportation of students to and from post-secondary institutions for students enrolled under the post-secondary enrollment options program. Families who qualify for mileage reimbursement may use their state mileage reimbursement to pay this fee.
- D. Where, in its discretion, the district provides transportation to and from an instructional community-based employment station that is part of an approved occupational experience vocational program, the district may require the payment of reasonable fees for transportation from students who receive remuneration for their participation in these programs.

XIII. APPEAL PROCESS

An appeal to this policy may be directed first to the Director of Special Services, second to the Director of Finance, and finally the Superintendent of Schools, whose decision will be final.

Policy 708 TRANSPORTATION OF NONPUBLIC SCHOOL STUDENTS

I. PURPOSE

The purpose of this policy is to address the existing partnerships, transportation rights of Northfield School District nonpublic school students, and to provide equality of treatment in transporting such students under law while upholding the district's strategic commitment to stewardship.

II. GENERAL STATEMENT OF POLICY

The policy of the district is to recognize the rights of nonpublic school students and to provide equal transportation to those students as required by law.

III. ELIGIBILITY

- A. The district shall provide equal transportation within the district for all students to any school when transportation is deemed necessary by the district because of distance or traffic conditions in like manner and form as provided in Minnesota Statutes sections 123B.88 and 123B.92 when applicable.
- B. Upon the request of a parent/guardian, the district must provide school bus transportation to the school district boundary for students residing in the district at least the same distance from a nonpublic school actually attended in another school district as public school students are transported in the transporting district. Such transportation must be provided whether or not there is another nonpublic school within the transporting district, if the transportation is to schools maintaining grades or departments not maintained in the district or if the attendance of such students at school can more safely, economically, or conveniently be provided for by such means.
- C. The district may provide school bus transportation to a nonpublic school in another district for students residing in the district and attending that school, whether there is or is not another nonpublic school within the transporting district, if the transportation is to schools maintaining grades or departments not maintained in the district or if the attendance of such students at school can more safely, economically, or conveniently be provided for by such means. If the district transports students to a nonpublic school located in another district, the nonpublic school must pay the cost of such transportation provided outside the district boundaries.
- D. The district must provide the necessary transportation within school district boundaries between the nonpublic school and a public school or neutral site for nonpublic school students who are provided pupil support services; if the district elects to provide pupil support services at a site other than a nonpublic school.
- E. When transportation is provided, the scheduling of routes, manner and method of transportation, control and discipline of students, and any other matter relating

thereto shall be within the sole discretion, control and management of the district. A nonpublic or charter school student transported by the district shall comply with district student bus conduct and student bus discipline policies.

- F. The board and a nonpublic school may mutually agree to a written plan for the board to provide nonpublic pupil transportation to nonpublic school students. The district must report the number of nonpublic school students transported and the nonpublic pupil transportation expenditures incurred in the form and manner specified by the Minnesota Commissioner of Education.
- G. If the board provides pupil transportation through the school's employees, the board may transport nonpublic school students according to the plan and retain the nonpublic pupil transportation aid attributable to that plan. A nonpublic school may make a payment to the district to cover additional transportation services agreed to in the written plan for nonpublic pupil transportation services not required under Minnesota Statutes, sections 123B.84 to 123B.87.
- H. A board that contracts for pupil transportation services may enter into a contractual arrangement with a school bus contractor according to the written plan adopted by the board and the nonpublic school to transport nonpublic school students and retain the nonpublic pupil transportation aid attributable to that plan for the purposes of paying the school bus contractor. A nonpublic school may make a payment to the district to cover additional transportation services agreed to in the written plan for nonpublic pupil transportation services included in the contract that are not required under Minnesota Statutes, sections 123B.84 to 123B.87.
- I. Additional transportation to and from a nonpublic school may be provided at the expense of the district when such services are provided at the discretion of the district.

IV. STUDENTS WITH DISABILITIES

- A. If a resident student with a disability attends a nonpublic school located within the district, the district must provide necessary transportation for the student within the district between the nonpublic school and the educational facility where special instruction and services are provided on a shared-time basis. If a resident student with a disability attends a nonpublic school located in another district and if no agreement exists for the provision of special instruction and services on a shared time basis to that student by the district of attendance and where the special instruction and services are provided within the district, the district must provide necessary transportation for that student between the district boundary and the educational facility. The district may provide necessary transportation for that student between its boundary and the nonpublic school attended, but the nonpublic school must pay the cost of transportation provided outside the district boundary. Districts may make agreements for who provides transportation. Parties serving students on a shared time basis have access to a due process hearing system as provided by law.

- B. When the disabling conditions of a student with a disability are such that the student cannot be safely transported on the regular school bus and/or school bus route and/or when the student is transported on a special route for the purpose of attending an approved special education program, the student shall be entitled to special transportation at the expense of the district. The district shall determine the type of vehicle used to transport disabled students on the basis of the handicapping condition and applicable laws. This section shall not be applicable to parents who transport their own child under a contract with the district.
- C. Each driver and aide assigned to a vehicle transporting students with a disability must:
1. Be instructed in basic first aid and procedures for the students under their care.
 2. Within one month after the effective date of assignment, participate in a program of in-service training on the proper methods of dealing with the specific needs and problems of students with disabilities.
 3. Assist students with disabilities on and off the bus when necessary for their safe ingress and egress from the bus.
 4. Ensure that proper safety devices are in use and fastened properly.
- D. Each driver and aide assigned to a vehicle transporting students with a disability shall have available to them the following information in hard copy or immediately accessible through a two-way communication system:
1. The student's name and address.
 2. The nature of the student's disabilities.
 3. Emergency health care information., and
 4. The names and telephone numbers of the student's physician, parents, guardians, or custodians, and some person other than the student's parents or custodians who can be contacted in case of an emergency.
- E. Any parent of a student with a disability who believes that the transportation services provided for that child are not in compliance with the applicable law may utilize the due process procedures provided for in Minnesota Statutes chapter 125A.

V. APPLICATION OF GENERAL POLICY

The provisions of the district's policy on transportation of public school students shall apply to the transportation of nonpublic school students except as specifically provided herein.

III. NO EMPLOYEE TRANSPORTATION OF STUDENTS WITH PERSONAL VEHICLES

An employee must not use a personal vehicle to transport one or more students except as provided herein. However, employees may make appropriate transportation arrangements for students as necessary in an emergency or other unforeseeable circumstance.

In a nonemergency situation, an employee must get prior, written approval from the administration before transporting a student in a personal vehicle. If a school vehicle is available, the employee will use the school vehicle. The administration has the sole discretion to make a final determination as to the appropriate use of a personal vehicle to transport one or more students.

If any emergency transportation arrangements are made by employees pursuant to this section, the relevant facts and circumstances shall be reported to the administration as soon thereafter as practicable.

All vehicles used to transport students shall be properly registered and insured.

IV. TRANSPORTATION TO AND FROM TEAM EVENTS

In cases when the school district has arranged for transportation for out-of-town co-curricular team activities, students who are team members are expected to ride the team

bus to and from the event. Parents/guardians wishing to transport their child home from an event may do so after signing-out their child with the coach or staff member in charge of the specific group. Upon request, parents may be required to provide identification to the school staff member in charge of the group when picking up their child from the event.

V. FEES

In its discretion, the school district may charge fees for transportation of students to and from co-curricular activities conducted at locations other than school, where attendance is optional.

Policy 711 VIDEO RECORDING ON SCHOOL BUSES

I. PURPOSE

The purpose of this policy is to establish a school bus video recording system for Northfield Public Schools. The transportation of eligible students to and from school is an important function of the district, and it is a privilege, not a right. The behavior of students and employees on the bus is a significant factor in the safety and efficiency of school bus transportation. Student and employee misbehavior increases the risk of injury. Therefore, the district believes that video recording student passengers and employees on the school bus will promote good behavior and safety.

II. GENERAL STATEMENT OF POLICY

A. Placement

1. Each and every school bus owned, leased, contracted, and/or operated by the district shall be equipped with a fully enclosed box for placement and operation of a video camera and plainly placed signs notifying riders that their conversations or actions may be recorded.
2. A video camera will not necessarily be installed in each and every school bus owned, leased, contracted, and/or operated by the district, but cameras may be rotated from bus to bus without prior notice to students.
3. Video cameras will be placed on a particular school bus, to the extent possible, where the district has received complaints of inappropriate behavior.

B. Use of video recordings

1. A video recording of the actions of student passengers and/or employees may be used by the district as evidence in any disciplinary action brought against any student or employee arising out of the student's or employee's conduct on the bus.
2. A video recording will be released only in conformance with the Minnesota Government Data Practices Act, Minnesota Statutes chapter 13 and the Family Educational Rights and Privacy Act, 20 United States Code section 1232g and the rules and/or regulations promulgated thereunder.
3. Video recordings may be viewed by school administrators and/or the contracted bus company management on a random basis and/or when

discipline problems on the bus have been brought to the attention of the district.

4. A video recording will be retained by the district or by the contracted bus company until relooped or until the conclusion of disciplinary proceedings in which the video recording is used for evidence.

It also understands its commitment to and obligation for assuring maximum accountability for public funds and student activity funds. For these reasons, the Board of Education will assume control over and/or oversee funds for student activities as required by Minnesota Statutes and set forth in this policy.

II. GENERAL STATEMENT OF POLICY

A. Curricular and co-curricular activities

The board shall take charge of, control over, and account for all student activity funds that relate to curricular and cocurricular activities.

In overseeing student activity accounts under this policy, the board shall not maintain or account for funds generated by non-students including, but not limited to, convenience funds of staff members, booster club funds, parent-teacher organization or association funds, or funds donated to the school district for specified purposes other than student activities.

III. DEFINITIONS

A. Co-curricular activity

A “co-curricular activity” means those portions of the school-sponsored and directed activities designed to provide opportunities for students to participate in such experiences on an individual basis or in groups, at school and at public events, for improvement of skills (i.e., interscholastic sports, band, etc.). Co-curricular activities are not offered for school credit, cannot be counted toward graduation, and have *one or more* of the following characteristics:

1. They are conducted at regular and uniform times during school hours, or at times established by school authorities;
2. They are directed or supervised by instructional staff in a learning environment similar to that found in courses offered for credit; and
3. They are partially, primarily, or totally funded by public moneys for general instructional purposes under direction and control of the board.

