

Policy 513.3 - Advanced Grade Placement

It shall be the policy of the Northfield Board of Education to allow advanced grade placement provided that a child demonstrates specified superior levels of intellectual, academic, adaptive and physical development; and, in the judgment of school personnel, will benefit from such placement. Such decisions shall be made cautiously due to the possible negative consequences for a student who spends his/her school career as the youngest member in the identity group.

Applications for Advanced Grade Placement must be submitted in writing to the principal by the parent(s) or guardian(s) seeking advanced grade placement for their child. The district shall have 30 school days to complete the assessment.

Policy 513.3 - Advanced Grade Placement
