

Why Choose Northfield Community Services for Driver Education?

Highly Qualified Instructors

Our certified Driver's Education instructors boast a combined 125 years of driver education teaching experience. Their extensive knowledge is passed on to their students both in the classroom and behind the wheel.

Outstanding Test Pass Rate

Most Northfield Community Services Driver Education students pass their permit test on the first attempt. Recently a Driver's License Examiner commented that he is always impressed by our students. He said, "If I get a blue or white card from the Northfield Public Schools Driver Education program, I know the student is well prepared and likely to succeed on the test."

Consistent Classroom Curriculum and Schedule

Our proven, comprehensive curriculum is taught for three hours a day, Monday through Friday for two weeks. This consistency of schedule and in-depth teaching procedure creates safe, confident and informed drivers who retain information and leave ready to get their permit and start practice driving with an adult.

Convenience

Online registration is now available for our classroom sessions and Behind the Wheel. Or simply call us to register by phone—no paper form or signatures required. Our classroom sessions are conveniently located at Northfield High School. Our Behind the Wheel instructors will pick up and drop off students within the Northfield/Dundas city limits.

Value

Our rates are competitive and beginning in fall 2019 we will begin offering a discount to students who enroll in both our Classroom and Behind the Wheel training. Scholarships are available.

FAQs

My child is almost 15. Can I enroll them in the classroom session?

Depending on availability, we can accept students who are not quite 15 years old. Remember that they will not be able to take their permit test until they are 15, so enrolling too early might make it more difficult to retain the material they learned.

How long is the wait for the Behind the Wheel?

We usually get students driving soon after they register. Since a student cannot take the road test for six months after getting their permit, there is plenty of time. As you wait for your name to come up on the list, start working on those 40-50 hours of practice driving.