B. Curricular activity

A “curricular activity” means those portions of the school program for which credit is granted, whether the activity is part of a required or elective program.

C. Extracurricular (noncurricular/supplementary) activity

An “extracurricular (noncurricular/supplementary) activity” means all direct and personal services for students for their enjoyment that are managed and operated under the guidance of an adult or staff member. Extracurricular activities have *all* of the following characteristics:

1. They are not offered for school credit nor required for graduation;
2. They generally are conducted outside school hours or, if partly during school hours, at times agreed by the participants and approved by school authorities;
3. The content of the activities is determined primarily by the student participants under the guidance of a staff member or other adult.

D. Public purpose expenditure

A “public purpose expenditure” is one which benefits the community as a whole, is directly related to the functions of the school district, and does not have as its primary objective the benefit of private interest.

IV. MANAGEMENT AND CONTROL OF ACTIVITY FUNDS

A. Curricular and co-curricular activities

1. All money received on account of co-curricular activities shall be turned over to the treasurer, who shall deposit such funds in the general fund, to be disbursed for expenses and salaries connected with the activities, or otherwise, by the board upon properly allowed itemized claims.
2. The treasurer shall account for all revenues and expenditures related to curricular and cocurricular activities in accordance with the Uniform Financial Accounting and Reporting Standards (UFARS) and school district policies and procedures.

3. The treasurer shall account for all revenues and expenditures related to extracurricular activities in accordance with UFARS and school district policies and procedures.
4. All student activity funds will be collected and expended:
 - a. in compliance with school district policies and procedures;
 - b. under the general direction of the principal and with the participation of students and faculty members who are responsible for generating the revenue;
 - c. in a manner which does not produce a deficit or an unreasonably large accumulation of money to a particular student activity fund;
 - d. for activities which directly benefit the majority of those students making the contributions in the year the contributions were made whenever possible; and
 - e. in a manner which meets a public purpose.
5. Activity accounts of a graduated class will be terminated prior to the start of the school year following graduation. Any residual money from a graduating class activity fund will remain in the general fund and may be used for any school district purpose. Prior to depositing such accounts, all donations or gifts accepted for the specific purpose of the student activity account shall be administered in accordance with the terms of the gift or donation and school district policy.

Policy 714 FUND BALANCES

I. PURPOSE

The purpose of this policy for Northfield Public Schools is to create new fund balance classifications to allow for more useful fund balance reporting and for compliance with the reporting guidelines specified in Statement No. 54 of the Governmental Accounting Standards Board (GASB).

II. GENERAL STATEMENT OF POLICY

The policy of this school district is to comply with GASB Statement No. 54. To the extent a specific conflict occurs between this policy and the provisions of GASB Statement No. 54, the GASB Statement shall prevail.

III. DEFINITIONS

- A. “Assigned” fund balance amounts are comprised of unrestricted funds constrained by the school district’s intent that they be used for specific purposes, but that do not meet the criteria to be classified as restricted or committed. In funds other than the general fund, the assigned fund balance represents the remaining amount that is not restricted or committed. The assigned fund balance category will cover the portion of a fund balance that reflects the school district’s intended use of those resources. The action to assign a fund balance may be taken after the end of the fiscal year. An assigned fund balance cannot be a negative number.
- B. “Committed” fund balance amounts are comprised of unrestricted funds used for specific purposes pursuant to constraints imposed by formal action of the school board and that remain binding unless removed by the school board by subsequent formal action. The formal action to commit a fund balance must occur prior to fiscal year end; however, the specific amounts actually committed can be determined in the subsequent fiscal year. A committed fund balance cannot be a negative number.
- C. “Enabling legislation” means legislation that authorizes a school district to assess, levy, charge, or otherwise mandate payment of resources from external providers and includes a legally enforceable requirement that those resources be used only for the specific purposes listed in the legislation.
- D. “Fund balance” means the arithmetic difference between the assets and liabilities reported in a school district fund.
- E. “Nonspendable” fund balance amounts are comprised of funds that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. They include items that are inherently

unspendable, such as, but not limited to, inventories, prepaid items, long-term receivables, non-financial assets held for resale, or the permanent principal of endowment funds.

- F. “Restricted” fund balance amounts are comprised of funds that have legally enforceable constraints placed on their use that either are externally imposed by resource providers or creditors (such as through debt covenants), grantors, contributors, voters, or laws or regulations of other governments, or are imposed by law through constitutional provisions or enabling legislation.
- G. “Unassigned” fund balance amounts are the residual amounts in the general fund not reported in any other classification. Unassigned amounts in the general fund are technically available for expenditure for any purpose. The general fund is the only fund that can report a positive unassigned fund balance. Other funds would report a negative unassigned fund balance should the total of nonspendable, restricted, and committed fund balances exceed the total net resources of that fund.
- H. “Unrestricted” fund balance is the amount of fund balance left after determining both nonspendable and restricted net resources. This amount can be determined by adding the committed, assigned, and unassigned fund balances.

I. CLASSIFICATION OF FUND BALANCES

The school district shall classify its fund balances in its various funds in one or more of the following five classifications: nonspendable, restricted, committed, assigned, and unassigned.

II. ORDER OF RESOURCE USE

If resources from more than one fund balance classification could be spent, the school district will strive to spend resources from fund balance classifications in the following order (first to last): restricted, committed, assigned, and unassigned.

III. COMMITTING FUND BALANCE

A majority vote of the school board is required to commit a fund balance to a specific purpose and subsequently to remove or change any constraint so adopted by the board.

IV. ASSIGNING FUND BALANCE

The school board, by majority vote, may assign fund balances to be used for specific purposes when appropriate. The board also delegates the power to assign fund balances to the following: Director of Finance. Assignments so made shall be reported to the school board on a monthly basis, either separately or as part of ongoing reporting by the assigning party if other than the school board.

An appropriation of an existing fund balance to eliminate a projected budgetary deficit in the subsequent year’s budget in an amount no greater than the projected excess of

expected expenditures over expected revenues satisfies the criteria to be classified as an assignment of fund balance.

V. REVIEW

The school board will conduct an annual review of the sufficiency of the minimum unassigned general fund balance level.

Policy 721 GRANT WRITING

I. PURPOSE

The purpose of this policy is to provide guidance for Northfield School District staff members, parents, students or district stakeholders who are writing grants to financially support programs or activities of the district. All grant applications for programs or activities must align with the vision and strategic commitments of the district.

II. GENERAL STATEMENT OF PHILOSOPHY

The district recognizes the value of accessing resources from external funding streams. Grants can provide significant funding resources for programs and activities for staff and students. As a result, opportunities for learners are increased throughout our community.

III. DEFINITIONS

Grants are soft money funds awarded by the government, a corporation, a family or a community for a specific purpose over a limited period of time and do not require repayment to the grantor. Grants are generally given to school districts for two basic purposes:

1. As seed money to start up new or innovative programs that improve student learning.
2. To facilitate reform or bring about change that will improve student achievement in academic or non-academic areas. The district recognizes that grants will not solve general funding issues, but that grants can help improve students' experience.

IV. GRANT APPLICANT RESPONSIBILITIES

It is the role of the grant applicant to find funding sources, develop an innovative idea, write a plan of action, write measurable learning outcomes and review the final application. It is also the grant applicant's responsibility to follow these procedures:

- A. All grant applications must be written to support the district's mission and goals, be financially feasible, and demonstrate a commitment from all affected district departments or buildings.
- B. All grant applications must be approved by the Program Administrator and the Director of Finance prior to submission to the granting agency.
- C. All grants will receive a financial and procedural review by the Director of Finance.
- D. All grant applications more than \$15,000 must be approved by the board.

- E. Grant applicants must designate a responsible person to administer the grant who will regularly communicate with the building principal or district administrator and the Director of Finance to make sure that the intent and financial responsibilities of the grant are met.
- F. Financial accountability is the responsibility of the applicant and the building principal or district administrator and the Director of Finance. Any unspent money will be disbursed per the guidelines of the grant. Any overage not pre-approved by the Director of Finance will be coded to the building or program budget. Depending on the situation, the responsible party may become personally liable for the overage.
- G. All grants funded with federal monies will be required to follow the district's [Fiscal Compliance and Procedures Manual](#).
- H. All grants will follow usual district accounting and contractual practices unless otherwise approved by the board.

Northfield Public Schools

Fiscal Compliance and Procedure Manual

July 2016

Rev. 1/9/2020

Preface

It is the intention of Northfield Public Schools (the “District”) to comply with all federal, state, and local fiscal laws. The regulatory citations covering fiscal management practices are:

- IDEA 34
- EDGAR
- UGG/2 CFR –Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (referred to as “Part 200.XXX” herein)
- Minnesota Statute 471.345 – Uniform Municipal Contracting Law

It is also the intention of Northfield Public Schools to ensure special education expenditures are necessary, reasonable, and allowable. The procedures and practices used to accomplish these tasks are outlined in this manual. It is the goal of the management of the District to ensure these practices and procedures are followed.

Organization Structure

The Superintendent is the sole direct hire by the District Board of Education (“Board”), with all other District employees reporting directly or indirectly to the Superintendent. The Director of Finance is primarily responsible for overseeing the financial functions of the District.

The District is a part of the Cannon Valley Special Education Cooperative (CVSEC) whose Special Education Director also serves as the District’s Special Education Director. Northfield Public Schools is the fiscal host for CVSEC. CVSEC employs two coordinators who ensure programmatic compliance. The Special Education teachers and Education Assistants assigned to work with students with disabilities are supervised by the Building Principals.

The Federal special education dollars do not flow through CVSEC. Each member district is responsible for their own allocation.

Financial Accounting System

The District’s accounting is maintained on SMART Finance and SMART HR which is run on the Region V Computer Services (RegionV) server. Training and other assistance is also offered by RegionV. The SMART system enables the following to be incorporated regarding awards received:

- CFDA Title and Number
- Federal Award ID Number
- Fiscal Year of Award
- Federal Agency

Revenues and expenditures are recording according to the UFARS manual maintained and updated by MDE.

Code of Conduct

Each employee must perform their duties to the best of their abilities and perform those duties in an ethical and honest manner.

