

## Registering Online

Our online tools let you easily access and manage your health care funds--wherever you are.

### Our site

Our site at [www.hellofurther.com](http://www.hellofurther.com) makes managing your funds and account settings easy. This site is mobile-friendly, meaning you can use it on your phone or tablet as well as a desktop computer or laptop.

### Our app

For an even better on-the-go experience, download the **Further mobile app**. It's available in both the Apple and Android app stores. The Further member app was designed specifically for mobile use and allows you to use the tools built into your device, like your camera or fingerprint reader, for even more convenience.

### To sign up

**Note:** *Before you can access your account using our mobile app, you must sign up online.*

Please allow 5 to 7 business days for Further to process your information after you've enrolled. When your account is set up, you'll receive a welcome packet in the mail that includes a verification form from Further. You'll also receive your Spending Account identification number, or "SA ID", which you can use to create a profile at [www.hellofurther.com](http://www.hellofurther.com).

#### To register:

1. Go to [www.hellofurther.com](http://www.hellofurther.com).
2. Click **New User? Register link**.

You'll need to provide your Spending Account identification number in order to register. If you don't remember your ID, you can call our Member Service line for assistance at 1-800-859-2144.

### Using your online account tools

This table shows you what you can do with the Further website vs. the mobile app.

	Your online account	The Further app
