Members of the current Mayor's Youth Council will present the Board with a proposal to expand youth leadership in the community through the creation of a "District Youth Council" (DYC). The DYC is intended to complement, rather than replace, existing student leadership groups. The presentation will outline the vision for this new group and address any concerns raised by the Board. The School Board will be asked to take action on this proposal at its April 14, 2014 meeting.

Director of Teaching and Learning, Mary Hanson, and Superintendent Richardson will share the district's plan for implementing the World's Best Workforce legislation for the Northfield Public Schools. The presentation will begin by reviewing a summary of the plan and process components included in M.S. 120B.11 The World's Best Workforce. This will be followed by a PowerPoint presentation describing how the plan will be implemented and the process timeline for providing information about the plan's implementation to the School Board and community beginning next fall.

    - 1. World's Best Workforce Plan.

**Superintendent's Recommendation:** Motion to approve the World's Best Workforce plan as presented.

2. <u>Community Services Budget Revisions for FY 14.</u>

At its February 25<sup>th</sup> meeting, the Community Services Advisory Council approved recommending to the School Board the following revisions for the FY 14 Community Services Budget. The preliminary budget for FY 14 was revenues of \$1,892,965.00, and expenditures of \$1,872,468.00. The recommended revised budget for FY 14 is revenues of \$1,999,735.00 and expenditures of \$1,950,114.00. The major factors contributing to the changes in revenues and expenditures are:

1) The increase in participation in school-age childcare. Kid Ventures participation for the 2012-13 school year had 335 registrations and this school year there are 402 registrations. Some of these numbers may be a duplicate count if the child is registered for before and after school childcare. Summer Ventures saw an increase of 19 registered students in 2013 over 2012. 2) The increase in

participation in Early Ventures childcare. Early Ventures saw an increase of six registered students in the current school year over last school year. 3) An additional Hand in Hand Preschool section. These three factors contribute to increased revenues and increased expenses. The increase in expenses primarily occurs in the area of staffing and benefits.

**Superintendent's Recommendation**: Motion to approve the revisions to the FY 14 Community Services Budget as presented.

- 3. Weather-related School Closures.

Dr. Richardson explained to the Board how a decision is made to close school. He and Benjamin Bus check the roads and look at multiple forecasts. He always tries to make a decision before 5:00 AM. Unfortunately, the community has come to expect closure decisions to be made one day or more in advance based on Governor Dayton's decision to close all MN schools the Friday before the actual closure on Monday, January 6. Superintendent Richardson prefers to wait and consult the best and most up to date forecasts before making a decision.

X. On a motion by Stratmoen, seconded by Maple, the Board adjourned at 9:20 PM.

Noel Stratmoen School Board Clerk For the consideration of the Board of Education, Minnesota Independent School District #659-

At the request of the Mayor and the Northfield City Council, the Northfield Mayor's Youth Council (MYC) has begun a transition process that will refocus the body on issues pertaining to the City of Northfield at-large. In an effort to continue the efforts of past MYC bodies to assist the Northfield School District directly with numerous projects and initiatives as well as and provide student input (in areas such as curriculum changes, budget cuts, and calendar shifts) to district administration and the Northfield School Board, we recommend that a new student advisory board, hereafter referred to as the District Youth Council (DYC), be created by the district to fill the gap created by the MYC transition. We believe that the DYC could serve effectively as a liaison between the leaders of the school district (including the Superintendent, the School Board, and the designated NEA representative) and the students of Northfield Public Schools. In order to fulfill this vision, we propose the following:

- -The DYC of 2014-2015 will consist of roughly 16 students and will be selected by current MYC members in the spring of 2014. In subsequent years, the DYC will review applications and select its own members. A student will not be allowed to serve on both the MYC and the DYC. Applications will be made available to all students at Northfield High School or Arcadia Charter School entering grades 10-12, but we will reserve several positions for rising seniors, currently on the MYC, who would like to serve the second year of their MYC term on the DYC. Once selected, a student will have the opportunity to serve for the remainder of their high school career.
- -The DYC will hold regular meetings twice a month and will seek to:
- A. Identify issues of importance to Northfield students.
- B. Gather input from students on these issues, as well as on issues identified as important by the district administration, the school board, and the NEA.
- C. Undertake initiatives relating to these issues, and present the results to the school board, the NEA, and district administrators.
- -The DYC will assign members to any and all committees requesting a student voice (such as the District Educational Program Advisory Council).
- -The district will appoint an administrator who will attend all meetings of the new board and assist the students in performing their assigned duties.
- -The DYC will work with other community youth organizations (such as the Mayor's Youth Council, the Library's Teen Advisory Board, and the High School's "Learn Advocated Educate and Develop (LEAD)" to further the interests of Northfield students.
- -The school board will select one of its members to regularly attend meetings of the DYC and offer guidance and counsel as is necessary to fulfill the board's mission of providing a youth voice in the affairs of ISD #659.

# 2014 Legislative Platform

Increase the basic formula so all school districts have flexibility to meet unfunded mandates.

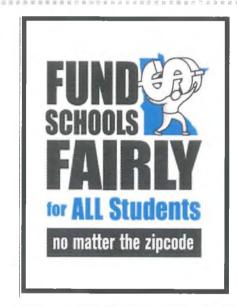

Fully fund or oppose new mandates.

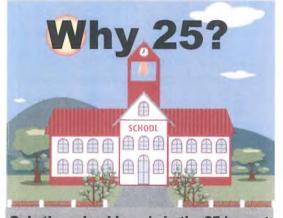

The new teacher evaluation system and potential new antibullying policy are examples of significant unfunded mandates that will drain districts' limited resources. If the legislature determines that these and additional mandates are essential then the *legislature* must provide the essential funding.

### Increase school levy equalization aid.

Schools rely heavily on school levies to support quality programming. Yet without commercial and industrial development to expand the tax base, the tax burden for levies falls heavily on home and small business owners. Thus, these districts struggle to pass levies and end up receiving hundreds of dollars less in funding per student.

In 2013, the Legislature took steps to reduce this disparity for students and taxpayers by increasing "equalization" aid. Even so, taxpayers in mostly residential school districts still pay two or three times more for school levies than their neighbors in districts with a significant commercial or industrial base.

Only the school boards in the 25 largest school districts are able to access alternative facilities revenue to care for their schools building needs. Why?

Implement the recommendations from the Schools Facilities Financing Working Group, especially the extension of the alternative facilities program to all districts.

"Excellence in education requires quality school environments that support student learning. The condition of school facilities varies widely among Minnesota school districts, as does local tax base and tax effort for facilities acquisition and long-term maintenance. Given the wide variations among districts in school facility needs and tax base, state involvement in school facilities funding is important to ensure that all students have access to quality learning environments."

- School Facilities Financing Working Group