Through words and actions, an employee will conduct oneself in the following manner:

- Act honestly and ethically in carrying out one's employment duties and responsibilities;
- Comply with all policies and procedures pertinent to one's job duties, and all state/federal laws, rules, and regulations;
- Cooperate fully with internal or external auditors in all areas of their examinations;
- Report suspected code of conduct and ethics violations, significant internal control weaknesses, evidence of theft, embezzlement, unlawful use of public funds or property or other irregularities/wrongdoings through appropriate District channels as designated; and,
- Report any evidence of theft, embezzlement, or unlawful use of public funds or property, other public resources to the District's Superintendent or the District's Director of Finance.
- Medically related and personally identifiable financial information (such as Social Security numbers) shall be restricted to those District personnel with the need to know the information to perform his or her job, and otherwise held confidential.

In order to assure accountability, the District, and each of its individual employees will account for all activities, accept responsibility for those activities, and disclose information/results in a transparent manner.

Financial/Cash Management System and Internal Controls

The Director of Finance is responsible for preparing the upcoming annual budget by June 30 and supervising the remainder of the Finance Department staff. A mid-year budget revision is typically prepared in December in conjunction with the District's Truth in Taxation presentation. Year-end financial reports are provided to the Superintendent by the Director of Finance as compiled and audited by the accounting firm designated by the Board. Individual budgets by federal award are also submitted to MDE for approval via the Minnesota Department of Education's EDRS (Education Data Reporting System) and SERVS (State Education Record View and Submission System) Financial systems.

The Director of Finance works within the approved budget and requests funds on SERVS. The payment requests on SERVS are documented by reports from the District's accounting software and reviewed and approved by the Director of Finance. Funds are requested on SERVS after the payment has been made and the SERVS draws are supported by reports from the financial accounting system.

The Payroll person maintains the payroll. There is an Accounting Generalist responsible for Accounts Payable and another Accounting Generalist responsible for Accounts Receivable and Special Education. The Accounting Generalist - Accounts Payable oversees the requisition

process and ensures proper coding of all requisitions. The Director of Finance reviews all payments for appropriateness prior to payment.

The duties (setting up new vendors, making deposits, issuing checks, bank account reconciliation, etc.) are divided among the Finance Department staff (i.e., “separation of duties”) to accomplish adequate internal controls, within the limit the small staff can accommodate. The Board serves as the final internal control function by reviewing financial reports monthly.

Allowability and Procurement

When requesting materials or services, District employees shall ensure the following guidelines are followed:

- The purchase is necessary for the provision of services.
- No employee, officer or agent may participate in the selection, award or administration of a contract supported by a Federal award if he or she has a real or apparent conflict of interest. A conflict of interest may arise when the employee, officer or agent, any member of his/her immediate family, his/her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from a firm considered for a contract. Where a potential conflict of interest arises, the individual must recuse him or herself from the selection, award or administration of a contract.
- If a conflict of interest occurs, the supervisor will conduct an investigation and determine appropriate disciplinary action. If the offense is considered minor in nature (minor meaning employee was unaware of conflict, and there was not significant financial implications) first offense will warrant a verbal reprimand and training on conflict of interests. Second offense warrants a written reprimand that will be placed in the employee's personnel file and additional training on conflict of interests. Third offense, the employee will be placed on a corrective action plan that (1) if not followed will lead to the employee being terminated and (2) is placed in the personnel file.
- If the conflict is determined to be egregious in nature (egregious meaning employee knew of the conflict of interests and there was significant financial implications), the employee will be placed on leave (either paid or unpaid, this will be determined by the supervisor), until an investigation is completed. Upon completion of the investigation, if it is determined a known conflict existed and significant financial ramifications are involved the employee may be terminated.
- If any employee becomes aware of any conflict of interest, such conflict of interest shall be reported to his or her supervisor as soon as practicable. If the supervisor is the person with the conflict of interest, the person who becomes aware of the conflict of interest shall report such conflict to the supervisor's supervisor.

- There is no soliciting or acceptance of gratuities, favors, or anything of monetary value from contractors or subcontractors. This does not apply to situations where the financial interest is not substantial or the gift is an unsolicited item of nominal value (\$5.00 or less).
- All procurement transactions provide full and open competition to the maximum extent practicable.
- Purchases/costs must be reasonable and allowable under federal program regulations. A cost is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person under the existing circumstances at the time the cost is incurred. There must be no acquisition of unnecessary or duplicative items.
- No state or local preference is granted.
- Minority owned businesses, Women's business enterprises and labor surplus area firms will be considered when possible. The Director of Finance periodically will consult with the building principals to adhere to this requirement.
- State and local inter-governmental agreements will be considered when appropriate. The Director of Finance periodically will consult with the building principals to adhere to this requirement.
- When accessing a vendor, the District will ensure that no purchases are made from debarred and suspended vendors. The District will utilize www.sam.gov to check for debarred and suspended vendors. Accounts Payable shall perform this check when setting up the new vendor in our SMART system and annually thereafter.
- For all methods of procurement, the records retained shall include the rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract. The records, including bids or proposals received, shall be retained by the District for at least three years. If any litigation, claim or audit is started before the expiration of the three year period, the records must be retained until all litigation, claims or audit findings involving the records have been resolved and final action taken.
- All District contracts paid from Federal funds shall contain the contract provisions specified in **Appendix II** to Part 200 as appropriate for the transaction, including, but not limited to;
 - Remedies
 - Termination
 - Equal Employment Opportunity
 - Davis Bacon Act
 - Contract Work Hours and Safety Standards Act
 - Clear Air Act

Micro-Purchase: A micro-purchase is an acquisition of supplies and services of \$10,000 or less.

- Micro-purchases can be made without soliciting competitive quotations if the District determines the cost is reasonable and allowable.
- The District will, to the extent practicable, distribute micro-purchases equitably among qualified suppliers.
- The \$10,000 limit applies to purchases made with Federal dollars. The limit for other purchases is \$25,000 as per Minn. Stat. 471.345 Sub. 5a, provided, “ If the contract is made upon quotation it shall be based, so far as practicable, on at least two quotations which shall be kept on file for a period of at least one year after their receipt.”

Simplified Acquisition: A simplified acquisition of supplies and services costing more than \$10,000 and less than \$250,000. This \$10,000 - \$250,000 range is for purchases made with Federal dollars. The range for other purchases is \$25,000 - \$175,000 as per Minn. Stat. 471.345 Sub. 4a, “the contract may be made either upon sealed bids or by direct negotiation, by obtaining two or more quotations for the purchase or sale when possible, and without advertising for bids or otherwise complying with the requirements of competitive bidding. All quotations obtained shall be kept on file for a period of at least one year after receipt thereof.”

- The District will obtain price and rate quotes from at least two qualified sources; more if possible when a larger number of vendors are available.
- Price/rate quotes will include documentation from vendors such as written quote, Internet price search (screen shot of internet site for documentation) or written documentation of a phone call that includes vendor name, vendor number and information given by vendor. Documentation will be kept on file.
- A cooperative bidding process through a state, local or regional entity (otherwise known as a “Cooperative Purchasing Venture”) that solicits bids on behalf of the cooperative members in compliance with these procedures shall satisfy the requirements of this procedure.

Competitive Proposals: A competitive proposal is an acquisition of material, products and services costing more than \$250,000.

- If appropriate, the District will utilize a sealed bid process.
- A sealed bid is appropriate when a complete, adequate and realistic specification or description of good or service is available. Such description shall not contain features which unduly restrict competition. When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a “brand name or equivalent” description may be used as a means to define the performance or other salient requirement of procurement.
- Two or more responsible bidders are willing and able to compete effectively for the business.
- Selection among the responsive and responsible vendors can be made principally based on prices and it’s a firm, fixed price contract.
- Whether or not a sealed bid is appropriate, the District will award the contract to the responsible vendor whose proposal is most advantageous to the District, considering price and other factors and who has the ability to perform the contract terms successfully.

- For all requests for bids or proposals, the District retains the right to reject all bids or proposals received if there is a sound documented reason and shall include in the bid documents the statement, “The District retains the right to reject any or all offers.”
- The invitation to bid or submit a proposal shall be publicly advertised in a local newspaper designated as the District’s “official newspaper”. All sealed bids shall be publicly opened at a time and place prescribed in the invitation to bid, at least two weeks after the invitation to bid or submit a proposal is published in the local newspaper.
- Where required by Section 200.325, bid and/or performance bonds shall be required.

Non-Competitive Proposal: The District will only use a non-competitive proposal when:

- The item is only available from a single source
- There is public emergency that will not permit delay
- The federal awarding agency or pass-through expressly authorizes non-competitive proposals in response to a written request from the District, or
- After soliciting a number of sources, competition is determined inadequate.

Special Education Requisition Procedure

1. Board of Education adopts line item amounts recommended by Director of Finance for Special Education purchases of supplies or services.
2. Special Education teacher wants to purchase services, supplies and/or materials for the SPED classroom or for an individual student, which are one of the following:
 - a. Item specific to one SPED student identified as needed in the student’s IEP
 - b. Items needed in the SPED classroom to deliver the education program for the SPED students that would not be needed in a General Ed classroom
 - c. Other teacher supply items that would not be needed in a General Ed classroom.
3. The teacher fills out the online requisition form entitled “Special Education Teachers - Mandated Documentation” (Appendix 1). The teacher then submits the requisition to the special education administrative assistant or attaches the requisition into Employee Self Serve (a module of our SMART Finance system), which goes to the special education administrative assistant. The special education administrative assistant creates a purchase order and attaches the mandated documentation.
4. The special education administrative assistant routes the purchase order to the Director of Special Services for approval. The administrative assistant and Director of Special Services checks for proper coding of the purchase and approves the purchase in the SMART Finance system if:
 - a. The amount of the requisition fits within the remaining budget amount available and appears to be a good use of the funds. If the requisition amount exceeds the amount

- available, the Director of Special Services checks with the Director of Finance whether the requisition may be approved, as required by the IEP.
- b. The purchase is consistent with the IEP for the individual student or meets one of the other criteria mentioned in (2) above.
5. Once approved by the Director of Special Services, the order is placed.
 6. After the item is received, the special education administrative assistant forwards the mandated documentation, the Purchase Order, packing slip, the IEP when appropriate, invoice and any other pertinent paperwork to the District Office Accounts Payable.
 7. Accounts Payable pays the bill and files the paperwork after confirming that all necessary paperwork has been submitted with proper approvals.
 8. Contracts for Service are initiated by the Director of Special Services. The Director of Special Services oversees the delivery of the service to ensure the service provided meets the terms of the contract. The special education administrative assistant ensures the contract is valid when an invoice is received. The special education administrative assistant creates a purchase order and routes it to the Director of Special Services for approval. Accounts Payable pays the invoice when the approved purchase order, invoice and other supporting documentation is received.

Small purchases may be made by purchasing items and requesting reimbursement. All receipts submitted for payment or reimbursement using this process must be submitted on a voucher and include all paperwork noted in 1-8 above and be in compliance with Board Policy 412.

Staff Travel

Travel Costs: Travel cost is the expenses for transportation, lodging, subsistence, and related items incurred by employees who are in travel status on official business of the District. (No reimbursement shall be made for alcoholic beverages or for dependents.)

Mileage reimbursement will be paid to staff for travel between their regular work location and other locations at which they are assigned to work. Reimbursement will be made monthly based on mileage logs submitted. Mileage is reimbursed at the current IRS rate or as otherwise established by the Board.

When a staff member determines that it would be beneficial to attend a conference or workshop, the staff member completes a Staff Development Request form and submits it to the Director. The request includes justification for the travel and an estimate of costs associated with the travel. The Director either approves or denies the request. If the request is approved, the employee will submit the registration materials. Upon return, itemized receipts for reasonable

travel expenses will be submitted as part of the employee's monthly mileage reimbursement request. The employee will follow the procedures set forth in Board Policy 412.

Food

Costs for food at a meeting for professional development or other purpose shall be incurred only if:

- A working lunch is necessary. I.e., there is a genuine time constraint that requires a working lunch.
- The portion of the agenda to be carried out during the lunch is substantive and integral to the overall purpose of the meeting.
- The cost of the working lunch is reasonable.
- The cost is carefully documented to ensure the working lunch is both reasonable and necessary.

Inventory Management

The District will keep an inventory listing of equipment items purchased with special education funds. "Equipment" means an article of nonexpendable, tangible personal property having a useful life of more than one year and an acquisition cost which equals or exceeds \$5,000. Items that do not meet the \$5,000 threshold but are "sensitive" in nature (such as portable technology devices) will be included on the inventory. Inventoried equipment purchased with Special Education funds shall be labeled with a tag that says "Northfield Public Schools – Purchased with Special Education funds" and will include an identification number. Property records of all equipment and "sensitive" items will be maintained. A physical inventory of all equipment and "sensitive" items shall be conducted and the results reconciled with the property records at least once every two years. Any loss, damage or theft must be investigated. When equipment is no longer needed it will be disposed of properly and in accordance with federal, state, and local laws, with the goal to ensure the highest possible return.

All items not meeting the definition of equipment shall be considered supplies. Supplies shall not be inventoried; however, each employee shall be responsible to effectively control and account for all supplies trusted to their care. Each employee shall properly safeguard supplies and ensure they are used solely for authorized purposes.

All property of the District shall be insured to the extent necessary to protect the financial interest the District has in the property.

Time and Effort Reporting

Time and effort reporting will be completed for all employees of the District paid through Federal dollars. Time and effort reporting records shall accurately reflect the work actually performed.

For employees funded through a single cost objective, a semi-annual certification stating that the employee worked solely on activities related to a single cost objective will be kept. This certification will be signed by the supervisor after-the- fact.

For employees paid through multiple cost objectives, a semi-annual time report or Personnel Activity Report (PAR) will be kept. The report will be prepared and signed by the employee after-the-fact, reflecting actual work performed.

The budget and payroll will initially be based on an estimate of the cost objective(s) that the employee will be working on. A comparison of actual costs based on the semi-annual activity reports to budgeted distributions will be made at the end of the fiscal year. If the comparison shows a difference between budgeted and actual, adjustments will be made such that the final amount charged to the Federal award is accurate, allowable and properly allocated.

Third Party Billing

Third party billing for Medical Assistance and MinnesotaCare is primarily the responsibility of Northfield Public Schools. The District shall seek reimbursement from third parties for the cost of services provided by the District staff whenever the services provided are otherwise covered by the child's health coverage. This will be done in accordance with Minn. Stat. Sec. 125A.21, Subd.2.

Third party revenues received shall be coded UFARS Source Code 071 and used to benefit students with IEPs in accordance with Minn. Stat. section 125A.31, Sub.3.

Participation of Private School Students

The District will control and administer federal special education funds used to provide equitable participation services to parentally-placed private school children with disabilities.

A timely and meaningful consultation will occur with representatives of private schools located in the member Districts that will include discussion of the child find process, the calculation of proportionate amount, and how the services will be provided. Such consultation shall be documented.

The District will maintain control over the funds, property, and program decisions. The District will ensure that proportionate share funds are used to meet the special education and related services needs of eligible students with disabilities and are not used for the general needs of the private school. The District will track the required expenditures by fiscal year. Any unused funds at the end of the fiscal year will be spent during the following one-year carryover period.

Transportation

The IEP team will determine whether a child is eligible for specialized transportation, whether it be for accommodations, special equipment or an aide. The case manager will communicate with the District Transportation Department in order to initiate transportation and the MARSS

Coordinator the appropriate transportation category - transportation code 03 for students with specialized transportation outlined in the IEP or code 06 for a general education student who requires transportation in order to access specialized instruction through a care and treatment facility.

Record Retention

Financial records, supporting documents, statistical records, etc. relating to Federal awards shall be retained for at least three years from the date of submission of the final expenditure report, or for ongoing grants, the date of the submission or the quarterly or annual financial report.

Procedures for Responding to the Comparability Report

Data collected:

- Grade span of each elementary school
- Number of students at each school
- Number of certified staff (following the guidelines provided by MDE of staff members to count)

Response needed to be in compliance:

- Determine where the noncompliance exists
- District administrators and principals meet to determine best response
- If hiring additional staff is the response, the request and reasoning goes to the school board for approval
- Principal proceeds with hiring staff

The district will comply with the requirements of the Minnesota Government Data Practices Act, Minnesota Statutes chapter 13 (MGDPA), and Minnesota Rules parts 1205.0100-1205.2000 in responding to requests for public data.

III. DEFINITIONS

A. Confidential Data on Individuals

Data made not public by statute or federal law applicable to the data and are inaccessible to the individual subject of those data.

B. Data on Individuals

All government data in which any individual is or can be identified as the subject of that data, unless the appearance of the name or other identifying data can be clearly demonstrated to be only incidental to the data and the data are not accessed by the name or other identifying data of any individual.

C. Data Practices Compliance Officer

The data practices compliance official is the designated employee of the district to whom persons may direct questions or concerns regarding problems in obtaining access to data or other data practices problems. The responsible authority may be the data practices compliance official.

D. Government Data

All data collected, recorded, received, maintained or disseminated by any government entity regardless of its physical form, storage media or conditions of use.

E. Individual

“Individual” means a natural person. In the case of a minor or an incapacitated person as defined in Minnesota Statutes section 524.5-102, subdivision 6, "individual" includes a parent or guardian or an individual acting as a parent or guardian in the absence of a parent or guardian, except that the responsible authority shall withhold data from parents

or guardians, or individuals acting as parents or guardians in the absence of parents or guardians, upon request by the minor if the responsible authority determines that withholding the data would be in the best interest of the minor.

F. Inspection

“Inspection” means the visual inspection of paper and similar types of government data. Inspection does not include printing copies by the district, unless printing a copy is the only method to provide for inspection of the data. For data stored in electronic form and made available in electronic form on a remote access basis to the public by the district, inspection includes remote access to the data by the public and the ability to print copies of or download the data on the public’s own computer equipment.

G. Not Public Data

- G. An individual subject of the data may contest the accuracy or completeness of public or private data. To exercise this right, an individual shall notify in writing the responsible authority describing the nature of the disagreement. The responsible authority shall within 30 days either: (1) correct the data found to be inaccurate or incomplete and attempt to notify past recipients of inaccurate or incomplete data, including recipients named by the individual; or (2) notify the individual that the authority believes the data to be correct. Data in dispute shall be disclosed only if the individual's statement of disagreement is included with the disclosed data.

Upon receipt of an appeal by an individual, the commissioner shall, before issuing the order and notice of a contested case hearing required by Minnesota Statutes chapter 14, try to resolve the dispute through education, conference, conciliation, or persuasion. If the parties consent, the commissioner may refer the matter to mediation. Following these efforts, the commissioner shall dismiss the appeal or issue the order and notice of hearing.

 6. Method to contact the requestor (such as phone number, address, or email address).
- C. The identity of the requestor of private data is private.
- D. The responsible authority may seek clarification from the requestor if the request is not clear before providing a response to the data request.
- E. Policy 515 Protection and Privacy of Pupil Records addresses requests of students or their parents for educational records and data.

 - (1) The actual cost of making copies includes employee/vendor time, the cost of the materials onto which the data is copied, and mailing costs (if any).
 - (2) Also, if the district does not have the capacity to make the copies, e.g., photographs, the actual cost paid by the district to an outside vendor will be charged.
 2. All charges must be paid for in cash in advance of receiving the copies.

B. Summary Data

1. Any costs incurred in the preparation of summary data shall be paid by the requestor prior to preparing or supplying the summary data.
2. The district may assess costs associated with the preparation of summary data as follows:
 - a. The cost of materials, including paper, the cost of the labor required to prepare the copies, any schedule of standard copying charges established by the district, any special costs necessary to produce such copies from a machine-based record-keeping system, including computers and microfilm systems.
 - b. The district may consider the reasonable value of the summary data prepared and, where appropriate, reduce the costs assessed to the requestor.

C. Data Belonging to an Individual Subject

1. The responsible authority or designee may require the requesting person to pay the actual costs of making and certifying the copies. The responsible authority shall not charge the data subject any fee in those instances where the data subject only desires to view private data. The responsible authority or designee may require the requesting person to pay the actual costs of making and certifying the copies. Based on the factors set forth in Minnesota Rule 1205.0300, subpart 4, the district determines that a reasonable fee would be the charges set forth in section VIII.A of this policy that apply to requests for data by the public.
2. The district may not charge a fee to search for or to retrieve educational records of a child with a disability by the child's parent or guardian or by the child upon the child reaching the age of majority.

IX. ANNUAL REVIEW AND POSTING

- A. The responsible authority shall prepare a written data access policy and a written policy for the rights of data subjects (including specific procedures the district uses for access by the data subject to public or private data on individuals). The responsible authority shall update the policies no later than August 1 of each year, and at any other time as necessary to reflect changes in personnel, procedures, or other circumstances that impact the public's ability to access data.
- B. Copies of the policies shall be easily available to the public by posting them on the district's website.

Policy 724 RECORDS RETENTION SCHEDULE

I. PURPOSE:

The purpose of the Northfield Public School Records Retention Schedule is to provide a plan for managing governmental records by giving continuing authority to dispose of records under [Minnesota Statutes 138.17](#).

II. GENERAL STATEMENT OF POLICY

The schedule establishes minimum retention periods for records based on their administrative, fiscal, legal and historical value. It lists records series common to school districts and how long to keep them.

III. ADOPTING THE GENERAL SCHEDULE

1. The Minnesota Historical Society was notified that Northfield Public Schools ISD 659 officially adopted the entire original retention schedule on April 14, 1986.
2. The Minnesota Historical Society signed and returned the notification form. This provides continuing authority for record retention based on the most current revision of the retention schedule. The district now has the authority to dispose of government records as indicated on the schedule.
3. Retention periods listed on the schedule represent the minimum amount of time that records must be retained. Once that retention period has been reached, records may either be destroyed or transferred to the State Archives, as indicated on the schedule. If some records series needs to be retained longer than the listed retention, then a building or department policy should be established for those records.
4. Records identified on the schedule as archival may not be transferred to a local historical society, museum, public library, or interested individual without the specific, written permission of the State Archivist, Minnesota Historical Society.
5. The retention stated on the schedule applies to any form of the record. However, if the decision is made to change the form of the record the original record MAY not be authorized to dispose of. If changing the form of a record is being considered, contact the Minnesota Historical Society's Division of Archives and Manuscripts for procedures.

IV. DESTRUCTION REPORTING

Records that are destroyed according to the general schedule should be reported to the Minnesota Department of Administration and the Minnesota Historical Society (M.S. 138.17, subd. 7). Use a copy of the report, "Records Destruction Report" (RM-00065) for this purpose.

V. RECORDS NOT ON THE GENERAL SCHEDULE

Records not listed on the schedule cannot be destroyed without submitting either an “Application for Authority to Dispose of Records” (PR-1) or a “Minnesota Records Retention Schedule” (RM-00058).

The PR-1 form is used to request one-time authority to dispose of records. Since an approved PR-1 gives authority to dispose of only those records listed on the form, it is recommended that PR-1 be only used for obsolete records (records no longer being created).

For ongoing authority to dispose of records not listed on the general schedule, complete a “Minnesota Records Retention Schedule”. This form can be obtained from the Information Policy Office.

VI. RESOURCES

This schedule was developed by the Department of Administration and the Minnesota Historical Society in cooperation with the Department of Children, Families & Learning (currently the Minnesota Department of Education), and officials from Minnesota school districts. It was funded by a grant from the National Historical Publications and Records Commission.

**Recipients of *School District General Records Retention Schedule*
revised January, 2000**

Enclosed for the consideration and use of your school district is the revised edition of the *School District General Records Retention Schedule*, which has been approved by the Records Disposition Panel. For important information about the *Schedule*, please refer to the introduction written by Charles Rodgers of the Minnesota Historical Society State Archives Department which can be found following the *Schedule* cover.

Your school district may, or may not, need to complete and submit the Notification of Adoption form enclosed. This depends on the *Schedule* presently in place in the school district.

If your school district has not previously adopted a records retention schedule, or adopted its own approved records retention schedule, and would like to adopt this revised version, two steps must be completed. First, all or part of the *School District General Records Retention Schedule* must be adopted by the school board. Once that is accomplished, the school district must submit the Notification of Adoption form to the Records Disposition Panel. The Minnesota Historical Society will sign and return the Notification of Adoption form to the school district. At that point the school district will have the authority to dispose of records in accordance with the schedule.

In addition, if your school district has been part of a consolidation at any time, and the newly consolidated school district did not adopt the previous version of the general schedule and notify the Department of Administration of that adoption, the two steps set forth in the previous paragraph must be accomplished. Once the school district receives the signed Notification of Adoption from the Minnesota Historical Society, the consolidated school district will have the authority to dispose of records in accordance with the revised *Schedule*.

If your school district adopted the previous version of this general schedule, the school district does not need to complete and submit the Notification of Adoption form. The Minnesota Historical Society will assume that school districts which adopted the previous version will now utilize this revised *Schedule*.

If your school district has not previously adopted a records retention schedule, or developed its own schedule approved by the Records Disposition Panel, and does not adopt the revised *School District General Records Retention Schedule* the school district DOES NOT have authority to destroy records without seeking approval to destroy specific records pursuant to Chapter 138 of Minnesota Statutes. Any destruction of records without prior approval is a violation of the law.

SCHOOL DISTRICT GENERAL RECORDS RETENTION SCHEDULE

Purpose of the General Records Retention Schedule

Records are vitally important to the operation of any organization; they serve as the organization's memory and are evidence of past events and the basis for future actions. When created, maintained and disposed of in an orderly and systematic manner, records can be a tremendous asset; when treated in a haphazard and disorderly manner, they can reduce the effectiveness of an organization and increase its costs substantially.

The purpose of a records retention schedule is to provide a plan for managing governmental records by giving continuing authority to dispose of records under Minnesota Statutes 138.17. The basis of any good records management program is the implementation of a well-developed records retention schedule. A retention schedule is a plan for the management of your records.

This School District General Records Retention Schedule establishes **minimum retention periods** for school district records based on their administrative, fiscal, legal and historical value. It lists record series common to school districts and identifies how long to retain them.

This schedule was originally developed by the Department of Administration and the Minnesota Historical Society in cooperation with the Department of Children, Families and Learning (formerly the Department of Education) and officials from Minnesota school districts. It was funded in part by a grant from the National Historical Publications and Records Commission.

This revised schedule was updated by school district staff, representatives of the Minnesota Association of School Business Officials, Minnesota Association of School Administrators, Minnesota School Board Association, the Department of Administration and the Minnesota Historical Society.

Adopting and Using the General Schedule

1. To begin disposing of records according to the general schedule, you must notify the State Archives Department of the Minnesota Historical Society that your school district has officially adopted the schedule. The enclosed form, "Notification of Adoption of School District General Records Retention Schedule," is used for this purpose.

A school district that has adopted the previous version of this general schedule does not need to notify the Minnesota Historical Society that it is adopting this revised edition of the General Records Retention Schedule for School Districts. It will be assumed that school districts which have adopted the previous version will now utilize this revised version.

2. You may adopt the entire schedule even though your school district may not have all the records listed on it. We recommend that you adopt the entire schedule. However, if this is not possible, you may adopt individual sections.
3. The Minnesota Historical Society will sign and return the Notification form to you. You will then have the authority to dispose of your government records as indicated on the schedule.
4. Compare the records in your office with the records listed on the schedule. Retention periods listed on the schedule represent the minimum length of time that you must retain your records. Once that retention period has been reached, you may either destroy them, transfer eligible records to the State Archives, or retain permanently in the school district. If you need to retain some record series longer than the listed retention, you should establish an agency policy for those records.
5. Records identified on the schedule as historical may be transferred to a local historical society, museum, public library, or interested individual with the specific, written permission of the state Records Disposition Panel.
6. The retention stated on the schedule applies to any form of the record (paper, computer tape or disk, microfilm, optical disk, electronic media, etc.). Especially in the case of electronic records, it is the responsibility of the school district to identify the official record copy in whatever form it is. An official record is a record received or created in the transaction of public business as determined by the school district. However, if you decide to change the form of a record (for instance, you microfilm a paper record) you may not be authorized to dispose of the original record. If you are considering changing the form of a record, contact the Minnesota Historical Society, State Archives Department, 651-297-4502.
7. Data Practices Classifications are effective as of the printing of this retention schedule. Because data practices issues change regularly, classifications may have changed. For current information on data practices, consult Minnesota Statutes, Chapter 13, or call the State of Minnesota, Department of Administration, Information Policy Analysis Division at (651) 296-6733.

Destruction Reporting

After you destroy records according to the general schedule, send a report to the Minnesota Department of Administration and the Minnesota Historical Society (M.S. 138.17, Subd. 7). Use a copy of the enclosed “Records Destruction Report” (RM-00065) for this purpose. This report may be submitted annually or as records are destroyed.

Records not on the General Schedule

Records not listed on this schedule cannot be destroyed without submitting either an “Application for Authority to dispose of Records” (PR-1 form) or a “Minnesota Records Retention Schedule” (RM-00058).

The PR-1 form is used to request one-time authority to dispose of records. A reproducible copy of the PR-1 form is enclosed. Since an approved PR-1 gives you authority to dispose of only those records listed on the form, we recommend that you use the PR-1 only for obsolete records (records no longer being created).

For ongoing authority to dispose of records not listed on the general schedule, complete a “Minnesota Records Retention Schedule.” This form can be obtained from the Department of Administration, Information Policy Analysis Division, (651) 296-6879.

Duplicate Records

This retention schedule concerns itself only with the school district’s official record copy and the retention periods assigned reflect that. It is each school district’s responsibility to identify the official record copy and to identify when to destroy any other copies of identical records, after they have lost their legal, fiscal, historical and administrative value. Duplicate copies need not be retained.

Category Definitions

Record Series Description: A record series is a group of records clustered together because they all relate to the same topic and have the same retention period.

Retention Period/Statute: The retention cited is the minimum amount of time a record must be kept. A number printed alone, e.g. 10, means ten years. The stated retention does not include the year the record originates. For example, if Record A is filed by calendar year and it has a retention of 3 years, the disposal date for 1985 records is January, 1989. Statutes listed here cite specific retention periods for the records series.

Archival: If a Y, meaning yes, appears in this column these records must be retained permanently by the school district, because they have historical value. Records of closed school districts may be transferred to the State Archives for selection and disposition. These include defunct school districts that consolidate or merge with existing school districts and inter-district cooperative centers that dissolve. The records of closed school districts are at particular risk because there is often no clearly authorized custodian except for the State Archives as mandated by M.S. 138.17.

Data Practices Classification: This phrase refers to records classified by the Minnesota Government Data Practices Act or other state or federal laws. The classification system includes: public, private, confidential, nonpublic or protected nonpublic. More than one classification may apply.

Data Practices Statute: This phrase refers to the statute or law which cites the data practices classification of the record series.

Procedures for Policy 724 – Retention and Destruction of Student Records for Special Education Students

I. PURPOSE

School district records can only be destroyed pursuant to a records retention schedule that has been adopted by the School Board and approved by the Records Disposition Panel of the State of Minnesota or by special permission. Minn. Statute §138.17.

II. GENERAL STATEMENT

The following procedures regarding the retention and destruction of student records for special education students are adopted by the school district, pursuant to:

- A. The requirements of 20 U.S.C. §123f requiring that records relating to the expenditures of federal funds be maintained for five years after completion of the activity for which the funds were used.
- B. The requirements of the Family Educational Rights and Privacy Act (FERPA), 34 C.F.R. §99.10 which states that educational records may not be destroyed if there is an outstanding request to inspect the records by the parent or eligible student.
- C. The requirements of the Individuals and Disabilities Education Act's (IDEA) regulations which require school districts to "...inform parents when personally identifiable information collected, maintained, or used..." pursuant to the IDEA, "...is no longer needed to provide educational services to the child..." 34 C.F.R. § 300.573 and therefore will be destroyed by the district. Before the information is destroyed, the district is advised to provide "Notice" to the student of the District's procedure at the last IEP meeting prior to graduation. IDEA regulations also provide that "information must be destroyed at the request of the parents if they are no longer needed for education purposes." However, a permanent record of a student's name, address, and phone number, his or her grades, attendance records, classes attended, grade level completed, and year completed may be maintained without time limitations." 34 C.F.R. § 300.573.

III. GENERAL STATEMENT OF PROCEDURES

Northfield Public Schools will retain educational records for students with disabilities for a period of five years beyond the student's 21's birthday. In addition, special education records will not be destroyed if there is an outstanding request for the record by the adult student or court appointed guardian. Also, adult students or their court appointed legal guardian will be notified about this practice at the time the student is:

- a. dismissed from special education services,
- b. graduates from school, or
- c. ages out of school.

This will constitute notice and no further notice will be given at the end of the five years.

Adult students, or their court appointed legal guardian, will be asked to sign an acknowledgement (Notice of Special Education File Retention Procedure) of the district's procedure to destroy the records after five years and that the "Notice" has been given. A copy of this notice will be retained by the District. Results of achievement and other

standardized tests will be retained permanently. When the student reaches the age of at least 26, all special education records will be destroyed, with the exception of the final Individual Education Program (IEP) plan, the most recent Evaluation Report, and the Exit Report: Summary of Performance. These records will be kept an additional five years (until the student reaches age 31) at which time they will be destroyed.

Legal guardians must provide documentation to the District establishing their rights to make decisions on behalf of the adult student.

The purpose of this policy is to implement the Equal Access Act by granting equal access to secondary school facilities for students who wish to conduct a meeting for religious, political, or philosophical purposes during noninstructional time in the Northfield School District.

II. GENERAL STATEMENT OF POLICY

- A. It is the policy of this school district not to deny equal access or a fair opportunity to, or to discriminate against, any students who wish to conduct a meeting, on the basis of the religious, political, philosophical, or other content of the speech at such meetings.
- B. The school board has created a limited open forum for students enrolled in secondary schools during which noncurriculum-related student groups shall have equal access and a fair opportunity to conduct meetings during noninstructional time.
- C. Student use of facilities under this policy does not imply district sponsorship, approval, or advocacy of the content of the expression at such meetings.
- D. The district retains its authority to maintain order and discipline on school premises, to protect the well-being of students and faculty, and to assure that attendance of students at meetings is voluntary.
- E. In adopting and implementing this equal access policy the district will not:
 - 1. Influence the form or content of any prayer or other religious activity.
 - 2. Require any person to participate in prayer or other religious activity.
 - 3. Expend public funds beyond the incidental cost of providing the space for student-initiated meetings.
 - 4. Compel any school agent or employee to attend a school meeting if the content of the speech at the meeting is contrary to the beliefs of the agent or employee.
 - 5. Sanction meetings that are otherwise unlawful.
 - 6. Limit the rights of groups of students based on the size of the group.
 - 7. Abridge the constitutional rights of any person.

III. DEFINITIONS

- A. “Noninstructional time” means time set aside by the school one hour before actual classroom instruction begins or one hour after actual classroom instruction ends, including such other periods that occur during the school day when no classroom instruction takes place. Students wanting to hold a limited open forum more than one hour before classroom instruction begins or more than one hour after classroom instruction ends may be granted permission by the building principal and must be

scheduled through community education.

- B. “Limited open forum” means that the school grants an offering to or opportunity for one or more noncurriculum related student groups to meet on school premises during noninstructional time.
- C. “Secondary school” means any school with enrollment of pupils ordinarily in grades 6 through 12 or any portion thereof.
- D. “Sponsorship” includes the act of promoting, leading, or participating in a meeting. The assignment of a school employee for custodial, observation, or maintenance of order and discipline purposes does not constitute sponsorship of the meeting.
- E. “Meeting” includes activities of student groups which are permitted under a limited open forum and are not directly related to the school curriculum. Distribution of literature does not constitute a meeting protected by the Equal Access Act.
- F. “Student” means a Northfield School District actively enrolled student in a secondary school including the middle school, high school, Portage or Area Learning Center.

IV. FAIR OPPORTUNITY CRITERIA

Schools in this district shall uniformly provide that:

- A. A meeting held pursuant to this policy is voluntary and student-initiated.
- B. There is no sponsorship of the meeting by the school or its agents or employees.
- C. Employees or agents of the school are present at religious meetings only in a nonparticipatory capacity.
- D. The meeting does not materially and substantially interfere with the orderly conduct of educational activities within the school.
- E. Nonschool persons may not direct, control or regularly attend activities of student groups.

V. PROTOCOLS

- A. Any student who wishes to initiate a meeting under this policy shall apply to the principal of the building at least 48 hours in advance of the time of the activity or meeting. The student must agree to the following:
 - 1. All activities or meetings must comply with existing policies, regulations, and procedures that govern operation of school-sponsored activities.
 - 2. The activities or meetings are voluntary and student-initiated. The principal may

require assurances of this fact.

- B. Student groups meeting under this policy must comply with the following rules:
 - 1. Those attending must not engage in any activity that is illegal, dangerous, or which materially and substantially interferes with the orderly conduct of the educational activities of the school. Such activities shall be grounds for discipline of an individual student and grounds for a particular group to be denied access.
 - 2. The groups may not use the school name, school mascot name, school emblems, the school district name, or any name that might imply school or district sponsorship or affiliation in any activity, including fundraising and community involvement.
 - 3. The groups must comply with school policies, regulations and procedures governing school-sponsored activities.
- C. Students applying for use of school facilities under this policy must provide the following information to the principal: time and date of meeting, estimated number of students in attendance, and special equipment needs.
- D. The building principal has responsibility to:
 - 1. Keep a log of application information.
 - 2. Find and assign a suitable room for the meeting or activity. The number of students in attendance will be limited to the safe capacity of the meeting space.
 - 3. Note the condition of the facilities and equipment before and after use.
 - 4. Assure proper supervision. Assignment of staff to be present in a supervisory capacity does not constitute district sponsorship of the meeting or activity.
 - 5. Assure that the meeting or activity does not interfere with the school's regular instructional activities.
- E. The district shall not expend public funds for the benefit of students meeting pursuant to this policy beyond the incidental cost of providing space. The district will provide no additional or special transportation.

Policy 802 DISPOSITION OF OBSOLETE EQUIPMENT AND MATERIAL

I. PURPOSE

The Northfield School District, as a public trust, will manage and efficiently utilize its property, equipment, instructional materials, and fixed assets. Effective use of school building space, and consideration for safety of personnel, will at times require disposal of obsolete equipment and material. Equipment, instructional materials, and fixed assets of the district which are obsolete, surplus or no longer usable or repairable will be disposed of in a fair and reasonable manner. Refer to the [Fiscal Compliance and Procedure Manual](#) for the disposition of federally funded purchases.

II. DEFINITIONS

- A. “Obsolete” property, equipment, instructional materials and fixed assets are those materials which have been reviewed by district staff and deemed no longer usable for any district purposes.
- B. “Contract” means an agreement entered into by the district for the sale of supplies, materials or equipment.
- C. “Official newspaper” is a regular issue of a qualified legal newspaper.

III. MANNER OF DISPOSITION

- A. ***Authorization***
The superintendent or their designee is authorized to properly dispose of obsolete material. Disposition by sale will follow the procedures outlined in this policy. Any sale exceeding the minimum amount for which bids are required must first be specifically authorized by the school board.
- B. ***Priority for Disposition***
The manner of disposition shall be:
 - 1. Reuse
 - 2. Sell
 - 3. Donate
 - 4. Recycle
 - 5. Dispose
- C. ***Contracts More Than \$175,000***
 - 1. If the estimated value of the equipment or materials exceeds \$175,000, sealed bids shall be solicited by two weeks’ published notice in the official newspaper and via electronic media. This notice shall state the time and place of receiving bids and contain a brief description of the subject matter.

2. The sale shall be awarded to the highest responsible bidder, be duly executed in writing, and be otherwise conditioned as required by law. Notwithstanding the foregoing, the district shall have the right to reject all bids.
3. A record shall be kept of all bids for one year and shall include the names of bidders, amounts of bids, and an indication of the successful bid. All bids shall conform to the bidding practice of the district.
4. In the case of identical high bids from two or more bidders, the school board may, at its discretion, utilize negotiated procurement methods with the tied high bidders so long as the price paid does not go below the high tied bid price. In the case where only a single bid is received, the school board may, at its discretion, negotiate a mutually agreeable contract with the bidder so long as the price paid does not fall below the original bid. If no satisfactory bid is received, the board may readvertise.
5. All bids obtained shall be kept on file for a period of at least one year after their receipt. Every contract made without compliance with the foregoing provisions shall be void.
6. Data submitted by a business to a school in response to a request for bids are private until opened. Once opened, the name of the bidder and the dollar amount specified become public; all other data are private until completion of the selection process, meaning the school has completed its evaluation and ranked the responses. After completion of the selection process, all data submitted by all bidders are public except trade secret data. If all responses are rejected prior to completion of the selection process, all data remain private, except the name of the bidder and the dollar amount specified which were made public at the bid opening for one year from the proposed opening date or until resolicitation results in completion of the selection process or until a determination is made to abandon the purchase, whichever occurs sooner, at which point the remaining data becomes public. Data created or maintained by the district as part of the selection or evaluation process are protected as nonpublic data until completion of the selection or evaluation process. At that time, the data are public with the exception of trade secret data.

D. ***Contracts From \$25,000 to \$175,000***

If the amount of the sale is estimated to exceed \$25,000 but not to exceed \$175,000, the contract may be made either upon sealed bids in the manner directed above or by direct negotiation, by obtaining two or more quotations for the purchase or sale when possible, and without advertising for bids or otherwise complying with the requirements of competitive bidding notice. All quotations obtained shall be kept on file for a period of at least one year after receipt.

E. ***Contracts Less Than \$25,000***

If the amount of the sale is estimated to be \$25,000 or less, the contract may be made either upon quotation or in the open market, at the discretion of the school board. The sale in the open market may be by auction. If the contract is made on quotation, it shall be based, so far as practicable, on at least two quotations which shall be kept on file for a period of at least one year after receipt.

F. ***Electronic Sale of Surplus Supplies, Materials, and Equipment***

Notwithstanding the other procedural requirements of this policy, the district may contract to sell supplies, materials, and equipment which are surplus, obsolete, or unused through an electronic selling process in which purchasers compete to purchase the supplies, materials, or equipment at the highest purchase price in an open and interactive environment.

G. ***Notice of Quotation***

Notice of procedures to receive quotations shall be given by publication or other means as appropriate to provide reasonable notice to the public.

H. ***Sales to Employees***

No officer or employee of the district shall sell or procure for sale or possess or control for sale to any other officer or employee of the district any property or materials owned by the district unless the property and materials are not needed for public purposes and are sold to a district employee after reasonable public notice, at a public auction or by sealed response if the employee is not directly involved in the auction or sale process. Reasonable notice shall include at least one week's published or posted notice. A district employee may purchase no more than one motor vehicle from the district at any one auction. This section shall not apply to the sale of property or materials acquired or produced by the district for sale to the general public in the ordinary course of business. Nothing in this section shall prohibit an employee of the district from selling or possessing for sale public property if the sale or possession for sale is in the ordinary course of business or the normal course of the employee's duties.

I. ***Exceptions for Surplus School Computers***

A district may bypass the requirements for competitive bidding and is not subject to any other laws relating to district contracts if it is disposing of surplus school computer and related equipment by conveying the property and title to:

1. Another school district.
2. The state department of corrections.
3. The board of trustees of Minnesota State Colleges and Universities.
4. The family of a student residing in the district whose total family income meets the federal definition of poverty.

J. ***Transfer to Another Public Entity***

The district may transfer its personal property for a nominal amount or without consideration to another public corporation for public use.

- F. “Recyclable commodities” means materials, pieces of equipment, and parts which are not reusable but which contain recoverable resources.
- G. “Recyclable materials” means materials that are separated from mixed municipal solid waste for the purpose of recycling or composting, including paper, glass, plastics, metals, automobile oil, batteries, source-separated compostable materials, and sole source food waste streams that are managed through biodegradative processes. Refuse-derived fuel or other material that is destroyed by incineration is not a recyclable material.

- H. “Recycling” means the process of collecting and preparing recyclable materials and reusing the materials in their original form that do not cause the destruction of recyclable materials in a manner that precludes further use.
- I. “Resource conservation” means the reduction in the use of water, energy, and raw materials.
- J. “Reusable commodities” means materials, pieces of equipment, parts, and used supplies which can be reused for their original purpose in their existing condition.

- L. “Waste reduction” or “source reduction” means an activity that prevents generation of waste or the inclusion of toxic materials in waste, including:
 - 1. Reusing the product in its original form.
 - 2. Increasing the lifespan of a product.

 - 4. Changing procurement, consumption, or waste generation habits to result in smaller quantities or lower toxicity of waste generated.

IV. WASTE DISPOSAL

- A. The district will attempt to decrease the amount of waste consumable materials by:
 - 1. Reduction of the consumption of consumable materials whenever practicable.
 - 2. Full utilization of materials prior to disposal.
 - 3. Minimization of the use of non-biodegradable products whenever practicable.
- B. Each district facility shall also collect at least three recyclable materials such as, but not limited to paper, glass, plastic and metal.
- C. The district will transfer all recyclable materials collected to a recycler and, to the extent

practicable, cooperate with, and participate in, recycling efforts being made by the city and/or county where the district is located.

- D. Prior to entering into a contract for the management of mixed municipal solid waste, the district will determine whether the disposal method provided for in the contract is equal to or better than the waste management practices currently employed in the county or district plan in the county where the district is located and whether the contract is consistent with the solid waste plan. If the waste management method provided for in the contract is ranked lower than the waste management practices employed by the county or district, the district will:
1. Determine the potential liability to the district and its taxpayers for managing waste in this manner.
 2. Develop and implement a plan for managing the potential liability.
 3. Submit the information in (1) and (2) above to the PCA.

- E. The district may not knowingly place motor oil, brake fluid, power steering fluid, transmission fluid, motor oil filters, or motor vehicle antifreeze (other than small amounts of antifreeze contained in water used to flush the cooling system of a vehicle after the antifreeze has been drained and does not include de-icer that has been used on the exterior of a vehicle) in or on:
1. Solid waste or solid waste management facilities other than a recycling facility or household hazardous waste collection facility.

Written plans and procedures will be maintained, updated, and reviewed by the Director of Buildings and Grounds on an annual basis. This policy can be viewed on the district’s website. The administration shall identify in writing a contact person to oversee compliance with each specific plan or procedure.
- C. To the extent that federal, state, and local laws, rules, and regulations do not exist for identification and management of hazards or potential hazards, the committee shall evaluate other available resources and generally accept best practice recommendations from outside consultants and professionals. Best practices are techniques or actions which, through experience or research, have consistently proven to lead to specific positive outcomes.
- D. The district shall monitor and make good faith efforts to comply with

any new or amended laws, rules or regulations to control potential hazards.

IV. PROGRAM AND PLANS

- A. For the purpose of implementing this policy, the administration will, within the budgetary limitations adopted by the school board, implement a health and safety program that includes specific plan requirements in various areas as identified by the committee. These plans are maintained with the health and safety files in the Buildings and Grounds office and are listed on the district website.

The health and safety program shall be

implemented, conducted and administered within the fiscal restraints of the budget so adopted.

VI. COMMUNICATION

The district regards communication of health and safety issues as a continual process. Health and safety procedures are communicated through safety training at the beginning of an employee's new job assignment, whenever material, process, or procedural changes are implemented, and whenever the employer notices deficiencies in safe work practices.

In addition to training, posters, employee handbooks, handout materials and computer-based learning may also be utilized to communicate job safety and health information.

Safety communication also takes place through distribution of safety committee meeting minutes, which includes accident information, reported employee concerns, inspection findings, and status updates on safety items.

VII. ENFORCEMENT

Policy 808 KEY ACCESS CONTROL TO BUILDINGS AND SITES

I. PURPOSE

The purpose of this policy is to ensure the safety of all Northfield School District students, staff, volunteers and visitors along with ensuring the security of the buildings.

II. GENERAL STATEMENT OF POLICY

This policy governs the issuance, surrender and replacement of both metal keys and identification badges which function as electronic keys. This document refers to “key(s)” as both metal keys and electronic identification badge access cards.

III. STAFF IDENTIFICATION BADGE CARDS

The district requires permanent school employees, substitute employees and volunteers/visitors to wear appropriate identification. As identification badges are also electronic keys, employees will not surrender their badge to any other party or leave their badge in a compromised location except as described below.

In limited circumstances an employee may loan their badge to another employee or substitute who is completing a specific task to ensure seamless operations of the school day. Examples could be a teacher loaning their badge to an educational assistant who retrieves photocopies for them or loaning their badge to a substitute who is opening a door for students to return from recess while the regular staff member is supervising other students. In cases like these, the badge should be promptly returned to the staff member following completion of the task.

Employees who loan their badge to another employee or substitute are responsible for their actions. A violation of this policy may result in disciplinary action.

IV. STAFF BUILDING METAL KEYS

The district shall issue permanent school employees and substitute employees metal keys as outlined in the procedures for this policy. Employees will not surrender their metal keys to any other party or leave their metal keys in a compromised location.

**Policy 904 DISTRIBUTION OF MATERIALS ON SCHOOL DISTRICT PROPERTY BY
NONSCHOOL PERSONS**

I. PURPOSE

The purpose of this policy is to provide for the distribution of materials appropriate to the school setting by nonstaff and nonstudents on school district property in a reasonable time, place, and manner that does not disrupt the educational program nor interfere with the educational objectives of the Northfield School District.

II. GENERAL STATEMENT OF POLICY

- A. The district intends to provide a method for nonschool persons and organizations to distribute materials appropriate to the school setting, within the limitations and provisions of this policy.
- B. To provide for orderly and nondisruptive distribution of materials, the school board adopts the following regulations and procedures.

III. DEFINITIONS

- A. “Distribution” means the electronic or physical circulation or dissemination of materials by means of handing out free copies, selling or offering copies for sale, accepting donations for copies, posting or displaying materials, or placing materials in internal staff or student mailboxes.

Examples of nonschool-sponsored materials include, but are not limited to, leaflets, brochures, buttons, badges, flyers, petitions, posters, underground newspapers whether written by students, employees or others, tangible objects, and their digital equivalent.
- C. “Nonschool person” means any person who is not currently enrolled as a student in or employed by the district.
- D. “Obscene to minors” means:
 - 1. The average person, applying contemporary community standards, would find that the material, taken as a whole, appeals to the prurient interest of minors of the age to whom distribution is requested.
 - 2. The material depicts or describes, in a manner that is patently offensive to prevailing standards in the adult community concerning how such conduct should be presented to minors of the age to whom distribution is requested, sexual conduct, excretory functions, or lewd exhibition.
 - 3. The material, taken as a whole, lacks serious literary, artistic, political, or scientific value for minors.

- E. “Minor” means any person under the age of eighteen (18).
- F. “Material and substantial disruption” of a normal school activity is defined as any disruption that interferes with or impedes the implementation of a compulsory or voluntary school activity. For expression to be considered disruptive, there must exist specific facts upon which the likelihood of disruption can be forecast, including past experience in the school, current events influencing student activities and behavior, and instances of actual or threatened disruption relating to the material in question.
- G. “School activities” means any activity sponsored by the school.
- H. “Libelous” is a false and unprivileged statement about a specific individual that tends to harm the individual’s reputation or to lower that individual in the esteem of the community.

- B. Requests for distribution of materials will be reviewed by the superintendent or their designee on a case-by-case basis. However, distribution of the following materials is always prohibited. Material is prohibited that:
 - 1. Is obscene to minors.
 - 2. Is libelous or slanderous.
 - 3. Is pervasively indecent or vulgar or contains any indecent or vulgar language or representations, with a determination made as to the appropriateness of the material for the age level of students to which it is intended.
 - 4. Advertises or promotes any product or service not permitted to minors by law.
 - 5. Advocates violence or other illegal conduct.
 - 6. Constitutes insulting or fighting words, the very expression of which injures or harasses other people (e.g., threats of violence, defamation of character or of a person’s race, religion, or ethnic origin).
 - 7. Presents a clear and present likelihood that, either because of its content or the manner of distribution, it will cause a material and substantial disruption of the proper and orderly operation and discipline of the school or school activities, will cause the commission of unlawful acts or the violation of lawful school regulations.
- C. Permission for nonschool persons to distribute materials on district property is a privilege and not a right. In making decisions regarding permission for such distribution, the administration will consider factors including, but not limited to the following:
 - 1. Whether the material is educationally related.
 - 2. The extent to which distribution is likely to cause disruption of or interference

- with the district's educational objectives, discipline or school activities.
- 3. Whether the materials can be distributed from the office or other isolated locations to minimize disruption of traffic flow in hallways.
- 4. The quantity or size of materials to be distributed.
- 5. Whether distribution would require assignment of district staff, use of district equipment or other resources.
- 6. Whether distribution would require that nonschool persons be present on school grounds.
- 7. Whether the materials are a solicitation for goods or services not requested by the recipients.

V. TIME, PLACE, AND MANNER OF DISTRIBUTION

- A. The time, place, and manner of distribution will be solely within the discretion of the administration, consistent with the provisions of this policy.
- B. No one will coerce a student or staff member to accept any publication.

Policy 906 COMMUNITY NOTIFICATION OF PREDATORY OFFENDERS

I. PURPOSE

The purpose of this policy is to assist school administrators and staff members in responding to a notification by a law enforcement agency that a convicted predatory offender is moving into the Northfield School District so that they may better protect individuals in the school's care while they are on or near the school district premises or under the control of the district.

II. GENERAL STATEMENT OF POLICY

- A. It is the policy of this district to provide information to staff regarding known predatory offenders that are moving into the district so that they may monitor school premises for the safety of the school, its students, and employees. Staff will be notified as appropriate and have access to Offender Fact Sheets.
- B. The superintendent, in cooperation with appropriate school transportation officials, will evaluate bus routes and bus stops. Bus drivers will have access to Offender Fact Sheets. If necessary, bus stops may be moved if they place children in close proximity to a predatory offender who has been convicted of crimes against children of similar ages.
- C. The superintendent, in conjunction with the building principal or their designee, shall prepare or provide safety information for distribution to students regarding protecting themselves from abuse, abduction, or exploitation. The district will prepare a list of available resources. Staff will provide safety information to students on how to protect themselves against abuse, abduction, or exploitation. School officials will ask the school resource officer for assistance in providing instruction to staff and students. Additional law enforcement officials may assist the school resource officer as needed.
- D. Minnesota Statute 244.052, as amended, allows law enforcement agencies to disclose information about certain predatory offenders when they are released into the community. The information disclosed and to whom it is disclosed will depend upon their assessment of the level of risk posed by the predatory offender.

III. DEFINITIONS

- A. "Criminal history conviction data" is public data on a convicted criminal which is compiled by the State Bureau of Criminal Apprehension (BCA).
- B. "Law enforcement agency" means the law enforcement agency having primary jurisdiction over the location where the offender expects to reside upon release.
- C. "Notification or Disclosure by Law Enforcement Agency"
 - 1. Risk Level I – The local law enforcement agency may disclose certain information to other law enforcement agencies and to any victims of or witnesses

- to the offense committed by the offender. There will be no disclosure to school districts.
2. Risk Level II – In addition to those notified in Level I, a law enforcement agency may notify agencies and groups the offender is likely to encounter that the offender is about to move into the community and provide to those agencies and groups an Offender Fact Sheet on the offender. School districts, private schools, day care centers, and other institutions serving those likely to be victimized by the predatory offender are included in a Level II notification.
 3. Risk Level III – In most cases, the local law enforcement agencies will hold a community meeting and distribute an Offender Fact Sheet with information concerning and a photograph of the soon-to-be-released Level III offender.
- D. “Offender Fact Sheet” is a data sheet compiled by the Department of Corrections or local law enforcement agency. The Offender Fact Sheet contains both public and private data including a photograph and physical description of the predatory offender, as well as the general location of the offender’s residence.
1. A local law enforcement agency will generally provide Offender Fact Sheets for Level II predatory offenders directly to the district.
 2. Level III Offender Fact Sheets will be distributed at a community meeting conducted by the local law enforcement agency.
- E. “Risk Level Assessment” is the level of danger to the community as established by the Minnesota Department of Corrections following a review by a committee of experts. The level of risk assigned to a soon-to-be-released offender determines the scope of notification.
- F. “Risk Levels”
1. “Level I” – Risk Level I is assigned to a predatory offender whose risk assessment score indicates a low risk of reoffense.
 2. “Level II” – Risk Level II is assigned to a predatory offender whose risk assessment score indicates a moderate risk of reoffense.
 3. “Level III” – Risk Level III is assigned to a predatory offender whose risk assessment score indicates a high risk of reoffense.

IV. PROCEDURES

A. Level II Notification

In keeping with the statutorily designated purpose that Offender Fact Sheets are to be used by staff members to secure the school and protect individuals in the district’s care while they are on or near the district’s premises or under the control of the district, the district will take the following steps:

1. The superintendent shall notify the law enforcement agencies within the district

that all appropriate Level II and Level III notifications are to be provided at least to the superintendent of schools.

2. Upon notification of the release of a Level II predatory offender, the superintendent shall forward the Offender Fact Sheet to all building principals and district administrators. This would include transportation, food service and buildings and grounds supervisors. Additionally, notification includes any contracted transportation service.
3. Principals of schools in close proximity to the Level II predatory offender's residence shall meet with staff and show the Offender Fact Sheet to persons within the buildings who supervise students or who would be in a position to observe if the Level II offender was in or around the school. This includes, but is not limited to, administrators, teachers, coaches, paraprofessionals, custodians, clerical and office workers, food service workers, volunteers, and transportation providers.
4. The district shall request criminal history conviction data on the Level II predatory offender from its local law enforcement agency. On a case-by-case basis, the superintendent may determine whether to send a letter to parents with general information regarding release of the Level II offender and a copy of the criminal history conviction data that the district obtained from its local law enforcement agency. The offender fact sheet contains data classified as private or not public under Minnesota law and may only be distributed to parents, students, or others outside the district if it determines the release is for the purpose of securing the schools and protecting individuals under the district's care while they are on or near school premises.
5. The building administrator shall cause the Offender Fact Sheet to be posted in each building in an area accessible to staff and employees but not the general public unless a determination has been made that public posting will help secure the school or protect students.
6. The district shall not distribute or provide access to Level II Offender Fact Sheets to parents, students, or others outside the district unless a determination has been made that dissemination of the data will help secure the school or protect students.

B. Level III Notification

1. The superintendent shall notify the law enforcement agencies within the district that all Level III notifications of community meetings are to be provided to the superintendent of schools.
2. When a Level III predatory offender is released into a community, generally the local law enforcement agency will notify the district of the time and location of the community meeting at which the Level III Offender Fact Sheet will be distributed to the community.
3. When the district receives this information, the superintendent shall determine on a case-by-case basis whether the district will notify parents and students of the time, date, and location of the community meeting.
4. When notified of a Level III predatory offender community meeting the superintendent or their designee shall attend the community notification meeting.

5. When the district receives information that a Level III predatory offender is moving into the district, in addition to following the procedures specified above, the district shall follow the procedures outlined for a Level II notification.
6. If the predatory offender is participating in programs offered by the district that require or allow the person to interact with children other than the person's children, the superintendent shall notify parents of children in the district of the contents of the Offender Fact Sheet.

Policy 907 REWARDS

I. PURPOSE

The purpose of this policy is to authorize the Northfield Board of Education to offer rewards to persons who provide accurate and reliable information leading to the conviction of a person who has committed or conspired to commit a crime against students or school employees, volunteers, or school board members as a result of their affiliation with the Northfield School District or against school district property.

II. GENERAL STATEMENT OF POLICY

The board believes that, in certain circumstances, the offering of a reward may lead to the receipt of information that would solve or prevent a crime against students, school employees, volunteers, board members, or school district property. The board also believes that the fact that the board may offer a reward may have a deterrent effect on the commission of such crimes.

III. APPROVAL OF OFFERING OF REWARDS

The board shall approve the offering of any rewards by the district. The approval shall specify the amount of the reward and the crime to which it is applicable. The approval may relate to a specific incident or to a continuing category of crime, i.e., assault of a teacher, damage to school property, etc.

IV. ESTABLISHMENT OF PROCEDURES

The superintendent will develop directives and procedures to address the timing and method of payment of any reward earned by an information provider. The information provided must have led to the conviction of the person who committed or conspired to commit the crime for which the reward was offered.
